LEED Green Building Submittal Sheet- Dearborn Plastic Bath Waste Outlets

	Description of Section's Relevance	Polypropylene Bath Waste Outlets	Polypropylene Bath Waste Outlets	PVC or ABS Bath Waste Outlets
Product Offerings	Various products offered by Oatey SCS® that apply to information as follows.	• DB Plastic C able Kit • DB Plastic Trip-Lever Kit	• DB Plastic Uni-Lift Kit • DB Plastic Uni-Lift Direct Drain • DB Touch-Toe Kit	• DB Schedule 40 Touch-Toe Kits • DB Schedule 40 Uni-Lift Kits • DB Schedule 40 Tap-Tap Kits
Low Emitting Materials- VOC Emission Limits	Strictest VOC regulatory limit in which governs the above products.	There are no VOC regulations for these products.	There are no VOC regulations for these products.	There are no VOC regulations for these products.
Low Emitting Materials- Product VOC Content	Best estimate of the actual VOC content within product in g/L or % by weight. Products with low VOC content may assist in earning LEED credit and improving air quality.	These products have no VOC content.	These products have no VOC content.	These products have no VOC content.
Building Product Disclosure- Recycled Content of Materials	Recycled content used within product that may assist in earning LEED points.	There is no recycled content present in these products.	There is no recycled content present in these products.	There is no recycled content present in these products.
PBT[1] Source Reduction-Lead, Cadmium, Copper	Lead, Cadmium, and Copper content for use in determining LEED credit for PBT reduction.	**Cable Kit**-Brass strainer and turn bar contain a min 56% copper and a max 4% lead. **Trip-Lever Kit**- Cotter pin, spud, plunger, rods, and clevis contain a min 56% copper and max 4% lead while nuts and screws contain a max 68% copper and 0.03% lead.	Uni-Lift Outlets have a stem containing a min 56% copper and 4% lead. All of these outlets contain a spud with a min 56% copper and max 4% lead along with screws containing a max 68% copper and 0.03% lead.	Uni-Lift Outlet stem and Tap-Tap strainer body contain a min 56% copper and 4% lead. All of these outlets contain a spud with a min 56% copper and max 4% lead along with screws containing a max 68% copper and 0.03% lead.

Red List Content	Any red list materials as defined by the Living Building Challenge (LBC).	These products contain a small amount of lead, which has been red listed by the LBC.	These products contain a small amount of lead, which has been red listed by the LBC.	All of these kits contain small amounts of lead and PVC kits contain polyvinyl chloride, both materials are red listed by the LBC.
Conflict Mineral Content	Any materials within the product that may be from the DRC (Democratic Republic of Congo).	These products contain no conflict minerals.	These products contain no conflict minerals.	These products contain no conflict minerals.
Hazardous Substance Content (ROHS)	Any substances contained within the product reportable per ROHS guidelines.	These products contain small amounts of lead.	These products contain small amounts of lead.	These products contain small amounts of lead.
Location(s) Where Manufactured	Manufacturing location of the product pertains to its carbon footprint. If jobsite area is within 500 straight-line miles[2] of this location, LEED credit may be earned.	Locations of manufacturing: • Taiwan	Locations of manufacturing: • Taiwan	Locations of manufacturing: • Taiwan • Nogales, Mexico
Additional Information	Additional product information relative to LEED or environmental health and safety.	There is no additional information for these products.	There is no additional information for these products.	There is no additional information for these products.

[1]PBT's are known as Persistent Bioaccumulative Toxins.

[2]For use in determining distance between jobsite and manufacturing location in straight-line miles, use tool provided by this link http://www.daftlogic.com/projects-google-maps-distance-calculator.htm.
