Optional Accessories					
88526	HiFlow Rite-Temp _® thin wall installation kit	□ CP	☐ Other		
1073881	HiFlow Rite-Temp thick wall installation kit		□ NA		

Installation Notes

Install the Rite-Temp valve and valve trim according to the installation guide.

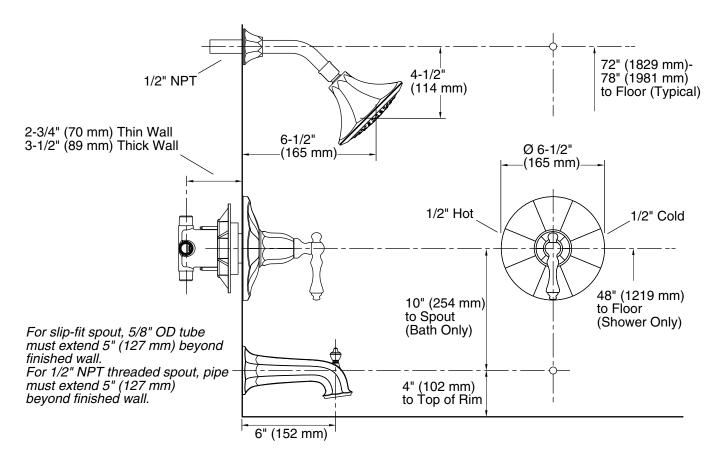

For K-2971-KS valve installations:

IMPORTANT! Risk of product damage. Consult the trim installation guide to verify if the thin wall installation kit (88526) is needed. Long screws for installing the trim can damage the K-2971-KS valve.

Avoid cross-flow conditions. Do not install a shut-off device on either valve outlet.

Cap the shower outlet if the deck-mounted spout, diverter, or handshower is connected to the spout outlet.

Install a 7" (178 mm) to 18" (457 mm) straight pipe or straight tube with single bath elbow between the valve and the wall-mount spout.
