# DRIPTITE™

Combo Washer & Dryer Pan

## UNBREAKABLE

**#1 Seller in the U.S.**

Ideal for 2nd Floor Laundry Rooms!  
*Protects from Overflows.*

***Specially Designed & Patented***  
**To Fit All Combination**  
**Washer & Dryers With or**  
**Without Pedestal Drawers**

- **WILL NOT BREAK**
- **LIFE-LONG TOUGH**
- **Up to 4X thicker for superior strength**
- Won't bend or rust like metal pans
- Protects from leaky dryer steam feature
- Textured surface prevents W/D shifting
- Allows for swapping of washer & dryer positions and door swing changes
- Rounded corners for child safety
- Won't break when stepped on!
- Protects floors from scuffing
- Translucent for easy drain hole drilling
- **10 Year NoBreak NoCrack Warranty**

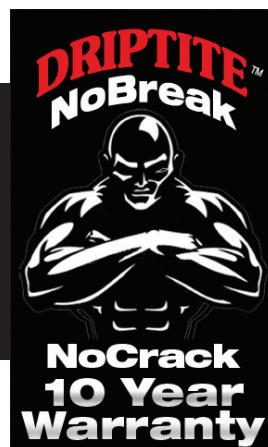

## Tested TruTough Made to Last!

**MADE IN  
U.S.A  
PRODUCT**

# 10 Year Warranty!

Protected by U.S. Patent # 8,393,351 B2

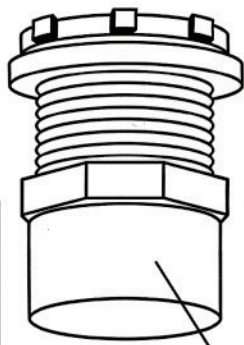

Manufactured by DRIPTITE • Western U.S.: (949) 842-2387 • Eastern U.S.: (440) 265-0354  
West Coast Distribution location • 16404 Knott Ave., La Mirada, CA 90638  
Midwest Distribution location • 4920 State Road, Ashtabula, OH 44004

6 51536 39435 6

## DRIPTITE Combo Washer & Dryer Pan Installation Instructions:

1. Drill a 1-1/4" diameter hole in the bottom of Combo Washer & Dryer pan, where the drain hole in floor is located. You will be able to see it through the pan because the pan is translucent.
2. Place drain fitting through drilled hole from back side of tray
3. On top side of tray place washer over drain fitting and tighten locknut over washer
4. Position tray where it will be placed and connect fitting to drain pipe
5. Set center of tray and complete washing machine and dryer installation - side by side.

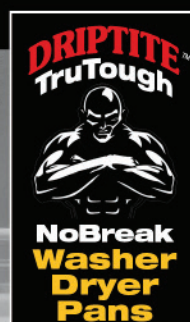

# DRIPTITE™

## Combination Washer & Dryer Pan

### Installation Recommendations:

Always raise leveler legs on XL top-loading washers by 1" before installing your washing machine. Also, washing machine leveler legs may need to be raised to allow for pedestal drawer to completely open and extend.

Locate the drain hole that can be seen through pan. This is where you mark the hole to drill and install the drain fitting.

(Washer or Dryer)

(Washer or Dryer)

**Installation Note:** If pan is slightly 'bowed' from stacking, flip pan over to the opposite side of the bow (on a flat surface) and let sit for 15 min. before installing. This will remove bowing and flatten pan to normal.

**To Clean:** Pan can easily be cleaned with any household cleaning solvent.

### DRIPTITE 10 (ten) Year NoBreak NoCrack Warranty

If your DRIPTITE Washer & Dryer Pan (part) fails because of a manufacturing defect within 10 (ten) years from the date of purchase, we will provide a new part at our option, without charge. Return the defective part directly back to the A/P Office (Driptite, 25422 Trabuco Rd., Suite 105-622, Lake Forest, CA 92630) with a copy of the "proof of purchase". If the part is defective, it will be exchanged. This warranty does not cover parts that are improperly installed, damaged, abused or used for other than the intended purpose. It does not include the cost of returning the part to the vendor from which it was purchased, the labor to remove, install or diagnose the failure, parts used in the commercial applications, and incidental or consequential damage caused by possible defects with the parts.

**Disclaimer:** This product is not intended to prevent serious flooding from Washer or Dryer malfunction. It is designed to handle drips, leaks and overflows that occur with normal usage. Please retain original shipping box until you know the pan fits and you are keeping the pan, in case of return.

- 38" width Kitchen Cabinet base
- 40" width Kitchen Cabinet base

# DRIPTITE™

## UNBREAKABLE KITCHEN SINK BASE PROTECTORS

## Installing Your New Driptite Slide n' Fit is *Easy* as 1, 2, 3

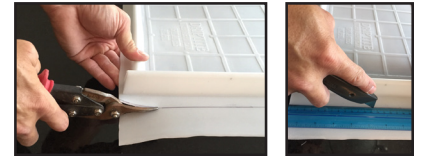

Measure the base of your kitchen cabinet.

Transfer your measurements to your  
UNBREAKABLE Kitchen Sink Base Protector.

If your DRIPTITE doesn't fit from front to back, measure cabinet from front to back and then apply that measure to your DRIPTITE. Use a heavy duty pair of scissors, tin snips, or utility knife and a straight edge to mark and trim the pan to fit the size of your cabinet base board.

After measuring and cutting to fit your cabinet size, slightly tilt it, and slide it in! Make sure you slide the cabinet base protector under the plumbing pipes. Your home is now protected by DRIPTITE!

### UNMATCHED UNBREAKABLE 10 YEAR WARRANTY!

If your Driptite Slide N' Fit Pan (part) fails because of a manufacturing defect within 10 years from the date of purchase, we will provide a new part at our option, without charge. Return the defective part directly back to the A/P Office (Driptite, 25422 Trabuco Rd., Suite 105-622, Lake Forest, CA 92630) with a copy of the "proof of purchase". If the part is defective, it will be exchanged. This warranty does not cover parts that are improperly installed, damaged, abused or used for other than the intended purpose. It does not include the cost of returning the part to the vendor from which it was purchased, the labor to remove, install or diagnose the failure, parts used in the commercial applications, and incidental or consequential damage caused by possible defects with the parts.

Disclaimer: This product is not intended to prevent serious flooding from the plumbing under sinks. It is designed to handle drips and leaks that occur with 'normal' sink usage.

## **DRIPTITE™** **UNBREAKABLE** Dishwasher Floor Saver Pan

*Specially Designed*  
To Fit All Dishwashers  
Enjoy the New  
Benefits & Advantages

- **WILL NEVER BREAK**
- **LIFE-LONG TOUGH**
- **Inexpensive insurance, for your expensive floors**
- Made from recycled unbreakable polyethylene plastic
- Impact-resistant (not affected by dishwasher legs or weight of machine)
- Will not allow an undetected water leak to damage your floor
- Channels water from a leak to the front of the dishwasher so immediate repairs can be done
- **Protects cabinets, subfloors, basements, and house structure from water damage**

## Tested TruTough Made to Last!

**MADE IN  
U.S.A  
PRODUCT**

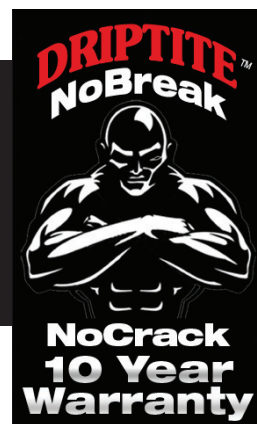

# 10 Year Warranty!

Protected by U.S. Patents Pending

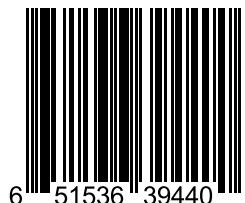

### **DRIPTITE 10 (ten) Year NoBreak NoCrack Warranty**

If your DRIPTITE Dishwasher Pan (part) fails because of a manufacturing defect within 10 (ten) years from the date of purchase, we will provide a new part at our option, without charge. Return the defective part directly back to the A/P Office (Driptite, 25422 Trabuco Rd., Suite 105-622, Lake Forest, CA 92630) with a copy of the "proof of purchase". If the part is defective, it will be exchanged. This warranty does not cover parts that are improperly installed, damaged, abused or used for other than the intended purpose. It does not include the cost of returning the part to the vendor from which it was purchased, the labor to remove, install or diagnose the failure, parts used in the commercial applications, and incidental or consequential damage caused by possible defects with the parts.

**Disclaimer:** This product is not intended to prevent serious flooding from the plumbing for your dishwasher. It is designed to handle drips and leaks that occur with normal dishwasher usage. Please retain original shipping box until you know the pan fits and you are keeping the pan, in case of return.

Manufactured by DRIPTITE • Western U.S.: (949) 842-2387 • Eastern U.S.: (440) 265-0354  
West Coast Distribution location • 16404 Knott Ave., La Mirada, CA 90638  
Midwest Distribution location • 4920 State Road, Ashtabula, OH 44004

# DRIPTITE™

## DISHWASHER FLOOR SAVER PAN

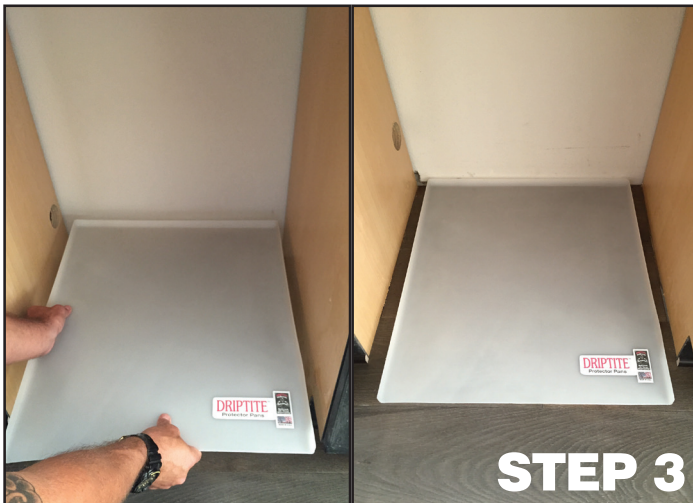

## Installing Your New Driptide Floor Saver Pan is Easy and Quick!

Remove your dishwasher and set it to one side. Make sure to clean up any water or mold from water damage, as well as any debris.

Squeeze a bead of DAP or silicone approximately 2" in from the edge of the dishwasher space. Alternatively, you can apply it directly to the bottom of the Dishwasher Pan, approx. 2" in from the sides.

Insert the Dishwasher Pan in the space. Make sure you install the pan approximately 1/2" from the back wall. Use a tape measure to be sure you are centering the pan correctly.

**\*Note:** Let the Pan sit for 24 - 36 hours before re-installing your dishwasher again. This will allow for the DAP/Silicone to set up and dry. Then re-install your dishwasher, and your home is protected by DRIPTITE!

### DRIPTITE 10 (ten) Year NoBreak NoCrack Warranty

If your DRIPTITE Dishwasher Pan (part) fails because of a manufacturing defect within 10 (ten) years from the date of purchase, we will provide a new part at our option, without charge. Return the defective part directly back to the A/P Office (Driptide, 25422 Trabuco Rd., Suite 105-622, Lake Forest, CA 92630) with a copy of the "proof of purchase". If the part is defective, it will be exchanged. This warranty does not cover parts that are improperly installed, damaged, abused or used for other than the intended purpose. It does not include the cost of returning the part to the vendor from which it was purchased, the labor to remove, install or diagnose the failure, parts used in the commercial applications, and incidental or consequential damage caused by possible defects with the parts.

**Disclaimer:** This product is not intended to prevent serious flooding from the plumbing for your dishwasher. It is designed to handle drips and leaks that occur with normal dishwasher usage. Please retain original shipping box until you know the pan fits and you are keeping the pan, in case of return.

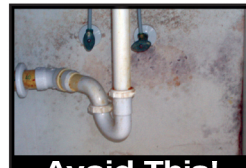

# PREVENT HOME DAMAGE

**"If you've got pipes, they're gonna leak."**

## Are your cabinets protected?

**Recommended** by plumbers, contractors, builders, landlords and cabinet makers to protect cabinets.

Avoid This!

Install Slide n' Fit

## Sink & Vanity Base Protectors

## Installing Your New Driptide Slide n' Fit is *Easy and Quick!*

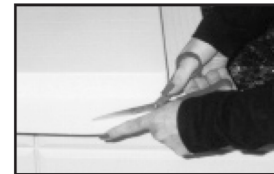

Insert your new DRIPTITE Slide n' Fit into the kitchen or bathroom cabinet.

Slide both sides out from left to right expanding the pan till it fits snug against both side walls..

If your DRIPTITE doesn't fit from front to back, measure cabinet from front to back and then apply that measure to your DRIPTITE. Use a heavy duty pair of scissors (left) to trim off excess on the BACK top lip (shown) to fit your custom size cabinet.

Re-insert pan - make sure it is snug from left to right. Reach under FRONT and peel back 3M VHB waterproof tape from front to back (along seam).

Press **firmly** down along the **entire** seam several times to set the tape. VHB tape will cure in 24 - 48 hours. We recommend a bead of clear or white silicone caulk down the seam for extra water tight protection. Some people caulk around the top edges (adjoining cabinet walls) also.

### Limited 1 (one) Year Warranty

If your DRIPTITE Slide N' Fit pan (part) fails because of a manufacturing defect within 1 (one) year from the date of purchase, we will provide a new part at our option, without charge. Return the defective part directly back to the A/P Office (DRIPTITE, 25422 Trabuco Rd., Suite 105-622, Lake Forest, CA 92630) with a copy of the "proof of purchase". If the part is defective, it will be exchanged. This warranty does not cover parts that are improperly installed, damaged, abused or used for other than the intended purpose. It does not include the cost of returning the part to the vendor from which it was purchased, the labor to remove, install or diagnose the failure, parts used in the commercial applications, and incidental or consequential damage caused by possible defects with the parts.

Disclaimer: This product is not intended to prevent serious flooding from the plumbing under sinks. It is designed to handle plumbing drips and leaks that occur with 'normal' sink usage.
