

# The Clack Water Specialist Control

Model TT Twin Tank  
Stainless Steel Systems  
WS1 Outdoor / Indoor

Model RT Rectangular  
Built-in Brine Tank Cabinet  
WS1 Indoor System

### The Clack Water Specialist Control

Features solid state microprocessor with easy access settings. The control valve design provides optimum service and backwash rates along with soft water regenerant refill and a double backwash feature. Designed for use with water softening system and/or water filtration system. These systems are fully automatic and self-cleaning

### Valve Body

Valve body and meter module are molded from glass-reinforced Noryl for exceptional strength and durability.

### Stainless Steel

The outer covering is for U.V protection and algae inhibition on outdoor installations (Optional).

### Poly Glass Tanks

Tanks constructed of a high-density polyethylene inner shell, thermal wound with fiberglass. These tanks are totally non-corrosive!

### Compact Space Saving

The built-in brine tanks cabinet unit for indoor installations. The valve may be installed in various positions for accessibility.

### Limited Lifetime Warranty

On pressure tanks and brine tanks. There is a full 3 year warranty on parts

### Locally Manufactured by Water Tec of Tucson Inc.

From only the highest quality components at our facility in TUCSON, ARIZONA.

### Proven Reliability

THOUSANDS are in service in western United States

### Over 40 Year Reputation

Of immaculate customer service satisfaction, integrity and quality!
