Lincoln[®] PRODUCTS
DRAIN REPAIR

SECTION 2

Flexible Plastic Drain Repair

DRAIN REPAIR

Flexible plastic drain fittings are manufactured from white PVC and polypropylene plastics. They will not rust and are unaffected by various household cleaners. Easy to install. Flexes up to 2" to provide exact alignment with existing plumbing fixtures.

Flexi-Drain Pop-Up Assembly

1-1/4" size adapts to all faucets and sinks.

STOCK#	PACK	CASE	DESCRIPTION	UPC#
108396▲	6		FITS 1-1/4" DRAINS	054374014767

P Trap

Flexible "J" bend adapts to both 1-1/2" and 1-1/4" tailpieces.

STOCK#	PACK	CASE	DESCRIPTION	UPC#
108393▲	6		1-1/2" TUBE X 1-1/2" OR 1-1/4" S.J.	054374011735

Coupling

1-1/2" with washers for 1-1/2" or 1-1/4" tubes.

STOCK#	PACK	CASE	DESCRIPTION	UPC#
108395▲	6		1-1/4" AND 1-1/2"	054374011742

Tailpiece

Directly connects to sink strainers. Flanged inlet.

STOCK#	PACK	CASE	DESCRIPTION	UPC#
108397	6		1-1/2" X 12"	054374011759

Extension Piece

Flexes to fit difficult angles when connecting sinks and traps.

STOCK#	PACK	CASE	DESCRIPTION	UPC#
108398▲	6		1-1/4" X 8"	054374011766
108399▲	6		1-1/2" X 12"	054374011773

Flexible Coupling

Made of special PVC Material for long life and chemical resistance. Connects plastic or cast iron pipe to plastic or cast iron pipe.

STOCK#	PACK	CASE	DESCRIPTION	UPC#
108380▲	6		1-1/2"	054374106493

Flexible Trap Adapter

Connects 1-1/2" or 1-1/4" tubular traps to all common 1-1/4" or 1-1/2" drain piping.

STOCK#	PACK	CASE	DESCRIPTION	UPC#

Fluidmaster®

This is an anti-siphon fill valve with adjustable height from 9" to 14".

STOCK#	PACK	CASE	DESCRIPTION	MFR#	UPC#
271400▲	25		ADJUSTABLE FILL VALVE 9"-14"	400A	039961000026

The Leak Sentry® device allows you to save water in two ways. It keeps your toilet from refilling if the tank has a leak and keeps the fill valve from turning on, which prevents more water from leaking out. The valve has a refill adjuster to be sure the correct amount of water enters the bowl.

STOCK#	PACK	CASE	DESCRIPTION	MFR#	UPC#
271401▲	14		ADJUSTABLE FILL VALVE 9"-14" WITH LEAK SENTRY 400LSR		039961415080

The Fluidmaster PerformAX® Fill Valve with Leak Sentry® is the quietest and most powerful fill valve on the market and it also includes leak detection. Your toilet is a precision-engineered appliance and is designed to work on a specific amount of water. The fill valve is the engine of this appliance; it drives flush performance and makes water saving possible by making sure that the right amount of water is used to flush the toilet. The Leak Sentry® device allows you to save water in two ways. It keeps your toilet from refilling if the tank has a leak and keeps the fill valve from turning on, which prevents more water from leaking out. The valve has a refill adjuster to be sure the correct amount of water enters the bowl.

Fluidmaster® Universal Faucet & Toilet Connectors

Contains adapters to fit 3/8", 7/16" and 1/2" compression valve to 1/2" iron pipe threads typically used on faucet shanks and ballcock thread for toilets. The connectors are built to last. Made of a tough core covered with braided stainless steel wire, these connectors exceed code requirements for durability. They also have a large inside diameter for higher flow capacity.

- 1) Measure the length, then turn to appropriate range section of this catalog.
- 2) Count the splines (raised at the tip of the stem/cartridge or identify the shape to match accuracy and handle fit.
- 3) Compare your part to the true-size images on the pages.
- 4) As reference, note the original manufacture part number where available.
- 5) The first two digits of the stock number designate product type as follows:

Numbers starting with:

- 10 = Lincoln Products Carded generic parts
- 11 = Lincoln Products Boxed generic Renovation Kits
- 12 = Lincoln Products Bagged generic parts
- 13 & 14 = Genuine Manufacturer's Carded parts in their packaging
- 68 = Genuine Manufacturer's Bagged parts

6) ▲PROP65 WARNING FOR CALIFORNIA RESIDENTS. This product can contain chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

▲ For **Proposition 65** warnings please refer to pages 93-124 at the end of this section.

Fit-All Faucet Handles

FAUCET REPAIR

A full selection of handles are available for shower, bath and kitchen faucets.

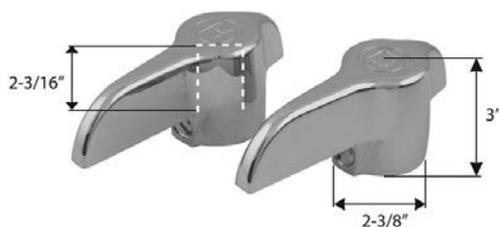

Fit-All Faucet Handles

Fit-all handles: Distinctively styled Lincoln replacement handles come in a variety of chrome and acrylic shapes and sizes. All handles are designed to be used with a triple point adapter or fit-all broach which is included in each package. The unique triple point contact provides superior locking onto any stem, regardless of its configuration, size or damaged condition and eliminates the need to sell separate adapters.

Vise-Grip Style Lever Handles - Pair

Water Saving Aerators for Lavatory Faucets

Watersense™ and Cal Green California Standards Compliant, these aerators have a consistent flow rate of 1.2 gallons per minute using pressure compensating technology. This saves up to 40% more water over existing 2.0 and 2.2 gallon per minute lavatory faucets. Available in chrome plated, brushed nickel, and polished brass PVD finishes.

All Products Used for Potable Water are:

Lincoln® PRODUCTS

APPLIANCE REPAIR

SECTION 6

Refrigerator Filters

Lincoln Products filters provide a healthy alternative to tap water along with an eco-friendly alternative to bottled water.

Top refrigerator brands with the most popular models. Each manufacturer is color coded for easy reference. All filters are made in the USA.

Reasons to ditch the bottle and love the fridge again:

44% - the percentage of "purified" bottled water sold in U.S. that started out as municipal water.

38.6% - the percentage of plastic bottles recycled in the U.S.... Or simply put, over 60% of water bottles are trashed.

Potential - 48% of U.S. households own a fridge with water filters. Repeat purchase opportunities.

Accessories & Parts

Insinkerator® Bio-Charge Refill

This citrus-scented InSinkErator® Bio-Charge® Cartridge Replacement for Evolution Septic Assist® disposers is a cost-effective enzyme treatment. Bio-Charge contains a natural microorganism that helps break down food waste and a citrus scent to help control odors from the sink and drain. Bio-Charge® is only for use with the Evolution Septic Assist disposer, and will last 3 to 4 months with average use. One cartridge of Bio-Charge® equals 4 bottles of other septic treatments.

Watts®

Water Heater Strap Kits are a double-strapping system for restraining water heaters. They can be installed on the front of the water heater or wrapped around the water heater with non-flammable back spacers to keep the heater from coming in contact with the wall, and are bolted directly to the wall studs. The kit contains four long straps to restrain the upper and lower portions of the water heater. They are easily adjustable with pre-assembled self-tapping lag bolts that are held with paper keepers.

Tensioning Tool with Auto Cut Off

For continuous use on-the-job. The TY6 Tensioning Tool is designed for a heavy user of nylon ties. An adjustment knob allows installer to set desired tension for securing flex duct to a take-off collar. When the tie is tight, a breakaway spring mechanism releases the tool's lower handle, causing the blade to engage and automatically flush cut off the excess tail of the nylon tie.

Flex Connectors

Single-wall corrugated aluminum easily connects from the appliance to AmeriVent Type B gas vent. May be compressed 4 inches per foot to shorten lengths. Sturdy Galvalume ends offer AmeriVent's proven snap-lock design. This product can only be used in the room with the equipment in occupied spaces, not in unoccupied spaces such as attics or crawl spaces. It cannot be used to pass through a wall, roof or ceiling, and cannot be totally enclosed.

Caps

The AmeriVent cap is the first engineered vent cap to gain recognition across the country for its performance. Millions of them are now installed on homes and business structures to protect against wind conditions that can cause waste gases to spill back into the structure through the appliance draft hood. The AmeriVent cap is UL-listed, and its patented design of ports and baffles keep rain and debris out of the vent. In addition, AmeriVent caps permit termination of vents at the minimum height necessary above the roof surface. The AmeriVent Cap is used as a ventilation cap as well as a Type B gas vent termination.

Type "B" Gas Venting and Fittings

Type "B" Gas Venting

The Type B designation is assigned to gas venting systems that meet the safety requirements of Underwriters Laboratories, Inc. The AmeriVent all-metal, double-wall gas vent is listed as Type B by Underwriters Laboratories, Inc. and is approved for such residential and commercial applications as Category 1 water heaters, boilers, furnaces, space heaters, or wall heaters. UL-approved Type B gas vent products form a continuous passageway from an approved gas appliance to the termination of the vent above the roof of the structure.

Kwikdial™ Sprinkler Timers

KwikDial® offers a unique combination of sophisticated features and simple operation. Excellent scheduling flexibility is provided by its automatic, semi-automatic and manual operations, a wide range of watering intervals, and the ability to make percentage changes to watering duration for seasonal adjustments. Peace of mind is ensured by the controller's electrical surge protection, a self-diagnostic, electronic circuit breaker and built-in memory that maintains time, date and programming information for 24 hours in the absence of AC power. Now, when automatically adjusted by Irritrol's new, optional CLIMATE LOGIC® Weather Sensing System, the KwikDial™ becomes a smart, climate-based controller.

STOCK#	PACK	CASE	DESCRIPTION	MFG#	UPC#
317505	1	6	6 STATION INDOOR TIMER	KD6-INT	090258040798
317506	1	6	9 STATION INDOOR TIMER	KD9-INT	090258040811

317508	1	6	9 STATION OUTDOOR TIMER	KD9-EXT	090258040828

Climate Logic® Module

The system consists of three components—a wireless transmitting weather sensor for installation outdoors, a receiver module to attach to the Irritrol controller, and an SD card with the 10-year, local historical weather information—the system monitors weather data, transmits it to the module, then alters the controller's program to "follow the weather". As for compatibility, the Climate Logic Weather Sensing System works with the Rain Dial®-R, Total Control®-R, KwikDial™ and the new MC-E controllers (blue model).

DIG® (Continued) Single Station Solar Powered Controller With 3/4" Actuator

The ECO 1™ MVA is an advanced single station ambient light (solar) powered irrigation controller mounted on a 3/4" actuator and is used to automate a 3/4" or 1" manual anti-siphon valve. Power uses renewable energy via a patented time-tested, internal photovoltaic module and microelectronic energy management system that is fueled by ambient light (solar). This provides power to the controller through the day anytime, anywhere and in any weather. This has up to five start times a day, one minute to six hours run times. Rain delay with auto restart. Ability to set monthly and daily restrictions.

Irritrol® Pro-VAN Nozzles

Featuring an exclusive "Smart Grip" head design that requires no tools, Irritrol® Pro-VAN nozzles provide the industry's easiest 0° to 360° arc adjustment—even when wet—while ensuring precision adjustment for pinpoint coverage. No more dry spots on the lawn. No more wasted water on sidewalks or driveways. Pro-VANs are available in five radii, from 8' to 17', and each allows for up to a 25% radius reduction for even further fine tuning. Plus, because each nozzle is compatible with all Irritrol spray heads, as well as any male-threaded riser in the industry, nozzle inventory can be dramatically reduced. Additional features include a visible left-stop arrow at the top of the nozzle to ensure setting accuracy and color-coding for easy radius identification.

This 3-IN-1 drip tubing cutter, punch and insertion tool incorporates a number of features to simplify the installation and maintenance of drip irrigation systems for home gardeners and professional landscapers. This one handy tool can do it all. The 3 main features of the tool are a tubing cutter, a 3 mm hole punch and the dripper/barb holders that allow for easy insertion of 1/4" barbs or drippers into 1/2" or 1/4" tubing.

Retrofit Products

DIG®

DIG's retrofit systems are designed to easily convert sprinkler risers to efficient, water saving drip irrigation systems. All of DIG's Retrofit drip heads are designed to convert any 1/2" riser, allowing them to operate at the original sprinkler system's operating pressure.

Sprinkler Riser to 10/32" Thread

Converts a 1/2" sprinkler riser to a micro sprayer, fogger or spray jet with 10/32" thread to a 1/2" riser.

STOCK#	PACK	CASE	DESCRIPTION	MFG#	UPC#
315468	1	48	INLET 1/2" FNPT RISER ADAPTER BULK	R70	013158870111

Polyethylene Riser on 1/2" MNPT

Polyethylene riser assembly allows you to raise any micro sprayer with 10/32" thread above the ground. The riser assembly can be used to retrofit any 1/2" FNPT outlet.

Ocean Breeze Large Misting Kit

DIG's Large Evaporative Mist Cooling Kit is ideal for use through the hot summer months to cool patios, pool sides, mobile home yards, gazebos, and campsites, as well as greenhouses, nurseries and outdoor work areas. The Ocean Breeze® Large Evaporative Mist Cooling Kit can reduce the air temperature by up to 20 degrees; the hotter and drier the air, the more noticeable the cooling effect. The kit contains 50 ft. of 3/8" beige poly pipe, ten .8-GPH foggers, and all the components needed to install the system.

Stationary Sprinklers

Orbit®

Cyclone II Professional Sprinkler

The Orbit Cyclone II Rotating Sprinkler is ideal for watering small to medium sized areas. The sprinkler sprays up to 40-foot diameter, covering up to 1,250 square feet with a gentle, rain-like spray. Made from corrosion-resistant material with a coated finish, this sprinkler will last season after season. A hole in the base allows you to add stability with the use of a stake (sold separately). The swivel connection makes for easy hose attachment. Connect multiple sprinklers together to increase the coverage area.

Hose End Irrigation Sprinklers and Hose Repair

Orbit® (Continued) Small Area Sprinklers

Designed for spot watering, the Orbit Zinc Twin Circle Sprinkler covers up to 30 feet in diameter. Easy to install and operate, this yard sprinkler connects to a standard garden hose, and is ideal for watering small areas. This product works well on high or low pressure, and evenly distributes a lot of water to keep your grass green and healthy.

Plastic Impact Sprinkler

The Orbit Plastic Impact Sprinkler on Zinc Spike is ideal for watering large areas. Designed for dependability, impact heads have an uninterrupted water flow that are clog-resistant, even when used with dirty or reclaimed water from ponds and canals. Attached to a zinc spike, this sprinkler sprays up to a 90-foot diameter. Easily adjust the coverage from a partial section to a full circle. Features a deflector shield for distance adjustment, and an anti-backsplash arm to aid in spray pattern and area coverage. A simple twist of the diffuser screw breaks up the water stream, creating larger or smaller water droplets. The flow-through outlet allows you to connect multiple sprinklers to expand your watering areas depending on water pressure.

Lincoln[®] PRODUCTS
PLUMBING TOOLS
SECTION 8

Basin Wrenches

Forged alloy steel jaws with precision cut teeth. Jaw accepts a large range of coupling nuts - small, standard oversize. Full 180 degree range - can be used at almost any angle. Spring action jaw repositions itself and grips nut after each turn.

STOCK#	PACK	CASE	DESCRIPTION	MFG#	UPC#
147700▲	6		11" LONG	RAP50115	054374380732
107701▲	6		15" LONG		054374011216
Telescoping. Small jaws.					
147766▲	6		ADJUSTABLE 9" TO 15"	RAP50230	054374594900
Telescoping. Large jaws. Works on single post faucets.					
147767▲	6		ADJUSTABLE 9" TO 15"	RAP147767	054374601851

Basin Buddy Faucet Nut Wrench

Unique slots grab locknut wings without breaking them off. Universal tool fits metal lock nuts, coupling nuts, PVC locknuts, most metal and plastic toilet supply nuts. Cutaway design fits around existing supply lines to remove coupling nut. Once coupling nuts is removed. Cutaway fits around the faucet shank (1/2") to remove metal and plastic nuts. Use with 1/4" or 3/8" ratchet drive. Adapter included.

Test Ball and Test Plugs

Cherne® Test-Ball® Multi-Size Test Ball

Ideal for testing DWV plumbing systems. Inflatable design can fit through test tees, sanitary tees, floor drains and other hard to access pipe openings. Provides excellent expansion and a great seal in round and out-of-round pipe. Ring and chain assembly helps prevent the plug from being drawn into DWV systems during tests. Utilizes a standard tire air fitting for easy connections.

Hercules® Plumber's Grease

Hercules unique formula petroleum based grease lubricates and prevents corrosion on valve stems, faucets, ballcock linkage, and other places where a water resistant grease is needed. Smooths and eases hard turning faucets. Use on sump and sewage ejector pump linkage to prevent corrosion and sticking. Assures free movement and extended life. Will not melt like ordinary greases. For use on steam and hot/cold water systems. Withstands -20°F to +300°F. Non-hazardous and non-toxic. Waterproof; will not dissolve into stream, resists wash out even in severe water flow or water wash situations. Safe for use with potable water.

RectorSeal[®] Soldering Flux

NOKORODE[®] Regular Paste Flux will not freeze or decompose. No odor. Lead free. Recommended for use on all solder alloys including 95/5 and all lead free solders. Meets Specification O-F-506, Type 1A and A-A-51 145, MIL-F-4995-2. Certified to NSF/ANSI Standard 61, Annex G

STOCK#	PACK	CASE	DESCRIPTION	MFG#	UPC#

481211	1	24	8 OUNCE JAR	14020	052541140202

Oatey[®] No. 5 Soldering Flux

Lead Free Paste Flux cleans and fluxes most commonly soldered metals including copper, brass, zinc, galvanized iron, lead and tin or copper-coated metals. Fluxing is a critical step in the soldering process. No. 5 Paste Flux provides superior wetting properties for better solder flow and can be used with most soft solders. No. 5 Paste Flux complies with CA & VT lead content regulations.

Oatey[®] H-205 Water Soluble Paste Flux

Cleans and fluxes most commonly soldered metals including copper, brass, zinc, galvanized iron, lead and tin or copper-coated metals. Fluxing is a critical step in the soldering process. H-205 Paste Flux is lead-free and ideal for copper systems including fire sprinkler, hydronic heating, potable water service and DWV piping. H-205 Paste Flux remains active up to 700° F H-205 Flux complies with CA & VT lead content regulations.

Oatey® No. 95 Lead Free Tinning Flux

Cleans, tins and fluxes most commonly soldered metals including copper, brass, zinc, galvanized iron, lead and tin or copper-coated metals. No. 95 contains lead free solder powder which helps draw in the solder wire. Fluxing is a critical step in the soldering process. No. 95 Tinning Flux provides superior wetting properties for better solder flow and can be used with most soft solders. No. 95 Tinning Flux complies with CA & VT lead content regulations.

SharkBite® DZR Brass PEX Barb Fittings

The SharkBite PEX Barb fittings are made of a lead-free DZR brass, and are an easy to install, low-cost solution to connect to PEX tubing. The SharkBite PEX Barb fittings are compatible for potable water distribution and hydronic heating applications. These fittings can be used in both a stainless steel clamp system, or a copper crimp ring system as well (each sold separately).

SharkBite® Poly Alloy PEX Fittings

FITTINGS

The SharkBite PEX Poly Alloy Barb fitting is an easy to install, low-cost solution to connect to PEX tubing. They are suitable for potable water distribution and hydronic heating applications. SharkBite PEX Poly Alloy Barb fittings can be used in both a stainless steel clamp system, or a copper crimp ring system as well (each sold separately).

John Guest® Acetal Fitting

The PI Range of inch-size push-in fittings is offered for tube sizes 5/32" O.D. to 1/2" O.D.

The fittings are manufactured in gray acetal copolymer with food grade nitrile O-ring, making them especially suitable for applications involving foodstuff and potable liquids.

They are also suitable for air and inert gases and can therefore be used on CO2 lines, pneumatic applications and vacuum.

John Guest® Appliance Grade Fittings

John Guest Appliance Grade Fittings have been specifically designed for the highest reliability as required by Appliance Manufacturers, Installers, and Service Technicians. These fittings are ideal for connections in Ice and

Water Dispensing Systems, Water Filtration, Pump and Valve connections, and many other applications in which the integrity of a connection cannot be compromised. Fittings can be used with plastic and copper tubing; ease of use allows you to add, remove, or re-route your installations, all without having the use of tools.

MDPE 65 Polyethylene Gas Pipe (Yellow)

Medium density polyethylene (MDPE) pipes and fittings are used primarily in pressure-rated gas distribution systems. The product is also suitable for LPG, propane, yard gas and most after meter applications. It is a solid yellow medium density pipe that meets ASTM D3350 Cell Classification of PE234373E and APWA/ULCC Color Code Standards.

Polyethylene Tubing

Polyethylene Tubing

FDA approved for drinking water. Used for ice makers, water softeners and many other applications using normal household water pressure. Excellent resistance to many acids and alkalis and most organic solutions

PHYSICAL PROPERTIES:

CONSTRUCTION: Low density polyethylene

OPERATING TEMPERATURE RANGE: -60°F to 175°F

Recommended Connectors: plastic or brass inserts with outer sleeves, ferrules or clamps

Clear Vinyl Tubing

Clear vinyl tubing is flexible and made of elasticized poly vinyl chloride. Its clarity permits visual checks on flow and it is flexible at 0 degrees Fahrenheit. Product has good oil resistance, excellent resistance to acids, alkalis and many solvents except esters, ketones and aromatic hydrocarbons. Conforms to non-toxic F.D.A. formula for potable liquid

PHYSICAL PROPERTIES:

SPECIFIC GRAVITY: 1.21 DUROMETER: 75+5

TENSILE STRENGTH: 155 PSI BRITTLE POINT: -35°F

ELONGATION: 365% MAX. OPERATING TEMP: 175°F

Polyethylene Tubing

FDA approved for drinking water. Used for ice makers, water softeners and many other applications using normal household water pressure. Excellent resistance to many acids and alkalis and most organic solutions

PHYSICAL PROPERTIES:

CONSTRUCTION: Low density polyethylene

OPERATING TEMPERATURE RANGE: -60 °F. to 175 °F

Recommended Connectors: plastic or brass inserts with outer sleeves, ferrules or clamps

Cash Acme® EB-45 Single Union

The EB45 Pressure Regulator features a half cartridge design that offers the performance of a high end, cartridge based valve and the price of a traditional regulator. The valve construction is similar to a traditional regulator in that it retains a separate spring chamber and adjusting screw, but offers the simplicity and maintenance benefits of a cartridge based valve. The EB45 comes factory set at 45 psi but may be adjusted between 10-70 psi.

EB-25

The EB25 Stainless Steel brings state-of-the-art water control technology to pressure regulators. The biggest breakthrough is the simple numerical indicator that allows the exact pressure to be set even before the valve is installed, making pressure adjustment a quick, one-man job. The EB25 Stainless Steel also features a stainless steel, 100% lead free body.

Pool Diverter Valve and Dog Waterer

Pool Diverter Valve

Used for diverting, shut-off or mixing applications. Maintenance-free. PTFE coated. Diverter seal. High flow rate. Fiberglass reinforced handle. Withstands pressure up to 150 psi. Chemical-resistant. Accepts 1-1/2", 2" and 2-1/2". PVC plumbing. Field-adjustable stop positions. Designed to work with most industry standard actuators.

Note: PVC Valves not recommended for climates that can reach air temperatures of over 104°F

Pulldown Hands-Free Faucets

BioBidet® FLOW 2 Function Spray

The FLOW Single Handle Pull-Down faucet with hands-free motion sensing technology is the next essential upgrade in kitchen technology. The simple and easy installation does not require any hardwiring but features a quick insertion method installation and since it is not hardwired it will be able to function normally even during a power outage. The FLOW faucet meets lead-free standards, a 2-function spray head, durable ceramic cartridge, metallic waterway, and an easy wipe clean finish. Available in polished chrome or nickel. Easily swap between hands-free motion sensing mode or the option to use it as a traditional manual faucet. Pull down the faucet head to automatically spray and release to instantly turn the water off as the head retracts back into place on its own.

Pulldown Faucets (Continued)

Moen® Anabelle®

Hydrolock® quick connect installation. Pullout spray with 68" braided hose. Flexible supply lines with 3/8" compression fittings connect directly to supply stop. 360° rotating spout operation. Single handle lever. Operates with less than 5 Lbs. of force. Operates in stream or spray mode in the pullout or retracted position. When filling a vessel outside the sink, the pause feature conveniently stops the flow of water as the wand passes over the counter top FLOW. Flow is limited to 1.5 GPM (5.7 L/min) at 60 psi. Cartridge, 1255™ Duralast™ cartridge for Single-Handle Faucets. Third party certified to IAPMO Green ASME A112.18.1/CSA B-125.1 and all applicable requirements referenced therein including NSF 61/9, Meets CalGreen and Georgia SB370 requirements. Contains no more than 0.25% weighted average lead content. Complies with California Proposition 65 and with the Federal Safe Drinking Water Act. The back-flow protection system in the device consists of two independently operating check valves, a primary and a secondary which prevent back-flow. ADA for lever handle.

One-Piece Toilets

American Standard®

Cadet 3 FloWise® 1.28 GPF Toilet

The compact Cadet 3 FloWise™ Right Height® one-piece toilet delivers high performance with fewer clogs, all while using 20% less water at a flow rate of 1.28 gallons per flush. This one-piece toilet was designed taller, at 16-1/2 inches, so it's more comfortable for all, and offers handicap accessibility for those who need it. This compact toilet is a great space-saving option with the added comfort of an elongated bowl.
