

Shower Valve Options

THE POWER BEHIND THE SHOWER

 **MOEN**
Buy it for looks. Buy it for life.®

The Perfect Shower Starts Here.

Everybody has a slightly different idea of what makes a perfect shower. Which is exactly why Moen offers a choice of valve options to power the shower. From budget-conscious, basic control valves to fully featured systems that deliver an unparalleled custom spa experience, Moen valves are designed, tested and built to delight your client. Shower after shower.

Moen even considered your installation needs in our designs. Our valves are available in a wide array of plumbing connection options, include features that make completing the job easier and come backed by support that is as reliable as our products. All so you can use Moen with confidence.

M•PACT® Common Valve System

The innovative M•PACT Common Valve System keeps the construction process moving forward by accommodating installation of the shower valve before the homeowner has made a final decision on style or finish. It's easy to install, change or update any M•PACT-compatible trim kit at any point in time without replacing the valve.

M•PACT also provides an opportunity for builders to offer trim upgrades on spec-built homes. Once an M•PACT-compatible shower valve is installed, a trim upgrade can be easily swapped out.

Limited Lifetime Warranty

All Moen faucets come with our Limited Lifetime Warranty against leaks, drips and finish defects.

CPVC

- Choose from vertical spa, shower or Roman tub.
- Requires water hammer arrestors for proper installation (vertical spa valve only).
- Optional remote control (RF technology) adds convenience by allowing users to operate their shower from up to 30 feet away.

KEY FEATURES

Integrated Mounting Feet

For ease of installation.

Valve Body Design

At less than 3-11/32" thick, the ioDIGITAL valve was engineered to fit within standard 2" x 4" framing, or the unit can be installed up to 30 feet from the shower for maximum design flexibility in both new construction and remodeling.

ioDIGITAL Shower Valve

- 1/2" inlets and outlets
- Shutoffs
- Mounting bracket

Push-Fit Connections

Push-fit connections speed installation and provide a secure fit. No soldering or threading needed.

Digital Control

Microchip processor provides unmatched electronic temperature and flow accuracy.

Maximum Temperature Setting

Easily and quickly adjust the maximum outlet temperature for this valve by turning a dial.

Memory Presets

Store up to four temperature, flow and device activation settings for instant recall of user-created experiences.

- 3/4" IPS

ExactTemp[®]

3/4" Thermostatic Valve

KEY FEATURES

Integral Stops

Shut off water supply at the valve for quick and easy repairs.

Thermostatic Cartridge

Automatically compensates for changes in hot and cold water supply to ensure comfort and pinpoint temperature accuracy. Users can dial up the same temperature day after day. No need to readjust temperature as hot water tank begins to cool.

Temperature Limit Stop

Maximum hot water temperature set at 105°F to prevent scalding. Can be overridden to 120°F.

Temperature Memory

Handle stays in the last position the user had set when they turned the shower off, so they can return to the same temperature setting within seconds.

Moentrol[®] WITH Integrated Transfer Valve

FUNCTIONALITY

Volume and temperature control – handle pulls out to adjust flow and rotates from hot to cold

VERTICAL SPA COMPATIBLE

Yes

TRIM

CC

- Integrated transfer valve offers an affordable vertical spa.
- Choose three-function models that allow for two individual spray outlets and one shared function, or a two-function model that offers two discrete functions only to meet local codes.
- Use with a combination of two body sprays, one showerhead or one hand shower to create a custom experience.

KEY FEATURES

Pressure-Balancing Design

Maintains desired temperature within 3°F (1°C) to eliminate thermal shock when there is a pressure change in the supply system.

Meets ASSE 1016 compliance requirements for controlling temperature fluctuations at flow rates as low as 1.5 gpm—well below the 2.5 gpm testing standard—so you can safely pair the Moentrol valve with Eco-Performance showerheads.

Two-Function Operation

Pair with two spray outlets so user can operate each individually in order to meet local code.

Three-Function Operation

Pair with two spray outlets so user can operate each individually or on a shared flow setting.

Adjustable Temperature Limit Stop

Allows user to control the maximum hot water temperature to prevent scalding.

1225 Cartridge

Offers high flow rate for a variety of showering systems. Easy-to-service design. Can be rotated for back-to-back installations in large-scale projects.

Integral Stops

Shut off water supply at the valve for quick and easy repairs.

Balancing Spool Design

Distinctive and durable design is impervious to hard water and chemicals.

Temperature Memory

Handle stays in the last position the user had set when they turned the shower off, so they can return to the same temperature setting within seconds.

Moentrol®

FUNCTIONALITY

Volume and temperature control – handle pulls out to adjust flow and rotates from hot to cold

VERTICAL SPA COMPATIBLE

When paired with 3372 or 3375 transfer valve
