

DAMPER REGULATORS-RESIDENTIAL

Hardcast Hardware

KWIKI

Sets – Up to 10" x 10" Damper

Our Kwiki line of bright, zinc-plated residential regulators are designed to allow easy installation onto any factory-made residential-quality damper blade. The spring in the spring-loaded bearing will never bind or interfere with the blade. Both our KB-1 (Spring-Loaded Bearing) and our KM-1T (Threaded End Bearing) will perforate the metal with ease every time. Our special handle can also be used on both ends simply by flipping it from one end to the other. Both ends are available with steel back-up washers and gaskets to resist leakage.

Part #	Product Description	Qty
307963	KWIKI RGLTR (KH-1)	100/Case containing 10 Sets of 10
