	SAA	Satin Anodized Aluminum

Technical Information

All product dimensions are nominal.

Notes

Install this product according to the installation guide.

When determining the height of the medicine cabinet, ensure the mirrored door will clear all obstacles (such as a faucet). A minimum distance of 3" (76 mm) is required.

To find the combined roughing-in width for joined cabinets, add the roughing-in width for each cabinet and add 1" (25 mm) for each ganging kit.

Secure the screws (provided) to a stud to avoid possible property and product damage. If this is not possible, anchors (not provided) must be inserted before installing the screws.

Roughing-in opening for recess-mount installations: 19-7/16" (494 mm) x 35-3/8" (899 mm) x 4" (102 mm).
