## P-260 Freezeless Ground Hydrant

- **Freezeless**
- **Integral Backflow Preventer**
- Variable Flow
- Lockable
- **Triple Seal Stopper**

PRIER's P-260 Freezeless Ground Hydrant provides a year round source of water to areas subject to freezing temperatures. The P-260 comes with a built in backflow preventer and flow control lock.

Additionally, the P-260 is well known for its ease of use and maintenance. The brass stem cap design allows the stem to be removed and a stopper replaced without removing the cast iron head from the hydrant, significantly simplifying the maintenance of this type of product.

- Maintained at ground level without removing heavy duty cast iron head and lever handle
- Flow control lock for water flow adjustment
- Available in 8 standard lengths, longer lengths available by request
- 3/4" FPT inlet connection
- Built in backflow preventer, self-lubricating EPDM seals, and optional ASSE 1052 vacuum breaker
- Stainless steel upper rod for long wear life
- Multi-pass seat for high flow rates
- Heavy duty galvanized steel pipe body and operating stem
- Optional brass pipe and operating rod for harsh water environments
- Solid brass garden hose adapter and triple seal stopper for long wear life
- Bucket hook on spout
- Made in the USA

P-260-3

## **Bury Depth**

1- 1' Bury Depth 5- 5' Bury Depth 2- 2' Bury Depth 6- 6' Bury Depth 3- 3' Bury Depth 7- 7' Bury Depth

4- 4' Bury Depth 8- 8' Bury Depth
