

GSM2200V

GE Spacemaker® Under-the-Sink Dishwasher

Dimensions and Installation Information (in inches)

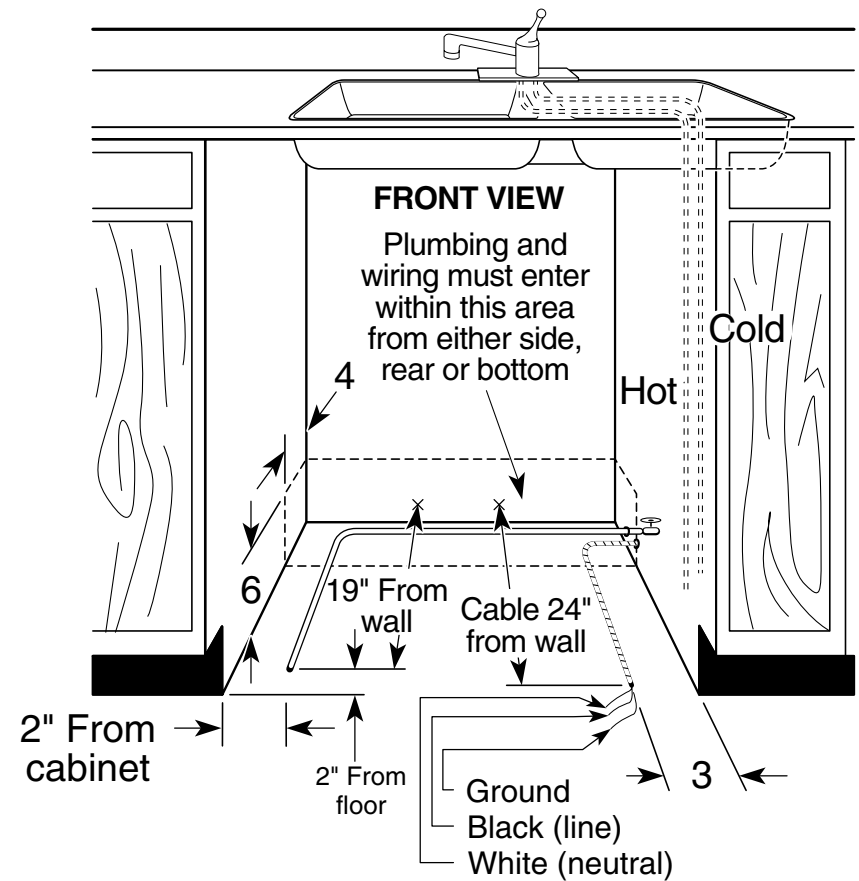

Note: Undersink dishwashers can be installed only under sinks and not under other appliances.

Plumbing—Hot Water Only: Use 3/8" O.D. copper tubing or 1/2" O.D. plastic tubing minimum inlet line. Water valve has 3/8" internal threads. Hand cut-off valve is recommended.

Electrical: Fuse circuit with 15 amp or 20 amp standard fuse or circuit breaker. Total amp load is 8.6. Dishwasher operates on 120V, 60HZ power. Two-wire cable (14 Ga. Min.) with ground must be installed.

Specifications: Inlet water temperature recommended—minimum 120°F at dishwasher. Inlet water pressure required—15 to 120 lbs./sq. inch.

Note: All rough-in, both plumbing and electrical, must be completed before the dishwasher is installed. All plumbing and electrical work must be in accordance with local codes.

GE Spacemaker® Under-the-Sink Dishwasher

If the sink bowl is more than 20-1/2" maximum specified distance from the wall, or if the base cabinet is less than the 24" minimum depth from the wall, a gap between the tub front flange and the front of the base cabinet may result.

The diagram is a front view of a kitchen island. At the top, a horizontal line represents the countertop, labeled "Countertop 1-1/2" MIN. thick". Below the countertop is a rectangular area labeled "A", which is the island top. The height of area A is indicated as "0-1/4" MAX.". To the right of area A is a vertical section labeled "C", which is the island side. The width of area C is indicated as "7-1/2". Below area A and C is a horizontal base labeled "B". The height of area B is indicated as "6" MAX.". The total width of the island is indicated as "24". The distance from the right edge of area B to the right edge of area C is indicated as "12" MIN.". The island sits on a "Floor". A "Toe kick area" is indicated at the bottom right corner of the island.

FRONT VIEW

Diagram illustrating the front view of a sink installation. Key dimensions and components shown include:

- Sink installation cutout**: Indicated at the top left.
- 24" Min.**: Dimension for the width of the sink cutout.
- 8" x 20" Adjacent cabinet rear cutout**: Dimension for the cutout in the cabinet rear.
- Cabinet side adjacent to D/W**: Label for the side of the cabinet adjacent to the dishwasher.
- 24" Min.**: Dimension for the width of the cabinet side adjacent to the dishwasher.
- 11-3/4"**: Dimension for the height of the cabinet side adjacent to the dishwasher.
- 12-1/2"**: Dimension for the height of the cabinet side adjacent to the dishwasher.
- 3-1/4"**: Dimension for the height of the cabinet side adjacent to the dishwasher.
- 12"**: Dimension for the width of the cabinet side adjacent to the dishwasher.

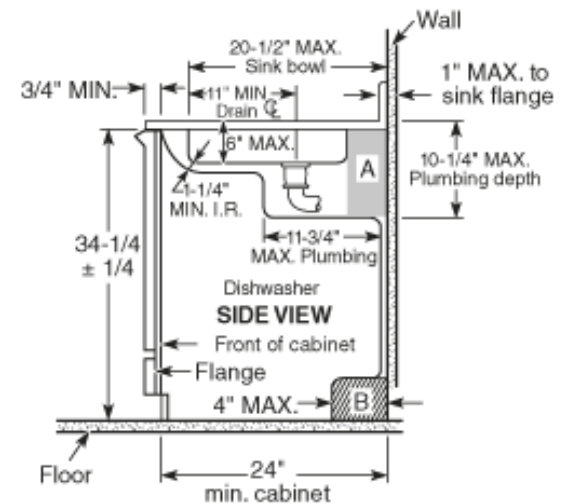

Diagram illustrating the dimensions for the door insert assembly:

- Door insert height: $18\frac{7}{8}$
- Access insert height: $3\frac{11}{16}$
- Access insert width: $23\frac{9}{16}$

Inserts must not exceed 1/4" thickness within 5/16" of edge around full circumference.
