

Plastic Pipe Cutters

PTEC PLASTIC DRAIN PIPE CUTTER

The RIDGID® PTEC Cutter is the first cutter of its kind that provides the hassle-free ability to execute a clean, fast, and straight cut on thin-wall plastic tube. This versatile cutter can be used on polyethylene (PE), polypropylene (PP), and thin-wall PVC tubes.

- **Clean, Automatic Deburring** – The cut produced by this cutter results in only a fine strand of plastic, as opposed to the fuzz created around the cut of a hacksaw. No need for a second tool to deburr, this cutter automatically deburrs in parallel to cutting action.
- **Automatic Beveling** – Allows for immediate, easy joining to other sink drain pieces.
- **Open Bore Design** – Allows cutting of double-flanged plastic drain pipe.
- **PTEC 3000** – Single-flanged 1 ¼" or Double-flanged 1 ½".
- **PTEC 5000** – Double-flanged 50mm.
