### FEATURES:

With much less wear and tear than a trip to its namesake city, the bronze version of our Florence Chandelier will inspire thoughts of Italian panache when it's placed in a beautifully designed room. The mottled surface of its ring of glass imitates the patterns in a distressed mercury glass. The frame, which loops around and behind it, has been treated to a bronze gold finish to bring heft to its luminosity. We also offer the six-light fixture in a silver Granello finish.
