

# Aluminum Water Heater Pan, Round

Job Name \_\_\_\_\_  
 Location \_\_\_\_\_  
 Engineer \_\_\_\_\_  
 Contractor \_\_\_\_\_  
 Tag \_\_\_\_\_ PO# \_\_\_\_\_

## Specifications

Constructed of aluminum, this round Water Heater Pan is designed for long-lasting reliability and protection against water damage. The pan is 2" deep and is pre-drilled for an adapter, which is included. The flared sides allow for greater volume in a smaller footprint. Manufactured with durability in mind, this aluminum water heater pan is a must-have for water heater installations.

## Applications

For use with water heater installations

## Materials

Aluminum
