NOTES

Stk It is recommended that stock be maintained for this part.

N/A Not Applicable

- 1 70-100580-04 is a 3-blade design, and 70-102011-04 is a 2-blade design. The replacement fan blades are interchangeable on the listed units, and either may be used for replacement.
- 2 This compressor should be replaced with the designated Copeland scroll (55-100835 series) and the specified Retrofit Kit. USE OF THE RETROFIT KIT IS REQUIRED WHEN PERFORMING THIS REPLACEMENT. Failure to use the kit will greatly increase the likelihood of future compressor failure and will void the compressor warranty.
- 3 The reversing valve specified for 030, 036, 042 models may be different than the one originally supplied with the equipment. The use of the specified valve is recommended for improved shifting performance.
- 4 For -018, specific motor/fan/capacitor combinations can be used. Interchanging components can cause overheating, noise, or improper unit operation. An alternate (motor/fan/capacitor) combination after date code 2914 can be (51-101774-20 / 70-102033-08 / 43-101665-44).
- 5 For -024, specific motor/fan/capacitor combinations can be used. Interchanging components can cause overheating, noise, or improper unit operation. An alternate (motor/fan/capacitor) combination after date code 3913 can be (51-102008-02 / 70-102033-02 / 43-101665-44).

DISCLAIMER: This document is intended to provide general replacement parts information to aid qualified service personnel in the repair of these models. The complete Model and Serial Number of the unit under repair should be specified when selecting and ordering replacement parts. Specifications and illustrations are subject to change without notice. Document 92-42803-13PJA supersedes all previous parts lists for these models. See <http://www.rheempartslists.net/92-42803-13PJA> for the latest revision of this document. The manufacturer assumes no obligation for errors or omissions. Service personnel must verify the proper and safe operation of equipment after the replacement of any original components.
