

Below is a list of parts Rinnai is now providing as a “Kitted Part”. These kits will include the major component, along with any gasket, O ring, installation instructions, etc, that may be needed in the completion of a repair. The kitted parts will replace the original part. The major component of the kit (gas valve, heat exchanger, etc.) will no longer be available individually.

A Rinnai America part number (RAP number) has been assigned to the kits. This new part numbering system consists of a nine digit, all numerical, part number. All new parts and all kitted parts will begin using this new numbering system.
