

WATER HEATER STAND

» 598 SERIES

SPECIFICATION

Sioux Chief Water Heater Stands shall comply with national and local code requirements when necessary to raise water heaters 18" above the floor. Water heater stand platform and legs shall be manufactured with pre-galvanized steel. Legs shall be cross braced to prevent tipping. Each stand shall include all necessary hardware for complete stand assembly.

MATERIALS

Platform, legs and cross braces: pre-galvanized steel

Screw: 1/4-20 x 1/2" Phillips

Washer: 1/4" lock washer

Nut: 1/4-20

SAFE WORKING LOAD LIMITS

Standard: 650 lbs. (30-50 gal. heater)

Fast-assembly: 650 lbs. (30-50 gal. heater)

Heavy-duty: 1300 lbs. (50-100 gal. heater)

Warning: Water heater must not exceed the platform dimension
