MULTI-MATERIAL SAWZALL® BLADES

OVERVIEW

THE WRECKER™ is ideal for demolition cutting. It will deliver exceptional durability in a wide range of materials, including ferrous and non-ferrous metals, plastics, and nail-embedded wood.

FEATURES

- A Precise Manufacturing Process creates a sharper cutting edge on each tooth for a faster cutting blade
- A Complete, Unset Raker Tooth on the blade tip allows for easier, faster plunging by minimizing walking and bouncing
- A Thicker, More Rigid Blade Body resists fracturing and bending for maximum durability

ICE HARDENED™ MULTI-MATERIAL SAWZALL® BLADES

OVERVIEW

ICE HARDENED™ Multi-Material Blades are designed to provide fast, flexible cuts in woods, plastics, and metals. ICE HARDENED™ blades are cryogenically treated to minimize soft metal (austenite) and create more hard metal (martensite). The result is a metal cutting blade that is more consistently hard throughout, for up to 50% longer life than standard blades.

FEATURES

- ICE HARDENED™ for up to 50% longer life
- Unique Combination of Relief Angles forms a radius on the back of the tooth that reduces stress buildup during cutting and substantially extends blade life
- Precision Forming Process creates sharper teeth for fast cutting

ICE HARDENED™ MULTI-MATERIAL SAWZALL® BLADES
