Bath and Shower Valve Trim K-T8975-4

Technical Information

All product dimensions are nominal.

Spout reach: 6-3/4" (171 mm)

Showerhead:

Rated maximum flow: 2 gal/min (7.6 l/min) Pressure: 80 psi (5.5 bar)

Notes

For use with automatic compensating valves rated at 1.7 gal/min (6.4 l/min) or less.

Install this product according to the installation guide.

Install Rite-Temp valve according to valve installation guide.

NOTICE: Risk of product damage. Long screws, for installing trim, can damage the K-2971-KS valve. Consult the trim installation guide to verify if the thin wall installation kit (88526) is needed.

Avoid cross-flow conditions. Do not install shut-off device on either valve outlet.

Install straight pipe or tube drop of 7" (178 mm) to 18" (457 mm) with single elbow between valve and wall-mount spout.
