

SAND & OPEN MESH ABRASIVE CLOTH

PROSELECT offers a complete line of durable high quality sand and open mesh abrasive cloths in both water resistant and waterproof styles.

PROSELECT sand & mesh cloths are specially formulated with the highest quality aluminum oxide abrasive grain. Whatever the job, copper, steel or plastic, wet or dry, we have the right abrasive cloth for you.

- Use for cleaning, polishing, & deburring copper tubing, copper pipe, fittings and other soft metal products
- Can also be used on plastic pipe.
- 120 grit aluminum oxide grain gets the job done quickly.

SAND CLOTH - Water Resistant					
PROSELECT ALT1	OLD PROFLO CODE	WIDTH	LENGTH	GRIT	COLOR
PS0402	New	1-1/2"	5 yd	120	BROWN
PS0403	PFSC10	1-1/2"	10 yd	120	BROWN
PS0404	PFSC25	1-1/2"	25 yd	120	BROWN

SAND CLOTH - Watervproof					
PROSELECT ALT1	OLD PROFLO CODE	WIDTH	LENGTH	GRIT	COLOR
PS0503	PF0503	1-1/2"	10 yd	120	BLUE
PS0504	PF0504	1-1/2"	25 yd	120	BLUE

- Standard mesh cloth has a larger hole size for e-z grip on small diameter pipe.
- FLEX Mesh has a tough and ultra-flexible small hole backing.
- Open mesh cloths last longer than sand cloth.
- 180 grit aluminum oxide gives smooth finish.
- Cleanable - just rinse with running water or tap on a hard surface to clean.
