NOTES:

1) Where applicable, utilize cut-out templates packed with unit for deck cutouts.

2) 16 x 16 minimum access required at pump/blower location(s).

ELECTRICAL DATA

Component	Specification	Requirement
Pump	5 AMP; 120 V	15 AMP; 120V, separate circuit; Class A GFCI
Optional Heater (whirlpool model)	1.5KW; 12 AMP; 120 V	15 AMP; 120V, separate circuit; Class A GFCI
Heated Blower	5 AMP; 120 V	15 AMP; 120V, separate circuit; Class A GFCI

Each air bath is equipped with an air heating system to raise the temperature of the air entering the bath. This air temperature will be lower than the bathing temperature of the water, but will help reduce rapid decrease in water temperature. In addition, the air coming from the air jets will feel cool against the skin. This system does not heat the water.
