toilet KART

THE TOILET KART IS A TOOL THAT ASSISTS IN MOVING A TOILET.
 How it works: The Toilet Kart straddles the toilet with its legs and 3 clamps attach to the underside of the toilet rim. Using the crank, the Toilet Kart can lift the toilet up and hold it stationary above the floor. Once you are ready to move the toilet, simply tip back and roll the toilet where you need it.

Dimensions: Height: 4 ft. Width: 23½ in. Depth: 20 in.
 Weight: 27lbs. Max. Load: 100+ lbs.
