E Lite® Plastic Equipment Pads

E Lite® is a plastic pad designed as a mounting base for equipment. The rugged design provides uniform and generous ribbing for optimum, self-leveling ground support without inserts. E Lite® is injection molded from polypropylene, resulting in a pad that is lightweight, but not too light. A subtle texture prevents unit slide and presents a classic appearance, which is enhanced by rounded edges and a concrete gray color. Each pad is molded with its size in raised letters.

TECHNICAL DATA

MATERIAL

Polypropylene

FREEZE/THAW

Flawless performance under the 25-cycle regimen specified by ASTM C67

CHEMICAL RESISTANCE

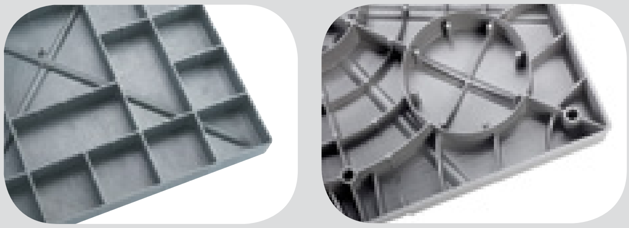
Does not crack, flake, or warp when tested per ASTM D2299 with the following:

- R-22 and R-134a
- Synthetic canine urine
- Compressor oil
- Salt solution, 20% by volume

Each pad is molded with its size in raised letters.

FEATURES AND BENEFITS

- Lightweight, yet rugged
- Drillable for securing unit
- Uniform ribbing transfers load evenly
- Unaffected by UV or weather
- Subtle texture resists unit slide



The bottom of an E Lite® pad shows extensive ribbing, plus additional surface support.

E Lite® plastic equipment pads are manufactured at DiversiTech's Conyers, Georgia plant.

Hef-T-Pad® Equipment Pads

Hef-T-Pad® is an injection molded equipment pad created from high impact polypropylene with UV inhibitors making it easy to handle, yet durable and strong. It does not require any additional equipment for moving and handling. Hef-T-Pad® is resistant to impact, ultraviolet degradation and weathering and will not crack, flake, or warp. It is virtually impervious to climatic variations. Hef-T-Pad® is drillable to permit installation of refrigerant and electrical lines under and through the pad and to allow equipment to be easily secured to the pad.

HEF-T-PAD®
DIVERSITECH
30 x 30 x 3

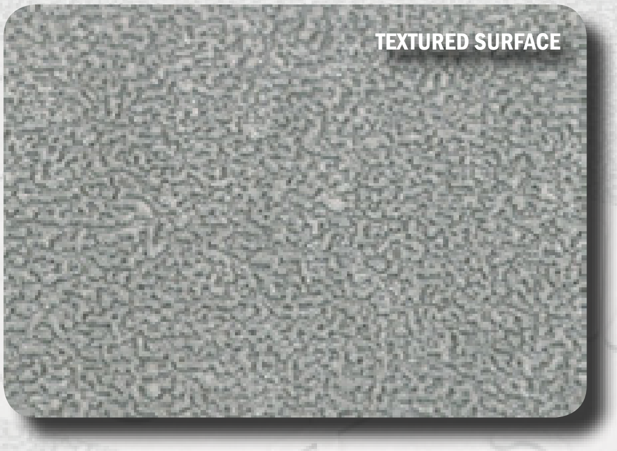
FEATURES AND BENEFITS OF THE HEF-T-PAD®

The thick walled polymer is suitable for drilling and screw fastening of equipment, line sets, and electrical connections.

Stabilization flange provides a wide perimeter that reduces sinking in soft soil under heavy load. Both the flange and ribbing provide reinforcement for the corners.

STABILIZATION FLANGE

Textured surface provides good aesthetics and a non-skid surface.



TEXTURED SURFACE

Attractive neutral gray color with pad size and branding clearly embossed on pad surface.

NEUTRAL GRAY COLOR
HEF-T-PAD™
30 X 30 X 3

Pad size is molded into the side of the pad as well as the top surface.

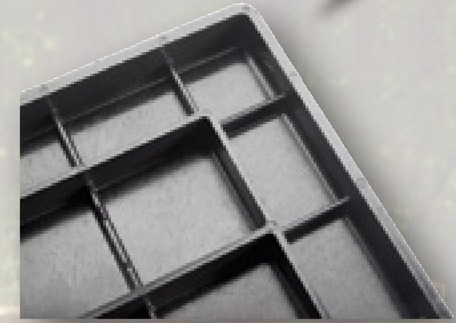
PAD SIZE
30 X 30 X 3

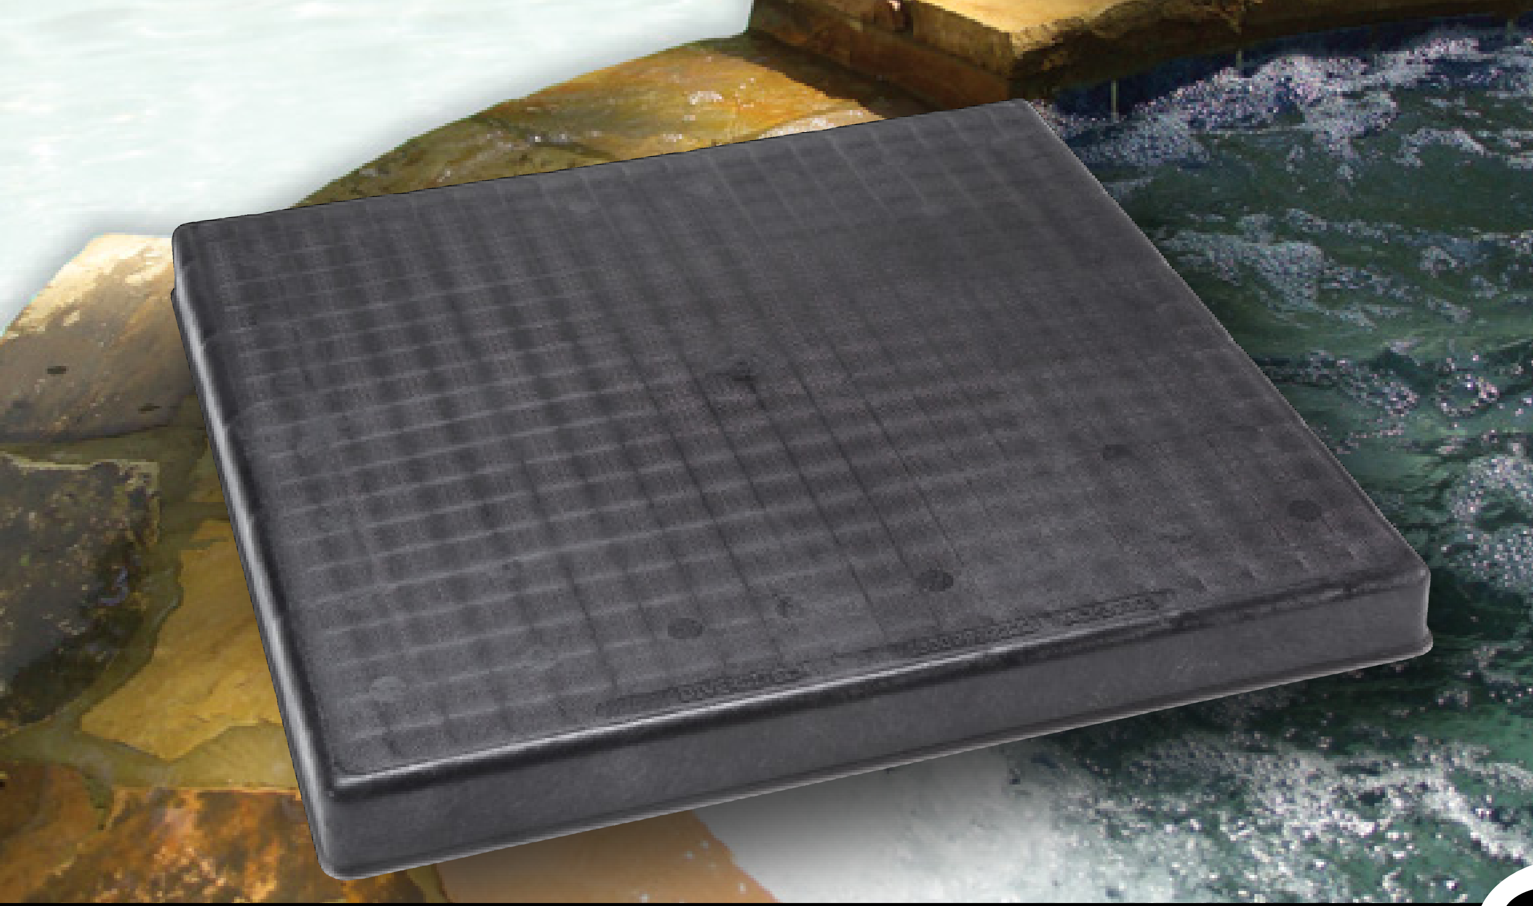
The Black Pad™ replaces Concrete Equipment Bases

Eco-friendly

The Black Pad™ is extremely durable, resistant to ultraviolet light, and heavier than E Lite®. The Black Pad™ is ideal for HVAC equipment, pool and spa pumps, filters and heaters. The Black Pad™ is extremely weather resistant and easy to drill and secure equipment.

- No cracking and less breakage than concrete
- Extremely durable, yet lightweight
- UV resistant; unaffected by weather
- Generous ribbing for optimum, self-leveling ground support
- Outer edges have rounded corners with double-thick walls
- Uniform ribbing transfers load evenly
- Textured surface prevents equipment slippage
- Drillable for securing equipment
- ICC Certified to Standard Swimming Pool Code sections 305.2 Mounting and section 405 Equipment Foundations and Enclosures.





UltraLite® Equipment Pads

ULTRALITE®
EQUIPMENT PADS
DIVERSITECH
www.diversitech.com
ICBO No. PFC-5112,
LA City RR No. 7570
U.S. Patent No. 5,209,968
5,268,226 - 5,664,394 - 5,728,458
UC3030-2
0 95247 41028 6

- *Lightweight concrete pad*
- *Installs in seconds - easier and faster than pouring your own pad*
- *Engineered for long term outside weather resistance*
- *Will not degrade or discolor*
- *Freeze/thaw resistant - will not crack*

UltraLite® Pads are made by DiversiTech, North America's largest manufacturer of equipment pads.

FEATURES AND BENEFITS

LIGHTWEIGHT At an average weight of 2-1/2 pounds per square foot (12 kg. per square metre), the UltraLite lightweight concrete pad is one of the lightest equipment mounting products available today. Lightweight products are important for ease of handling on job site.

DURABLE The exterior of the UltraLite lightweight concrete pad is specifically engineered for long-term exterior weather resistance.

DUCTILE The skin and core of the UltraLite lightweight concrete pad is specifically engineered for flexibility and ductility demanded of job site handling. Additionally, the ductility of the outer skin facilitates conformance to slight ground contours without fracture.

TIME/LABOR SAVINGS Time is money, and hence any time savings on site translates into money saved. The UltraLite lightweight concrete pad literally installs in seconds while providing a solid foundation for the condensing unit.

CONCRETE SURFACE The concrete external skin of the UltraLite lightweight concrete pad is not subject to ultraviolet degradation or weathering discoloration.

VIBRATION ABSORBING The engineered polystyrene core in the UltraLite lightweight concrete pad absorbs and dampens vibration associated with normal operation of a condensing unit.

FREEZE/THAW RESISTANT The UltraLite lightweight concrete pad is vapor permeable. Water vapor evaporates through the pad, hence the concrete outer skin is not subject to expansion cracks.

FLAME RESISTANT The concrete outer skin of the UltraLite lightweight concrete pad is resistant to heating caused by the compressor. Additionally, the surface is resistant to heat from incidental torch flame during site installation.

OUTSIDE STORAGE The UltraLite lightweight concrete pad is intended for life in the outdoors. As such, the pad is suitable for exterior storage prior to site installation.

TECHNICAL DATA

LOADING

To achieve the maximum permissible pad load capacity, the earth under the pad must be capable of supporting the transmitted compression load of the UltraLite pad. All values tabulated assume the earth has a bearing capacity of at least 1000 pounds per square foot (48 kPa).

The allowable loads assume a uniformly distributed loading on the pad surface (that is, a relatively flat-bottomed condenser unit in contact with the pad). For condenser units with footpads or other point loads, the maximum concentrated load for any size UltraLite pad is 125 pounds per 2″ (56 kg per 50 mm) diameter (or equivalent surface area) footpad.

CHEMICAL RESISTANCE

In normal usage conditions an equipment pad can be exposed to a variety of chemicals. The UltraLite pad has been fully tested in accordance with ASTM D2299 for resistance against:

- R-22 and R-134a
- Compressor oil
- Salt solution, 20 percent by volume
- Synthetic canine urine

The UltraLite pad performs extraordinarily well under these testing criteria. UltraLite does not craze, soften, delaminate, or spall under exposure in this test.

FREEZE/THAW TESTING

The UltraLite pad has been independently tested to the rigorous freeze-thaw regimen specified by ASTM C67. This standard dictates a twenty-five cycle freeze-thaw sequence. The freeze portion of the sequence takes place with the top surface of the UltraLite pad under 1/2″ (12 mm) of water. Once twenty-five cycles are complete, the pad is examined using visual magnification. No cracks or crazing is permitted. UltraLite has performed flawlessly.

CladLite® Equipment Pads

CLADLITE®
EQUIPMENT PADS
DIVERSITECH
www.diversitech.com
U.S. Patent No. 4,505,449
3030-2

Tough. Durable. Strong.

CladLite® Equipment Pads provide the strength and durability customers demand in an easy to install pad. CladLite® Pads are to up 80% lighter than solid concrete but still provide rock solid support for equipment. Once it's set, so are you. CladLite® Pads stay in place and can withstand anything mother nature can throw at them. These pads provide superior resistance to sun, moisture, and freeze-thaw conditions. And the vibration dampening EPS foam core is unaffected by water, soil, fungus or bacteria. Cladlite® Pads are available in 2″ and 3″ thickness and more than 70 different sizes so you can get the exact pad you need for the job. Get the concrete pads that homeowners prefer – Cladlite®.

CLADLITE® SPECIFICATIONS

Allowable Load: 125 lbs. per 2″ diameter foot

Freeze/Thaw: Flawless performance under the 25-cycle regimen specified by ASTM C67

Chemical Resistance: Does not craze, soften, delaminate, or spall when tested per ASTM D2299 with the following:

- R-22 and R-134a
- Compressor oil
- Synthetic canine urine
- Salt solution, 20% by volume

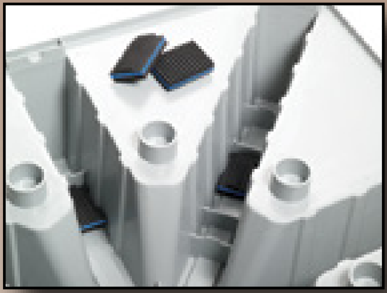
Foam Core: ASTM Type 1 EPS

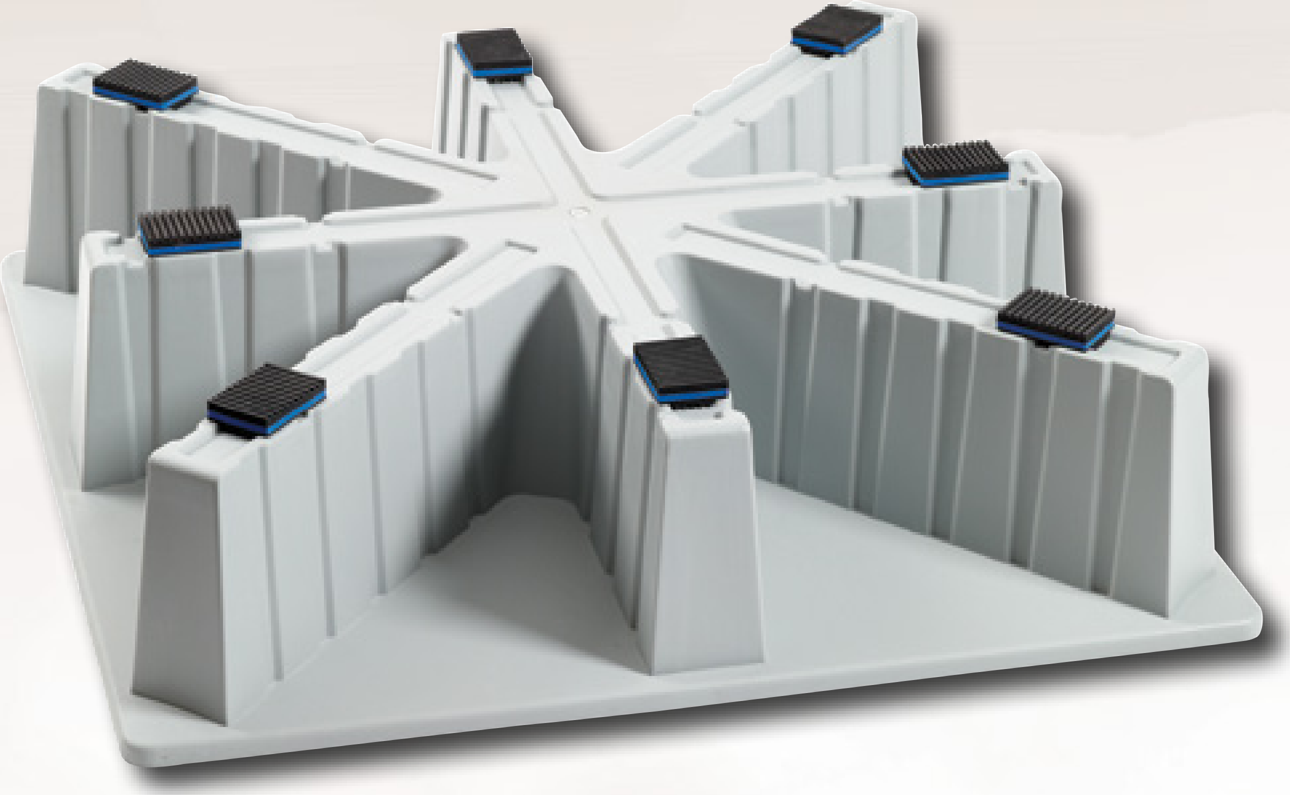
Flame Resistance:
Cladding resists compressor heat
and incidental torch contact.
Not to be used under heating devices.

Heat Pump Pad™

Ideal for snowy climates, the DiversiTech Heat Pump Pad™ is the perfect solution for protecting equipment and ensuring proper operation year round. The Heat Pump Pad™ provides a full 8" clearance from ground level in a compact square footprint. Included with every Heat Pump Pad™ are 8 anti-vibration pads, specifically molded into slots in the pad to reduce vibration and provide quiet operation of your equipment. The base of the pad is also angled to direct melting snow or condensate away from the unit and pad. Heat Pump Pads are made from recycled polypropylene so they are eco-friendly and are built tough to provide many years of service. These pads also nest together for easier transportation and warehousing.

Each Heat Pump Pad™ includes eight Anti-Vibration pads fitted into special slots in the risers to reduce equipment vibration and noise.





The Hurricane Pad™

THE HURRICANE PAD™ CONCRETE EQUIPMENT PAD

Hurricane strength equipment pads designed to Florida's tough standards.

DiversiTech's family of Hurricane Pads provide complete protection when the weather turns the worst. Three different models and dozens of sizes of The Hurricane Pad™ ensure you have the right pad for any area or need. Each DiversiTech Hurricane Pad™ includes these features:

- Steel reinforced
- 7,000 psi minimum concrete, mandatory to meet strict anchor pullout requirements
- Easier to install
- Will not float (unlike air filled pads)
- Uses standard Tapcon™ brand screws and no inserts are necessary
- Superior screw pullout strength

HURRICANE Pad
150 MPH
HURRICANE Pad
175 MPH
HURRICANE Pad MD
175 MPH

FLORIDA BUILDING CODE NOTICE

This product meets the following Florida Building Code requirements:

1. Florida Building Commission (DCA02-DEC-183) declares this pad to be an acceptable alternative material to solid concrete pads.
2. This pad meets Mechanical Volume, Section 304.10 – clearance from grade.
3. Pad weight and wind load requirements have been calculated by Master Consulting Engineers. For up to date calculations and documentation, visit our website: **www.diversitech.com.**

THE HURRICANE PAD™

The Hurricane Pad is designed for installations up to 150 MPH. The Hurricane Pad provides a solid base for mounting and protecting equipment threatened by adverse conditions.

THE HURRICANE PAD™ T CLASS

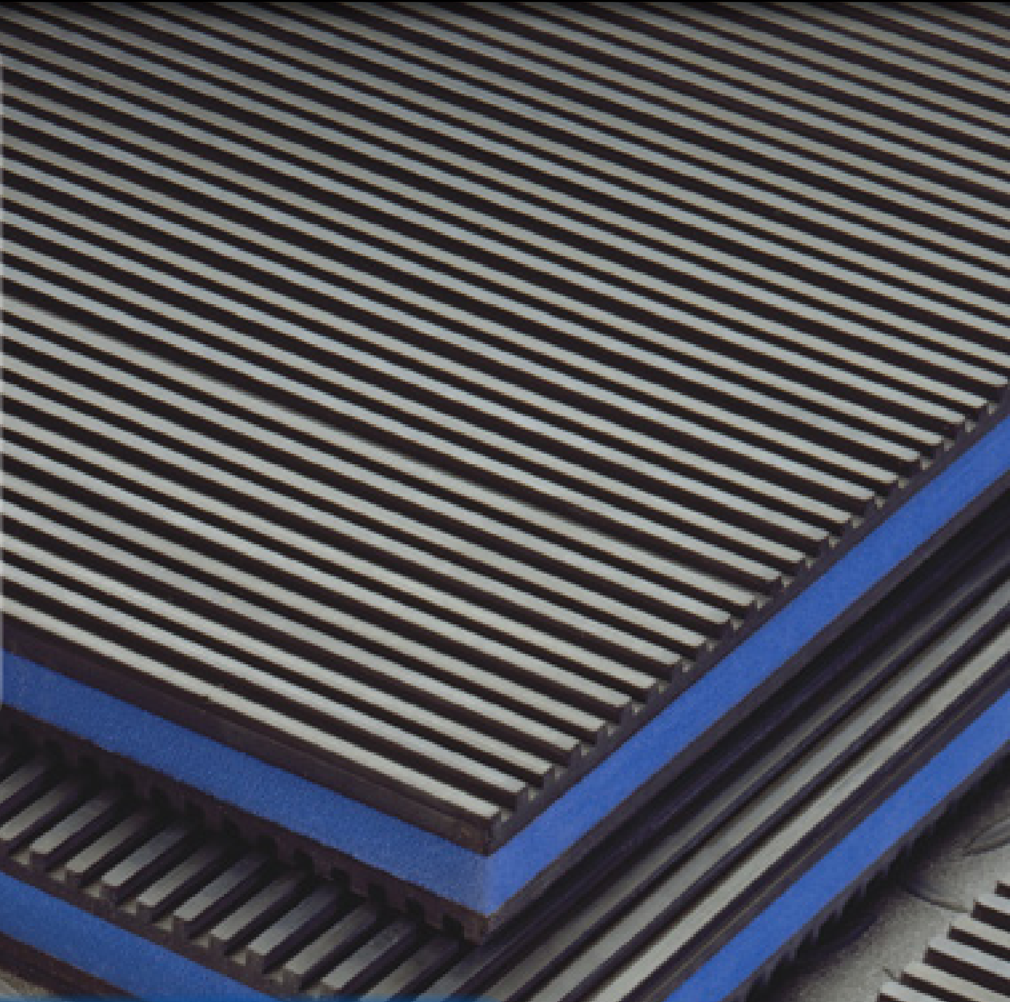
The Hurricane Pad T-Class is designed for even higher wind loads - up to 175 MPH. Ideal for south Florida counties and other heavily threatened areas, the T Class Hurricane Pads are heavier and provide additional concrete for superior anchor pullout strength.

THE HURRICANE PAD™ MD

The ultimate in protection, The Hurricane Pad MD is specifically designed for the strict regulations of Miami-Dade county. These solid concrete pads meet the Florida Building Code Notice and can withstand winds up to 175 MPH. This pad is made from a minimum 7000PSI solid concrete.

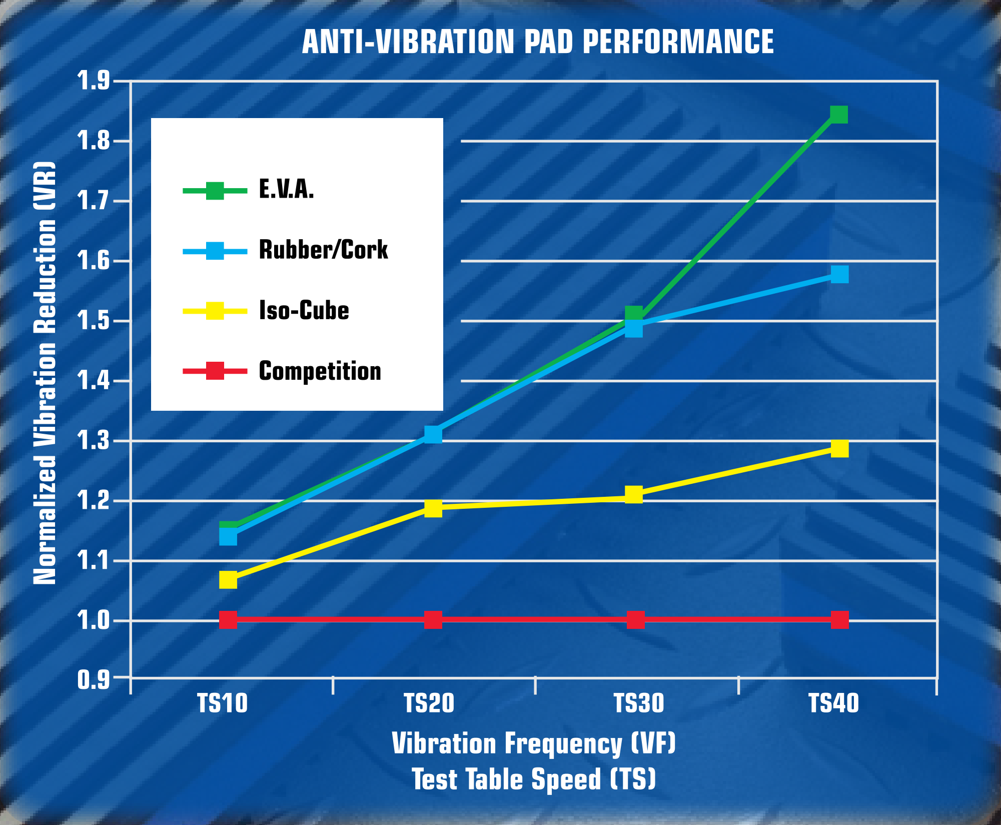
Equipment must be properly attached to The Hurricane Pad™ in order to prevent sliding and tipping in high winds.

Anti-Vibration Pads



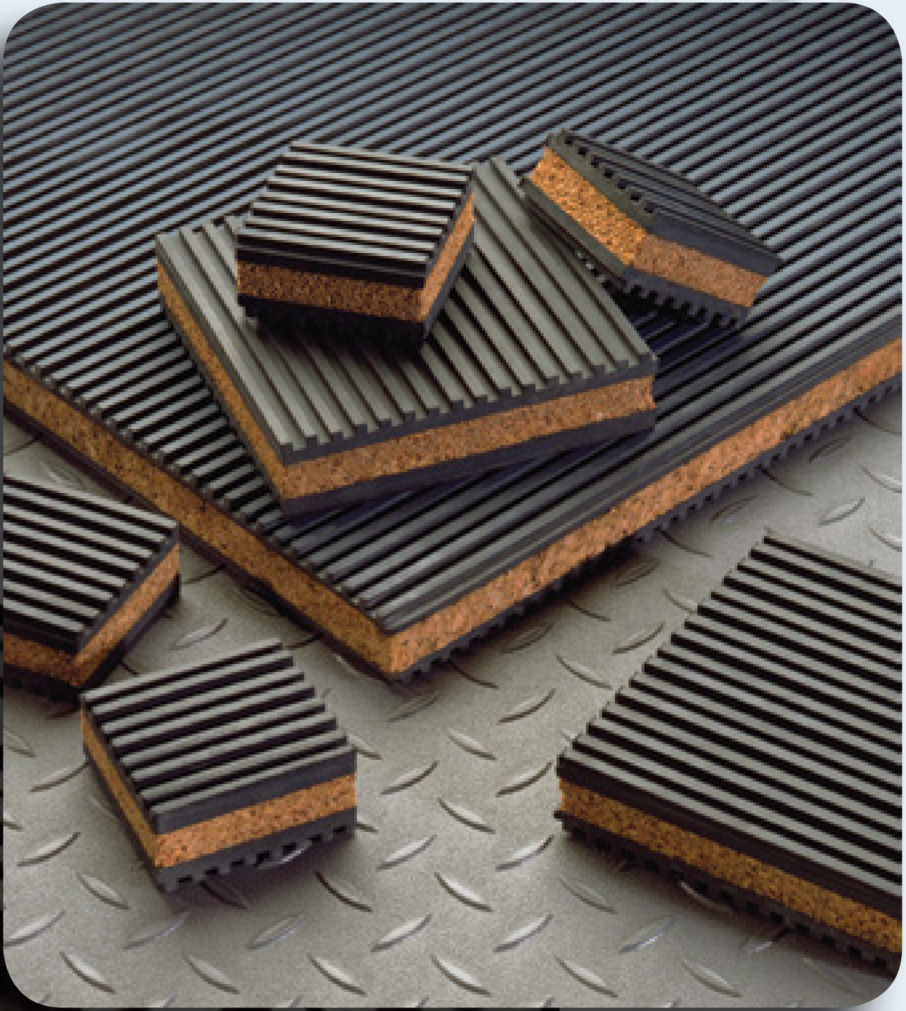
EVA™ PAD:
The BEST Performer

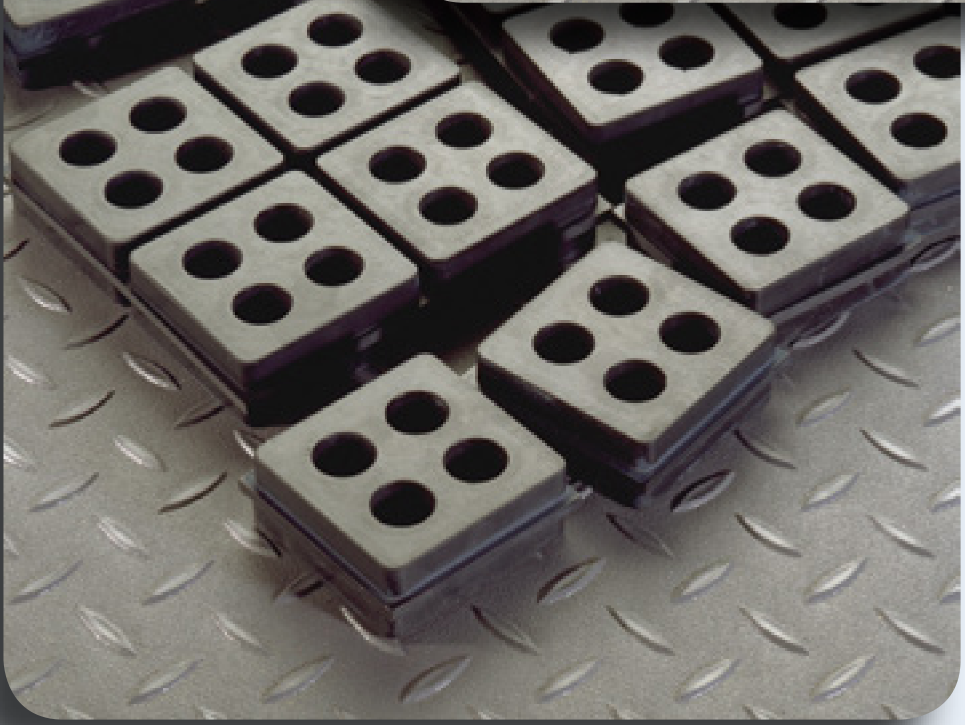
EVA™ (Extreme Vibration Attenuation) is the latest generation in vibration dampening technology. In the most severe vibration extremes, testing shows the EVA™ pad outperforms cork and rubber by greater than 3:1 and outperforms our competitor's "waffle" pad by greater than 8:1! The enhanced performance comes from the special composite foam center which is structurally more sound than cork. EVA™ is not affected by oils or chemicals that can break down cork and is much more effective at vibration dampening than solid rubber. Designed to withstand 50 psi. Choose EVA™ to get the best of both worlds!



RUBBER/CORK PAD:
The Industry Standard

These pads are made with the highest quality elastomeric oil resistant padding. Designed to withstand 50 psi. The rubber pads are corrugated on both sides and laminated to the cork center.



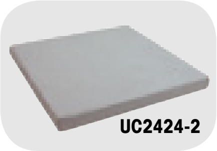


ISO-CUBE:
Solid Rubber Tough

Natural rubber pads designed to reduce vibration and noise emanating from refrigeration or AC equipment. Circular design offers a suction cup effect eliminating the need to bolt the pads down. A standard 18″ pad divides into eighty-one 2″ segments which may be cut or torn into smaller pads. The 50 durometer pads will withstand a load of 180 psi with great resiliency.

ULTRALITE® LIGHTWEIGHT CONCRETE EQUIPMENT PADS

A true concrete equipment pad at the weight of plastic (about 2.5 lbs. per square foot). UltraLite® is strengthened by miles of fiber in each square foot of fiber-cement coating. This fiber allows the pad to flex instead of cracking or breaking. The textured surface prevents the condensing unit or portable generator from sliding, and allows water drainage, while the engineered expanded polystyrene (EPS) core prevents warping and provides a solid bottom to resist settling. Unaffected by soil conditions, ultraviolet (UV) light, temperature extremes, and other weather conditions.



UC2424-2

2″ UltraLite® Pads

The 2″ thick UltraLite® pad is the industry standard. Used across a wide variety of applications. Codes have moved toward requiring 3″ pads, check local codes for your requirements.

UltraLite® Earthquake Code Compliant Pads

Required nearly exclusively in Southern California, the UltraLite® pad is available for compliance with strict attachment provisions detailed in earthquake prone local building codes. UltraLite® earthquake code compliant pads are only available for sale in regions where local codes mandate installation of pads with these particular characteristics. Currently these locales include most of Southern California, portions of Washington, and portions of Oregon.

CLADLITE® LIGHTWEIGHT CONCRETE EQUIPMENT PADS

Concrete surface and superior performance at 20% the weight of conventional concrete pads. The cladding provides superior resistance to sun, moisture and freeze-thaw conditions; the engineered expanded polystyrene (EPS) core is virtually impervious to water, soil conditions, fungus and bacteria. Large CladLite® pads are further strengthened by continuous steel reinforcement throughout the cladding. CladLite® is code approved for installation throughout the U.S.

THE HURRICANE PAD™ CONCRETE EQUIPMENT PADS

The Hurricane Pad™

H2424-4

Designed specifically for the hurricane prone regions of Florida and the Gulf Coast, The Hurricane Pad™ meets stringent local code requirements for wind resistance. Heavier than a normal concrete pad, this 4" pad provides sufficient weight to meet code. The Hurricane Pad meets the Florida Building Code Notice and can withstand winds up to 150 MPH. For certain taller equipment, The Hurricane T Class Pad™ is needed. Due to their extra weight, standard freight terms only apply for shipments to Florida. All other shipments are shipped FOB Conyers, GA.

The Hurricane T-Class Pad™

HT3030-4

The Hurricane T Class Pad™ is even heavier than The Hurricane Pad™ and is designed to meet the higher wind loads of taller equipment. The taller the piece of equipment mounted to the pad, the greater the wind load on the pad. These heavier 4" pads provide sufficient weight to meet code for these taller condensing units. The Hurricane T-Class Pad meets the Florida Building Code Notice and can withstand winds up to 175 MPH. Due to their extra weight, standard freight terms for The Hurricane T Class Pad™ only apply for shipments to Florida. All other shipments are shipped FOB Conyers, GA.

THE BLACK PAD® BLACK PLASTIC EQUIPMENT PADS

The Black Pad® is an innovative equipment pad. The pad is extremely durable, resistant to ultraviolet light, and heavier than a completely plastic pad. The Black Pad® is suitable for use with pool pumps, filters, and heaters and complies with the 1997 Standard Swimming Pool Code sections 305.2 Mounting and section 405 Equipment Foundations and Enclosures.

HEF-T-PAD™ PLASTIC EQUIPMENT PADS

Hef-T-Pad® is an injection molded equipment pad created from high impact polypropylene with UV inhibitors making it easy to handle, yet durable and strong. It does not require any additional equipment for moving and handling. It is resistant to impact, ultra violet degradation and weathering and will not crack, flake, or warp. The Hef-T-Pad® is virtually impervious to climatic variations. It is drillable to permit installation of refrigerant and electrical lines under and through the pad and to allow equipment to be easily secured to the pad.

HEAT PUMP PAD™

Heat Pump Pad™

Provides an effective base for heat pump equipment installed in snowy climates. Rather than a combination of a typical 2″ (or 3″) equipment pad and 6″ heat pump risers, the Heat Pump Pad™ provides a full 8″ of elevation in a simple square footprint. The star pattern of the integral risers allows for installation of equipment with different size footprints up to 36″ x 36″. Also included are eight anti vibration pads uniquely designed to fit into the guide slots on the top of the integral risers. The base is sloped outward to allow for easy drainage of condensate or defrost cycle condensate when the outdoor coil is operating in heat pump mode. Nestable for efficient shipping, transportation, and warehousing. Injection molded from concrete gray, recycled polypropylene material, the Heat Pump Pad™ is environmentally friendly and designed to last longer than the equipment it supports. US Patent Number 7,891,635, and other patent(s) pending.

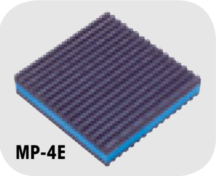
E.V.A. Anti-Vibration Pad



The latest generation in vibration dampening technology. The most effective vibration dampening pad available on the market. The EVA Pad was tested against other pads at four different vibration settings. In the most severe vibration extremes, the EVA Pad outperforms cork and rubber by a margin of greater than 3:1! This is due to the special composite foam center which is much more structurally sound than cork. It is not affected by oils or chemicals that can break down cork and is much more effective at vibration dampening than solid rubber. All this at a very competitive price. Designed to withstand 50 psi.

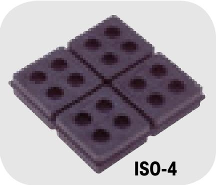
Iso-Cube Economy Anti-Vibration Pad



Natural rubber pads, designed to reduce vibration and noise emanating from refrigeration and air conditioning equipment. The circular design in each pad offers a suction cup effect, which eliminates the need to bolt the pads down. A standard 18″ (46cm) pad is divided into eighty-one 2″ (5cm) segments, each of which may be cut or torn to provide smaller pads. These 50 durometer pads will withstand a load of 180 psi with greater resiliency.

Hef-T-Foot™

The Hef-T-Foot™ is used to support small pipework, runs of cable tray, or an alternative to supporting condensing units, air source heat pumps or a variety of outdoor equipment. The Hef-T-Foot™ with strut comes in four lengths — 9.8", 15.7", 23.6", 39.4". They are manufactured from heavy duty recycled rubber and come complete with .8" x 1.6" galvanized steel strut adhered to the rubber with industrial adhesive. The rubber is strong and durable with drain slots moulded into the underside to allow standing water to flow under the foot.

QSBB2000	Boiler Bracket Leg Kit	EA	1

Hef-T-Bracket™

Used for supporting condensing units, Hef-T-Brackets (Type 2) feature a cross bar that is attached to a wall, and two L shaped brackets that are hooked and bolted into place on the cross bar. The condensing unit is mounted onto the L shaped brackets, and fastened using the bolts and anti vibration washers provided.

*Not approved for South Florida.

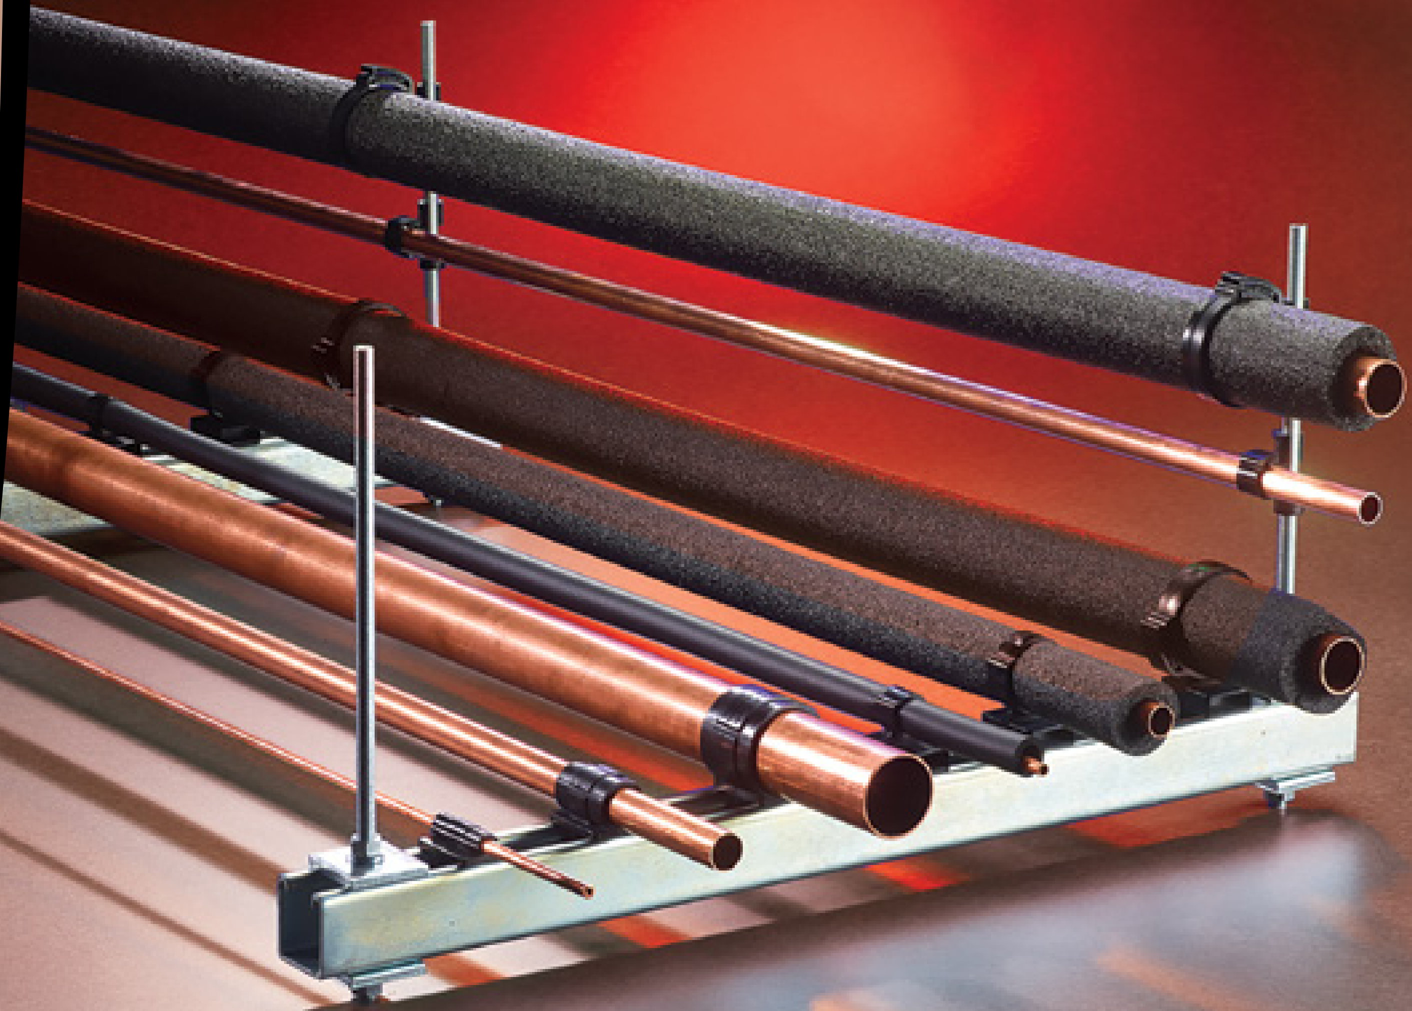
RPC by DIVERSITECH®

RAPID POSITIONING CLIPS

The RPC line of mounting clips are cost-effective and time-saving solutions for refrigeration, A/C tubing, PEX piping, conduits and cabling support. Their unique, simple and effective one-piece design requires no tools and they are 20 times faster to install when compared to the traditional mounting clamps.

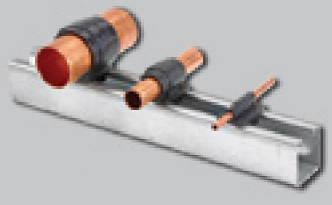


All RPC clips are made from durable polyamide material and have a wide working temperature range from -40°F to 284°F (-40°C to 140°C). They meet the UL2043 requirement for plenum rating and have the UL94 HB flame rating, suitable for use in air handling spaces.

DIVERSITECH®

Product Type

Rapid Positioning Clips



- Prevent cracking and fracturing of joints by allowing secured pipe to expand.
- Available in 9 sizes to fit pipes with 1/4″ to 1-5/8″ outer diameter (OD).

InsulClips

- Ideal for insulated pipes, these clips maintain the vapor barrier seal in the insulation and eliminate sweating on metal fittings.
- Available in 11 sizes to fit pipes with 5/8″ to 2-1/8″ outer diameter (OD).

Studded Clips

- Ideal for insulated pipes, these clips maintain the vapor barrier seal in the insulation and eliminate sweating on metal fittings.
- Available in 11 sizes to fit pipes with 5/8″ to 2-1/8″ outer diameter (OD) for 5/16″ (M8) or 3/8″ (M10) threaded rod size.

Cable Tie Channel Clips

- Work with PVC or metal cable ties with width up to 11/16″ (17mm).
- Available in 3 sizes.

Features and Benefits

Fast installation, 20 times faster!

With their unique and simple one-piece design, installation takes seconds versus minutes for the traditional methods. Less time, more money!

No tools required!

Easy to install. Can be done with one hand. No need to worry about finding the right tool for the job!

Fits onto standard size strut channel or threaded rods.

Designed for a wide variety of applications. The Rapid Positioning Clips, InsulClips and Cable Tie Channel Clips fit directly into a standard 1-5/8″ wide strut channel. The Studded Clips fit directly onto a 5/16″ (M8) or 3/8″ (M10) size threaded rod.

Strong and Lightweight!

All clips are made of a strong and lightweight, black composite Nylon. This eliminates metal to metal contact and corrosion problems.

Meets UL2043 requirements, plenum rated.

All clips are compliant with UL2043 and suitable for use in air handling spaces.

STRUT CLIPS & CLAMPS

Rapid Positioning Clips

Rapid Positioning Clips fit directly into vertical and horizontal standard 1-5/8″ strut channels. No tool required to intall. Use for refrigeration, A/C tubing, PEX piping, and conduit support. They prevent cracked and fractured joints by allowing secured pipe to expand. The clips are UL2043 compliant and suitable for Plenum spaces. They are heat, light and U.V. stabilized for outdoor use. Available in 9 sizes to fit pipes with 1/4″ to 1-5/8″ outer diameter.

Cable Tie Channel Clips

Cable Tie Channel Clips fit directly into vertical and horizontal standard 1-5/8″ strut channels. No tool required to intall. Use for refrigeration, A/C tubing, PEX piping, conduit and cabling support. The clips are compliant with UL2043 and suitable for Plenum spaces. They are heat, light and U.V. stabilized for outdoor use. They accommodate PVC or metal cable ties up to a width of 11/16″ (17mm). Three support base lengths available in 2″ (50mm), 2-1/2″ (65mm) and 3″ (80mm).

Cushion Clamps

538-1/4

An industry standard universal clamp that mounts to standard strut. Steel with electrodichromate finish to resist corrosion. The lock nut has a nylon insert for a posittve lock. The polymeric grommet withstands temperatures from -25°C TO 125°C and resists the effects of most oils, chemicals, and industrial cleaning compounds.

HOOKS, SPRINGS AND FIXTURE SUPPORT

Bridle Rings

Zinc-Plated Bridle Rings are a good support for communication cables & other low voltage uses. They are available as Bolt-On, commonly used with Beam Clamps, and as Screw-In, commonly used with Wooden Beams. The Cable Support Bridle Rings with saddle are a cost-effective alternative to expensive cable tray. Their wide surface saddle provides support without stress for Category 5, fiber-optic, and other sensitive voice/Datacom cables.

Patch It Up!

Item # FP-36

Repair almost any surface with Flexi-Patch™

- Extremely durable fiberglass reinforced patch
- Flexible and waterproof
- Weather and UV resistant
- Temperature safe from -30°C to 365°C
- Will not shrink or expand during or after application
- Bonds to all surfaces expect polypropylene
- Cure quickly – as fast as 5 minutes.

Flexi-Patch™ is an easy to use flexible repair patch ideal for repairing almost any surface. It cures quickly using only UV light from sunlight or a UV flashlight for a long lasting, permanent repair. Flexi-Patch is a fiberglass-reinforced polyester ideal for use on PVC, plastics, metal, wood, concrete and more. It's the easy way to permanently patch almost any surface. It dries hard for permanent repair. Can be drilled, tapped and painted once dry.

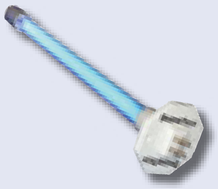
Ventilation Products 47



PURE-BEAM™ Ultraviolet Light

The Pure-Beam™ ultraviolet light is designed for HVAC air disinfection and surface irradiation. Exposure to Pure-Beam™ significantly reduces air contamination caused by fungus, mold, and viruses and can cleanse surfaces overcome by mold and slime.

- The Pure-Beam™ ultraviolet light is an excellent way to maintain indoor air quality.
- This UV Light includes a ballast, transformer, and bracket for even more convenience.
- Overall dimensions are small which makes installation easy.
- The included transformer allows operation using 120, 208, and 240/220 VAC power.
- UV lights are unobtrusive and transparent in operation, requiring little maintenance.

Duct Fans

625-AF6

Features electrical junction box for UL and code compliant electrical connection. An efficient way to increase air circulation, keep room temperatures consistent, and lower heating and cooling costs. Metal construction, powerful no-maintenance motors and a one-use thermal fuse mean these fans will be up to the task for years. Straight forward installation into any 120V system with detailed instructions, templates, and diagrams. Available in many sizes. A great way to give slow vents a boost. Conforms to UL STD 507, Certified to CSA STD C22.2 #113

PURE BEAM™ ULTRAVIOLET LIGHT

Pure-Beam™ Ultraviolet Light

UV-1

Pure Beam™ ultraviolet light is designed for HVAC air disinfection and surface irradiation. The 17 watt UV C lamp is a powerful tool for improved indoor air quality. Installs in the HVAC system or ductwork on either the return or supply air side of the furnace or air handler. DiversiTech's Pure Beam™ ultraviolet light provides a healthier environment in your home, thanks to the germicidal qualities of the UV light spectrum present in the Pure Beam™ light. Ultraviolet light deactivates the DNA of dust mites, bacteria, viruses and other pathogens and destroys their ability to multiply and cause disease. Placement of a Pure Beam™ light in an airstream or near a drain pan can help to decrease the air contamination of any home. Exposure to Pure Beam™ significantly reduces air contamination caused by fungus, mold, and viruses and can cleanse surfaces overcome by mold and slime. Overall size is 14 in. L x 2 in. W x 2 in. H for easy placement. Includes the UV lamp, a UL listed ceramic base, and mounting bracket.

TrueStart® Hot Surface Igniters

TRUE START®
IGNITERS
Getting it right the first time

TrueStart® hot surface igniters have been 100% tested and approved.

TrueStart® hot surface igniters are completely reliable right out of the package and are certified by CSA for use in electrical equipment.

TrueStart® universal hot surface igniters by DiversiTech are high quality replacements that fit hundreds of OEM components. TrueStart® universal igniters are durable and are designed to provide years of reliable service.

Replaces Hundreds of OEM Igniters

BUILT TO LAST

TrueStart® universal igniters are available in silicon nitride and silicon carbide models. Silicon nitride is a very durable ceramic that is high fracture and temperature resistant and has a long life expectancy. Silicon nitride is a longer lasting material that is also more shock resistant. Silicon carbide is a naturally high temperature resistant metal that has been the standard used in heating equipment for years.

JUST ONE REPLACES HUNDREDS

TrueStart® universal hot surface igniters feature a universal bracket kit that can be used to fit most all OEM furnaces. And TrueStart® hot surface igniters feature a unique universal electrical plug kit. This plug kit includes the most common crimp terminals and connector housings to fit the majority of OEM furnaces.

- ✓ *Durable ceramic material*
- ✓ *High thermal shock and chemical resistance*
- ✓ *Fracture resistant*
- ✓ *Long life*

LONG WARRANTY

Every TrueStart® universal igniter includes a generous warranty period to ensure your satisfaction. The warranty on silicon nitride models is 3 full years and and the warranty for silicon carbide igniters is 18 months.

100% TESTED

TrueStart® universal hot surface igniters have been 100% tested and approved. TrueStart® hot surface igniters are completely reliable right out of the package and are certified by CSA for use in electrical equipment.

Each TrueStart® universal igniter also includes:

A universal bracket kit for a fast, easy installation.

A universal electrical plug connection kit to simplify installation.

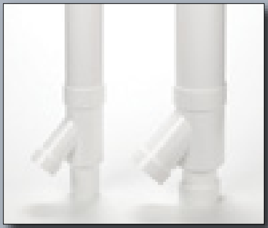
Color coded packaging.

Made in U.S.A.

Vent Termination Kits

Concentric vents and termination kits allow both intake for combustion air and the exhaust vent to pass through a standard roof or sidewall. This makes it easier to have a two-pipe installation for high efficiency furnaces. These vents simplify installation and only require one hole through the wall or roof where the pipes terminate. Without using these vents, the installation would require cutting two holes through the home, one for each pipe. These vents save time and money by reducing the amount of work required.

Horizontal vent kits for use in venting high efficiency fossil fuel appliances. The low profile kit hides the vent from view.

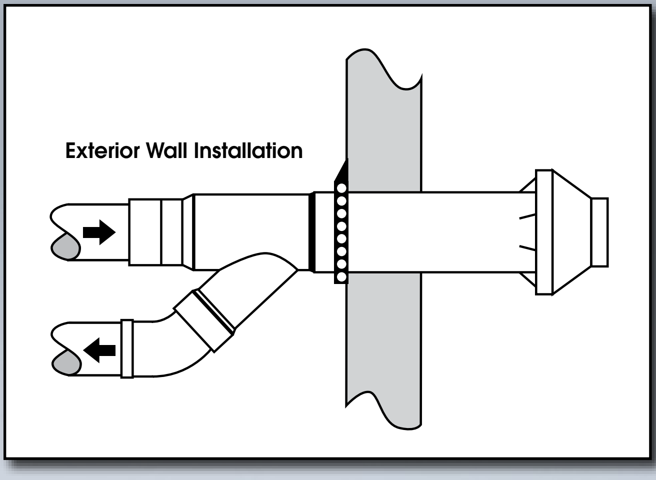


All Fittings included
DiversiTech's CVENT series concentric vent kit includes all fittings a contractor will need to install the vent. No additional fittings for outside connections are needed. Only piping from the vent kit to the furnace will need to be provided separately. Models are available for 2", 3" or 4" intake/vent systems.

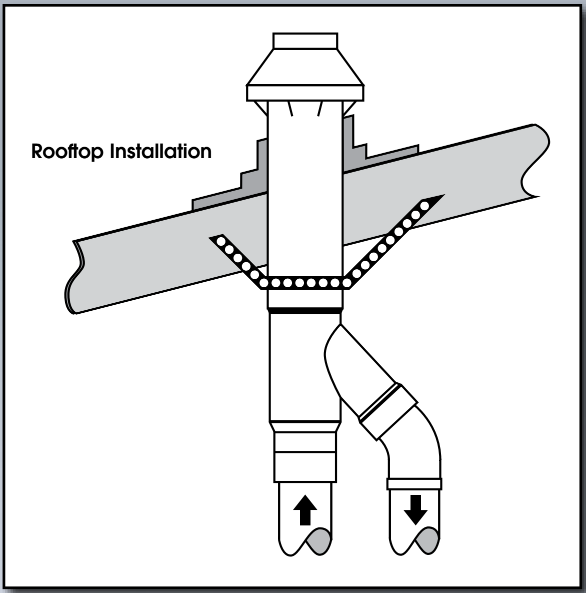
Low profile
The low profile of the HVENT series product creates a neat look for the vent connection. The simple and clean looking vent hides both the intake and exhaust pipework. Models are available for 2" or 3" vent systems.

DO NOT BLOCK INTAKE AND EXHAUST
DO NOT BLOCK INTAKE AND EXHA

Flexible installation



Exterior Wall Installation



Rooftop Installation

DO NOT BLOCK

The same CVENT series vent kit can be used in either a horizontal (through the wall) or vertical (through the roof) installation.

TRUESTART® HOT SURFACE IGNITERS

Wolverine® Universal Hot Surface Igniter

Wolverine® hot surface igniters feature protective, dynamic, and informative packaging. Wolverine® hot surface igniters are 100% tested and completely reliable. They are compatible with all OEM furnaces. Universal hot surface igniters allow a contractor to reduce truck stock and replace hundreds of OEM igniters with just one SKU.

In a class by itself.

DIVERSITECH®

The ClearVue™ condensate pump isn't like all the other pumps. It features Floatless Sensor™ technology for super reliable operation without a mechanical float — No Float, No Problems. And ClearVue even has a brain. Built-in Variable Speed and Lift adjusts pump speed and lift as needed so ClearVue can adapt to any conditions. ClearVue even cleans itself to ensure worry-free operation. Learn more about how ClearVue stands out from the crowd at www.diversitech.com

ClearVue™ Pump

About ClearVue™

The new ClearVue™ condensate pump from DiversiTech is unlike any other pump available. ClearVue™ features Variable Speed and Lift which makes ClearVue™ the smartest condensate pump on the market. Variable Speed and Lift provides ClearVue™ the ability to "think" and adapt to changing conditions. It's not just off or on like a regular pump. ClearVue™ senses the amount of condensate water in the tank and its rate of inflow and adjusts its speed and lift to match the conditions and keep the tank clear. ClearVue™ starts pumping slowly and only accelerates if needed. And since it pumps slowly, ClearVue™ is super quiet and easy to live with.

With its Floatless Sensor™ technology, ClearVue™ doesn't have the usual problems associated with float switch pumps. No more stuck floats or misaligned contacts to cause problems and potential damage. ClearVue™ uses Floatless Sensor™ technology to detect the condensate level in the tank and make the right decision about what to do next. ClearVue™ pump also features a see-through tank to give the contractor and homeowner a clear view of water, blockage, and buildup in the tank. This clear tank allows for quick troubleshooting due to normal buildup caused by daily condensate generation. ClearVue™ gives you the most improved, user-inspired features on the market.

What makes ClearVue™ Better?

- The ClearVue™ pump features Variable Speed and Lift which allows ClearVue™ to change pump speed and lift based on condensate flow. Other pumps are simply off or on but ClearVue™ starts pumping slowly, then gradually accelerates its lift if needed.
- Floatless Sensor™ technology means more reliable operation and no problems from stuck or fouled mechanical floats. ClearVue's Floatless Sensor™ detects the condensate level without a float for reliable, accurate operation. ***No float, no problems.***
- World's only self-cleaning condensate pump. ClearVue™ features a unique self-cleaning mode to maintain itself and help help keep drain lines clear. Also, if ClearVue™ senses a blockage, it will begin self-cleaning and pulse the condensate water to try to remove the blockage.
- ClearVue™ also offers a clear tank that allows the user to see what's happening inside. This means faster and more accurate troubleshooting.

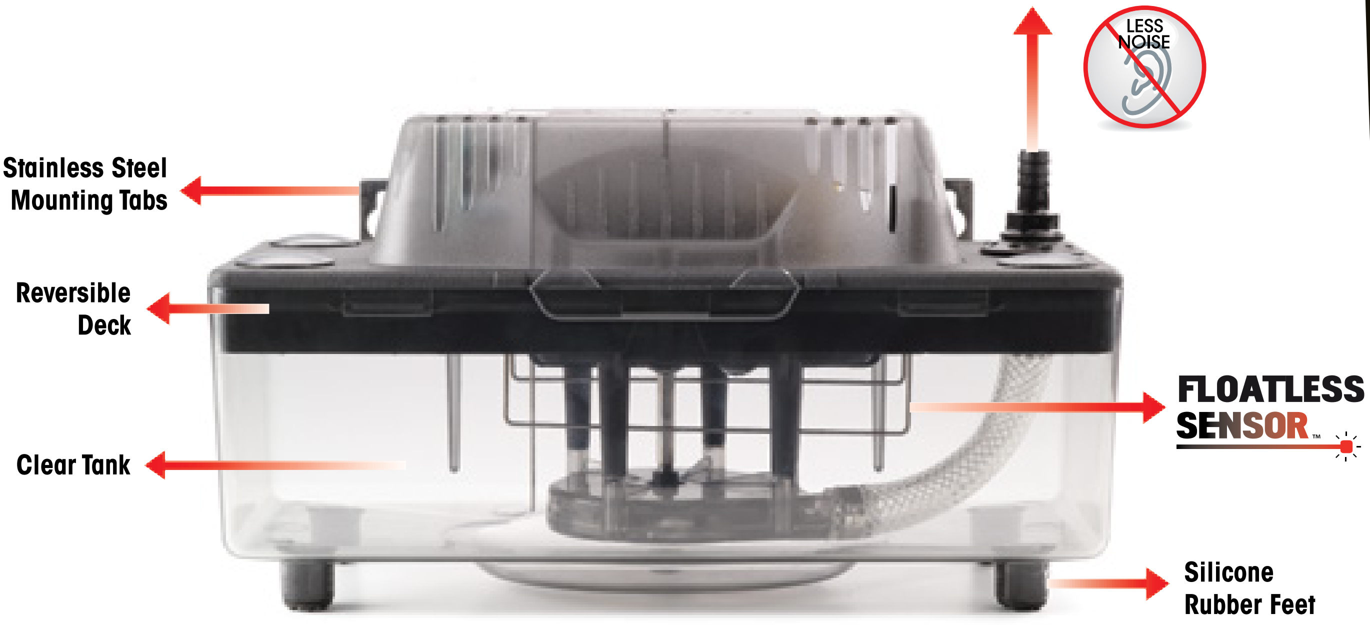
Clear Vue PUMP
FLOATLESS SENSOR

FLOATLESS SENSOR™

ClearVue PUMP™

0-22′
Variable Speed and Lift

Self-Cleaning



NO FLOAT, *NO* PROBLEMS

Floatless Sensor™ Technology

ClearVue's sensors tell it how high the water is in the tank and how fast the inflow is. It then adjusts pump speed and lift to keep the tank clear and the system running properly. *No float, no problems.*

Push to DRAIN Pump

Push Button Drain

Need to drain the tank quickly? Simply push the DRAIN button and ClearVue™ removes all the water in the tank—fast.

Clear Tank

ClearVue™ also offers a clear tank so you can easily see what's happening inside the tank. The clear tank makes it easy to see the water level and diagnose other issues if needed.

Check Valve

Removable duckbill check valve resists corrosion and wear and is self-cleaning.

Molded Silicone Rubber Feet

Specially designed rubber feet dampen vibration and noise, making ClearVue™ quiet and easy to live with. And like the feet on all DiversiTech pumps, they are installed at the factory and stay in place.

Stainless Steel Hang Tabs

Two stainless steel hanging tabs offer many installation options. The tabs are sturdy and durable and will last longer than standard plastic mounts.

LED Indicator Lights

4 LED indicator lights – Ready, Pumping, Cleaning, and Alarm. LED lights tell you what mode the pump is in at any given time.

ClearVue™ Mini Pump

ClearVue™ Mini is the newest innovation in Ductless System pumps from DiversiTech. It's small, quiet and offers a host of unique features that help it outperform other mini-split pumps. And just like the original ClearVue™ and ClearVueKube™ pumps, ClearVue™ Mini features Variable Speed and Lift and Floatless Sensor™ technology that help the pump think and respond to changing conditions.

clearvue mini
clearvue mini

Look at everything ClearVue™ Mini offers:

NO FLOAT, NO PROBLEMS

VARIABLE
SPEED
& LIFT

Variable Speed and Lift

ClearVue™ Mini determines how fast condensate is entering the tank and adjusts its speed and lift to match the conditions and keep the tank clear.

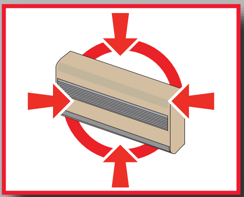
Floatless Sensor™ Technology

No float, no problem! That's what ClearVue™ Mini's Floatless Sensor™ will provide you and your customers. ClearVue™ Mini's Floatless Sensor™ eliminates many of the typical problems associated with conventional condensate pumps. By eliminating the float, ClearVue™ Mini won't fail like conventional float-switch pumps.

ClearVue™ Mini uses Floatless Sensor™ technology in different levels in the tank to provide the most accurate water level information to the pump's brain. And better information means a better pump. ClearVue's Floatless Sensor™ technology tells it how high the water is in the tank and how fast the inflow is. ClearVue™ Mini then uses this information to adjust its pump speed and lift to keep the tank clear and the system running properly.

Super Quiet

With Variable Speed and Lift ClearVue™ Mini is nearly inaudible. You literally can hardly hear the pump run. This quiet operation allows maximum installation flexibility, as you can place the pump right in the room where people are.



Flexible Installation

ClearVue™ Mini is compact — only 3-1/2" x 2" x 3". It fits almost anywhere including inside a line set cover, inside the wall cassette unit (on some cassette models), and easily installs in the ceiling or behind a wall. ClearVue™ Mini features suction lift of up to 6.5'.

Built-in Overflow Switch

ClearVue™ Mini also include a built-in overflow switch that shuts down the compressor in case of clogged line. This prevents damage to equipment or the environment.

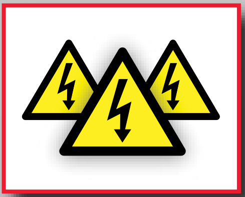
clearvue mini

Aluminum Pump Housing

ClearVue™ Mini features an aluminum housing that is built to last. This tough housing protects the pump from physical damage and helps contribute to the super quiet operation of the pump.

Rubber Mounting Pad

The molded rubber mounting pad can be used to mount ClearVue™ Mini to a vertical or horizontal surface; or to copper refrigerant lines with cable ties. The rubber pad decreases sound and vibration, contributing to a very quiet pump.



Multiple Voltages

ClearVue™ Mini can be powered with any voltage from 120 to 240V, 50 or 60 Hz. With one product suitable for multiple voltages, there is no need to stock separate SKUs for different voltages.

POWER
RUN
ALARM

LED Lights

ClearVue™ Mini features three LED indicator lights: Ready, Pumping, and Alarm. The LED lights tell you what mode the pump is in at any given time.

Separate Tank

ClearVue™ Mini features a separate tank that can be located away from pump if needed, providing a more flexible installation. This small tank fits inside most indoor cassettes.

EXTENDED
2 YEAR
WARRANTY

2 Year Warranty

ClearVue Mini includes an extended 2 year warranty.

SAVE INSTALLATION TIME WITH

CP-22 CONDENSATE PUMPS

- QUICK, EASY INSTALLATION
- HIGHEST LIFT: 22FT.
- SAFETY SWITCH
- AVAILABLE WITH TUBING
- LOW PROFILE MODELS AVAILABLE

DiversiTech Condensate Pumps

Metal Hang Tabs

Shatterproof metal hang tabs have hole-and-slot design for easy mounting. Tabs are located on convenient 8" centers.

Indicator Lights

Red, yellow, and green indicator lights show the pump status. Green for power applied, yellow for pump running, and red for high level alarm.

Overflow Safety Switch

1/4" quick connect terminals provide easy connection to the built-in overflow switch. Two terminals are provided allowing the installer flexibility to connect air handler shut-down. Switch features SPDT isolated contacts ready for connection to building automation systems.

Four Inlet Holes

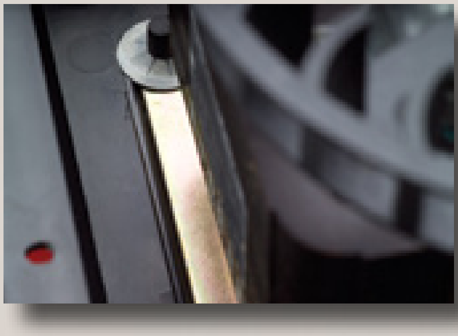
Four inlets versus two or three on other pumps provide the greatest installation versatility. Inlet holes have a reinforced wall for durability.

Rubber Feet

Rubber feet dampen vibration which reduces noise.

Check Valve

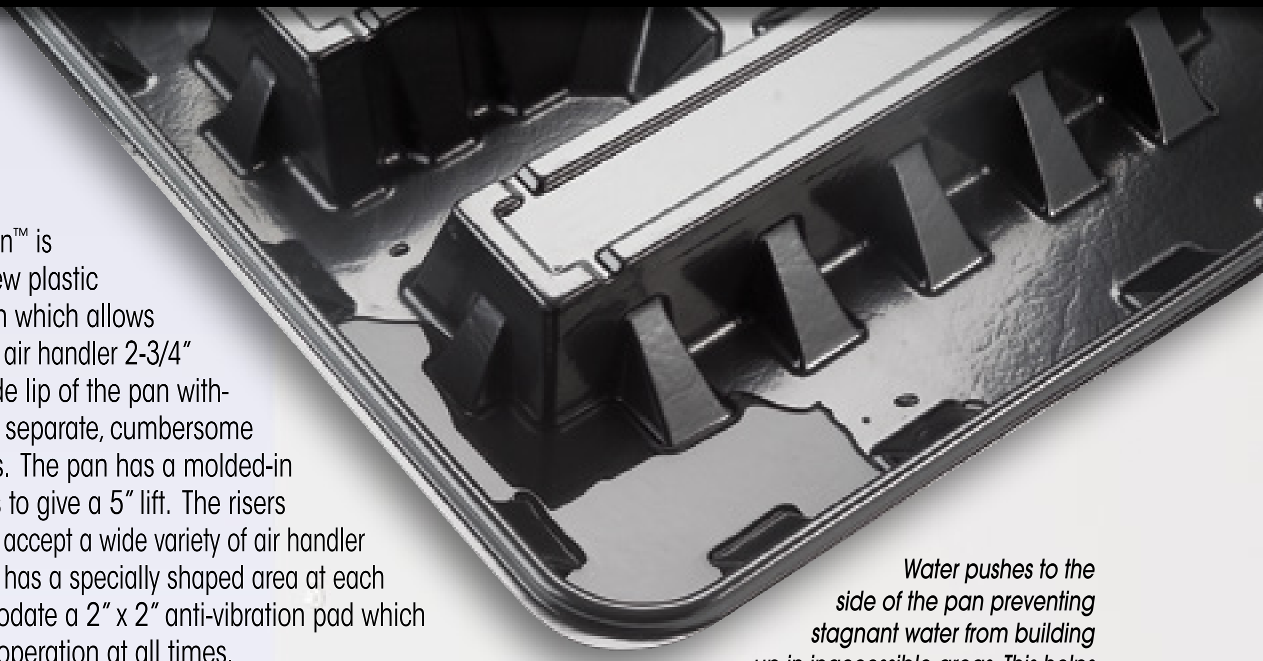
Removable check valve for easy cleaning.



Vibration Isolation

An elastomeric motor mounting gasket dampens vibration.

High Rise Pan™



The High Rise Pan™ is an innovative new plastic drain pan design which allows placement of an air handler 2-3/4″ above the outside lip of the pan without the need for separate, cumbersome mounting blocks. The pan has a molded-in network of risers to give a 5″ lift. The risers are positioned to accept a wide variety of air handler sizes. Each riser has a specially shaped area at each end to accommodate a 2″ x 2″ anti-vibration pad which allows for quiet operation at all times.

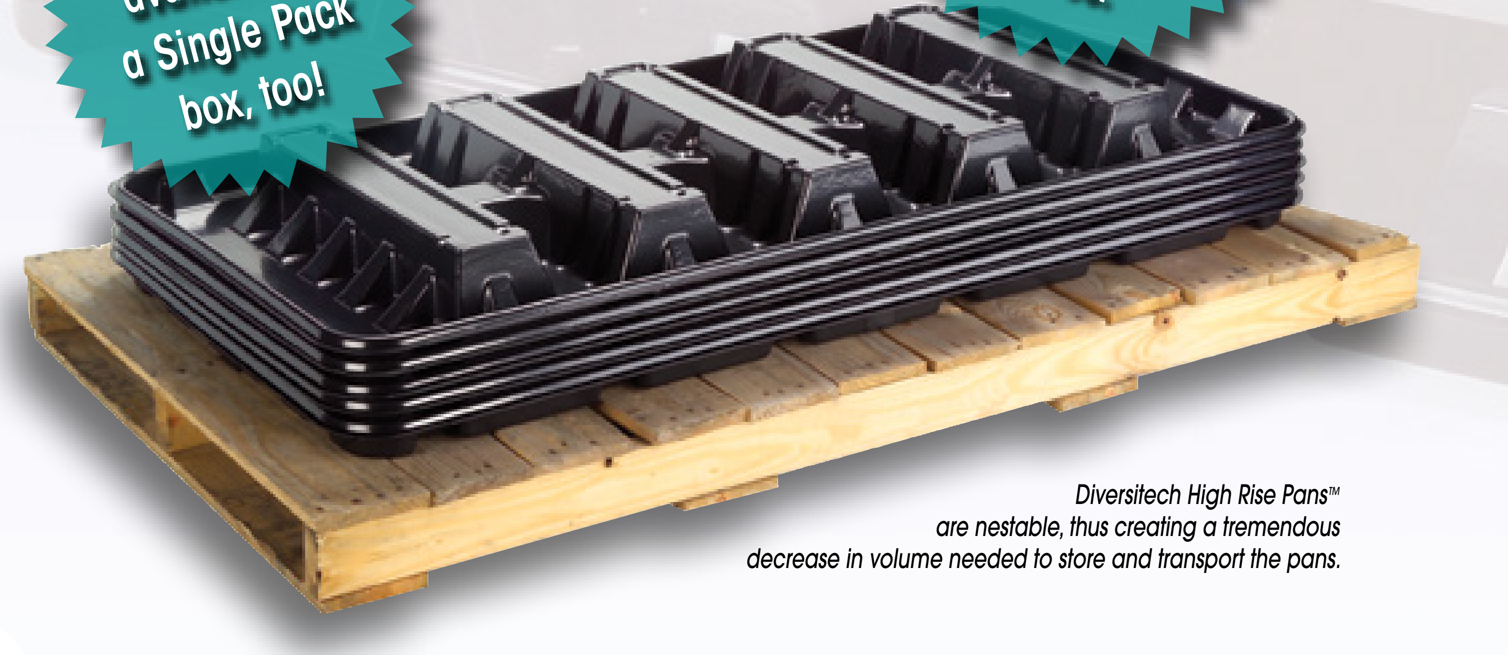
Water pushes to the side of the pan preventing stagnant water from building up in inaccessible areas. This helps prevent slime and algae accumulations, eliminating call backs due to foul smells.

Other features include heavy duty reinforcement throughout to give plenty of support as well as rolled edges for durability. One-piece plastic construction ensures no rust, leaks, or seams to split.

Each High Rise Pan™ comes complete with a Condensate Cop™ float switch, six E.V.A. anti-vibration pads, and one 3/4″ PVC male adapter. Installation is straightforward and hassle-free.

Nestable! High Rise Pans™ take up less space.

Now available in a Single Pack box, too!



Diversitech High Rise Pans™ are nestable, thus creating a tremendous decrease in volume needed to store and transport the pans.

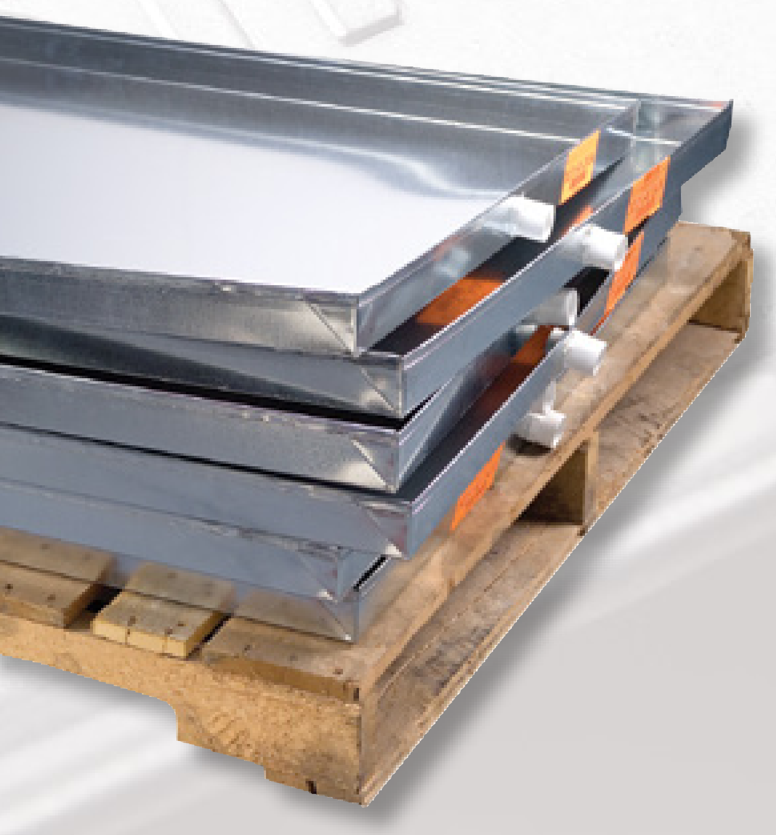
FEATURE	BENEFIT
Nestable	Because DiversiTech High Rise Pans™ are nestable, there is a tremendous decrease in volume needed to store and transport the pans.
Eliminates a single line vendor	Eliminating a vendor cuts distributor costs and saves warehouse and transportation costs.
Water pushes to the side of the pan	This prevents stagnant water in inaccessible areas which helps prevent slime and algae buildup, eliminating call backs because of smell.
Includes EVA™ pads	EVA™ pads increase the overall height of the unit which increases available drain line pitch. EVA™ pads also create better sound and vibration dampening for a quieter installation, meaning less call backs due to noise.
Standard anti-vibration pad	Uses a standard, easily available anti-vibration pad, eliminating the need to stock extra SKUs of anti-vibration pads. Competitor products use specialized grommets which are not commonly available.
Installation kit includes six EVA™ pads and Condensate Cop™ float switch	The universal CC-1 can be placed anywhere on the pan. It can also be used on other secondary drain pans (metal or plastic). You will never forget a part because you have a complete kit!
80% thicker than the standard drain pan	Stronger and more durable for job site installations; resists work place installation damage, minimizing the need to replace drain pans damaged at job site.
ABS construction/flexible material	Time-tested material has been used for 15 years in the market. Flexibility allows for easier fit in tight work places and a faster installation. You'll have peace of mind for long term performance.
Heat/cold resistance	Meets structural and temperature requirements for attic installations.
5" riser	5" riser gives additional height needed to assure proper drain line pitch. Stack EVA™ pads for additional height.
Heavy-duty reinforced construction	Gives support for a wider range of air handler applications, minimizing the need to replace drain pans damaged at the job site.

NOTE: Item numbers in **RED** indicate Made in the U.S.A.

Metal Drain Pan

DiversiTech introduces the ultimate in drain pan design - the seamless, nestable, metal drain pan with rolled edges.

FEATURES	BENEFITS
Seamless	The seamless design of DiversiTech metal drain pans virtually eliminates leaks from seams and folded corners found in conventional metal drain pans.
Nestable	Because DiversiTech drain pans are nestable, there is a tremendous decrease in volume needed to store and transport metal drain pans. A stack of seventy DiversiTech metal drain pans is only 12" high. Therefore, seventy DiversiTech pans fit in the same space as six conventional 2" deep non-nesting drain pans!
Single Piece Design	The DiversiTech metal drain pan is stamped from a single sheet of 26 gauge galvanized steel which prevents leaks.
Rolled Edge	The rolled edge virtually eliminates hand injuries during handling.
Two Outlets	Easy, flexible installation with an outlet on both the long and short side of the pan — no need to cut an outlet if you have the wrong pan on the job.
Fittings Included	Get everything you need for the installation of the pan in a single package. Fittings are included with DiversiTech metal drain pans.



A stack of 70 DiversiTech metal drain pans is only 12" high!

70 DiversiTech drain pans fit in the same space as 6 conventional 2" deep non-nesting drain pans!

PUSH TO TEST
TEST

Faster Install

Hinged Fast Lock Clamp
Hinged clamp bar self adjusts to angle of pan wall for a level switch. One-step installation with single screw fastener. Single screw fastens switch to pan – no drilling and no fussing with multiple thumb screws.

Works Everywhere

Universal Pan Mount
Easy twist to adjust to pan walls of 0, 8, 15 or 22 degrees. Fast, simple, easy, and level installation on metal or plastic pans for reliable moisture detection. Angled installation on other switches reduces their ability to detect condensate overflow.

CS1200 AC Shutoff Switch

The CS1200 Multi-Position AC Shutoff Switch from DiversiTech is a reliable, easy to use float switch that clips on to any pan size. Designed with contractor feedback in mind, the CS1200 features an adjustable housing that twists to match any pan angle for easy installation. The CS1200 detects water in the pan quickly and shuts off the equipment to prevent damage. The CS1200 also includes these great features:

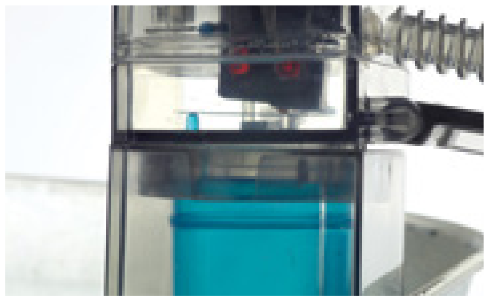
- Hinged fast lock clamp
- LED Indicator light
- Universal pan mount
- Large water openings for fast detection
- Push to test button
- Simple 2 wire installation
- 5 AMP switching, 24 Volt

LED Indicator Light

Easy to see visual trip indicator alarm displays red if switch is tripped. CS1200 is the only pan switch with a light for fast troubleshooting.

Push to Test

Know instantly with the push of a button that your switch is installed and functioning properly. The bright LED indicator visually confirms proper operation.



Reliable Mechanical Contact Float Switch

Trouble free design reduces overflow failures and call backs. All electronics are mounted above the waterline, eliminating the chance of malfunction. The one piece molded float protects switch from water and debris. This is the same design used for safety interlocks because it gives you years of reliable, maintenance free service.

10x Open Area

10 times more open area for water to enter the detection chamber with our large open area design. No detection failure from small holes that can get clogged. Prevents switch failure from clogged water holes. No call backs due to clogged switches.

Simple 2 Wire Installation

With a simple 2 wire connection, the CS1200 is simple, easy, and fast to install. No checking polarity, just connect the switch in the red or yellow wire. Simple well designed electrical connections using 6 feet of the standard 18AWG wire and high current (5 amp) switching. The CS1200 gives you everything you need in one simple switch.

Clear Design

CS1200 is the only pan switch with a clear design for fast troubleshooting. Clear design lets you see the float and switch. Know instantly that the switch is working and components are functioning.

PATENT PENDING

RECOGNIZED COMPONENT
ETL LISTED
Intertek

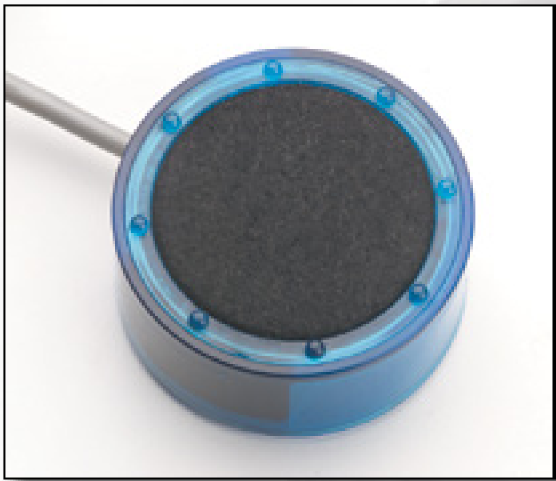
Wet Switch® Flood Detector

WHAT IS THE WET SWITCH®?

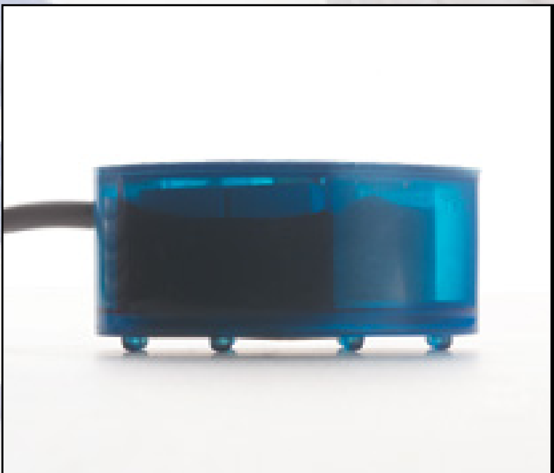
The Wet Switch® is a solid state device designed to detect the presence of condensate water overflow. The Wet Switch® is placed into the secondary drain pan — a normally dry pan. If the primary drain pan fails, condensate water will overflow into the secondary drain pan. Upon sensing moisture, the Wet Switch® will turn the system off (typically the cause of the condensing water) to help prevent damage to carpets, walls, woodwork, ceilings, and other property.

- Hydrophilic Pad
- Integral Feet
- Stainless Steel Sensor Array
- Solid State Electronics
- Epoxy Encapsulated Electronics
- Double Throw Relay
- Standard 24VAC control
- Multiple Unit Connectivity

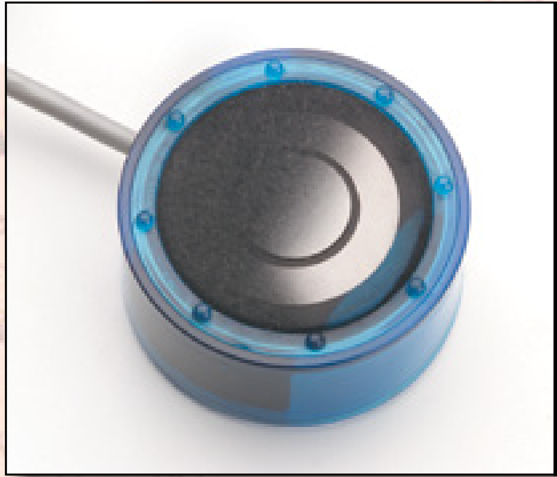
The Wet Switch® is designed to interrupt the operation of cooling systems. However, it is a water activated switch and can be used in a variety of other applications.



HYDROPHILIC PAD



INTEGRAL FEET



STAINLESS STEEL SENSORS

HYDROPHILIC PAD

A high tech polymeric fiber quickly draws water into the sensor array using proven capillary technology.

INTEGRAL FEET

Integral feet raise the hydrophilic pad and sensor array off the drain pan slightly to prevent nuisance tripping and pan corrosion (metal pans only) from interfering with the sensor array.

STAINLESS STEEL SENSOR ARRAY

A high tech array of multiple stainless steel sensors detects even a minimal amount of water drawn into the hydrophilic pad.

COMPACT PACKAGE

This technology is packed into a 3-5/8″ diameter by 1-1/4″ high cylinder. Furnished complete with 5-conductor 22AWG stranded cable, 6′ long.

DOUBLE THROW RELAY

Allows for wiring to interrupt system and to sound an alarm (by others) when moisture is detected.

SOLID STATE ELECTRONICS

Proven electronics prevent mechanical failure in an aggressive operating environment.

MULTIPLE UNIT CONNECTIVITY

Multiple unit connectivity allows for multiple Wet Switches to be connected in series to adequately cover large drain pan areas.

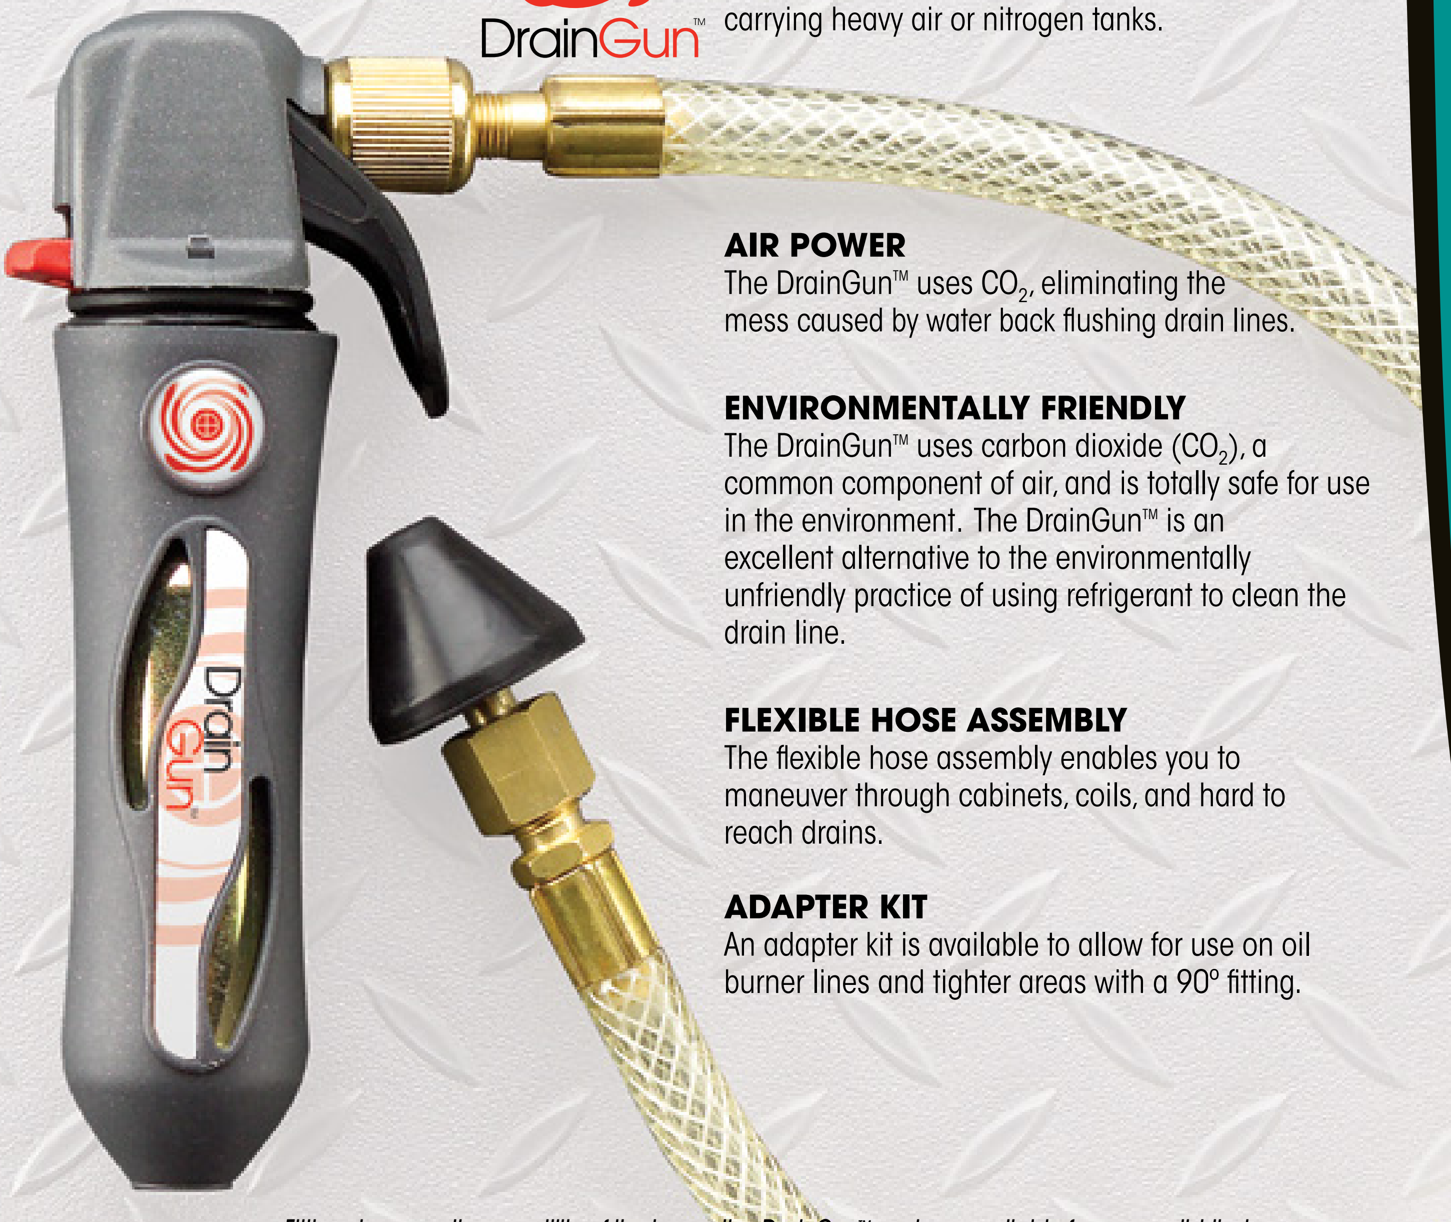
DrainGun™

The DrainGun is a lightweight (3 oz.) portable tool designed to blow out condensate drain lines instantly. Simply insert a Swoosh CO_2 cartridge into the Charles Gallo DrainGun and with a press of the trigger - SWOOSH - 800 psi of oil free air clears the line.

INSTRUCTIONS:

- Unscrew cup and insert cartridge with the narrow end up.
- Without depressing the trigger, screw the cup slowly into the head until the cartridge contacts the puncture pin.
- Quickly and firmly screw the unit together to puncture and seal the cartridge in the same motion.
  Note: Not completely screwing the unit together may result in escaping gas.
- Release the red safety catch.
- Depress the trigger to discharge the Swoosh CO_2 cartridge. For condensate drains, a quick and full discharge is best.

The DrainGun™ is for use with condensate drain and oil burner lines only.



SMALL AND LIGHTWEIGHT

The DrainGun™ packs cleaning power into a small, lightweight package. This prevents the need for carrying heavy air or nitrogen tanks.

AIR POWER

The DrainGun™ uses CO_2, eliminating the mess caused by water back flushing drain lines.

ENVIRONMENTALLY FRIENDLY

The DrainGun™ uses carbon dioxide (CO_2), a common component of air, and is totally safe for use in the environment. The DrainGun™ is an excellent alternative to the environmentally unfriendly practice of using refrigerant to clean the drain line.

FLEXIBLE HOSE ASSEMBLY

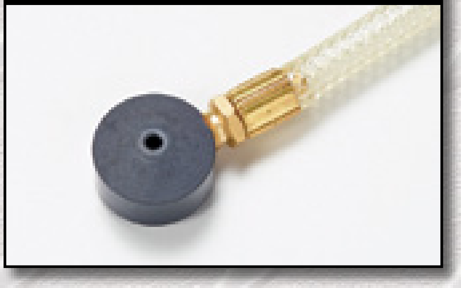
The flexible hose assembly enables you to maneuver through cabinets, coils, and hard to reach drains.

ADAPTER KIT

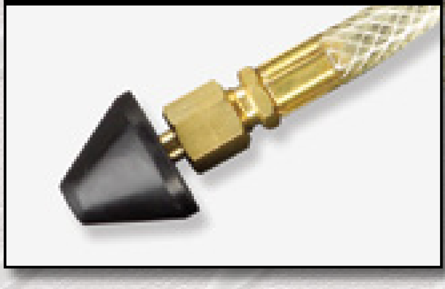
An adapter kit is available to allow for use on oil burner lines and tighter areas with a 90° fitting.

Fittings increase the versatility of the innovative DrainGun™ and are available from your distributor.

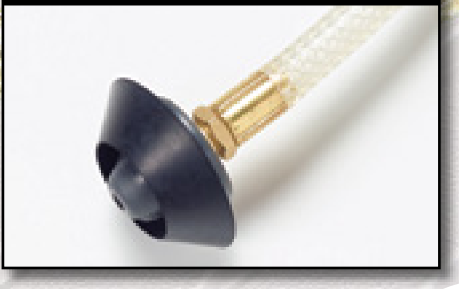
90° FITTING FOR TIGHT AREAS



FITTING FOR OIL BURNER LINES



FITTING FOR LARGER DRAINS



Condensate Drain Line Cleaners

DiversiTech offers a family of products designed to help make condensate drain line cleaning faster and easier. From the super lightweight handheld DrainGun™ to the full power of the DrainDawg®, DiversiTech has the right solution for every need. These products also have multiple other uses including operating air power tools, purging and testing copper tubing and more.

- Includes inflatable DrainDawg™ fitting to clear lines fast

A/C Easy Tee®

The A/C Easy Tee® from DiversiTech is the easy way to unclog and clean drain lines in just seconds. It installs quickly and provides permanent, fast access for routine drain line maintenance. And with the Service Tool Kit adapters you can use water or compressed gas to quickly clean out the lines to maintain proper flow. Ideal for both commercial and residential systems.

Do not exceed 30psi
ACEasyTee.com
DiversiTech
A/C Easy Tee®

Make your service calls faster and simpler with the A/C Easy Tee®.

Flexible to Use

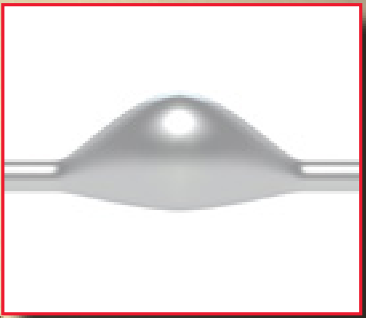
The A/C Easy Tee® can be installed in many different ways. There is no designated inlet or outlet. Both connections can be either. The Service Tool Kit allows the technician to close off backflow creating full discharge of water or nitrogen to clean out the drain line. It can also be used with a wet/dry vac to suction dirt, debris, and gunk out of a primary drain pan.

Code Required

A Service Port – also called a Cleanout – is required by code (IMC - SECTION 307.2.5, IRC-SECTION M1411.3.3). Don't get your jobs red tagged by code inspectors. Install an A/C Easy Tee®.

Simple Design

The A/C Easy Tee® Service Port is a compact, simple design with no moving parts. Small, fiddly parts can and will fail. The A/C Easy Tee® has a simple cap that screws off for easy access to the condensate drain line.



No Drainage Block

Featuring a simple, easy design without flappers or ball valves like other products. Flappers and ball valves can fail or be left closed in the drain line.

ClearVue™ Pump

IQP-120

No Float, No Problems! ClearVue's Variable Speed and Lift and Floatless Sensor™ make this the most advanced condensate pump ever. This new pump can provide up to 22′ of lift if needed. ClearVue™ runs at the minimum speed needed, saving wear on the pump. The pump selects the lowest effective speed, making it quieter than a regular pump. Its unique self cleaning feature senses problems and automatically enters a self cleaning mode using condensate water to fix the issue. The ClearVue™ pump features a clear bottom tank to easily check the water level. Other features include: stainless steel mounting tabs, silicone rubber feet, reversible deck, four inlet holes, and LED indicator lights. ETL Listed File Number 3190890

FP-22 Furnace Pump

NEW!

FP-22

The FP-22 Furnace Pump is a full featured condensate pump designed for condensing furnaces and other hot water applications. It handles hot condensate water up to 190 degrees F. Other features include 22′ lift, built-in P traps, steam resistant electronics, and a super tough tank. Available in 120 and 230V models.

CP-22 Pumps

CP-22

Suitable for use with condensate from HVAC equipment which produce condensate. 22′ of lift compared to the typical 20′. Features include vibration dampening feet and motor mounts, metal hang tabs, four inlet holes, a clear indicator display, a float switch and check valve. Integrating the CP-22 into your system is easy. 1/4″ quick connect terminals provide easy connection to the built in overflow switch. 2 terminals are provided allowing flexibility to connect air handler shut down. UL Listed File Numbers E253155 and E258186.

CONDENSATE DRAIN LINE SWITCHES

PAN MOUNTED SWITCHES

Wet Switch® Flood Detector

WS-1

A solid state control designed to help prevent flooding, damage to carpets, walls, furniture, ceilings, etc. Now has a built in test and reset button for easier installation. Turns system off when detecting moisture due to condensate or drain leaks. One or two drops will cause Wet Switch® to turn off a unit, alerting a serviceman to a moisture problem. A lit LED indicates the Wet Switch® is activated and has turned the unit off. Reset simply by drying the absorbent pad with a paper towel and pressing the reset switch. Connects to 24 VAC. More than one unit may be connected to a system. 2 amp contact rating. Simple 5 wire installation. Sales displays available. ETL Listed File Number 3146992. UL508 Approved.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
WS-1	Wet Switch® Flood Detector	EA	1

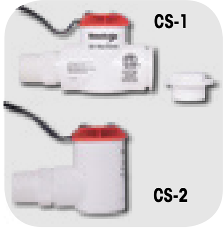
CS1200 AC Shutoff Switch

CS1200

The CS1200 is a fast installing, reliable, condensate overflow detection pan switch. Featuring a unique universal pan mount design to assure accurate detection in metal or plastic secondary drain pans. UL508 Approved.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CS1200	CS1200 AC Shutoff Switch	EA	12

Pipe Mounted Switches



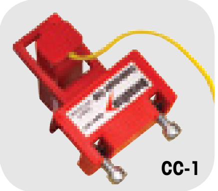
CS-1

CS-2

DiversiTech condensate overflow prevention switches for primary or auxiliary lines are smalll, simple to install and easy to service reed switch technology. Both are signed designed with a pull-to-test lever to validate installation. As water level in the auxiliary or main drain pipe rises due to a clogged condensate drain line, the switch shuts off the system - thus preventing water from overflowing and causing damage to doors, walls and ceilings. A red LED illuminating light notifies a homeowner/service technician that the switch has triggered. At the heart of the switch is a durable yet precise magnetic reed switch. Constructed of materials that will not rust or stick, both switches are plenum rated, conforming to UL2043 and are UL508 approved.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CS-1	Condensate Switch – Tee	EA	12
CS-2	Condensate Switch – Elbow	EA	12

Condensate Cop™



CC-1

Condensate Cop™ is a unique clamp on float switch intended for HVAC drain pan installation. The Condensate Cop™ features a large over clamping area that fits easily over the edge of all types of drain pans; including formed plastic and galvanized sheet metal. A separate float/probe assembly swivels to accommodate drain pans having sloped sides. The swivel action allows the installer to position the float switch for best operation and then clamp it into place. The probe features an inlet grill which prevents the float from being blocked or damaged by insulation or other debris. Sealed inside the probe is a magnetically actuated normally closed switch. The switch opens when rising water presents a potential flooding condition. Two wire connection for easy hook up to a thermostat "Y" (compressor) circuit. Provided complete with 5' (1.5 meter) leads, wire nuts, and clamping screws. Small size, 24V/1.5 amp NC reed switch. ETL Listed File Number 3166285. UL508 Approved.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE

Universal Alarm

UA-1

A universal low voltage alarm that can indicate possible system trouble. Use with the Wet Switch®, SOS, Condensate Cop, CP 22 (all types) and all float switches on 24VAC control circuits. If an alarm condition exists, the homeowner can turn the alarm off with a "silence" button until service is obtained, however a red trouble LED will remain lit. Also features: easy 2 wire connection, label to print contractor information, and low current draw. Actuates at greater than 18V to prevent any false alarms due to low voltage.Includes 2 wire nuts, a sheet metal screw, and double sided tape for convenient installation options. Also includes instructions for wiring normally open switch systems (for the CP 22 or other condensate pumps).

CONDENSATE DRAIN LINE CLEANING

DrainGun™ - SWOOSH CO_2 Cartridges

Clears condensate drains with a SWOOSH! A lightweight (3 oz.) portable tool designed to blow out drain lines instantly. New larger SWOOSH CO_2 cartridges now deliver 800 PSI of oil free air to clear the line. Each unit comes equipped with a tapered fitting to work on 3/8 in. – 3/4 in. drain openings. Flexible hose assembly maneuvers through cabinets, coils and hard to reach drains. Cartridges are environmentally safe and recyclable. No need for air or nitrogen tanks. Reduces labor costs and time on service calls.

High Rise Pans™

The High Rise Pan™ is an innovative new plastic drain pan design which allows placement of an air handler 2 3/4in. above the outside lip of the pan without the need for separate, cumbersome mounting blocks. The pan has a molded in network of risers to give a 5in. lift. The risers are positioned to accept a wide variety of air handler sizes. Each riser has a specially shaped area at each end to accommodate a 2in. x 2in. anti vibration pad which allows for quiet operation at all times. Other features include heavy duty reinforcement throughout to give plenty of support as well as rolled edges for durability. One piece plastic construction ensures no rust, leaks, or seams to split. Each High Rise Pan™ comes complete with a Condensate Cop™ float switch, 6 EVA™ anti vibration pads, and 1 3/4in. PVC male adapter. Installation is straightforward and hassle free.

Condensate Drain Pans

When a mini split system operates in heat pump mode, the outdoor coil becomes the evaporator coil. Typically, condensation generates from the evaporator coil. In certain installations, the condenser coil may be mounted overhead on brackets affixed to a wall. In these overhead applications, dripping condensation may be a nuisance. Condensate drain pans bolt onto the condenser mounting brackets, and the drain line can be plumbed to a nearby drain location. Furnished complete with all mounting hardware and drain pan outlet, condensate drain pans are available in either plastic or powder coated steel.

230-DL16-20	5/8" ID Mini-Split Drain Line – 20' section	EA	1

Gorilla Tube® Clear Vinyl Tubing

Applications include: air conditioning and refrigeration condensate drains, condensate pump discharge lines, and humidifier overflows.

Several sizes from 1/4" to 1" diameter. Non-toxic clear vinyl chloride.

Select Gorilla Tube® over standard clear vinyl tube because:

- Extra rigid design resists crimping and kinking due to durometer value of 80 (Shore A) and thicker wall
- Maximum service temperature 140°F (60°C)
- Better performance in cold weather climates.

Gorilla Tube

AEROSOLS

Sure-Stick Heavy Duty Adhesive Spray

Wide web spray adhesive ideal for both temporary or permanent bonding. Waterproof, transparent and non¬staining. Use for the toughest adhesive applications with leather, cardboard, most plastics, polyethylene sheeting and insulation in HVAC applications. Cleans with mineral spirits. Not for use on vinyl.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
315-20	Sure-Stick Adhesive Spray – 12 oz. Aerosol	EA	12

Sweat-Free Pipe Insulation Spray

An aerosol spray on insulation specifically developed for cold water pipes, refrigeration and air conditioning lines. Stops sweating and dripping problems. Dries to a clean, white, flexible and water resistant coating. Adheres to galvanized, black iron, steel, brass, copper and PVC piping.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
770-15	Sweat-Free Pipe Insulation – 15 oz. Aerosol	EA	12

CBC II Contact Cleaner

A plastic safe, non flammable electronic contact and circuit board cleaner. Dries fast, leaves no residue. No harsh fumes or odors.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
362-16	CBC II Contact Cleaner – 10 oz. Aerosol	EA	12

Glass Cleaner

A foaming premium glass cleaner that powers through the toughest grease and grime on any glass or hard surface. Leaves a streak-free shine.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
325-12	Glass Cleaner – 19 oz. Aerosol	EA	12

NOTE: Item numbers in **RED** indicate Made in the U.S.A.

BATTERIES BY RAYOVAC®

Rayovac® is the Industrial Product Leader! Rayovac® is the leader in the industrial battery market and has been for years, with an estimated 50% share of the traditional industrial distribution channel. Rayovac® introduced the top-selling industrial flashlight to the market, and set the quality standard by which all other industrial flashlights are measured today. Whether your customer is searching for a toolbox-tough flashlight or high-performance batteries, Rayovac® offers a broad range of products to meet your needs.

Rayovac® Industrial Maximum Alkaline Batteries – Shrink Packed

7-ALAA

- Same battery performance as the Contractor Packs at a lower cost
- Formulated specifically to exceed the everyday demands of industrial applications
- Outstanding dependability for "must work" applications

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE

CONTACT CLEANERS

HF™ Contact Cleaner

CRC-4-140

A petroleum distillate based precision cleaner with a flash point of 205ºF. It can be an alternative to CFCs when applications require higher flashpoints.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-4-140	HF™ Contact Cleaner – 11 oz.	EA	12

QD® Contact Cleaner

CRC-4CF

This contact cleaner is suitable for cleaning sensitive electronics and electrical equipment and does not leave any residue. It evaporates quickly and is safe to use on all plastics. This product is more useful where lower flashpoint cleaners are acceptable. The QD® Contact Cleaner is NSF K2 Registered.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-4CF	QD® Contact Cleaner – 11 oz.	EA	12

CONTACT CLEANERS cont'd

Electronic Degreaser

This Advanced Technology Formula is non-chlorinated, non-conductive, non-corrosive and non-staining. It rapidly dissolves grease, oil and sludge for better efficiency of mechanical equipment. The Electronic Degreaser has no flash or fire point.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-4NU	Electronic Degreaser – 15 oz.	EA	12

DEGREASERS

Heavy Duty Degreaser

This degreaser rapidly and effectively removes grease, oil, tar, and other residue to increase operating efficiency of equipment. It has no flash or fire point, making it an excellent alternative to 1,1,1-based cleaners. Please use caution on plastics.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-7X	Heavy Duty Degreaser – 19 oz.	EA	12

Chlor-Free® Degreaser

Non-chlorinated degreasing solvent which is used to remove oil, grease and other contaminants. It is especially useful for applications requiring a quick turnaround and where a low flashpoint solvent can be used.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-7Z	Chlor-Free® Degreaser – 14 oz.	EA	12

Heavy Duty Degreaser II

The Heavy Duty Degreaser II is a non-chlorinated, zero VOC formula for cleaning where chlorinated solvents are prohibited. It has a high flashpoint of 180°F. This degreaser effectively removes soils with no residue build-up. Please exercise caution on plastics.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-7-140	Heavy Duty Degreaser II – 15 oz.	EA	12

Citrus Degreaser

The Citrus Degreaser has a new Low VOC Formula. The product removes grease, oil and lubricants with no water wash-off. It evaporates quickly and leaves no residue. The product gives off a pleasant citrus scent and is NSF C1 Registered.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-7PS	Citrus Degreaser – 15 oz.	EA	12

DROP CLOTHS

Canvas Drop Cloths

Premium grade canvas drop cloths are made of first quality and full piece 100% cotton duck canvas fabric. The industrial grade canvas fabric is durable since it is tightly woven using virgin cotton yarn. The drop cloths are washable and reusable. Double stitched seams with heavy-duty rot resistant thread.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
DC-4128	Canvas Drop Cloth - 4' x 12'	EA	1
DC-9128	Canvas Drop Cloth - 9' x 12'	EA	1

HAND CLEANERS

Fast Orange® Hand Cleaner

Three out of five people prefer Fast Orange® over other hand cleaners. The first biodegradable, waterless hand cleaner with aloe, lanolin, and jojoba. Smooth lotion and extra-fine pumice available. USDA Approved.

LUBRICANTS

Knock'er Loose® Penetrating Solvent

An industrial strength, low viscosity penetrant designed to rapidly loosen and free seized, bound or frozen fasteners. This product also quickly permeates rust, scale, gum, grease and corrosion. Independent tests reveal that it outperforms its competition.

CRC-1KB

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-1KB	Knock'er Loose® Penetrating Solvent – 13 oz.	EA	12

Screwloose® Industrial Penetrating Oil

A no compromise penetrant that attacks corrosion to free corroded fasteners and mechanical components. A super fast, powerful, concentrated penetrating solvent that loosens rust scale and corrosion and instantly penetrates minute and tightly fitted crevices.

CRC-8

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-8	Screwloose® Industrial Penetrating Oil – 11 oz.	EA	12

White Lithium Grease

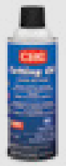
White Lithium Grease has superior lubrication and durability in any weather or temperature. It is useful as a break in lubricant for bearings or as a general purpose lubricant and corrosion inhibitor for tools, machinery and equipment.

CRC-9

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-9	White Lithium Grease – 10 oz.	EA	12

Cutting Oil

Cutting Oil is a superior thread cutting lubricant for use on all types of metals, including brass, copper and aluminum. For use on ferrous and non-ferrous metals. Clings to vertical surfaces for improved performance.



CRC-CF2

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-CF2	Cutting Oil - 16 oz. aerosol	EA	1

3-36® Multi-Purpose Lubricant & Corrosion Inhibitor

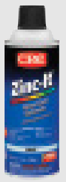
A multi-purpose petroleum based compound that forms a clear, thin film that lubricates and protects against wear and corrosion. The product also displaces moisture and cleans.

CRC-2

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CRC-2	3-36® Multi-Purpose Lubricant & Corrosion Inhibitor – 11 oz.	EA	12

Zinc-It® Instant Cold Galvanize™ Zinc Rich Galvanize Coating

High-performance zinc coating that electrochemically bonds with ferrous metals to form a galvanic cell. The product also fights rust and corrosion and can be used as a touch-up for damaged galvanized coatings. Zinc-It® Instant Cold Galvanize™ Zinc Rich Galvanize Coating dries quickly.



CRC-5

SEALANT, EPOXY, GLUE

Thread Sealant with PTFE

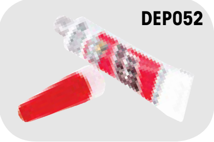
General purpose sealant with the lubricity of PTFE for metal pipes. Won't shred like PTFE Tape. Allows easy disassembly. Resists common shop fluids. 60° to 400°F temp. resistance. Pressure resistance of 5000 PSI.

7-80632

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
7-80632	Thread Sealant – 1/4 Pint Brush Can	EA	12
7-80633	Thread Sealant – 1 Pint Brush Can., 12 per pack	EA	12

Super Glue

This adhesive can be used on dirty, greasy surfaces and the medium viscosity penetrates into preassembled and close fitting parts. It can be used on aluminum, metal, rubber, and most plastics for most tough jobs.

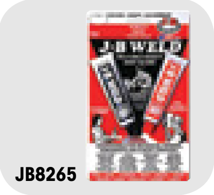


DEP052

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
DEP052	Super Glue – 2 Gram Tube	EA	12

J-B Weld

The world's finest cold-weld compound for use when welding or soldering is out of the question due to cost, down time for repairs, or technical or environmental considerations. A remarkably easy, convenient, and inexpensive alternative to welding, soldering, and brazing. Literally pennies per use.



JB8265

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
JB8265	J-B Weld 2 Part Epoxy	EA	6

Wagner Adhesive Sealant

For refrigerant sealing. Eliminates fastener loosening, leakage, and corrosion. Cures between thread flanks to seal against leakage and prevents thread corrosion. Offers sealing with maximum solvent resistance to the action of refrigerant (11, 12 and 22), ammonia and sulfur dioxide. Withstands corrosive liquids used in metal finishings and process industries. Ideal sealant for refrigeration, A/C, and process equipment using corrosive chemicals.

CAS-2712

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CAS-2712	Wagner Adhesive Sealant – 0.34 fl. oz.	EA	12

Fast Cure Epoxy

An easy-to-use, two part putty you simply mix and mold like clay. No complicated weighing or measuring required. Easy 1:1 cut-what-you-need mix ratio. Form it into any shape. It hardens in one hour and makes a final, steel-hard cure in 12 hours and can be sanded, drilled, machined, sawed and painted. Use on metal, wood, brick, stone, concrete, fiberglass, porcelain, tile and mot plastics. Cures under water. 1.0 lb.

DEP8001

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
DEP8001	Gray Epoxy Putty – 1 lb. Kit	EA	24
DEP8002	White Epoxy Putty – 1 lb. Kit	EA	24

SEALING COMPOUNDS, ADHESIVE

Flexi-Patch™

Flexi-Patch™ is an easy to use flexible repair patch ideal for repairing almost any surface. It cures quickly using only UV light from sunlight or a UV flashlight for a long lasting, permanent repair. Flexi-Patch is a fiberglass-reinforced polyester ideal for use on PVC, plastics, metal, wood, concrete and more. It's the easy way to permanently patch almost any surface. It dries hard for permanent repair. Can be drilled, tapped and painted once dry.

FP-36

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
FP-36	Flexi-Patch fiberglass patch	EA	20

Foam Sealant – One Component

One component closed-cell expanding polyurethane foam sealant for lineal caulking applications. Air-moisture cure. Tack free in 20 minutes; fully cured in 12 hours. Paintable. Use for insulating and sealing around windows, doors, pipes, ducts and vents. Non-toxic when cured. Paint to protect from UV exposure. "R" value 4.7 (1" thickness). Foam contains fire retarding chemical and is U.L. Listed but not rated as a firestop product. Environmental concerns have led us to replace CFC's and HCFC's with hydrocarbon material in our one component foam products. See instructions on each product to ensure safe use and quality results.

01714

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
01714	Foam Sealant – 12 oz. Can – Yields 275' (3/8" bead)	EA	12
01724	Foam Sealant – 20 oz. Can – Yields 460' (3/8" bead)	EA	12

Foam Sealant – Two Component

10012

Two component closed-cell expanding polyurethane foam sealant for cavity filling, surface coating and insulation applications. Rapid chemical cure (Component A and Component B). Tack free in 2 minutes, fully cured in 20 minutes. Use for insulation repairs in refrigerated enclosures. Spray coat and insulate tanks, pipes, tubs and panels. Non-toxic when cured. Paint to protect from UV exposure. "R" value 5 (1" thickness). Kits include dispensing nozzles, hose and flow control mechanism. Foam contains fire retarding chemicals and is U.L. Listed but is not rated as a firestop product.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
10012	Foam – 2 Kit – 15 bd. ft. Kit – Yields 1 cu. ft.	EA	12

Firestop Products for Class A Buildings

16491

U.L. Classified. Code Approved. Seal penetrations of plumbing, refrigeration and AC lines, ducts, vents and electrical cable through fire-rated floors, walls and ceilings. Easy-to-use, non-shrinking, non-toxic and permanently flexible. Blocks fire, gas, smoke, air and water migration. Use ceramic fiber filler together with putty or caulk for thick penetrations. Technical bulletins available.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
16491	Firestop Caulk – Red – 10.3 fl. oz. cartridge	EA	12

Caulk Gun

Caulk guns can be used to hold the sealant to seal duct work.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
7-100	Caulk Gun – Super Ratchet Type	EA	12
7-200	Caulk Gun – Standard Duty	EA	1

High Temp Red Silicone Sealant

7-4300

A one part non-slumping paste that cures to a tough, rubbery solid at room temperature. Formulated to perform at temperatures ranging from -85°F to 500°F for continuous operation, and to 600°F for intermittent exposure. Tack free cure time – 15 minutes. Full cure time – 24 hours.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
7-4300	High Temp Red Silicone Sealant – 10.1 oz. Cartridge	EA	12

Geocel Caulking Sealant

18001

Exceptional bonding and sealing caulk for interior and exterior applications involving seams, joints, ductwork, flashing and any similar use. Excellent adhesion to virtually any surface (metals, fiberglass, wood, concrete, brick and most plastics) even if moisture is present. Resealable, paintable, flexible. Will not crack, chip or peel. Specially formulated for the HVACR industry. Not available in California.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
18001	Clear Geocel Sealant – 10.3 oz. Cartridge	EA	24
18002	White Geocel Sealant – 10.3 oz. Cartridge	EA	24

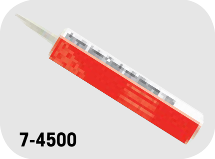
25 Year Acrylic Latex Painter's Caulk



7-4500

For both interior and exterior use. DiversiTech's 25 Year Acrylic Latex Painter's Caulk forms a tough, paintable resilient bond to all building material surfaces. Excellent resistance to water, weathering and moisture vapor.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
7-4500	White Acrylic Latex Caulk – 10.1 oz. Cartridge	EA	12
7-4400	Clear Acrylic Latex Caulk – 10.1 oz. Cartridge	EA	12

Pro-Air Industrial Grade Spray Adhesive

GP1-40BL

A clear, pressure sensitive aerosol adhesive with exceptional tack and shear strength characteristics. An excellent choice for most permanent adhesive applications: duct liner and wrap, sheet aluminum, fiberglass insulation board, and much more. The aerosol package offers a specially designed web spray pattern for even, controlled distribution. Flammability meets aerosol flame extension test requirements. Coverage is approximately 90-100 square feet per pound.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
GP1-40BL	Pro-Air Spray Adhesive – 38 lb. Disposable Cylinder	EA	1
GN-23H	Spray Gun	EA	1

Pro-Air Duct Sealant – UL 181 AM-BM Listed

800-009

800-008

Water-based fiber-reinforced duct sealant/mastic formulated for indoor/outdoor use. Meets U.L. Class 1 rating and local codes while featuring long term flexibility and strength. Use on metal heating, ventilating, and A/C duct systems; as well as fiberglass duct board systems and flex duct systems. Recommended for use to 10" of water column pressure without the need for fiberglass mesh reinforcement.

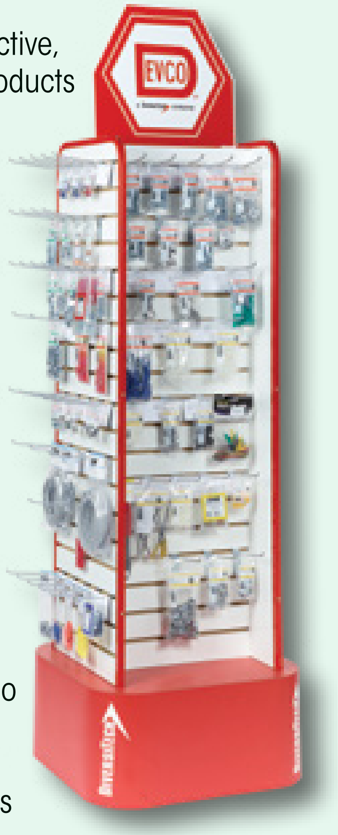
How to sell DEVCO® products

DEVCO® merchandising displays are an easy and attractive way to showcase a variety of DEVCO® products in your store. Offered in three different versions, each display rack includes everything you need to create extra sales for your business.

Easy to Display



DEVCO® provides turnkey merchandising solutions for wholesale distribution. Attractive, easy to set-up merchandising displays provide a great way to highlight DEVCO® products and make it easy for customers to find what they need. The point of sale display merchandises the products, enabling the distributor to add additional sales.

The products merchandised on the carousel are impulse buy items. The items are packed so they cost the contractor only a few dollars, and most are less than $10 each.

Easy to Profit

DEVCO® displays provide a typical distributor branch with easy add-on sales that build profits. Each display can generate significant sales and margins for the store while providing contractors with the parts they need to finish the job. These self-service displays are a great way to increase revenue with minimal effort.

The Perfect Plan

Each DEVCO® Merchandising display comes with a complete plan-o-gram to make merchandising it simple and fast. And there are three different versions available so you can choose the display that's right for your business and customers.

And when you purchase the DEVCO® products to fill it up, the merchandising rack is **loaned free of charge.**

Display Rack	Featured Products
EZC	Solderless terminals, ground connectors, fasteners, anchor kits, cable ties, washers, hex nuts, cable clamps, sheet metal screws and hose clamps
Electrical	Ground adaptors, outlets, boxes, bushings, cable connectors, extension rings, indicator lights, plugs and connectors, receptacles, reducing washers, toggle switches and hook up wire
Combo	Solderless terminals, insulated rings, ground adaptors, covers, reducing washers, plugs and connectors, hook up wire, fasteners, hex nuts and self drilling screws

6200HX	Flag Female Compressor Terminal Kit	EA	1

Flag Female Compressor Terminals

Also known as hermetic header terminals, these non-insulated terminals are designed with a larger distance between the "rolls" to allow for the rod in hermetic header applications. The increased distance allows the rod to slip in between them. Parts 6258 and 6259 are notched for bending. The notches are cut between the slip-on portion and the conductor barrel and enable the back of the slip-on portion to be folded against the conductor barrel after the wire connection is made. This terminal features insulation grip.

NOTE: Item numbers in **RED** indicate Made in the U.S.A.

A/C DISCONNECT FEATURES AND BENEFITS

1. Fuses install into pull-out handle
2. Line, load, and ground terminals aligned for easy hook up with heavy wires
3. Reversible side-opening door
4. Indicator lights for blown fuses
5. Full dead front
6. Folding pivot locking tab
7. Knockouts accommodate three sizes (1/2", 3/4", and 1")
8. Rear entry knockouts
9. Heavy gauge steel case
10. Standard 1/4" head screw on dead front
11. Large internal wiring space

FUSES INSTALL INTO PULL-OUT HANDLE

The DiversiTech disconnect switch is available in two versions – fusible and non-fusible. On the fusible configuration, the pull-out handle also functions as a removable fuse holder. This feature permits easy removal and replacement of fuses. Rather than requiring a fuse puller to reach inside the disconnect switch and remove the blown fuses, one can easily change the fuses with the fuse holder removed from the disconnect switch.

INDICATOR LIGHT FOR BLOWN FUSE

The fusible disconnect switch has an indicator light for fuse condition. When a fuse is blown, the red indicator light illuminates to show not only that a fuse is bad, but specifically, which fuse needs replacement. This feature provides rapid troubleshooting for the contractor inspecting an installation. One can tell instantly (visually) whether a fuse is bad.

MOUNTING AND INLINE WIRING

A unique feature to the DiversiTech disconnect switch is the design of wiring terminals inline. This straight-line arrangement provides for quick and easy wire connection — no need to cut the connection wires to different lengths. All wires are easily installed without unnecessary bending or twisting.

REVERSIBLE SIDE OPENING DOOR

The unique reversible side opening door provides for easy field change from left-hand hinge to right-hand hinge. The standard left-hand hinge is adequate for most all installations except for tight, inside, right-hand corners. In these instances, simply remove the two stainless steel hinge clips and move them to the right-hand side. This permits the door to hinge on the right.

Fractional Horsepower Motors

FEATURES AND BENEFITS

Condenser Fan
208-230
WAGNER MOTORS

COLOR PACKAGING

Bright, colorful, easy to read packaging removes confusion about motors. The distributor can easily identify the stock of motors on the shelf. The application, voltage, and horsepower of a motor are visible at a glance.

Condenser Fan
WAGNER MOTORS

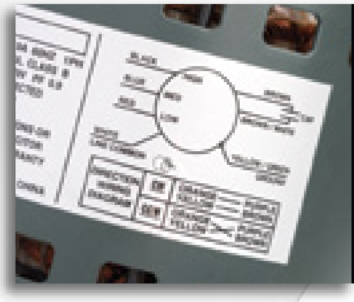
CARTON HANDLE

The motor carton has been designed with an innovative handle to make the motors much easier to carry.

1075/1
2.2
5
er Fan
208-230

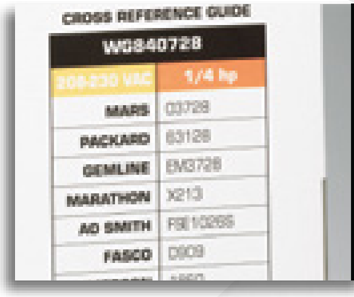
CAPACITOR SIZE

The appropriate size 370 VAC run capacitor is noted on every motor carton.



LARGER DIAGRAM

An extra large wiring diagram is supplied on the motor itself, on the motor carton, and also in the installation and safety instruction sheet. This large wiring diagram makes it very easy to read.



CROSS REFERENCE GUIDE

WG840728	
208-230 VAC	1/4 hp
MARS	03728
PACKARD	63128
GEMLINE	EM3728
MARATHON	X213
AO SMITH	FSE1026S
FASCO	D909

CROSS REFERENCE

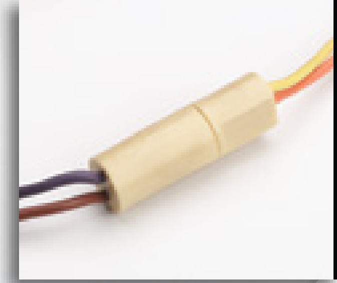
For your convenience, Wagner provides a complete manufacturer cross-reference on the side of every motor carton.

EXTENDED BOLTS

Extended mounting bolts provide for easier installation in cramped spaces. With the longer bolts, the installer is able to more easily start the threaded mounting nut.

BALL BEARINGS

Ball bearing design improves motor performance and reliability. It also increases heat endurance and motor life. Now standard on Condenser Fan Motor models.



REVERSING PLUG

The electrical reversing plug simplifies rotation direction changes.

WAGNER® MOTORS
by DIVERSITECH®

Wagner Motors are available in many different versions to meet motor application needs.

- Direct Drive Furnace Blower Motors
- Multiple Horsepower Motors
- Condenser Fan Motors
- High Temperature Condenser Fan Motors

2 YEAR EXTENDED WARRANTY

All Wagner Motors have a 2 year warranty.

MULTIPLE HORSEPOWER MOTORS

Multiple horsepower motors allow the contractor and distributor to consolidate multiple part codes into a single stocking unit. The multiple horsepower motor allows the contractor to carry one motor that can be used as a replacement for a wide variety of OEM and other replacement motors, saving time and money.

- **All the features and benefits of standard motors**
- **Plus multiple horsepower**
- **Variety of voltages, applications, and speeds are available.**

Evergreen®

EVER EFFICIENT. EVER RELIABLE. EVER PROFITABLE.

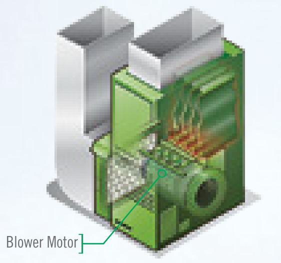
Upgrade/Replace Indoor PSC Blower motors with Evergreen® IM

RESIDENTIAL/LIGHT COMMERCIAL HVAC SYSTEMS

- Reduce truck stock
- Increase energy savings
- Increase comfort and home health
- Decrease continuous fan noise and power consumption
- Easy drop-in replacement - connects directly to fan boards or relays
- Two year warranty

FURNACE AIR HANDLERS

INCLUDES PACKAGE SYSTEMS



Evergreen® IM

Replace Permanent Split Capacitor (PSC), direct drive, induction motors with the following ratings:

Horsepower: 1/4-1
RPM Rating: 1075
Voltage: 120 & 208-230
Rotation: CW & CCW

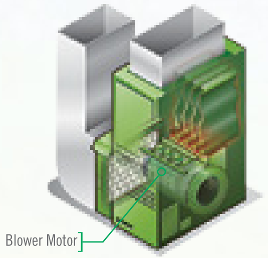
Replace OEM ECM X13 motors with Evergreen® EM

RESIDENTIAL/LIGHT COMMERCIAL HVAC SYSTEMS

- Replaces X13 and similar Constant Torque ECM
- Maintains system efficiency and performance
- Compatible with OEM harness
- Pre-programmed for truck stock
- No complex wiring or configuration
- Two year warranty

FURNACE AIR HANDLERS

INCLUDES PACKAGE SYSTEMS



Evergreen® EM

Replaces OEM Constant Torque ECM built with 24v speed taps with the following ratings:

Horsepower: 1/3-1
RPM Rating: 1070
Voltage: 115 or 208-230
Rotation: CW & CCW

Constant Torque ECM Genteq X13 or Similar Competitors' Models

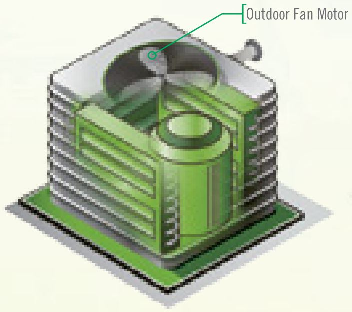
Upgrade/Replace PSC Outdoor Fan motors with Evergreen® OM

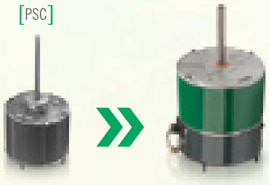
- Drop-in replacement for induction motors
- Easy Retrofit - line voltage connections
- Quiet start and operation
- Dual rotation (CW/CCW)
- Efficiency up to 80%
- Two year warranty

A/C & HEAT PUMP UNITS

INCLUDES PACKAGE SYSTEMS

Evergreen® OM





Digital 3-Phase Line Voltage Monitor

The DTP-3 is an automatic digital voltage monitor and control system.

By continuously measuring the incoming line voltage, the DTP-3 monitor will detect voltages outside of the tolerance that you set.

If these limits are exceeded, the response timer is started. This timer may be set to a long time value to avoid nuisance tripping, or to a short time value to offer a higher level of load protection.

If the voltage remains outside of the selected tolerance after the time has elapsed, the DTP-3 will turn off its output relay and protect your device. While the load is off, an additional lockout timer is activated to avoid rapid restarts.

- **Read Line and Load Side Voltage Instantly**
- **Simple Three Button Access for Easy Monitoring and Set-Up**
- **Fault Memory Records Problems for Later Display**
- **Six Digital Voltmeters Built In**
- **Sequential Start Timer Built In**
- **Lock Out Timer Built In**
- **Response Timer Built In**

FEATURES AND BENEFITS

Large Digital LCD Display

Provides instant display of the system's operating voltage, not just indicator lights. System setup is simplified by using the display to set the exact voltage range you want to monitor. Other controls use dials for system adjustment that can lead to inaccurate settings and motor burnout.

Super Simple Operation

Just three buttons set up everything. Easy adjustment of voltage tolerance and timers.

Small Size

Small footprint and low profile fits where other can't.

10 Amp Rated Output Relay with Isolated Contacts

Powerful relay can connect to just about any control circuit. Normally-Open and Normally-Closed contacts are provided for connection to any type of system, motor control or alarm.

2 LED Indicators

Glowing light-emitting-diodes show applied control voltage and output relay operation at a glance.

Precision Digital Circuitry

Completely eliminates the ambiguity associated with analog controls and screwdriver adjustments.

Adjustable Response Time

This timer sets the amount of time between when a voltage outside of the selected tolerance is detected and when the output relay is de-energized. Setting low time values offers faster protection. Setting longer times provides greater resistance to nuisance tripping.

Adjustable Delay Time

This timer sets the amount of time before the protected system is allowed to restart. Typically this timer is set to a value which allows the protected system to bleed-off high pressures or to cool down to a safe value for restarting.

Broad Voltage Adjustment Range

User adjustable monitored voltage range from 160 to 650 VAC. This broad adjustment range incorporates voltages for the majority of compressor installation requirements. Therefore, this single unit can be used across a broad range of installations.

DTP-3 FACTS

Protection

Loss of Phase, Phase Reversal, Voltage Imbalance, Low Voltage, High Voltage.

Display

Large custom LCD indicates all operating conditions at a glance. Three large sets of digits provide easy system troubleshooting.

Voltmeter

Simultaneous display of all three line voltage pairs. One button switches to contactor load side voltage reading.

Input Voltage Range

90 – 650 VAC at 50 or 60 hertz.

Voltage Trip Point

Adjustable in 1 percent increments between 6% and 18% of the selected operating voltage. Restart voltage set point fixed at +3%.

Voltage Symmetry

Adjustable imbalance set point from 2% to 25% of selected operating voltage.

Lockout Delay Timer

Fully adjustable 0 to 720 seconds (0 to 12 minutes). Digital display shows remaining time and user set points.

Sequential Start Timer

0 – 30 seconds in 1 second increments.

Response Timer

0.1 to 20 seconds digital display shows remaining time and user set points.

Memory

Up to 25 previous fault conditions are recorded for display as desired.

Monitor Digital Trifasico de Linea de Voltaje

El DTP-3 es un monitor de voltaje y sistema de control automático digital.

Por estar midiendo continuamente la entrada de la línea de voltaje, este monitor detectará voltajes fuera de la tolerancia que se fijó.

Si este limite es excedido arrancará el Regulador de respuesta. Este regulador podrá ser fijado a una mayor escala de tiempo para evitar el ruido molesto del corte y arranque, o a una escala menor de tiempo para ofrecer un mayor nivel de protección de carga.

Si el voltaje permanece fuera de la tolerancia seleccionada después que el tiempo ha transcurrido, el DTP-3 apagará su relevador de rendimiento y protegerá su aparato. Mientras la carga esta apagada un regulador de cierre adicional es activado para evitar arranques inmediatos.

- **Lectura de línea y de la carga de voltaje instantáneamente**
- **Tres simples botones de acceso para fácil monitoreo e instalación**
- **Registro de problemas en falla de memoria para posterior exhibición**
- **Seis voltímetros digitales integrados**
- **Regulador de arranque secuencial integrado**
- **Regulador de cierre integrado**
- **Regulador de respuesta integrado**

DTP-3 CARACTERISTICAS Y BENEFICIOS

La gran pantalla digital LCD

suministra al instante la operación del sistema de voltaje no solo luces indicadoras. El sistema programable es simplificado por usar la pantalla para fijar el rango exacto de voltaje que quiera monitorear. Otros controles usan botones para ajustar el sistema, que pueden dirigir hacia una programación inexacta y falla de motor.

Operación super simple

solo tres botones operan todo. Fácil ajuste de tolerancia de voltaje y reguladores de tiempo.

Pequeña medida

y su práctico contorno el cual se ajusta donde otros no pueden.

Relevador de salida de 10 amps con contactos aislados

Relevador de poder que puede conectarse con cualquier circuito de control. Normalmente-Abierto y Normalmente-Cerrado contactos son suministrados para conectarse a cualquier tipo de sistema, control de motor o alarma.

2 indicadores LED

muestran el voltaje de control aplicado y la operación del relevador de salida en un solo vistazo.

Los circuitos de precisión digital

eliminan completamente la ambigüedad asociada con controles análogos y ajustes de desarmador.

Regulador de respuesta ajustable

Este regulador fija la cantidad de tiempo cuando un voltaje externo de la tolerancia seleccionada es detectado y cuando el relevador de salida es de-energizado. El fijar valores de tiempo bajos ofrece una más rápida protección. El fijar un tiempo prolongado suministra gran resistencia evitando el ruido molesto del corte y arranque.

Regulador retardador de tiempo ajustable

Este regulador fija la cantidad de tiempo antes que al sistema de protección se le permita re-iniciar. Típicamente este regulador es fijado a un valor el cual permita al sistema de protección descargar altas presiones o que se enfríe a un valor seguro para re-iniciar.

Amplio ajuste del rango de voltaje

El usuario monitorea el rango ajustable del voltaje de 160 a 650 VAC. Este amplio rango de ajuste incorpora voltajes para la mayoría de los requerimientos de instalación de compresores. Así mismo, esta unidad puede ser usada a través de un rango amplio de instalaciones.

DTP-3 HECHOS

Proteccion

Pérdida de fase, cambio de fase, desequilibrio de voltaje, bajo voltaje, alto voltaje.

Pantalla

Los LCD hechos a la medida indican todas las condiciones de operación en un vistazo. Tres juegos grandes de dígitos suministran fácilmente los problemas del sistema.

Voltimetro

Pantalla simultanea de las tres líneas pares de voltaje. Un botón cambia al contactor para la lectura de la carga de voltaje.

Suministro de voltaje

90-650 VAC a 50 o 60 hertz.

Margen de error del voltaje

Ajustable en un porcentaje de entre 6% y 18% de la operación del voltaje seleccionado. Re-inicio con un +3% del voltaje establecido.

Simetria del voltaje

Desequilibrio ajustable establecido de 2% a 25% de la operación del voltaje seleccionado.

Regulador retardador de cierre

Completamente ajustable de 0 a 720 segundos (0 a 12 minutos) la pantalla digital muestra el tiempo restante y los puntos establecidos por el usuario.

Arrancador secuencial de tiempo

0 – 30 segundos en incrementos de 1 segundo.

Regulador de respuesta

0.1 a 20 segundos la pantalla digital muestra el tiempo restante y los puntos establecidos por el usuario.

Memoria

Hasta 25 condiciones de falla previas son almacenadas para mostrarse según se requiera.

Wagner® Single Speed Condenser Fan Motors

- Installs with all Standard 48 Frame Mounting Brackets
- Standard Shaft Length, Diameter, and Flats
- Drain Holes with Plugs in both end plates
- Automatic Thermal Overload Protector

Evergreen® CM ECM Motors

The Evergreen CM is made with the same field-proven, high-efficiency ECM technology that has been used for more than 20 years in new HVAC equipment. It features flexible control methods to help the installer balance airflow in HVAC systems such as VAV (Variable Air Volume) boxes and Packaged HVAC systems. The Evergreen CM is designed as a direct replacement for OEM (Original Equipment Manufacturer) Genteq model X13 (Constant Torque ECM) or as a field replacement for existing PSC (Permanent Split Capacitor) motors.

Evergreen® EM ECM Motors

The Evergreen EM was designed to replace direct-drive blower motors in residential and light commercial indoor furnaces, air handlers and package systems that were designed with a standard ECM motor, such as X13 or equivalent competitor model. It can also be used to retrofit PSC motors in commercial building series VAV boxes and packaged heat pump systems. It is NOT intended to replace premium ECM constant airflow products, such as EON, 2.3, 3.0 and 2.5.

Evergreen® PF ECM Motors

The Evergreen PF is a drop-in replacement or proactive upgrade for pedestal and wall mount fan motors in warehouses, factory floors, amusement parks, institutional buildings and other similar applications. With a rated efficiency of up to 82% and three operating speeds, Evergreen PF makes is easy to provide energy savings and reduce operating noise. It is easy for retrofit as it comes with a power cord, switch and welded mount. The Evergreen PF also includes a pull chain for easy speed selection from 1160/970/650 operating speeds.

Wellington® ECM Refrigeration Motors

Wellington ECM Refrigeration Motors are electronically commutated brushless DC motors. Top quality electronics and design make these motors extremely efficient, quiet and reliable. Long design life and reliability are the result of Wellington's moisture proof patented design and the use of ball bearings; and allow significant maintenance and cost savings. Wellington motors use the same mounting systems as shaded pole motors and are provided with a plug in connection for easy, fast replacement.

DIVERSITECH ELECTRICAL DISCONNECTS

Disconnects—Metal Case

Fused model designed with fuses in pull out handle for easy replacement. The line, load, and ground terminals are aligned for ease of wiring. This product has a reversible door which opens to either the left or right. The side open door opens more than 180 degrees for maximum access and has a full dead front. The fused models have indicator lights for blown fuses. This is rain tight and sleet resistant. The UL Listed number is IRF9, NEMA Type 3R and the US Patent is 6,630,637.

DDS-60

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
DDS-30	30A Fusible Disconnect Switch	EA	10
DDS-60	60A Fusible Disconnect Switch	EA	10
DDS-60U	60A Non-Fusible Disconnect Switch	EA	10

Disconnects—Non-Metallic Case

This 60 amp non-fusible disconnect is housed in a lightweight, non-metallic case. It features a side opening door with more than 180° access, full dead front, and a locking tab.

750-P60NF

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
750-P60NF	60A Non Fusible Disconnect Switch, Non-Metallic Case, Plastic	EA	10

Low Profile Disconnects—Metal Case

This low profile disconnect switch is a slightly smaller design than that of the standard DiversiTech disconnects. This has a side opening door with a full dead front. This is rain tight and sleet resistant. The UL Listed number is IRF9, NEMA Type 3R.

EDS-60U

EDS-12-6NM

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
EDS-60U	60A Non-Fusible Disconnect Switch	EA	10
EDS-12-6NM	Disconnect and Whip Combo Kit	EA	3

Molded Case Switch Disconnect

The DDS-60SW Molded Case Switch Disconnect is rugged and easy to use like an ordinary light switch. It eliminates the pullout handle used in traditional AC disconnects and is easy to install. It is UL listed and rated for inoor and outdoor applications with NEMA 3R rating.

DDS-60SW

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
DDS-60SW	Molded Case Switch Disconnect, 60A 240 VAC	EA	10

EATON ELECTRICAL DISCONNECTS

Eaton Switch A/C Disconnect

This A/C Disconnect is 60 amps switch rated for 10 HP motors at 240VAC. The switch is an on off circuit breaker with no pull out head that could be lost or stolen. It has easy-to-remove front cover with no screws or fasteners to remove.

DPB222R

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
DPB222R	60A molded case switch	EA	1

Eaton Three Phase Disconnects

These disconnects are UL listed and meet UL 98 for enclosed switches and NEMA Std. KS-1. They are suitable as service entrance equipment when applied with neutral or ground lug kit. They come with rainproof NEMA 3R enclosure.

HARD START KITS

Torque Plus—Hard Start Kits

Totally solid state, our DST 5 is just right for all permanent split capacitor (PSC) compressors from 1/2 to 10 H.P. It can be used on units that operate on 120 through 288 Volts. The DST 6 offers a larger capacitor for severely hard to start compressors. The DST 6 can be used on all PSC single phase compressors from 1 1/2 to 10 H.P. A unique combination of relay and safety timer. The capacitor is automatically disconnected in 0.5 seconds if the compressor fails to start.

DST-5	Torque Plus – 300% Torque Multiplier	EA	1
DST-6	Torque Plus – 500% Torque Multiplier	EA	1

DiversiTech Hard Start Kits

DiversiTech hard start kits reduce contractor call backs by boosting the starting capacitor for a compressor. This prevents home brownouts and improves homeowner satisfaction with your service. DiversiTech's hard start kits feature a potential relay that disconnects the start capacitor from the circuit at exactly the moment it is no longer needed to boost the compressor. This results in a precision compressor start even under hard starting conditions. Replaces the Kickstart KS-1 and the 5-n-1 kit.

Eaton Definite Purpose Contactors - Three and Four Pole

DPE303120
DPE404120

These are Eaton's standard line of C25 DP contactors. They feature pressure plates with quick connects for 25A and 30A contactors, and lugs and quick connects for 40A to 90A contactors. They are UL recognized and CSA certified components. These contactors are designed for the HVAC and refrigeration applications.

Eaton Definite Purpose Contactors - One and Two Pole

DPE30124
DPE30224

These are single- and two-pole, Type C25 contactors feature a compact, efficient design with a low VA coil and straight-through wiring. Its housing design effectively limits dust and other contaminants from magnet structure—reduces or eliminates noise. They are UL recognized/CSA certified, ampere rated devices are well suited for use in heating/air conditioning, refrigeration, data processing and food service applications.

TIME DELAYS

Adjustable Delay on Break Timer

Adjusts from 6 seconds to 8 minutes. Spin-proof knob. Works with 24, 120 or 240 VAC control circuits. Supports up to 1.0 Amps. Two wire hookup for easy installation. Solid state with quick disconnect terminals. Mounts with one self-tapping screw. Conformal coated circuitry protects against moisture and shock. UR recognized for USA and Canada. Works with anticipator type thermostats.

HOW IT WORKS: Immediately upon application of power, the Delay on Break timer enables circuit operation. Once power is interrupted, the circuit opens for the time set on the dial. After the time period elapses, the circuit closes, allowing the protected motor or compressor to start. For typical HVAC applications, the operation of the timer is transparent and will go unnoticed.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
ADB-1	Adjustable Delay on Break	EA	1
ADB-2	Adjustable Delay on Break w/Wire Leads	EA	1

Adjustable Delay on Make Timer

Ideal for random starting of multiple units. Adjusts from 6 seconds to 8 minutes. Spin proof knob. Works with 24, 120 or 240 VAC control circuits. Supports up to 1.0 Amps. Two wire hookup for easy installation. Solid state with quick-disconnect terminals. Mounts with one self-tapping screw. Conformal coated circuitry protects against moisture and shock. UR recognized for US and Canada. Works with anticipator type thermostats.

HOW IT WORKS: These timers delay circuit closure upon application of power. Only after the set time period elapses and power remains ON will the circuit close, allowing the protected motor or compressor to start. For typical HVAC installations, timers are adjusted to random times to prevent power circuit overloads, thus are often called random start timers.

MONITORS

Digital Three Phase Line Voltage Monitor

Offers continuous protection against voltage anomalies which can damage compressors, motors and other sensitive electrically operated devices.

PROTECTION: Loss of Phase, Phase Reversal, Voltage Imbalance, Low Voltage, High Voltage

DISPLAY: Large custom LCD display indicates all operating conditions at a glance. Three large sets of digits provide easy system troubleshooting.

VOLTMETER: Three independent voltmeters read both line and contactor load (backside) voltages.

MONITORED VOLTAGE: 160 to 600 Volts 50-60 Hz.

POWER SUPPLY: Power for the WPC-500 is automatically derived from any active phase. System operation is not dependent on the control voltage or a specific phase for power.

CONTROL VOLTAGE: 19-277 VAC. Anticipator load is provided for operation with 24 volt electronic and mechanical thermostats.

OPERATING VOLTAGE SET POINT: 175 to 650 VAC. Digitally adjustable in one volt increments.

VOLTAGE TRIP POINT: Adjustable in 1% increments between 6% and 18% of selected operating voltage. Restart voltage set point (hysterisis) fixed at cutout voltage + 3%.

VOLTAGE SYMMETRY: Adjustable imbalance trip point from 2% to 25% of selected operating voltage.

RESPONSE TIMES:
- Phase Loss/Reversal: 100 mS max.
- Imbalance: Adjustable Response Timer
- Over or Under Voltage: Adjustable Response Timer

LOCKOUT DELAY TIMER: Fully adjustable 0 to 720 Seconds (0 to 12 minutes). Digital display shows re- maining time and user set points.

SEQUENTIAL START TIMER: 0 to 30 seconds in one second increments.

RESPONSE TIMER: 0.1 to 20 Seconds. Digital display shows remaining time and user set points.

MEMORY: Up to 25 past fault conditions are stored for later retrieval and analysis. The faults may be displayed or cleared by the front panel buttons.

DTP-3	Digital 3-Phase Motor Protector	EA	1

Digital Single Phase Line Voltage Monitor

Automatic voltage monitor and control system. Continuously measures incoming line voltage, allowing detection of any voltage outside the tolerances that you set. If these limits are exceeded, the response timer begins counting. You may also set response time – a short time for a quick response or a long time to avoid nuisance tripping. If the voltage remains outside the tolerance after the time has elapsed, the DSP-1 will turn off its output relay and protect your device. While output is off, an additional delay timer activates to avoid rapid restarts.

FEATURES:
- Digital voltmeter displays instantaneous line voltage;
- Automatic voltage tester adjusts from 90 to 300 volts;
- Adjustable response timer (0.1 to 10 sec.) prevents nuisance tripping;
- Adjustable delay timer (1 to 720 sec.) prevents rapid restarts;
- Digital display makes for easy viewing and operation

SPECIFICATIONS:

Voltmeter:	70 to 325 Volts
Voltage Set Point:	90 to 300 Volts
Tolerance Limits:	6 to 18%
Response Timer:	0.1 to 10 seconds
Delay Timer:	1 to 720 seconds
Output Relay:	10 Amps, 250 VAC resistive, single-pole/double-throw
Control Input:	18 to 250 VAC with anticipator load for 24 volt thermostats

SURGE PROTECTORS

Surge-Trap Type 1 STXH

STXH120P05

The most compact of the STX series offering, the Surge-Trap® Type 1 STXH meets requirements for UL1449 4th Edition and is suitable for any 120/240VAC split phase application. The STXH Series SPD features TPMOV® technology inside making it the safest product available in its category. Its compact size, performance and reliability are especially ideal for HVAC applications and direct mounting to air condition disconnect switches.

Surge-Trap Type 1 STXR

STXR208Y05N

The most popular range in the STX series offering, the Surge-Trap® Type 1 STXR meets requirements for UL1449 4th Edition and is ideal for the replacement of obselete surge arrestors. The STXR Series SPDs feature TPMOV® technology inside, making them the safest product available. With a small, compact design and line or load installation flexibility, the STXR series is the perfect fit for branch panel and/or individual equipment protection.

6-3460	3/4" x 60' Economy Electrical Tape	EA	10

Glass Cloth, Moisture Sealing, and Economy Electrical Tapes

This is a woven glass cloth tape designed to operate in 600 volt dry applications, requiring high mechanical strength and resistance to high temperatures. The glass cloth is specially treated and prepared to provide corrosion free protection. It will not shrink, rot, or burn and has a high tensile strength. It contains pressure sensitive thermosetting adhesive which performs as Class B temperature (266 degrees F / 130 degrees C). Provides hear stable insulation for hot spot applications Highlight: Color White. Width 1/2in. Length 66 ft. Thickness 7 mil. Tensile Strength (2) 150 lb. /in. Material Glass Cloth.

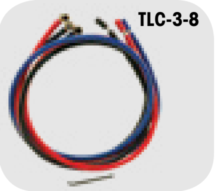
TERMINALS, CONNECTORS

Compressor Repair Kit



Finally, a product that simplifies the repair of burned or damaged spade terminals when reconnecting or replacing a compressor. Fits both non burned and burned terminals. Connects to the compressor via precision brass cylinders that fit over the terminals and connect with stainless steel set screws. Wires are permanently attached. Standard factory 600V, 65 strand machine wire. Easy to install and guaranteed for the life of the compressor.

TLC-3-10	3 Wire, 10 Gauge Connection Kit	EA	1
TLC-3-12	3 Wire, 12 Gauge Connection Kit	EA	1

Replacement Compressor Leads

Extreme heat within compressors typically causes failure of wiring insulation. This can cause corrosion to the inner strands of copper within the wire used for compressor hook up. This reduces the power flow to the compressor causing the unit to overheat and can prevent the compressor from starting. A MINIMUM of 12in. of wire must be removed. The DiversiTech Replacement Compressor Leads are ideal for replacing this corroded wiring. 24in. leads also available for replacing wire all the way to the contactor and capacitor.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE

Manual Reset Fire Stat

This bi metal switch is used as a manual reset. When temperature condition is met, the device opens. The manual reset can only be reset after proper cool down of the switch. The HMR 130 is a popular fire stat in ducted air distribution systems. Should temperatures in the duct exceed 130 degree F, the switch opens, shutting down the whole system so no fire or smoke can be spread by the fan.

CCP-L	Cable Clamp PRO Display Box with 24 Large	EA	25

FIN TOOLS

Multi-Head Fin-Tool

Conveniently straightens and cleans condenser and evaporator fins. Each nylon head slides into the master handle and tightens in place. Heads are designed to fit units with fin spacing of 4–24 fins per inch. Each head is engraved with its own size and is color coded for fast identification. Heads are angled so that when inserted in the handle, the hand is a safe distance from the sharp fins. Heads may also be reversed in the handle so that combing with an upward stroke (recommended method) may be done easily with proper leverage. The master handle rests comfortably in a man size grip, is rigid and long lasting.

FLASHLIGHTS BY RAYOVAC®

Rayovac is the Industrial Product Leader!

Rayovac is the leader in the industrial battery market and has been for years, with an estimated 50% share of the traditional industrial distribution channel. Rayovac introduced the top-selling industrial flashlight to the market, and set the quality standard by which all other industrial flashlights are measured today. Whether your customer is searching for a toolbox-tough flashlight or high-performance batteries, Rayovac offers a broad range of products to meet your needs.

Rayovac LED Flashlights

This flashlight is water resistant with a machined aluminum with knurled grip and a bronze finish. There is a full lifetime warranty on this USA made product. A holster is included with this item.

MANOMETERS, PRESSURE AND TEST KITS

Hydrogauge Manometer

6-HG15

Economical Pressure measurements.

- Replaces ordinary U-tube manometers
- Measures gas pressure easily and efficiently
- Direct reading, no plus or minus readings to add together as in old fashioned U-tubes
- Fills like a glass of water, no more air bubbles
- Strong magnet for mounting
- Heavy-duty construction
- Made of industrial grade, flexible PVC plastic
- Lightweight; Easy to use
- 6-HG15 water column height: 15"
- Plastic: 30" to 36" of industrial grade flexible plastic
- Hose fitting: All brass

Includes: Mounting magnet.

MONITORS

007 Control Checker

A lifetime tool for monitoring and checking safety controls and operating controls. One unit for all voltages 24-460 VAC or DC without switching dials or meters. Compact, 4 oz, reliable. Saves troubleshooting. For normally closed controls, 007 connects in parallel with safety control. When the safety control opens in response to a problem in the system, 007 red LED turns on and remains on until reset manually. With intermittent problem, the LED remains on indicating the control is open. For operating controls, 007 verifies the status of all types indicating if there is power to the holding coil, the NC contact is open or closed, the thermostat contacts are open or closed, there is power to the contactor or starting holding coil, the overloads are open or closed, or there is a bad connection either on control or power side. NOTE: May use with lockout relays. Features battery check and reset switch. Includes 9-volt battery. 007 may be used over and over.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
TC-007	007 Control Checker	EA	1

U.S. Pat. No. 4,092,625.

Tattle-Tale Control Monitor

Identifies open controls in seconds. A single use monitoring device for determining which, safety control has opened in response to a malfunction. Saves wasted hours tracing a safety control shutdown, even if intermittent. A quick, inexpensive way to visually spot where the problem is. Simply install in parallel with each safety control. When a control opens, the red indicator flag pops up. You will know immediately which area of the system is experiencing problems. Disposable, safe, simple to use, and pocket sized. Monitors safety controls, fuses, overload relays, motor protectors, freeze controls, limit controls, safety switches, fusible links, or steam control. CAUTION: Not to be used with lockout relays, use TC-007.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
TT-120	Tattle-Tale Control Monitor – 120 Volt AC or DC, pack of 3	PK	1
TT-24	Tattle-Tale Control Monitor – 24 Volt AC or DC, pack of 3	PK	1

TUBE WORKING TOOLS

Kut-All Plastic Tube and Hose Cutter

PK-2

Tough, durable nylon. Blade closes into its own handle for safe handling. Replaceable high carbon, teflon coated steel blades. Ideal for cutting up to 1-1/8″ I.D. plastic tubing, reinforced plastic tubing, rigid plastic pipe, and rubber hose.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PK-2	Kut-All Plastic Tube and Hose Cutter	EA	1

Swivel Head Deburring Tool

6-T482

This Swivel head Deburring Tool has the professional quality and the performance of a higher price deburring tool without the price tag. This product has two interchangeable blades.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
6-T482	Handle length: 5-1/8″ (130mm)	EA	1

One-Handed PVC/Hose Cutter

6-T1191

The ratchet system holds the blade in place while you adjust your grip to increase the pressure. The high carbon steel blade maintains sharpness and resists chipping. These cutters can be used for cutting PVC, CPVC, Polyethylene, PEX, and ABS tubing. The cutters have a quick-blade reset and can be used as a one handed operation. With the handle locking strap for safe storage, the easy replacing blade feature, and the ergonomically designed handle, these cutters are a perfect addition to any tool box.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
6-T1191	Capacity: 1/8″ to 1-5/8″; Length: 8-1/4″ (210mm)	EA	1

WELDING TORCHES, SUPPLIES

Heat Resistant Cloth

16510

16500

This flame barrier drop cloth withstands temperatures to 3,000°F. No asbestos. Protects walls, floors, equipment, components and adjacent surfaces from torch flames when soldering, brazing or welding. All cloths have edges taped and sewn with grommets at each corner. Highly resistant to many chemicals and acids.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
16500	18″ x 18″ Plain	EA	1
16510	18″ x 18″ Keyhole w/cutout for draping over pipes/tubes	EA	1
16520	36″ x 36″ Plain	EA	1

Portable Hand Torch

525-TORCH

Self igniting hand torch eliminates the need for a flint lighter. Lightweight and portable, this flame tool can be operated with Propane or MAP-Pro™ (Propylene). Features trigger lock with instant safety release, full size comfort grip and 360° swivel tip. Operates in any position, even upside down. Includes swirl combustion tip end.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
525-TORCH	Portable Hand Torch	EA	1

Map-Pro and Propane Gas

525-MT1 525-PT1

Map-Pro and Propane Gas are tanks that can be used to weld products.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
525-MT1	Map-Pro Gas – 14 oz.	EA	12
525-PT1	Propane Gas – 14.1 oz.	EA	12

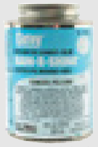
530-30863	Heavy Duty Cement – 8 oz.	EA	24
530-30876	Heavy Duty Cement – 16 oz.	EA	24

Rain-R-Shine Blue Cement

Medium bodied blue colored cement for PVC pipe and fittings up to 6 inches in diameter. A very fast setting cement formulated for wet conditions and/or when quick pressurization and fast installation is needed. Exceeds ASTM D-2564.



530-30891

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
530-30890	Rain-R-Shine Cement – 4 oz.	EA	24
530-30891	Rain-R-Shine Cement – 8 oz.	EA	24
530-30893	Rain-R-Shine Cement – 16 oz.	EA	24

Medium Orange CPVC Cement

Medium Orange CPVC Cement is formulated for use on all schedules and classes of CPVC pipe and fittings up to 6" diameter with interference fit.

530-11029

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
530-11029	Medium Orange CPVC Cement – 4 oz.	EA	24

PVC Primer – Clear

Recommended for all PVC and CPVC applications. Can be used on all sizes and schedules. Formulated to remove all surface dirt, grease, and grime as well as soften the pipe in preparation for solvent cement. This primer can be used when you want a cleaner installation. Meets ASTM F-656 and is NSF listed.

530-30752

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
530-30752	PVC Primer – Clear – 16 oz.	EA	24

All-Purpose Clear Cement for ABS, PVC and CPVC Pipe and Fittings

Heavy-bodied clear cement recommended for use on ABS, PVC, and CPVC pipe and fittings up to 12" in diameter. Flows freely and provides a thick layer of cement on the pipe. Apply at temperatures 40° to 90°F.

530-30821

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
530-30818	Clear Cement – 4 oz.	EA	24
530-30821	Clear Cement – 8 oz.	EA	24
530-30834	Clear Cement – 16 oz.	EA	24

PVC Gray Cement for High Efficiency Furnaces, Vent and Make-Up Air

Medium-bodied gray colored cement for use on Sch. 40 conduit, drain waste, and vent pipe. Flows freely and covers with a thicker layer than regular PVC. Can be applied at temperatures 40° to 100°F.

530-30884

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
530-30884	Gray Cement – 8 oz.	EA	24
530-30885	Gray Cement – 16 oz.	EA	24

NSF and UPC listed. Exceeds ASTM D-2564.

All Weather PVC Cement

Medium bodied cement for PVC pipe and fittings up to 6". Formulated for fast initial set-up from -15°F to 100°F. Exceeds ASTM D-2564.

530-31132

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
530-31132	All Weather Cement – 16 oz.	EA	24

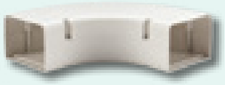
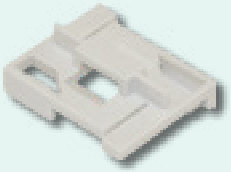
DUCTLESS SYSTEMS

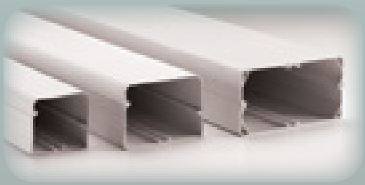
SpeediChannel™ Line Set Cover System 211
Fittings.. 211-214





SpeediChannel™ Line Set Cover System

DiversiTech SpeediChannel™ is an innovative channel system used to cover air conditioning line sets. The two part system has a base and a cover. The base is fastened to a wall or ceiling, then a clever little plastic clip (SpeediClip™) snaps into a channel already molded into the base. Then, using standard cable ties, the line set, cables, control wires, and/or condensate drain line are fastened in place. The cover then snaps simply on top of the base.



The SpeediChannel™ system is available in three widths – 3", 4", and 6". Each piece of Speedi-Channel™ is 6-1/2 feet long. A complete line of couplings, elbows, and tees are available for the SpeediChannel™ system.

Manufactured from rigid PVC, the SpeediChannel™ system comes in two popular colors. A Natural color that matches most mini-split condensing units or can be painted as desired to match any wall color. Use paint made for plastic only. A brown Terrastone color is also available which is popular with homeowners. the PVC used in the SpeediChannel system is resistant to UV light and is UL rated.

DiversiTech recommends attaching the base to the wall or ceiling and the line sets to the system every 15" to allow for the system to carry the full weight of the line sets.

Now available in White, Brown & Natural

The SpeediChannel™ can also be used inside.

Cut your installation time!
SpeediClip™— fastest
SpeediChannel™
installation.

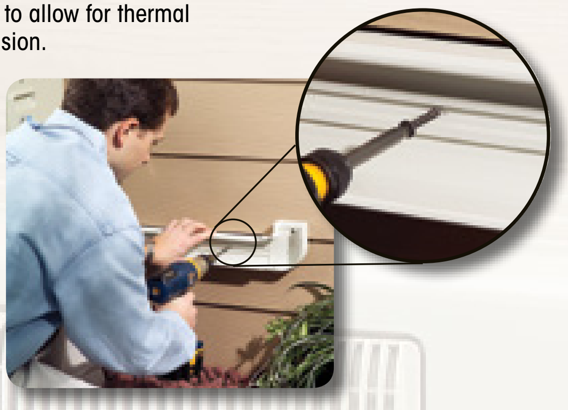
SpeediChannel™ System Installation

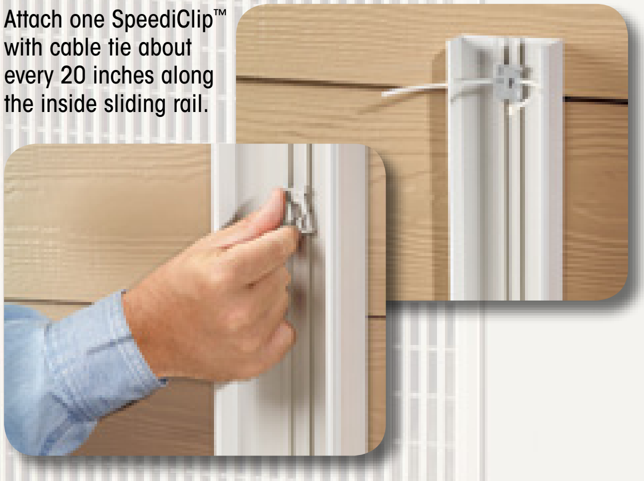
Step 1

Attach the SpeediChannel™ base to the wall about every 15 inches with screws suitable for the wall construction (siding, stucco, brick, etc.). Screw through the center of the molded rail. Slide the connecting piece (elbow, union, tee, etc.) under the SpeediChannel™ before attaching the end of the channel to the wall. When cutting lengths of SpeediChannel™, allow 1/8″ gap between the end of the SpeediChannel™ and the stop inside the fitting to allow for thermal expansion.



Step 2

Attach one SpeediClip™ with cable tie about every 20 inches along the inside sliding rail.

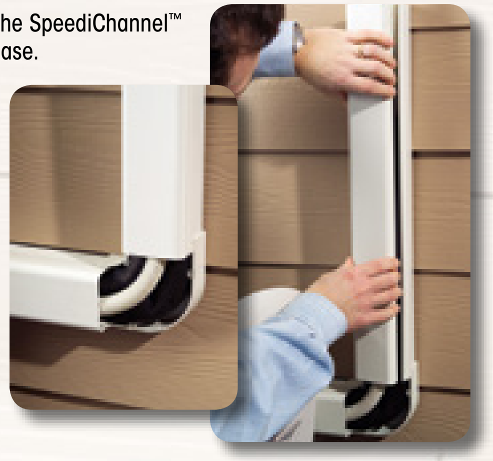


Step 3

Install the line set, drain line, and wires inside the SpeediChannel™. Test the equipment installation prior to tightening the cable ties. Tighten the cable ties snug, but not so tight they damage the tubing insulation or kink the drain line. Trim excess length from the cable tie.

Step 4

Attach the SpeediChannel™ to the base.

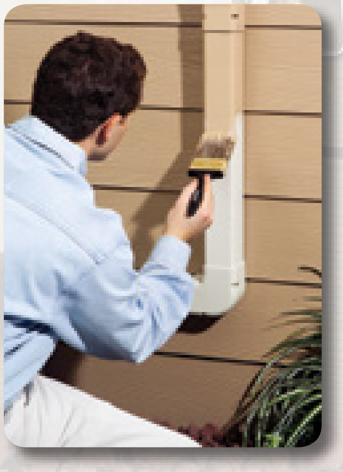


Step 5

Attach the fitting covers with the screws provided.

Step 6

When complete, paint the SpeediChannel™ to match surface of installation (if desired).



SPEEDICHANNEL™ LINE SET COVER SYSTEM

SpeediChannel™

The DiversiTech SpeediChannel™ is available in three widths, all in 6-1/2 feet lengths. Includes pack of SpeediClips™.

Wall Penetration

Wall sleeves and penetration covers are used to transition from the SpeediChannel™ system to a through wall penetration. The wall sleeve creates a neat hole through the wall, and the line set is covered by the wall cover. DiversiTech's wall covers are designed to allow for easy installation - even after the line set has been installed. A unique hooking and fastening arrangement allows for quick and easy installation. Each wall cover is individually packed, and is furnished complete with stainless steel screws to attach the wall cover to the base. Three screws (supplied by others) are needed to fasten the wall cover to whatever type of wall construction the system is being installed on.

SpeediChannel™ Accessories

A variety of accessories that are complementary or required for installing DiversiTech's SpeediChannel™ system.

230-DCLIP-10

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
230-DCLIP-10	SpeediClip™ and 11" Cable Ties, pack of 10	PK	1
230-DCLIP	*SpeediClip™, pack of 50	PK	1
230-DSCREW	SpeediChannel™ screws, pack of 100	PK	1
WTB11C	Black Wire Ties – 11", pack of 100	PK	1

Universal Pump Elbow

The Universal Pump Elbow lets an installer use any mini pump of their choice and install it with SpeediChannel. Includes pump elbow and reservoir mounting brackets to fit most mini-split pumps.

230-PFB3

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
230-PFB3	Universal Pump Elbow	EA	1

SpeediChannel™ Flex Hose Kits

A flexible hose kit of SpeediChannel that protects the line set from the condensing unit to the wall. Also provides a quick easy connection between two lengths of channel over or around obstacles. The kit comes with everything needed for a clean professional installation.

230-FH3-KIT

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
230-FH3-KIT	3" Flex Hose Kit	EA	1
230-FH3W-KIT	3" Flex Hose Kit, White	EA	1
230-FH4-KIT	4" Flex Hose Kit	EA	1
230-FH4-KITW	4" Flex Hose Kit, White	EA	1

SpeediChannel™ Kits

The SpeediChannel™ Fitting Kit provides a simple mix of the basic fittings used in a typical SpeediChannel™ installation job. Included are one coupling, one wall penetration, one inside elbow, one long radius flat bend, and one pack of ten SpeediClips and 11" cable ties. The 230-IKC3 and 230-IKC4 Installation Kits include three 48" pieces of channel and selected fittings.

230-IK3

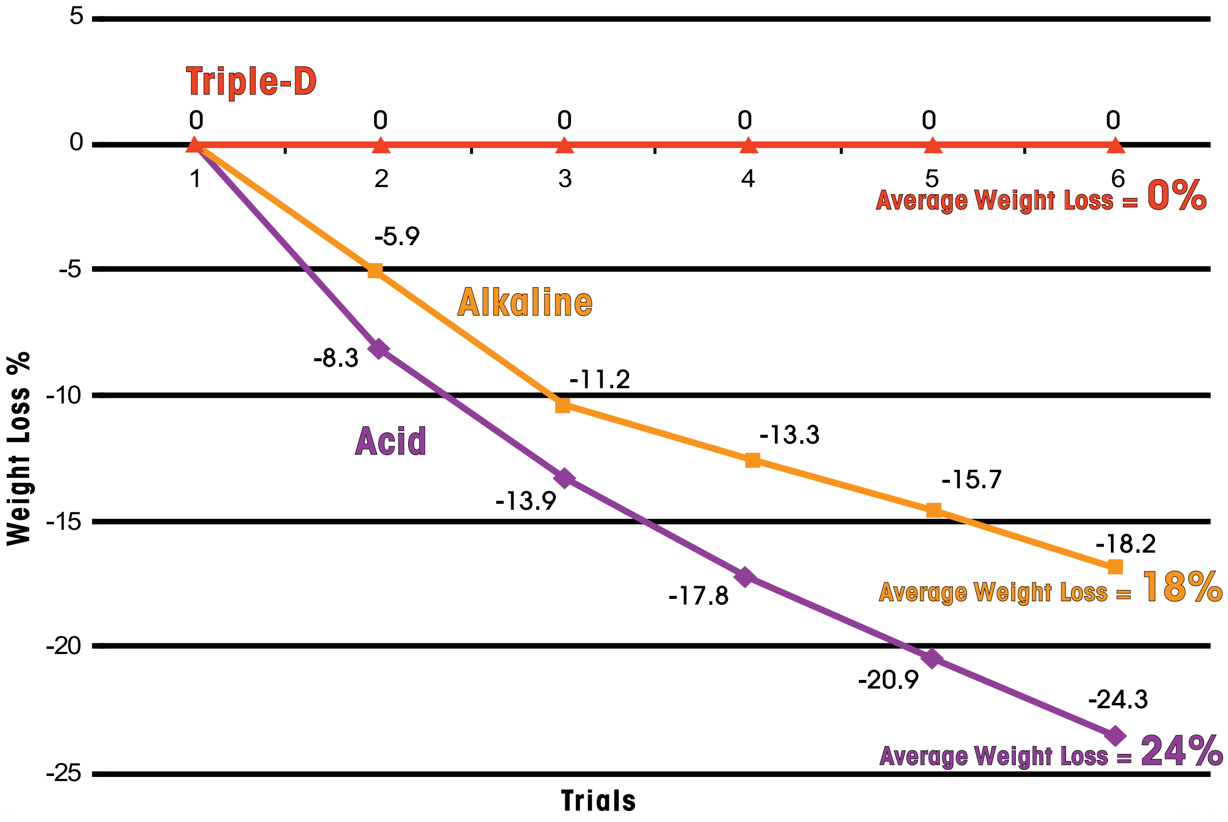
Triple-D® Universal Coil Cleaner

Triple-D is a Universal Coil Cleaner suitable for use on condenser and evaporator coils. It is metal safe and does not attack aluminum or copper coil components, extending equipment life and diminishing potential for refrigerant leaks. Triple-D is a more versatile product than conventional acid or non-acid coil cleaners. One product does it all — truly a Universal Coil Cleaner.

FEATURES	BENEFITS
Universal Coil Cleaner	One product for multiple applications reduces inventory and eliminates potential product mis-application.
Metal Compatible	Conventional foaming acid coil cleaners actually attack and chemically react with the aluminum coil components. This reaction is exhibited by a foaming action. Conventional foaming non-acid coil cleaners are so strong (because they lack the unique inhibitor in Triple-D) they also attack the aluminum coil components. The attack/reaction dissolves the aluminum, destroying the heat-transfer ability of the coil, and creates the potential for refrigerant leaks. Over time, the reduction in heat transfer ability for the coil increases energy consumption significantly.
Super Concentrated	Lower cost per mixed gallon. Triple-D is a 6:1 dilution ratio, making 7 gallons of usable product per gallon of concentrate.
Multiple Packages/Forms	Available as a concentrated liquid, pre-diluted liquid, aerosol, or Granular Coil Cleaner. Same product — different packages.
NSF Registered	Assurance that Triple-D is an ideal cleaner for restaurants, hospitals, government institutions, and any food preparation area. Rinse thoroughly after use.
Safe for Rubber Roofs	Does not damage engineered polymeric or rubber roofing.
Corrosion Inhibited	Conventional foaming acid and non-acid coil cleaners actually attack and chemically react with the aluminum (and sometimes copper) coil components. This reaction is exhibited by a foaming action. The reaction dissolves the aluminum, destroying the heat-transfer ability of the coil, creating the potential for refrigerant leaks.
Biodegradable	Triple-D is manufactured from chemicals that break down naturally in the environment. When a coil is cleaned, the rinse water is typically washed away.
Non-Foaming	Foaming of coil cleaners is exhibited when the cleaner chemically reacts with the aluminum (and sometimes the copper) coil components. This reaction is exhibited by a foaming action. The reaction dissolves the aluminum, destroying the heat-transfer ability of the coil, and creates the potential for refrigerant leaks. Additionally, foaming action on foaming coil cleaners is an exothermic (heat generating) chemical reaction. This heat is extreme and can damage coils.
Non-Toxic	Triple-D is manufactured from chemicals that break down naturally in the environment. When a coil is cleaned, the rinse water is typically washed away. Conventional acid coil cleaners contain dangerous hydrofluoric acid that is extremely toxic to humans and animals.
Inhibited Non-Acid Formulation	Triple-D contains a unique inhibitor that allows for a very strong alkaline (non-acid) formulation that effectively cleans coils. Other non-acid coil cleaners are either too weak to effectively clean a coil, or are so strong (and hence foaming) that they attack the aluminum coil.

Aluminum Loss of Foaming Coil Cleaners vs. Triple-D®



As shown above, conventional foaming acid coil cleaners and foaming non-acid coil cleaners actually attack and chemically react with the aluminum coil components. This reaction is exhibited by a foaming action. The attack/reaction dissolves the aluminum, destroying the heat-transfer ability of the coil creating the potential for refrigerant leaks.

FLEX INJECT® SEALANT

ADVANCED | TOTAL

PERMANENTLY STOPS LEAKS

FASTEST - EASIEST - PROVEN

Flex Inject® Sealant Advanced, the fastest and easiest refrigerant leak sealant solution is now available in **TOTAL** which includes all the great characteristics of the original formula with UV dye.

NEW
UV DYE INCLUDED

TOTAL

Part# 995
Patent Pending

UV DYE INCLUDED

TOTAL comes with UV dye included giving contractors peace of mind that the leak is fixed.

ADVANCED | TOTAL

3X SEALING POWER

Patent pending Flex Inject® triple power sealant is the fastest, most effective proven way to permanently seal and prevent air conditioning and refrigeration (HVAC/R) leaks.

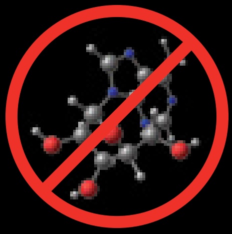
NO TOOLS REQUIRED

Flex Inject® installs in seconds - no tools or manifold gauges required. The Flex Inject sealant goes to work immediately traveling through the system with both the oil and refrigerant stopping leaks dead in their tracks.

FULLY COMPATIBLE

COMPATIBLE WITH ALL OILS & REFRIGERANTS

Works with all compressors, heat pumps, condensers, recovery units, and other system components. Will not plug up manifold gauges, TXVs, pistons or cap tubes. Compatible with all oils and refrigerants including R-410A requiring no pump down or recovery.



POLYMER FREE

The polymer free formula has unique metal bonding properties that create a permanent protective barrier to keep the refrigerant from escaping and is microchannel friendly.

3x

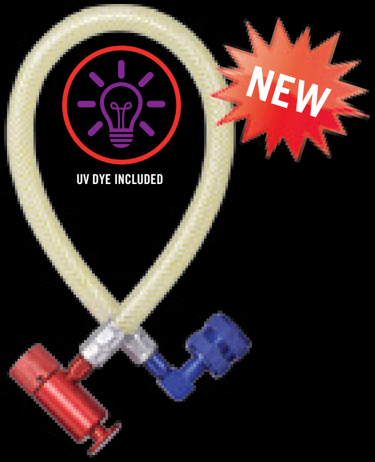
DIVERSITECH®

FLEX INJECT® SEALANT

No manifold gauges or hoses needed

Just Connect HI & LOW - PUSH TO GO!

FLEX INJECT® SEALANT TOTAL



QUICK & EASY INSTALLATION:
INSTALL INTO FULLY-CHARGED SYSTEM

1. Ensure system is running.
2. Connect the red push button valve to the high side service port.*
3. Connect the blue low loss fitting to the low side service port.
4. Remove puck and press red button for 3 to 5 seconds to inject sealant.
5. Once sealant is dispensed, disconnect red push button valve from system.
6. Remove blue low loss fitting from system.

NO SYSTEM RUN TIME REQUIRED AFTER INJECTION
ALL PARTS ARE RECYCLABLE

*IF NO HIGHSIDE PORT IS AVAILABLE - ATTACH RED PUSH BUTTON VALVE TO A REFRIGERANT CYLINDER & FOLLOW STEPS 3-6.

WHY FLEX INJECT® SEALANT AND TOTAL IS THE OBVIOUS CHOICE

Feature	DiversiTech Flex Inject® Sealant	Nu-Calgon EasySeal Direct Inject
Sealant Power	Triple	Single
Hose	Flexible	Rigid
Equipment Required	None	Manifold Gauge and Hoses
Sealant-Refrigerant Integration	No Runtime Required	60 Minutes with System Running
Valve Protection	Push Button Valve Allows for a Controlled Refrigerant Flow with Automatic Shut Off	One Way Check Valve
Compressor Protection	Misting Orifice Prevents Liquid Slugging	None

Pro-Flush® HVAC Flushing Solvent

Pro-Flush® answers your need for a professional quality flushing solvent with the components to match.

- Formulated for R-410A retrofits, refrigerant conversions and compressor burnouts
- Lower cost solution than competitive pre-charged kits
- Solvents are non-VOC, conform to EPA SNAP standards, and are non-HAZMAT
- Low toxicity and residue free
- Flash Point: No flash point to boiling (41°C/106°F) - TAG Closed Cup (per ASTM D-56)
- Kit includes reusable tank with a pressure relief valve for added safety, a hose, and an injector trigger nozzle
- Better delivery system

FREQUENTLY ASKED QUESTIONS

Q: What refrigerants is Pro-Flush® compatible with?
A: Pro-Flush® is compatible with CFC and HFC refrigerants and compressor oils.

Q: Is Pro-Flush® safe to use?
A: Pro-Flush® is safe, nontoxic, and residue free. In addition, Pro-Flush® conforms to EPA's Significant New Alternatives Program (SNAP) standards.

Q: Is Pro-Flush® HAZMAT?
A: Pro-Flush® is not HAZMAT for storage or ground transportation.

Q: What is the advantage of the reusable injector tank?
A: 1. The reusable tank lowers cost since you only need to buy the Pro-Flush® refill cans.
2. Pre-charged cans include refrigerant propellants which are more expensive to use than nitrogen.
3. The trigger assembly allows for infinite control of dosage insuring more economical use of the solvent.
4. Using nitrogen as the propellant is less expensive and more environmentally friendly than using HFC-134A. HFC-134A is a powerful greenhouse gas. One kilogram of HFC-134A has the same global warming impact as 1,430 kilograms of carbon dioxide (http://www.epa.gov/cpd/mac/service).

Q: Can the injector tank be over pressurized during nitrogen pressurization?
A: Over pressurization is highly unlikely but possible. The injector valve has a reseating pressure relief safety valve set at 200 psi. This helps prevent potential bursting and resultant injury.

Q: What if I don't require the entire can of Pro-Flush® Solvent to clean a system or line set?
A: The injection nozzle allows you to control the dose rate and any left over solvent can be stored in the injector for future use.

Q: How does the dose rate for Pro-Flush® for burnouts and retrofits compare with the competitors?
A: For R22 to 410A conversions, we recommend 3-second bursts of solvent. An 8 oz. can of Pro-Flush™ will treat up to 250 feet of liquid line. For burnouts, we recommend 2-3 oz. per ton. Pro-Flush™ uses less solvent per application than Nu-Calgon. Treatment results will vary depending on the application and conditions of the line set when serviced.

Q: Why do you recommend only charging the injector tank to 50psi, then injecting in 3 second bursts?
A: Tests are conclusive that injecting the solvent at lower pressure assures longer solvent to oil contact time. In addition, the smaller volume delivered in short bursts assists in completely dissolving contaminants. In this case, less is better.

Q: Is nitrogen necessary for use with Pro-Flush®?
A: Nitrogen is used as the propellant for Pro-Flush®. Nitrogen is required with all flushing systems to purge any residual solvent and contaminants through the system.

Q: Do pre-charged canister systems dispense 100% of the flushing solvent?
A: In many cases pre-charged canister systems will not fully dispense the flushing solvent depending on temperature. At lower temperatures, the R-134a propellant provides less pressure and may leave solvent in the canister. The Pro-Flush® system allows contractors to add additional nitrogen if there is still solvent left, regardless of temperature.

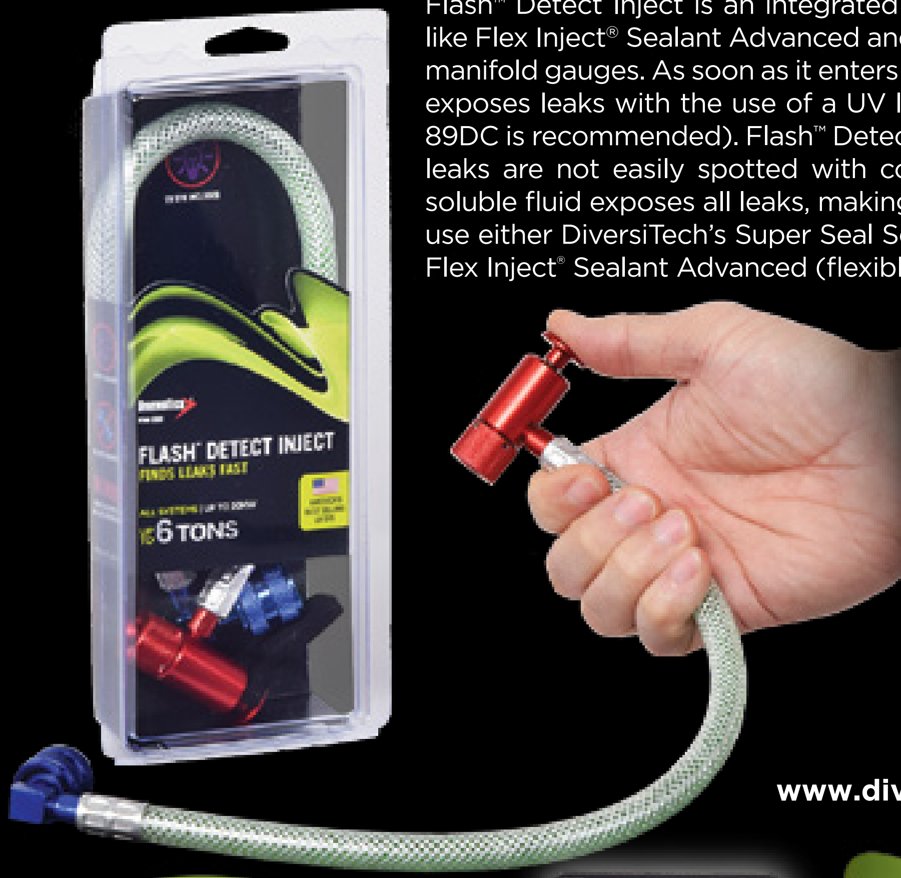
DIVERSITECH®

PN# 990

FLASH™ DETECT INJECT

FINDS LEAKS FAST

Flash™ Detect Inject is an integrated UV dye solution that injects just like Flex Inject® Sealant Advanced and Total without the use of tools or manifold gauges. As soon as it enters the system, the green dye quickly exposes leaks with the use of a UV light (the Cliplight by DiversiTech 89DC is recommended). Flash™ Detect Inject is ideal in locations where leaks are not easily spotted with conventional methods. The highly soluble fluid exposes all leaks, making them easy to find. You can then use either DiversiTech's Super Seal Sealant Advanced (can version) or Flex Inject® Sealant Advanced (flexible hose version) to fix the leak.



FLASH DETECT INJECT
FINDS LEAKS FAST
6 TONS

Flash™ Detect Inject finds leaks fast with:

- Instant distribution
- Green dye that escapes when leaks are present
- All oils and refrigerants

SUPER CHANGE™ SOLUTIONS

FAST & EASY R22 RETROFIT IN CANS OR FLEXIBLE INSTALLATION HOSES

Super Change™ in a can and Super Change™ Inject allows professional HVAC/R contractors a fast and easy way to convert a system from non-POE based oils and refrigerants such as R22 to newer HFC refrigerants including POE-based R407C and R410A without the need to flush the system (excluding compressor burnouts). By adding Super Change with the new refrigerant and oil, a chemical link is created between the old and new oil, thus avoiding a full flush and saving contractors significant time on a system changeout.

Part# 991
Super Change™ Inject

Super Change™ benefits include:

- No changeout of the oil, O-rings or gaskets required
- Replaces lineset flushes
- Boosts oil return efficiency and extends compressor life
- Reduces oil logging which is critical in systems with long lineset runs and rises
- No tools or manifold gauges required
- Compatible with all oils and refrigerants
- Available in two injection methods

APPLICATION GUIDE

SYSTEM TONNAGE	Up to 3 Tons	3.5 - 6 Tons	6+ Tons
SYSTEM OIL CHARGE	**Up to 32 oz**	**Up to 64 oz**	**128+ oz**
Conversion not requiring oil change out	1 can	1 can	2 cans/gallon
Conversion requiring oil change out	1 can	2 cans	4 cans/gallon
Conversion to R410A	1 can	1 can	2 cans/gallon
R22 line set conversion flush	1 can	1 can	2 cans/gallon
For oil logging or long line set runs and rises	1 can	1 can	2 cans/gallon

It will take approximately 24 hours of operation for the full effect to be achieved.

Condensate Pan Treatments – SIMPLIFIED

THE NEED

Environmental debris, slime, rust, etc. accumulate in condensate drain pans resulting in:

- Indoor Air Quality problems including musty odors and Dirty Sock Syndrome
- Pan overflows caused by plugged drain lines
- Equipment malfunction

THE SOLUTION

Use pan treatment products as part of a regular preventive maintenance program to:

- Eliminate one of the causes of Sick Building Syndrome
- Stop costly overflow problems that damage floors, ceilings, and furniture
- Reduce unscheduled service calls

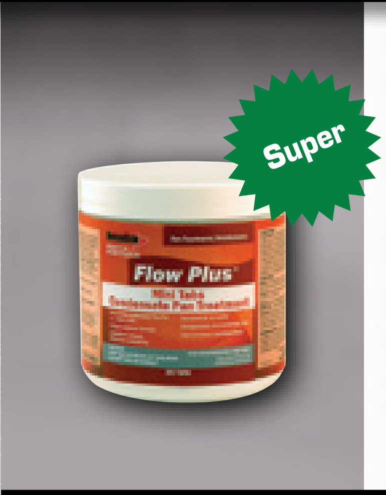
THE PRODUCTS

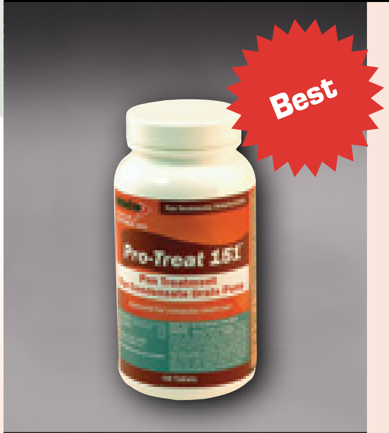
EXTENDED RELEASE TREATMENTS

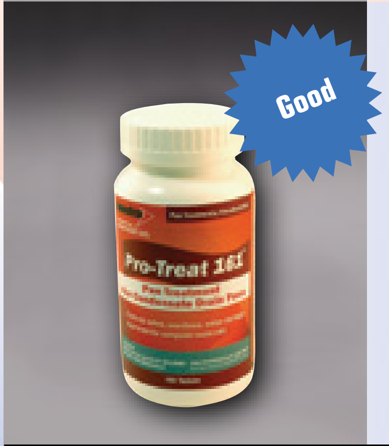
- Several manufacturers produce various time release products
- Highest value — most active ingredient per dollar
- Easiest maintenance program — dose only once every three months or longer
- Only effective solution for equipment larger than six tons

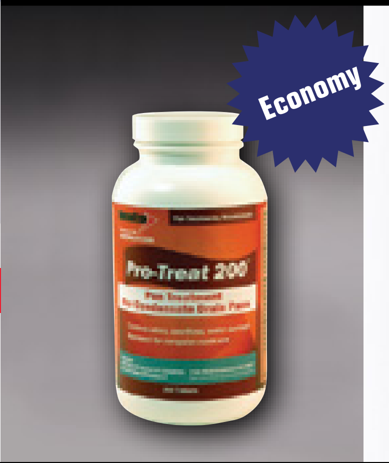
RAPID RELEASE TREATMENTS

- Lowest cost per tablet
- Shortest time between dosing







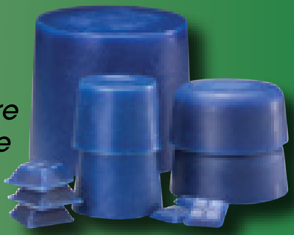


Flow Plus® Condensate Pan Treatment

- A true water activated, time release treatment
- Water soluble polymer leaves no residue or carrier to be removed
- Adheres to drain pans — eliminates product floating and blocking the drain line
- No corrosive vapors — safe for computer rooms
- Recommended dosage — choose size according to equipment tonnage. Each size is designed to last a minimum of three months.

FLOW-PLUS-25 — 1/2 to 3 tons
FLOW-PLUS-200 — 1/2 to 3 tons
FLOW-PLUS-6 — 3 to 5 tons
FLOW-PLUS-10 — 5 to 20 tons
FLOW-PLUS-125 — 20 to 50 tons

STACKABLE!
This unique feature increases the time between maintenance visits.



Pro-Treat®-151 Premium Condensate Drain Pan Treatment

- EPA Registered
- Kills algae and eliminates odors
- Fast acting
- Residual effect of the clean pan lasts for a month
- No corrosive vapors — safe for computer rooms
- Recommended dosage: 1 tablet for every 3 tons each month

Pro-Treat® 161 Condensate Drain Pan Treatment

- More active ingredient than the economy version
- Fast acting
- Residual effect of the clean pan lasts for about a month
- No corrosive vapors — safe for computer rooms
- Recommended dosage: 2 tablets for every 3 tons each month

Pro-Treat® 200 Condensate Drain Pan Treatment

- Lowest cost product per tablet
- Sufficient active ingredient to treat the pan
- No corrosive vapors — safe for computer rooms
- Recommended dosage: 3 tablets for every 3 tons each month

3-STEP PROCESS for Solving IAQ Problems

STEP 1:
CLEAN

TRIPLE-D®
Degreaser • Detergent • Deodorant

Clean the evaporator coil and condensate pan with TRIPLE-D®, a USDA authorized non-foaming alkaline coil cleaner. Cleaning the dirt from the coil and pan not only improves equipment efficiency, but also removes an important source of contamination that can create slime and sludge in the drain pan and cause pan overflow.

STEP 2:
DISINFECT

SANI C-N-D™
Coil and Drain Pan Disinfectant

Disinfect and deodorize the evaporator coil and drain pan with SANI C-N-D™, an EPA registered biocide, fungicide, viricide, and mildewstat. The broad spectrum biocide in SANI C-N-D™ assures control of many airborne pathogens that can be spread via contaminated air handling equipment.

The American Lung Association states that most people spend 90% of their time indoors[1]*. DiversiTech offers the 3-STEP PROCESS to help control IAQ problems caused by the micro-organisms in the atmosphere in which we live and work.*

[1] www.lungusa.org

STEP 3:

MAINTAIN

FLOW PLUS®

Condensate Pan Treatment

Place FLOW PLUS® in the condensate pan (choose size according to equipment tonnage below). FLOW PLUS® is a totally soluble long-term polymer treatment that keeps the drain pan and condensate lines clean for a minimum of three months. This prevents pan overflow problems.

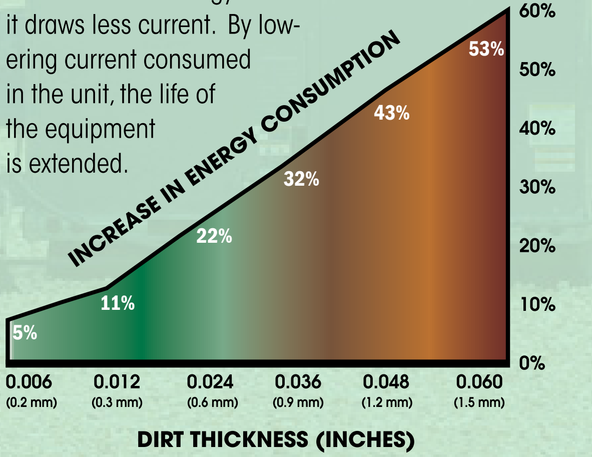
PRODUCT NO.	EQUIPMENT TONNAGE
FLOW-PLUS-25	1⁄2 to 3 tons
FLOW-PLUS-200	1⁄2 to 3 tons
FLOW-PLUS-6	3 to 5 tons
FLOW-PLUS-10	5 to 20 tons
FLOW-PLUS-125	20 to 50 tons

Why clean coils?

CONDENSER COIL

Cleaning the condenser coil does one thing — improves the heat transfer efficiency between the refrigerant inside the coil and the ambient air outside. The more efficient this heat transfer, the more efficiently the cooling system operates.

With efficient heat transfer and an efficiently operating condensing unit, the system consumes less energy because it draws less current. By lowering current consumed in the unit, the life of the equipment is extended.



EVAPORATOR COIL

Cleaning the evaporator coil improves indoor air quality. It addresses building related illness and sick building syndrome.

How frequently should coils be cleaned?

We recommend a minimum of twice per year, more frequently if there is dirty ambient air.

DIVERSITECH®

Maximize System Performance

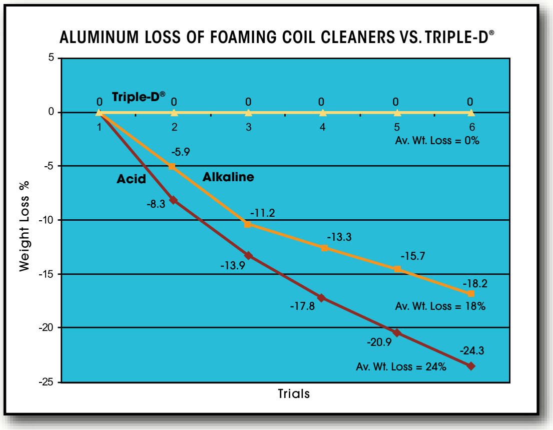
for outside and inside coils using two-step
microchannel and mini-split cleaning solution

STEP 1: Clean OUTSIDE coils with Triple-D®

Triple-D®:
- Does not degrade aluminum microchannel, spindle or mini-split coils
- Does not foam
- Degreases and deodorizes while detergent cleans
- Is not caustic

Shown above:
An example of
coil cleaning a
microchannel
with Triple-D®

Shown below: Table 1 - Weight loss trials



TRIPLE-D®

Aluminum Microchannel & Mini-Split Friendly

Studies show that **Triple-D®** does not degrade any type of coils. Weight loss in six trials (Table 1) using:
- Alkaline cleaners is 18%
- Acidic cleaners is 24%
- **Triple-D® is 0%**

STEP 2: Clean and lubricate INSIDE coils with Boost Juice®

Part #: 992
Boost Juice® Inject

Boost Juice®:
- Boosts efficiency
- Dissolves blockages
- Eliminates up to 20 drops of water
- Frees up TXVs

Part #: 993KIT
Boost Juice®

HVAC CUSTOMER TESTIMONIAL

"Last month I installed Boost Juice in my heat pump at home and the results have been spectacular. Within the first week, I recorded an average 1.5 amp decrease in compressor amps and an average 2.5 increase in air temperature drop across my evaporator coil. On my Megger, before installing Boost Juice, I read 20 megaohms and after adding it, my resistance increased to above 100 megaohms and then 700 megaohms a month later. I recently received my electric bill and it is significantly lower compared to the same time last year."

Kenneth Long, 40 year HVAC/R Professional, Claysburg, PA

BOOST JUICE® SOLUTIONS

HVAC/R PERFORMANCE ENHANCER ADDITIVE IN CANS OR FLEXIBLE INSTALLATION HOSES

Boost Juice® is an HVAC/R system performance improvement additive that lowers energy costs by reducing the amperage draw up to 22% (testing average of 13%) on a system when running. It does this by lubricating the components, removing moisture and oxygen, and dissolving particle debris to a molecular level. This debris is captured in the liquid line drier reducing drag and friction for the refrigerant and oil.

By using Boost Juice®, customers can expect to see noticeable improvements in system performance typically within 24 to 72 hours (depending on the state of the system – new versus old) with consistent future performance. Noise levels will also be reduced once Boost Juice® is installed providing a long-term benefit to customers.

Additional features and benefits for owners:

- Enhances system performance, saving money on electric bills
- Reduces compressor noise
- Reduces energy consumption lowering starting and running amps
- Rejuvenates older systems
- Cleans interior linesets and system components removing loose deposits
- Improves oil lubricity through reduced friction and drag while blending with system oil and refrigerant
- Eliminates up to 20 drops of internal moisture prolonging system life
- Prevents acid formation

COIL CLEANERS

Triple-D® Universal Coil Cleaner

Triple-D® is the ultimate universal coil cleaner that can be used on condensers, evaporators, microchannels, roof-top units, and mini-split applications. The triple active synergistic highly effective solution is formulated to remove a broad range of soils while degreasing and deodorizing. It is ideal for cleaning most metals including aluminum and copper while extending equipment life and diminishing the potential for refrigerant leaks. Using 75% less than comparable products, it reduces the amount of solution needed to clean. Triple-D® is biodegradable, NSF approved and available in seven different packaging configurations.

Eco-Coil™ Environmentally Friendly Coil Cleaner

Eco-Coil™ is an environmentally friendly no rinse non-corrosive cleaner ideal for evaporator and condenser coils, electronic and permanent filters, fan blades, grilles, mini-split and microchannel applications. Eco-coil quickly cleans away dirt, dust, and deposits while deodorizing with no harmful risks to animal, aquatic or plant life. Tested to provide the highest level of performance, Eco-Coil not only reduces the number of products required to clean but also has different water mixture ratios to maximize solution usage. Furthermore, it brightens, biodegradable, NSF approved, and meets the EPA's Design for the Environment Alternative Program as a "green" product.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
ECO-COIL-32	Eco-Coil™ Environmentally Friendly Coil Cleaner – 32 oz. bottle	EA	12
ECO-COIL	Eco-Coil™ Environmentally Friendly Coil Cleaner – 1 gallon container	EA	4

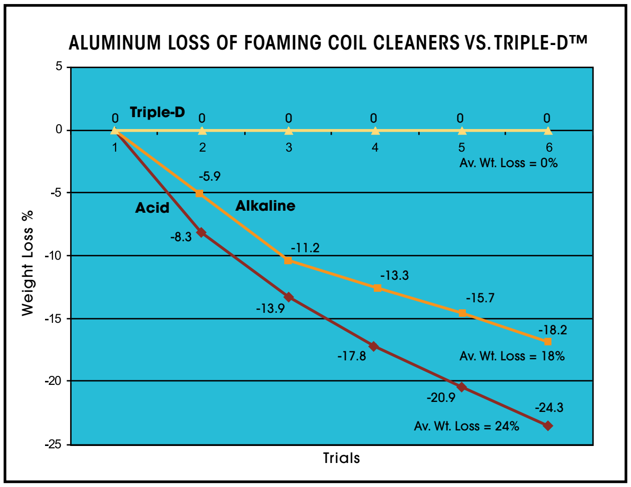
PRO-BROWN-55	Pro-Brown™ Foaming Coil Cleaner – 55 gallon drum	EA	1
PRO-BROWN-AER	Pro-Brown™ – 19 oz. Aerosol	EA	6



ALUMINUM LOSS OF FOAMING COIL CLEANERS VS. TRIPLE-D™

Conventional foaming acid and non-acid coil cleaners attack and chemically react with the aluminum coil components. This reaction is exhibited by a foaming action. The attack/reaction dissolves the aluminum, destroying the heat-transfer ability of the coil and creating the potential for refrigerant leaks.

Pro-Blue™

Pro-Blue™ is a heavy foaming alkaline-based solution designed for condensers and mini-splits that penetrates dirt and grease removing deposits resulting in clean and brightened coils. Pro-Blue is biodegradable, NSF approved, and available in numerous packaging configurations.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PRO-BLUE-32	Pro-Blue™ Foaming Concentrate (non-acid) – 32 oz. bottle	EA	12
PRO-BLUE	Pro-Blue™ Foaming Concentrate (non-acid) – 1 gallon container	EA	4

PRO-BLUE-55	Pro-Blue™ Foaming Concentrate (non-acid) – 55 gallon drum	EA	1
PRO-BLUE-AER	Pro-Blue™ – 19 oz. Aerosol	EA	6

Pro-Green™

Pro-Green™ is a no rinse, mild alkaline coil cleaner that can be used on air-cooled condensers, evaporators, electronic and permanent filters, fan blades, grilles, mini-split and microchannel applications. Pro-Green cleans deposits on coils and rids condensate pans of slime. It is NSF approved for use in federally inspected plants and available in numerous packaging configurations.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PRO-GREEN-32	Pro-Green™ No Rinse (non-toxic) – 32 oz. bottle	EA	12
PRO-GREEN	Pro-Green™ No Rinse (non-toxic) – 1 gallon container	EA	4

COIL CLEANERS cont'd

Pro-Red Plus™

Pro-Red Plus™ is a fast acting cleaning solution for condensers, microchannels, and mini-splits that foams and lifts away stubborn deposits including tarnish and corrosion. Its non-acid formula is as effective as conventional acid cleaners without the use of hydrofluoric acid. The vigorous foaming action eliminates the need for prolonged soaking, steam cleaning or scrubbing coils and without emitting corrosive fumes or rusting ferrous metals. Pro-Red Plus™ is biodegradable, NSF approved, and available in a number of convenient packaging solutions.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PRO-RED+32	Pro-Red Plus™ Cleaner and Brightener (non-acid) – 32 oz. bottle	EA	12
PRO-RED+	Pro-Red Plus™ Cleaner and Brightener (non-acid) – 1 gallon container	EA	4
PRO-RED+5	Pro-Red Plus™ Cleaner and Brightener (non-acid) – 5 gallon pail	EA	1
PRO-RED+55	Pro-Red Plus™ Cleaner and Brightener (non-acid) – 55 gallon drum	EA	1
PRO-RED+AER	Pro-Red Plus™ – 19 oz. Aerosol	EA	6

Aerosol Starter Kit

DiversiTech has created a 12 pack of aerosol cans consisting of two each of PRO-BLUE-AER, PRO-RED+-AER, PRO-GREEN-AER, PRO-BROWN-AER, PRO-YELLOW-AER, and ECO-COIL-AER. This starter kit allows wholesalers the opportunity to stock a limited quantity of these new cans.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
AEROSOL-STARTER-KIT	Aerosol Starter Kit – 2 each, 12 cans total	PK	1

Pro-Yellow™

Pro-Yellow™ is a powerful cleaner ideal for condensers, microchannels, and mini-splits that targets large concentrations of dirt and grime. With its heavy foaming alkaline-based solution, debris will be removed from the coil while providing excellent brightening. Pro-Yellow is biodegradable, NSF approved and available in a number of packaging solutions.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PRO-YELLOW-32	Pro-Yellow™ (non-toxic) – 32 oz. bottle	EA	12
PRO-YELLOW	Pro-Yellow™ (non-toxic) – 1 gallon container	EA	4

PRO-YELLOW-AER	Pro-Yellow™ – 19 oz. Aerosol	EA	6

Pro-Kleen™

A unique foaming acid coil cleaner designed to replace hazardous hydrofluoric acid coil cleaners. It contains a synergistic combination of mineral acids, corrosion inhibitors, biodegradable surfactants, penetrants, and degreasers that emulsify, solubilize and neutralize soils leaving a clean, bright, efficient coil surface.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PRO-KLEEN	Pro-Kleen™ Outdoor Coil Cleaner – 1 gallon container	EA	4
PRO-KLEEN-5	Pro-Kleen™ Outdoor Coil Cleaner – 5 gallon pail	EA	1
PRO-KLEEN-55	Pro-Kleen™ Outdoor Coil Cleaner – 55 gallon drum	EA	1

ACCESSORIES

Coil Guard™

Ideally used in coastal areas, where salt air accelerates rust and decay. Highly recommended for use in all geographical areas to prolong the life of a unit. When applied properly, Coil Guard™ dries quickly and immediately resists salt spray, alcohol, acids, and soap solutions. Weather will not blacken it. Coil Guard™ has high dielectric properties and has no effect on heat transfer. Our blue tinted product is used to ensure complete coverage of coating.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CG-AER	Clear Coil Guard™ – 20 oz. Aerosol	EA	12
CGB-AER	Blue Coil Guard™ – 20 oz. Aerosol	EA	12

Cool-Weld™ Heat Barrier Spray

COOLWELD-32

Spray on thick gel formula that protects surfaces from heat and damage. Odorless, non-toxic gel coats rubber, plastic, and painted surfaces to shield them during welding or soldering.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
COOLWELD-32	Cool-Weld™ Heat Barrier Spray – 32 oz. Container	EA	12

ACCESSORIES cont'd

Pan-Patch™

PANPATCH-BAG

Pan-Patch™ is a two part epoxy coating with anti-microbial additives designed for HVAC applications. It is a self leveling formula that is ideal in a damp or wet environment. Pan-Patch™ resists corrosion and stops pan leaks without replacing the pan. Light gray in color, one gallon covers about 160 square feet with 10 mil thickness.

CATALOG NO.	DESCRIPTION	COVERAGE	UOM	ORDER MULTIPLE
PANPATCH-BAG	Pan-Patch™ Pan Sealant – Bag, pack of 10	8 sq. ft.	EA	10
PANPATCH	Pan-Patch™ Pan Sealant – 1 Gallon	160 sq. ft.	EA	4

COIL CLEANING AEROSOLS

Saf-N-Kleen™ Aerosol Solvent Coil Cleaner

High-solvency formula quickly and easily dissolves dirt, grease, oil or other residue while the blasting nozzle separates the materials from the surface. Non-flammable, non-conductive formula is safe to use on live equipment. Not for use in California.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
357-20	Saf-N-Kleen™ Solvent Coil Cleaner – 18 oz. Aerosol	EA	12

Foam-Plus™ Aerosol Foaming Coil Cleaner

Heavy-duty foaming detergent coil cleaner in an aerosol can. Non-flammable and water-based with no chlorinated solvents. Blasting foam stream reaches into tight areas for maximum cleaning. The foaming alkaline detergent quickly liquifies dirt, grease, oil or other residue and is completely self-rinsing on condensate producing coils.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
358-20	Foam-Plus™ Foaming Coil Cleaner – 19 oz.	EA	12

DRAIN PAN DISINFECTANT

Sani C-N-D™ Coil and Drain Pan Disinfectant

SANI-CND
EPA Registered

Sani C-N-D™ is an EPA registered disinfectant, fungicide, mildewstat and viricide. It is ready-to-use and assures consistent, effective results. Sani C-N-D™ destroys "dirty sock," mildew and other malodors.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
SANI-CND-32	Sani C-N-D™ Disinfectant – 32 oz. Container	EA	12
SANI-CND	Sani C-N-D™ Disinfectant – 1 Gal. Container	EA	4

SANI-CND-55	Sani C-N-D™ Disinfectant – 55 Gallon Drum	EA	1

Pan-Kote Heavy Duty Drain Pan Patch

A super-durable rubberized coating used to fill-in and patch HVAC drain pans. Seals out rust and corrosion. Stays flexible in variable weather conditions.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
641-14	Pan-Kote Drain Pan Patch – 14 oz. Aerosol	EA	12

GLYCOLS

DiversiTech produces the most complete line of industrial coolant and heat transfer products in the HVAC/R Industry. Our product line includes ProTek PG propylene glycol products formulated with food-grade corrosion inhibitors and ProTek EG ethylene glycol products for industrial applications. Both product groups are designed to provide freeze and burst protection and are formulated with inhibitors and antifoam agents to provide long-term stability against system corrosion and fouling.

ProTek EG™

An inhibited ethylene glycol based heat transfer fluid designed for use in hydronic, chilled and closed water.

CATALOG NO.	DESCRIPTION	GLYCOL/ WATER RATIO	UOM	ORDER MULTIPLE
EG	ProTek EG™ – 1 Gallon Jug	95/5	EA	4
EG-5	ProTek EG™ – 5 Gallon Pail	95/5	EA	1
EG-55	ProTek EG™ – 55 Gallon Drum	95/5	EA	1

GLYCOLS cont'd

ProTek™ Closed Loop Heat Transfer Fluid

ProTek™ for closed loop water recirculation systems is a blue liquid. Available in three concentrations: original ProTek-100™, ProTek-50™, and ProTek-Plus™. Each concentration may be further diluted to alter freeze and burst temperatures. Refer to the technical data sheet for specific information.

CATALOG NO.	DESCRIPTION	GLYCOL/ WATER RATIO	UOM	ORDER MULTIPLE
PG-50	ProTek-50™ – 1 Gallon Jug	35/65	EA	4
PG-50-5	ProTek-50™ – 5 Gallon Pail	35/65	EA	1
PG-50-55	ProTek-50™ – 55 Gallon Drum	35/65	EA	1

ProTek PG Plus™

ProTek PG PLUS™ is an inhibited propylene glycol based industrial heat transfer fluid and anti freeze that contains food grade corrosion inhibitors. It is suitable for use in potable water systems. ProTek PG PLUS™ is designed to provide freeze and burst protection, excellent thermal conductance, protection against corrosion and fouling and long term stability in closed recirculating water loops. ProTek PG PLUS™ must be mixed with water to provide freeze and burst protection. Freeze points and burst points are controlled by the propylene glycol to water ratio.

CATALOG NO.	DESCRIPTION	GLYCOL/ WATER RATIO	UOM	ORDER MULTIPLE
PG-PLUS	ProTek-Plus™ – 1 Gallon Jug	95/5	EA	4
PG-PLUS-5	ProTek-Plus™ – 5 Gallon Pail	95/5	EA	1
PG-PLUS-55	ProTek-Plus™ – 55 Gallon Drum	95/5	EA	1

ProTek PG 100™

ProTek 100™ is an inhibited propylene glycol based industrial heat transfer fluid and antifreeze that contains food grade corrosion inhibitors. It is suitable for use in potable water systems. ProTek 100™ is designed to provide freeze and burst protection, excellent thermal conductance, protection against corrosion and fouling and long term stability in closed recirculating water loops. ProTek 100™ provides burst protection to 100°F. Freeze points and burst points are controlled by the propylene glycol to water ratio.

CATALOG NO.	DESCRIPTION	GLYCOL/ WATER RATIO	UOM	ORDER MULTIPLE
PG-100	ProTek-100™ – 1 Gallon Jug	70/30	EA	4

FLUSHING PRODUCTS

Pro-Flush® HVAC Flushing Solvent

A flushing solvent for A/C and refrigeration systems formulated for R410A retrofits, refrigerant conversions and compressor burnouts. Compatible with all refrigerants and compressor oils. All solvents in Pro-Flush® are non VOC and conform to EPA SNAP standards: low toxicity and residue free. Available as a kit or in an 8 or 16 oz. solvent refill. The kit makes servicing quick, easy, and safe, as well as assuring you get to the job site with all necessary hardware in hand for 1 stop servicing. The kit includes: 8 oz. container of Pro-Flush® solvent, refillable Pro-Flush® injector tool pressure tank, pressure relief valve for added safety, large rubber adapter that flushes up to 1-1/4" line sets, service hose.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PF-KIT	Pro-Flush® Kit – injector, 8 oz. refill, nozzle adapter and hose	EA	3
PF-08	Pro-Flush® HVAC Flushing Solvent – 8 oz. Refill	EA	6

PF-IHOSE	2' Replacement Hose	EA	1

Super Change™

Super Change eliminates oil change outs replacing R22 line set conversion flushes. Ideal for dry charged units, retrofits, and drop-in refrigerants, Super Change maximizes oil return and heat transfer including POE charged compressors. Reusable hose (20122) sold separately. Also available in flexible injectable hose (991).

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
981	Super Change™ - Up to 6 Tons	EA	6
20122	Reusable Charging Hose for Super Change™	EA	1
991	Super Change™ Inject	EA	4

Power Sprayer

DiversiTech's Power Sprayer makes coil cleaning easier and faster! Designed as a backpack sprayer, it holds up to 4 gallons of coil cleaning solution. The battery powered unit will spray continuously for 10 hours on a single charge. Included are three different nozzles to give you the right spray for any situation. It also features: padded backpack straps for a comfortable fit, plug-in charger for fast recharging, a convenient center mount handle, an extra long spray wand with curved tip for accurate application, and a large on/off valve which can lock in position for easier spraying of big jobs. The large tank opening also makes it easy to add coil cleaner and mix to the correct ratio. The Power Sprayer is compatible with all DiversiTech coil cleaners.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PS-1	Battery powered/rechargeable backpack sprayer for coil cleaning	EA	1

Dial-a-Mix Sprayer

Save time and money by dialing in the exact mix ratio to properly clean the coil. This sprayer features 5 mix ratios, a 1/2 gallon capacity bottle and a quick disconnect for fast and easy rinsing.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
540-GUN	Dial-a-Mix Sprayer	EA	6

Garden Hose

High quality product priced for high volume sales. Soft-Flex formulation makes the 5 ply Hose easy to handle. Withstands 500 psi water pressure. Heavy duty solid brass couplings and collar. Full Lifetime Guarantee!

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
5-IG5850	Green Flexon 5-Ply Forever Garden Hose	EA	5

All Purpose Sprayers

Lightweight, versatile gallon size bottle has a 28" flexible hose and easy-to-carry handle. Best for big jobs in hard- to-reach places. Adjustable nozzle will atomize any low viscosity liquid. Adjusts from a mist to a 12' jet stream or anything in between. One pint container has a measured ounce guide. Ideal for water treatment chemicals.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
BS-32	Quart Size Sprayer	EA	12

Compression Sprayers

Acid impervious poly design with a 36" (91cm) reinforced hose, shut-off with lock-on feature for continuous spraying, a 2-piece nozzle that's detachable for easy clean up and fits directly to the shut-off or extension wand. The Hand-Held Sprayer has a 48 oz. (1.4 l) capacity, perfect for small areas. All sprayers have a full 5 year warranty.

LEAK SEALANTS

Flex Inject® Sealant Advanced & Total

Flex Inject® Sealant Advanced is the fastest, most effective proven way to permanently seal and prevent minor air conditioning and refrigeration (AC/R) leaks. With no tools or gauges required, the Flex Inject® Sealant Advanced works by travelling through the system with the oil and refrigerant fixing leaks immediately (up to 300 microns). Flex Inject® Sealant Advanced works with all compressors, heat pumps, condensers, and other system components and it will not plug up manifold gauges, metering devices, thermostatic expansion valves (TXVs), pistons or cause cap tube blockages. It meets the ASHRAE ARI 700 refrigerant standard and is compatible with any refrigerant including R-410A with no pump downs or recoveries required. Flex Inject® Sealant Advanced is suitable for use in aluminum and copper coils and is microchannel friendly. Flex Inject® Sealant Total has all the benefits of Advanced but includes UV dye.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
985	Flex Inject® Sealant Advanced	EA	6
995	Flex Inject® Sealant Total	EA	6
999KIT	Flex Inject® and Flash™ Detect Merchandiser Kit Four each of 985, 990, 995 (Case of 12)	EA	1

Super Seal™ Sealant Advanced

Super Seal™ Sealant Advanced includes a stop leak sealant and Dry R™. Provides for a fast install with no pump down or recovery even for R410A. Compatible with all oils and refrigerants. Hose included.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
947KIT	Super Seal™ Sealant Advanced - Up to 1.5 Tons	EA	12
944KIT	Super Seal™ Sealant Advanced - 1.5 to 5 Tons	EA	12
948KIT	Super Seal™ Sealant Advanced - 5+ Tons	EA	1

Super Seal™ Sealant Total

Super Seal™ Sealant Total includes a stop leak sealant, Dry R™, and Flash™ with all the benefits of Super Seal™ Sealant Advanced plus UV dye. Hose included.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
971KIT	Super Seal™ Sealant Total - Up to 1.5 Tons	EA	12
972KIT	Super Seal™ Sealant Total - 1.5 Tons to 5 Tons	EA	12

Seal-N-Go® Self-Sealing Refrigerant

Seal-N-Go® is an excellent solution for taking R410A refrigerant on job sites and includes Super Seal™ Sealant Advanced. It allows technicians to fill and stop and prevent leaks simultaneously. With a reusable charging hose (sold separately), the 25.7 ounce lightweight cannister is great for topping off multiple systems and perfect for mini-split installs. Reusable charging hose (20133) sold separately.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
9410SSR	Seal-N-Go® 25.7 R410 Refrigerant plus Super Seal™ Sealant Advanced	EA	6
20133	Reusable Charging Hose with Gauge	EA	1

Pro-Treat®-151 Premium Condensate Drain Pan Treatment

PROTREAT-151

EPA Registered

Pro-Treat®-151 premium tablets penetrate and help remove sludge that can plug drain pans and drain lines and foul humidifier pans. Kills odors associated with slime and sludge, minimizing maintenance problems from overflow and water damage caused by fouled pans, plugged traps, or drain lines. Tablets are 100% soluble, easy-to-use, and do not form any deposits in the pan or drain line. Approved for computer rooms. Dosage: 1 tablet per 3 tons each month. PRO-TREAT-151 is EPA registered.

PROTREAT-151	Pro-Treat®-151 Premium Drain Pan Treatment – 100 Tablets/Jar	EA	12

Pro-Treat® 161 Condensate Drain Pan Treatment

PROTREAT-161

Controls odors and eliminates condensate drain pan overflows and the resulting water damage. 100% soluble, easy-to-use, non-corrosive, and non-toxic. Use regularly to assure season-long, trouble-free condensate drain pan performance. Approved for computer rooms. Dosage: 2 tablets per 3 tons each month.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PROTREAT-161	Pro-Treat® 161 Drain Pan Treatment – 100 Tablets/Jar	EA	12

Pro-Treat® 217 Economy Condensate Drain Pan Treatment

PROTREAT-217

Economical with 200 tablets per jar. Safe, non corrosive, odor free and 100% soluble. Approved for computer rooms. Convenient, easy to use tablet form provides prolonged cleaning action. Dosage 3 tablets per 3 tons per month.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PROTREAT-217	Pro-Treat® 217 Economy Drain Pan Treatment – 200 Tablets/Jar	EA	12

Pro-Treat® 350 Condensate Drain Pan Treatment

PROTREAT-350

Place a Pro-Treat® 350 tablet in a condensate drain pan and condensed moisture will slowly dissolve the tablet, thinly coating the pan surface to give prolonged cleaning action on sludge. Dosage: one or two tablets are recommended in each pan per month. For industrial use only!

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PROTREAT-350	Pro-Treat® 350 Condensate Pan Treatment – 100 Tablets per Jar	EA	24

Pro-Treat®152 King-Size Premium Condensate Drain Pan Treatment

PROTREAT-152

Economical, safe, effective king-size tablets last three times longer. Safe, non-corrosive, odor-free and 100% soluble. Computer room approved. Keeps drain pans and condensate lines clean and free flowing. Dosage: 1 tablet per 3 tons per 3 months.

REFRIGERATION OILS

Pro-Lube™ Mineral Oil

3WF-01

Specialty Chemical mineral oil (by Calumet) is a superior mineral naphthenic refrigeration oil designed to meet the operating requirements of modern residential and commercial air conditioning and refrigeration compressors. These oils have a low pour point, low wax floc temperature and are chemically and thermally stable in the presence of refrigerants. OEM approved by Copeland, Carlyle, Trane, and other major compressor manufacturers. Always follow compressor manufacturer's oil viscosity recommendations. Mineral oil is specially recommended for lubrication of compressors containing ammonia, R-11, 12, 13, 22, 113, 114, 123, 500 and 502 refrigerants in residential, industrial and commercial service. DO NOT USE WITH HFC REFRIGERANTS SUCH AS R-134A.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
3WF-01	SUS150 ISO32 Pro-Lube™ Mineral Oil – 1 Gallon Jug	EA	4
4WF-01	SUS300 ISO68 Pro-Lube™ Mineral Oil – 1 Gallon Jug	EA	4

Pro-Lube-POE™ Polyolester

POE32-32

Specialty Chemical POE is custom formulated for use in refrigeration compressors. This series contains no ozone depleting substances and is compatible with new HFC refrigerants as well as existing CFC and HCFC refrigerants. POE is also compatible with traditional mineral oil lubricants.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
POE32-32	SUS150 ISO32 Pro-Lube-POE™ Polyolester – 1 Quart Can	EA	12

ATK-1	Acid Test Kit™	EA	1
ATK-1P	Acid Test Kit™ for POE Oil	EA	1

THREAD SEALANTS

PRO-TITE™ Resin Based Thread Sealant

CLL-1

Resin based thread sealant that adheres to internal surfaces, fills voids while forming a flexible fluid tight seal. Specifically formulated for use on metals and plastics subject to extreme vibration. Serviceable at temperatures from 100°F (73°C) to 400°F (204°C) and from full vacuum to 10,000 PSI. Pro-Tite™ is impervious to most chemicals including refrigerants, petroleum products, gases, steam, etc. Alcohol based.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CLL-1	Pro-Tite™ Thread Sealant – 1-1/3 oz. Squeeze Tube	EA	12
CLL-4	Pro-Tite™ Thread Sealant – 4 oz. Brush Top	EA	12

VACUUM PUMP OIL

Pro-Lube-VAC™ Vacuum Pump Oil

VP68-01

VP-68 Premium Vacuum Pump Oil is now based on a highly refined paraffinic based stock. This new improved formulation is lighter in color and provides better viscosity and oxidation stability than the previous formulation. VP-68 provides excellent cold start performance; formulated to meet minimum moisture content specifications.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
VP68-32	Pro-Lube-VAC™ Vacuum Pump Oil – 1 Quart Jug	EA	12
VP68-01	Pro-Lube-VAC™ Vacuum Pump Oil – 1 Gallon Jug	EA	4
VP68-05	Pro-Lube-VAC™ Vacuum Pump Oil – 5 Gallon Pail	EA	1

ADDITIVES

Acid Eliminator

ACID-ELIM

Keeps acid away; compatible with all refrigerants and oils. Chemically neutralizes and prevents acids that are formed in air conditioning and refrigeration systems due to refrigerant and refrigeration oil break-down, moisture, and compressor burnout. Easy-to-use, no complicated charts. Works fast, circulates quickly, and leaves no solids or solid residuals. Will not harm system components. Can prevent system breakdown.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
ACID-ELIM	Acid Eliminator – 4 oz. Plastic Bottle	EA	12

Pro-Thaw™ Liquid Dryer for Refrigerants

PRO-THAW-1
PRO-THAW

Chemically dries all refrigerants (R-12, R-22, R-134a, etc.), methyl chloride and methylene chloride. Frees up systems frozen due to moisture contamination in 5 minutes and prevents refreezing. Does not contain any dissolved solids, leaves no residue and works with or without solid dryers.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
PRO-THAW-1	Pro-Thaw™ – 1 oz. Plastic Bottle	EA	24
PRO-THAW	Pro-Thaw™ – 4 oz. Plastic Bottle	EA	12

Dry R™

973KIT

DRY R™ enhances the function of driers and metering devices by removing non-condensables, eliminating ice crystals, and breaking down blockages by removing scale and sludge on moving parts such as TXVs.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
973KIT	Dry R™ Moisture Eliminator - Up to 5 tons	EA	12

Boost Juice® & Boost Juice® Inject

992
993KIT

Boost Juice® is an HVAC/R system performance improvement additive that lowers energy costs by reducing the amperage draw up to 22% (testing average of 13%) on a system when running.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
992	Boost Juice® Inject - Up to 6 Tons	EA	4
993KIT	Boost Juice® Kit - Up to 6 Tons	EA	6

Trust - It's what we're all about

You can trust DiversiTech products to make your jobs easier and simplify your work. For 50 years DiversiTech has been producing quality HVAC/R products that contractors rely on to get the job done right the first time.

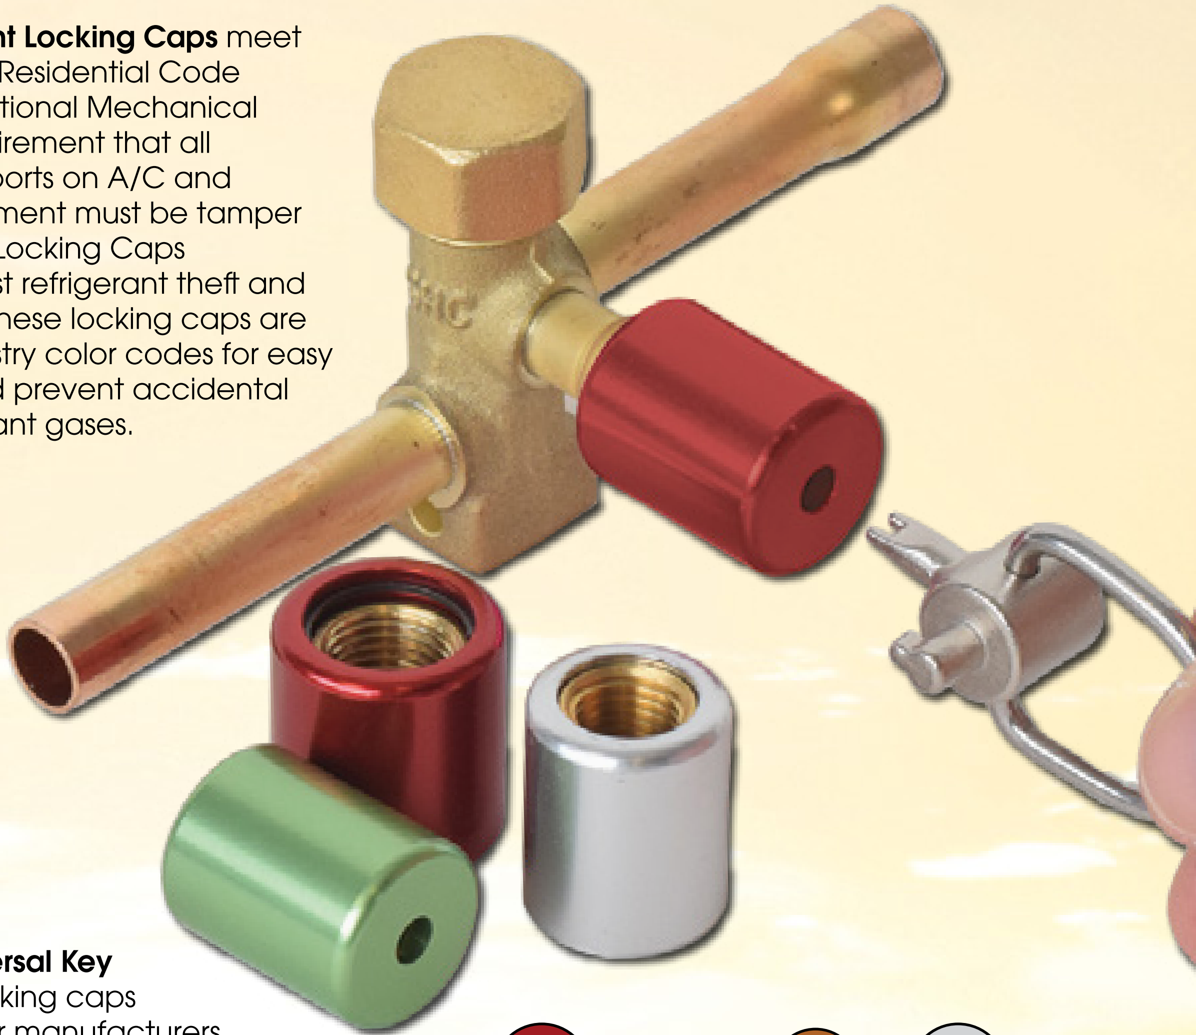
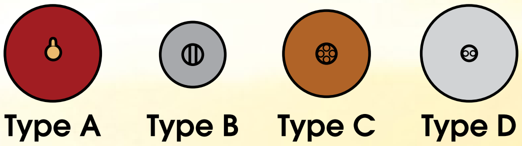
REFRIGERANT LOCKING CAPS

Sentry™ Refrigerant Locking Caps meet the International Residential Code (IRC) and International Mechanical Code (IMC) requirement that all outdoor access ports on A/C and refrigerant equipment must be tamper resistant. Sentry™ Locking Caps safeguard against refrigerant theft and inhalant abuse. These locking caps are anodized in industry color codes for easy identification and prevent accidental mixing of refrigerant gases.



The **Sentry™ Universal Key** fits refrigerant locking caps from all the major manufacturers. It saves time hunting for the right key at the job site. It fits locking caps with these key holes:



Code Compliant

Meets the IMC & IRC code requirement.

Weather Proof

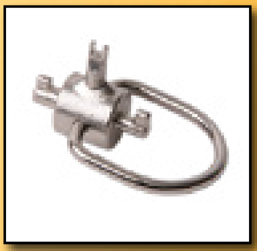
Anodized aluminum casing with threaded brass insert.

Deters Refrigerant Theft

Tamper resistant cap design.

Universal Key Included

Fits refrigerant locking caps from all major manufacturers.



Sentry™ Refrigerant Locking Caps - R-410, Red, 1/4"

The Sentry™ Refrigerant Locking Caps are quick and easy way to comply with the IRC and IMC codes requirement that all outdoor access ports on A/C and refrigerant equipment have to be tamper resistant. This cap is anodized in red color for easy identification of R-410 refrigerant. It is designed for 1/4" access ports. An O-ring seal is also pre-installed to prevent leaks.

ACCESS FITTINGS

A convenient low-cost port for refrigeration servicing. May be installed in any position on either high or low side for charging, purging, quick testing or pressure checking. DiversiTech's access fittings have 1/4" SAE male flare access ports and include a quick seal cap and a stainless and brass special refrigerant valve core.

Brass Adapters

The MSA-45 is used on the new R410 Mini Split systems that have the larger unique fitting on the service valve. The description of that fitting is 1/2" acme Male-20 UN. This adapter will screw onto the 1/2" Acme Male-20 UN fitting and allow you to connect a standard 1/4 service hose to it.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
MSA-45	1/4" Male flare x 1/2" – 20 UNF Female	EA	1

Cop-Cap™ Locking Valve Cover

An effective way to discourage and prevent the removal of refrigerant. COP-CAP™ fits this standard service valve on all central AC units and mini-splits. It helps prevent access by unauthorized persons and can only be removed with the included special tool. Simply thread COP-CAP™ assembly onto existing 1/4" flare connection on system and lock set screw in place with hex wrench provided.

- Seals service valve to prevent leaks
- Prevents illegal venting or theft of refrigerant
- Stops unauthorized access in unsecured areas

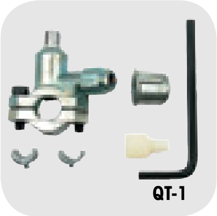
LINE PIERCING VALVES AND TOOLS

Quick-Tap

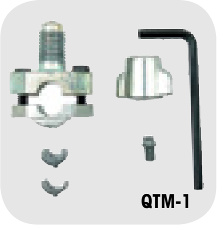


QT-1

Features a valve core in the 1/4″ male port. Simply pierce the line and back seat the needle. Flow starts when depressor type charging hose is connected. Flow shuts off automatically when hose is removed. If valve core is not desired, it may be removed. Connect hose, pierce line and back seat needle. This method offers full unrestricted flow. Valve core can be removed or changed at any time without loss of refrigerant if needle is front seated.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
QT-1	Quick-Tap – 1/4″, 5/16″, 3/8″ O.D. Tube Size	EA	1
QT-2	Quick-Tap – 1/2″, 5/8″ O.D. Tube Size	EA	1

MAC–The Ultimate in Line Piercing Valves



QTM-1

Install valve. Connect charging hose. Service. That's all there is to it! MAC features uniport: 1 connection for piercing and servicing. Sealed with refrigerant resistant "O" rings. Needle automatically back seats after servicing, leaving line free of restriction. Connect to tubing with 2 socket-head screws. (Hex wrench is included with each valve.) Needle depressor is inserted into head of needle. Wing cap is turned down easily by hand until line is pierced. Wing cap is removed and system may be serviced with any charging hose with built-in depressor. When hose is removed, spring loaded needle back-seats forming a leak proof seal. Needle depressor is discarded and wing cap forms extra precautionary seal.

CUSHION CLAMPS

Cushion Clamps

An industry standard universal clamp that mounts to standard strut. Steel with electro-dichromate finish to resist corrosion. The lock nut has a nylon insert for a positive lock. The polymeric grommet withstands temperatures from -25°C to 125°C and resists the effects of most oils, chemicals, and industrial cleaning compounds.

Liquid Line Driers

High moisture and acid capacity. Maximum filtration capacity. Exceptional compatibility with new polyester oils. Compatible with all existing and new refrigerants and blends including 134a, 401A/B, 402A/B, 404A, 407A/B/C, 410A, 502, 507A. Spring loaded, molecular sieve XH-9 dessicant. Solid copper sweat fittings. Powder paint exterior coating surpasses 500 hour ASTM salt spray test and resists corrosion. Eliminates concern of additive stripping.

Suction Line Driers

The solid-core clean-up dryer was developed for use in a system suction line. The compact design incorporates a large outside diameter shell, which results in a shorter lay-in length, and a larger core, which provides a greater filtration area for maximum operating efficiency. The core material has controlled porosity which effectively removes and holds a maximum amount of contaminants with a minimum of pressure drop. It collects and holds inorganic acids and other harmful contaminants from a motor burnout. This binding process protects the core from acid decomposition. Access valves on both the inlet and outlet sides make it easy to measure pressure accurately. Occasionally, enough contaminant matter may collect in the filter core to cause a slight pressure drop. The access valves on the SLD make it easy to determine if a pressure drop exists and to measure the amount of the drop. The original DSLD, solid core, XH-9 molecular sieve dessicant suction line filter dryer. High acid capacity. Low pressure drop – exceptionally high flow rates. Designed for system clean-up. 500 hours salt spray protection. Shortest system cut-out lengths allow installation in tight areas. Two access valves simplify pressure drop measurement. Flare or solid copper sweat fittings.

Universal Spun Copper Driers

Manufactured with the latest generation molecular sieves compatible with more than 20 different types of refrigerants, including R-134A. They can be used in all hermetic and open refrigeration systems using CFC, HCFC and HFC gases and mixes such as commercial and domestic refrigerators, freezers and air conditioners ranging from 1/8 to 2.0 HP. Hermetically sealed with extended ends.

Bi Flow Driers

DBF163S

The "DBF" Series is designed specifically for heat pump or reverse cycle application. External check valves are not required since they are incorporated within the filter dryer shell. The core design filters out contaminant particles down to 25 microns. 100% copper sweat or nickel plated flare fittings. Desiccant core provides reliable and effective, removal of solid contaminants, acid and moisture. Provides three times the filtration as the standard bi-flow. Core is cushioned in fiber gaskets to protect core and to insure trouble-free performance. Powder paint exterior coating surpasses 500 hour ASTM salt spray test and resists corrosion.

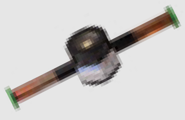
Sight Glasses

DPSG-2S



Sight Glass and Moisture Indicator provides a quick visual diagnosis of refrigerant and moisture levels within a system. The sight glass indicates if the system has the proper refrigerant level, a restricted dryer or excessive pressure-drop. The moisture indicator recognizes moisture within the system. Provides early warning that a potential failure exits resulting in corrosion, chemical damage, restricted flow, or even compressor failure. Etch-resistant glass with a simple color comparison provides easy viewing and quick diagnostics. Flare models feature forged brass body and fittings for corrosion resistance. Sweat models feature copper fittings to permit solder installation without disassembly. Leak-proof design is compact and short in length to easily fit within a unit and provide accuracy in performance.

REFRIGERANT CHARGING

Insta-Charge

RC-1

Faster, safer and more economical method for charging LIQUID refrigerant through the low pressure side of an air conditioning or refrigeration system, without damaging the compressor. Insta-Charge's unique internal restrictor reduces liquid flow to a level below the capacity of the compressor. Converts liquid refrigerant to a saturated vapor for fast entry. Insta-Charge connects directly to the refrigerant can or cylinder valve. Adds liquid tracing dye faster. Eliminates heating of refrigerant cylinder. Made of light weight aluminum. Sold at a fraction of the cost of other fast charging devices.

DiversiTech Line Sets

DiversiTech Line Sets are individually packaged in sturdy corrugated cardboard, designed and tested for individual parcel shipment.

Line Sets are designed for air conditioning and refrigeration systems. The copper tube is refrigeration grade tubing to ASTM B280. The suction line is pre-insulated with Armaflex AP pipe insulation. This insulation is a black flexible elastomeric thermal insulation. The expanded closed-cell structure makes it an efficient insulation. It is manufactured without the use of CFC's, HFC's or HCFC's. AP Armaflex contains Microban® antimicrobial product protection for added defense against mold on the insulation. DiversiTech Min-Split Line Sets are similar to Standard Line Sets but come with additional insulation on the liquid line and flared line ends. Copper tubing complies with ASTM B280 for Seamless Copper Tube for ACR.

AP Armaflex insulation meets ASTM C534, Type I – Tubular Grade 1, ASTM E84, NFPA 255, UL723, CAN/ULC S102, UL94 5V-5A, V-O (E55798), NFPA 90A/90B, UL181, ASTM G21/C1338, ASTM G22, ASTM D1056 2B1, MIL-P-15280J form T, MIL-C-3133C grade SBE3, MEA 96-85-M, and City of LA RR7642.

If ordering by pallet, 15 line sets are packed per pallet.

LineSet Box™

The NEW LINESET BOX™ is a rough-in box for new construction line set protection for all types of HVAC installations. The architecturally pleasing and professional looking LINESET BOX is easy to install and provides superior protection of refrigerant line sets and condensate drain lines. Provides a clean termination point for new construction projects and reserves the bay for the HVAC system installation. The LINESET BOX also protects the lineset from damage during construction. It helps to eliminate damage such as kinks that can drastically increase HVAC installation time.

REFRIGERANT LABELS

DiversiTech Refrigerant ID Labels

These 3″ x 4″ self-adhesive vinyl labels use a high-tack acrylic adhesive and UV cured screen printing. Color coded to conform to refrigerant labeling convention. Each label indicates the type of refrigerant (eg. R-11), the chemical name (eg. Trichloromonoflurомethane) and the UN No. (eg. UN 1078). Avoid costly mistakes by properly identifying the type of refrigerant contained in recovery cylinders and air conditioning and refrigeration equipment.

REFRIGERANT RECOVERY PRODUCTS

Refrigerant Recovery Cylinders

DOT Classified for recovery, recycling, service and reclaim. Liquid and vapor valves ("Y" valve or separate valve configurations) are installed in all cylinders. Painted yellow/gray per ARI guidelines. Float switches have 3-pin Brad Harrison connectors.

02053
02100

CATALOG NO.	DESCRIPTION	DOT CLASS	3/4" NPT PLUG	FLOAT SWITCH	WATER CAP.	TARE WT.	UOM	ORDER MULTIPLE
02033	30 lb.	4BA400	YES	NO	26.2 lbs.	17 lbs.	EA	1
02053	50 lb.	4BA400	YES	NO	47.7 lbs.	28 lbs.	EA	1
02100	100 lb.	4BW400	NO	NO	123 lbs.	48 lbs.	EA	1
02255	250 lb.	4BW260	YES	NO	239 lbs.	85 lbs.	EA	1

Caution: Never overfill cylinders. Maximum refrigerant capacity is limited to 80% of the water capacity of the cylinder in lbs. (see table above). DOT requires cylinders to be retested every five years. Some recovery equipment uses weight scales to cut off refrigerant fill at 80% of capacity. Be sure cylinder tare weight is correct for this type of equipment.

DOT Classification Example: 4BA400: 400 psi working pressure; 800 psi test pressure (double the working pressure); 1,600 psi minimum burst pressure (double the test pressure). Pressure relief/safety valve is set to release at between 75-100% of the test pressure. For example, in the 4BA400 tanks which have a 800 psi test pressure, the relief valve opens at between 600 psi and 800 psi.

TUBING INSULATION

Tubing Insulation

Highest quality tubing insulation by Armacell. AC Accoflex® tubing insulation is a flexible rubber product from the inventors of elastomeric foam insulation. It is designed exclusively for HVAC, with a tough surface and excellent resistance to ultraviolet damage, condensation and mold.

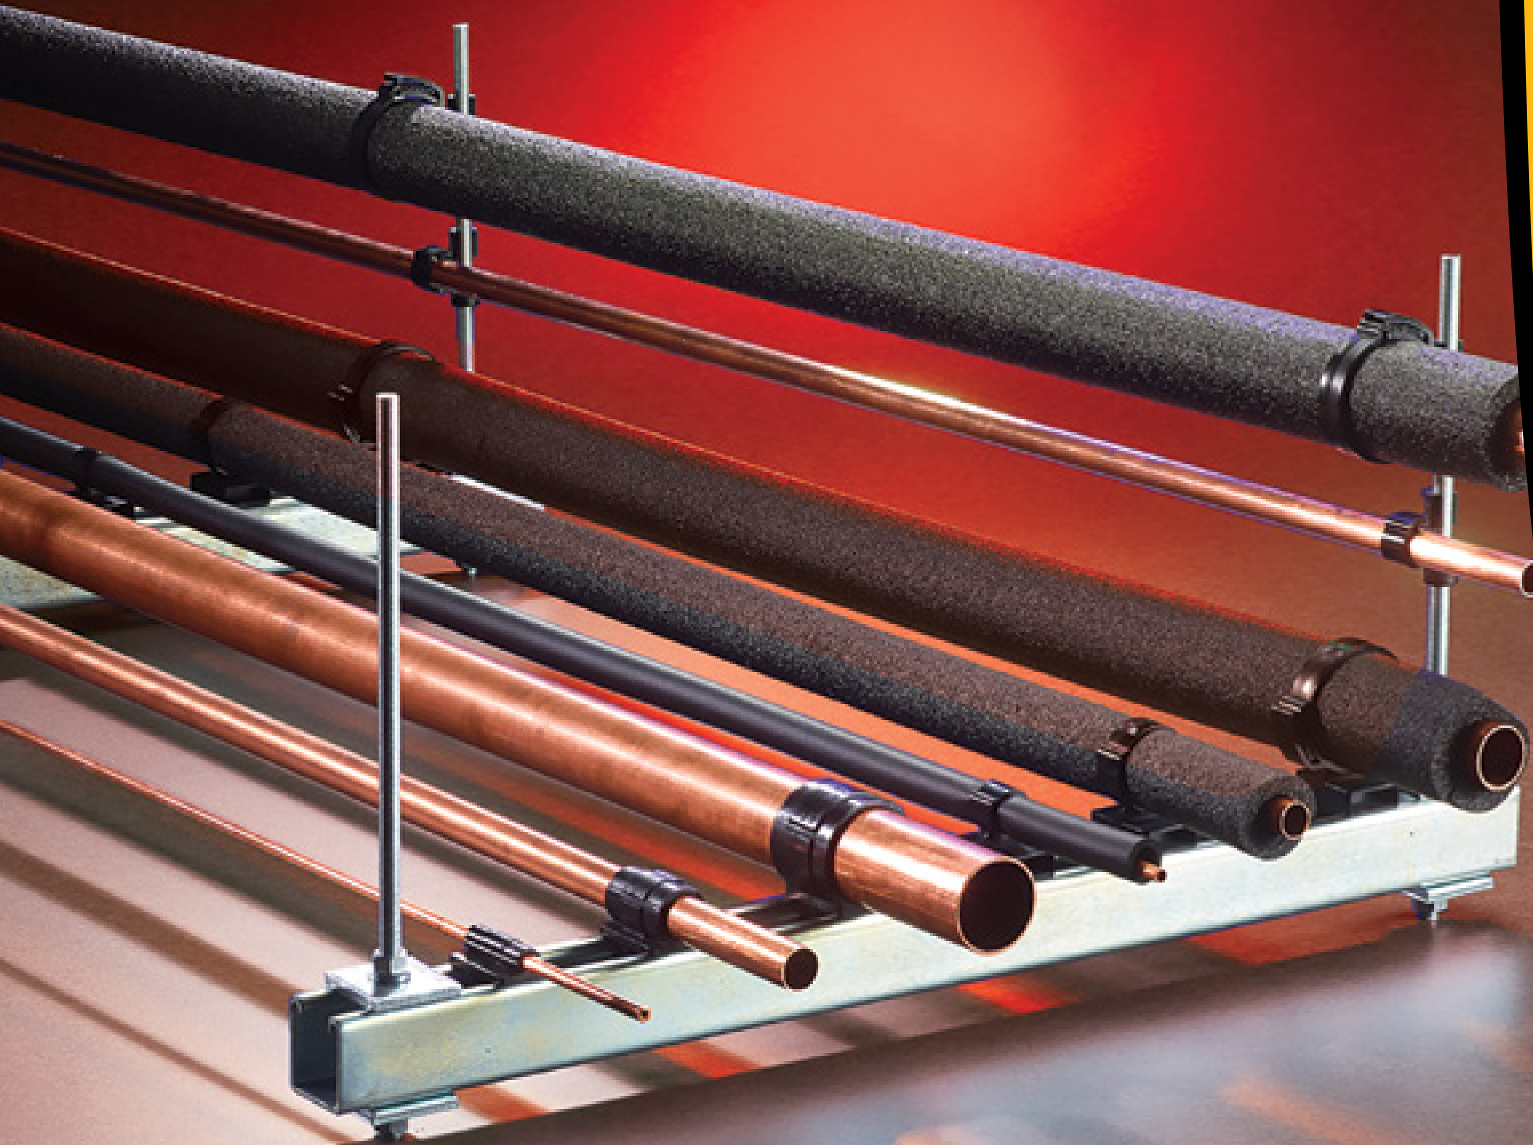
RPC by DIVERSITECH®

RAPID POSITIONING CLIPS

The RPC line of mounting clips are very cost effective and time saving solutions for refrigeration, A/C tubing, PEX piping, conduits and cabling support. Their unique, simple and effective one-piece design requires no tools and they are 20 times faster to install when comparing to the traditional mounting clamps.



All RPC clips are made from durable polyamide material and have a wide working temperature range from -40°F to 284°F (-40°C to 140°C). They meet the UL2043 requirement for plenum rating and have the UL94 HB flame rating, suitable for use in air handling spaces.

DIVERSITECH®

DIVERSITECH®

Triple-D®

Universal Coil Cleaner

All of the organic materials in this product are readily biodegradable
BIODEGRADABLE

Triple-D® is a Universal Coil Cleaner suitable for use on condenser and evaporator coils. It is metal safe and does not attack aluminum or copper coil components, extending equipment life and diminishing potential for refrigerant leaks. Triple-D® is a safer, more versatile product than conventional acid or non-acid coil cleaners.

- Metal Safe
- Biodegradable
- Super Concentrated
- Inhibited Non-Acid Formulation
- Available in Multiple Packages/Forms
- Non-Foaming/Non-Toxic
- Safe for Rubber Roofs
- Corrosion Inhibited
- NSF Registered

U.S. GENERAL TERMS AND CONDITIONS

General Policy

WE ARE COMMITTED TO DO WHAT IT TAKES TO DELIVER WORLD CLASS SERVICE AND PRODUCTS.

All items not ordered in multiples of standard package quantities will automatically be increased to the next standard package quantity. All purchase orders submitted by our customers are assumed as accepting our general terms and conditions as stated herein, any conflicting terms stated on the purchase order cannot supersede our terms.

Order Discrepancies:

All order discrepancies must be reported to us within 5 working days from the date of delivery. Any discrepancies reported after this period cannot be honored.

Terms:

1% 15 days. Net 30 days. Late charges of 1-1/2% per month will be charged following the due date of the invoice. Prices subject to change without notice.

Minimum Order:

$100.00 minimum order on all original orders. $15.00 Broken Pallet Charge will be added for each pad size less than the standard pallet quantities.

Freight Policy

CONTINENTAL U.S.: All orders in excess of $2,000 will ship prepaid. This policy applies to any combination of DiversiTech, Wagner, Specialty Chemical, and Devco products.

Pick Up Allowance

3% of net invoice, 24-hour notice requested. Order must qualify for prepaid freight to receive pick up allowance.

Lost or Damaged Freight

Although we take special care to insure the safe arrival of your merchandise, our responsibility for damages cease when the customer accepts the shipment. To protect your interest, we suggest that you thoroughly inspect all items before accepting delivery. If your order was damaged in shipment or contains a shortage, report the loss or damage AT ONCE to DiversiTech. Any claims for lost or damaged freight must be noted on the Bill of Lading at the time of delivery. If damage is present, you MUST hold the original carton and merchandise for credit by your Sales Representative – otherwise, no claim can be honored.

Returns:

No merchandise will be accepted for return without prior authorization. Call our Customer Service Department to request permission to return goods. Instructions on method of return will be given to you at that time. All returns are subject to a 25% restocking charge.

Warranty Disclaimer

DiversiTech has made a diligent effort to illustrate and describe the products in this catalog accurately; however, such illustrations and descriptions are for the sole purpose of identification, and do not express or imply a warranty that the products are merchantable or fit for a particular purpose, or that the products will necessarily conform to the illustrations or descriptions. DiversiTech assumes no liability for typographical or photographical errors.

DiversiTech reserves the right to make changes in design, material or finish in an effort to improve our products without special notification. If necessary, DiversiTech reserves the right to replace any product shown in catalog with another comparable product without special notification. All DiversiTech products include a 1 year standard limited warranty unless otherwise noted.

DiversiTech's ULTRALITE®, CLADLITE®, and E LITE® Limited Lifetime Warranty

To the original owner of the ULTRALITE®, CLADLITE®, or E LITE® equipment base, DiversiTech warrants the base to be free of defects in materials and workmanship for the life of the equipment under which it is installed so long as the installing homeowner lives there. All defective merchandise must be returned to the factory, transportation prepaid, and if the same is found to be defective, it will be repaired or replaced free of charge, F.O.B. factory. This warranty does not cover replacement labor cost, or any cost claim incident to the defect, replacement, or reinstallation, nor field repair expenses. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation of exclusion may not apply to you.

Exclusions and Limitations

DiversiTech's ULTRALITE®, CLADLITE®, and E LITE® equipment pads are designed and manufactured to be used as bases for light, ground supported equipment such as air conditioning condensers, swimming pool filters and heat pumps. Use of ULTRALITE®, CLADLITE®, and E LITE® pads for purposes other than those listed above or improper installation of ULTRALITE®, CLADLITE®, and E LITE® pads may result in pad failure. DiversiTech Corporation disclaims any liability due to such misuse or improper installation. If you have questions concerning the proper installation or use of DiversiTech's ULTRALITE®, CLADLITE®, and E LITE® equipment pads, you should contact our Customer Service Department at (800)995-2222.

Made in the U.S.A.

All item numbers in RED indicate Made in the U.S.A. This information was accurate at time of catalog printing. Visit www.diversitech.com to verify country of origin for any DiversiTech product.

ABOUT DIVERSITECH

Founded in 1971, DiversiTech® Corporation is North America’s largest manufacturer of equipment pads and a leading manufacturer and supplier of components and related products for the heating, ventilating, air conditioning, and refrigeration (HVAC/R) industry. Headquartered in the Atlanta, Ga., metropolitan area, DiversiTech’s mission for its wholesaler partners is to simplify their work. The Company is focused on growth through internal product development, external partnerships and acquisition. Manufacturing a suite of products, which includes a wide range of mechanical, electrical, chemical and structural parts for HVACR systems, DiversiTech brings unparalleled scaling capabilities and supplier expertise. The Company holds numerous patents and operates an advanced R&D materials division dedicated to bringing more value to its customers. The Company maintains over 1 million square feet of manufacturing and distribution space in key U.S., Canadian and European locations. DiversiTech has enjoyed a continued history of successful growth and has acquired industry recognized brand names including Wagner® Manufacturing, Specialty Chemical, EcoPad®, The Black Pad®, Quick-Sling® and Super Seal™. More information is available at www.diversitech.com.
