

# HEIMLICHHELPER®

## Self Assist Choking Emergency Device

The revolutionary HEIMLICH HELPER device enables a choking victim to self-administer abdominal thrusts within seconds, dramatically increasing the likelihood of expelling the blockage.

- Lightweight and easy to use, providing maximum leverage and control
- Perfect for people who may be dining alone
- Mounting bracket and instruction manual included
- No batteries or electricity required

The HEIMLICH HELPER device is an essential asset to every home, office, school, restaurant and hotel room where people normally consume food.

Item #911HH  
U.S. Patent No. 6,725,863  
Canadian Patent No. 2,444,589  
Heimlich Helper is a registered trademark.
