New!!

Dirt Hog™ Filters are CLEANABLE!!!

Cleaning can restore up to 85% of original capacity!

**Dirt Hog™ 20 micron
pleated polyester
cartridges save you
money over other types
of cartridges**

Independent lab testing shows that **Dirt Hog™** cartridges have close to **25% HIGHER dirt holding capacity** than pleated paper cartridges. Since **Dirt Hog™** pleated polyester cartridges are easily cleaned, they can ultimately **remove 3 TIMES more dirt** than other cartridges to **SAVE YOU MONEY \$\$\$\$\$\$**

Follow these simple steps to clean the Dirt Hog™ cartridge up to 3 times before replacement is necessary

- STEP 1** Remove cartridge from filter housing
- STEP 2** Rinse outer surface under faucet or hose
- STEP 3** If necessary use brush to remove stubborn deposits
- STEP 4** Rinse and replace cartridge
