

203 Contractor Grade Duct Tape

DESCRIPTION

ETS #203 is a polyethylene coated cloth duct tape comprised of a high quality, high shear natural rubber adhesive and moderately strong backing. These features make this tape suitable for a wide range of applications. Handles easily, conforms well to irregular and rough surfaces – will not twist or curl during application. Available in multiple colors.

APPLICATIONS

- High shear adhesive makes tape suitable for holding down cords and wires on carpet with little to no residue after limited dwell.
- Maintenance and general repair.
- General purpose abatement and contractor applications.
- Bundling, patching, and mending.
- Heavy-duty box sealing.

PHYSICAL PROPERTIES

Color	Silver, yellow, red, white, blue, brown, green, olive drab, burgundy & black
Backing	Polyethylene Coated Cloth
Adhesive	Natural Rubber
Thickness	10 mils
Tensile strength	27 lbs. / in.
Adhesion to steel	85 oz. / in.
Tack	1.25 in. / roll
VOC Content	<1 g/L
Operating Temperature	40°F-200°F

→ Can contribute toward satisfying EQ Credit 4.1 (Low Emitting Materials) under LEED®

Recommended Storage Conditions: 40-60% Humidity, 60°F-80°F
 Standard Shelf Life (at 25C): 36 months from date of manufacture.

The physical and performance characteristics shown are averages obtained from tests recommended by ASTM, government agencies or our own procedures. A particular roll may vary slightly from these averages and it is recommended that the purchaser determine the suitability for his own purpose.
