* Maximum O.D. of gland on pipe before Auto-Tork heads are removed (as shipped)

** Maximum O.D. of gland on pipe after Auto-Tork heads are removed

^Δ Sewer applications require SO-EZ NBR (Buna-N) gaskets. Add "-N" to the catalog number. Example: UFR1500-ZA-4-N-U

Note: Ford recommends the use of a properly sized insert stiffener when using UFR1500 on HDPE

FEATURES

- Can be used with any thickness class of AWWA C900, C909, DR-35 sewer pipe^Δ, ASTM D2241 IPS PVC or HDPE
- Auto-Tork actuating screws with heads specially designed to twist off at the correct installation torque, leaving a hex head in case future system maintenance or removal is required
- Restraining segments are mechanically retained in pockets
- Series 1500 eliminates the need to pour expensive and time consuming concrete thrust blocks
- FM approved for use on listed and approved C900 PVC pipe
- Gland, screws and segments are black epoxy coated using the e-coat process
- Gland colored red for identification purposes
