The Original Gate Valve Adapator

Municipal water utilities and contractors have benefited over the years from the use of the Gate Valve Adapator.

The Gate Valve Adapator eliminates improper keying of the valves due to settling and shifting of the valve box.

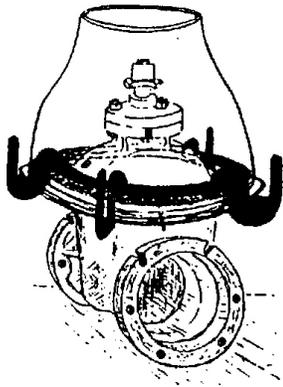

Using the Gate Valve Adapator has proven to be cost effective product for the water utilities. It has reduced future budget costs by eliminating the excavation and resetting of the valve box.

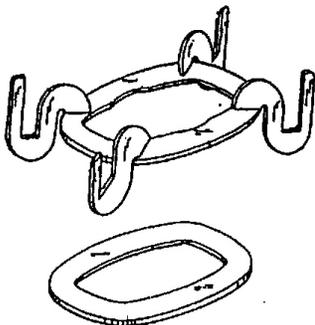

Gate Valve Adaptor

Detail Specifications

GATE VALVE ADAPTOR

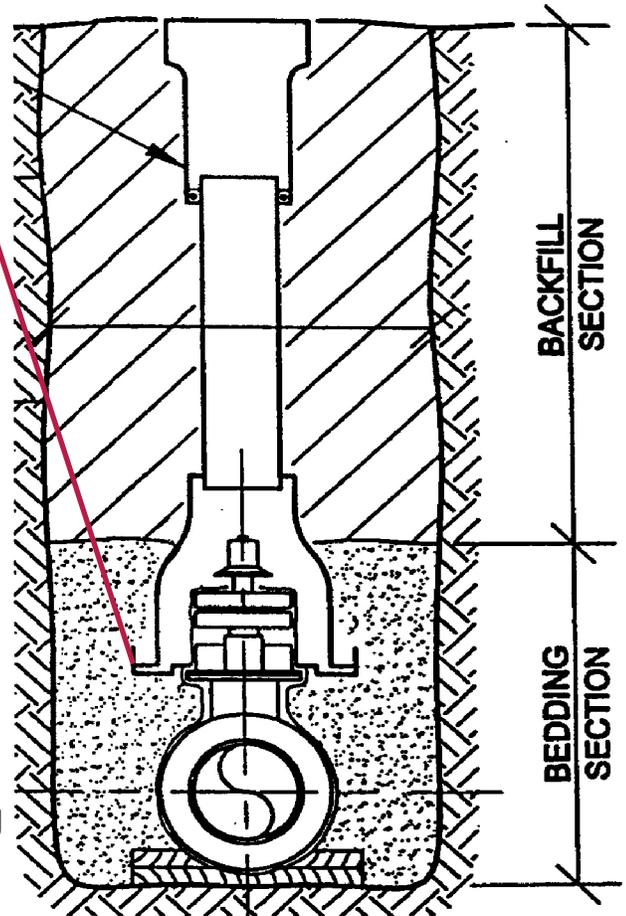

Gate Valve Adaptor installed on a valve with box.

1/4" Steel with UV Polyurethane Protective Coating

3/4" Rubber Gasket attached to the Gate Valve Adaptor

Gate Valve Adaptor

All valve boxes shall be installed upon the valve with the use of a Gate Valve Adaptor as manufactured by Adaptor Inc. or an approved equal. The adaptor shall be installed in lieu of hardwood blocking and shall be incidental to the valve and box installation. Gate Valve Adaptor shall be 1/4" steel with a UV Polyurethane protective coating and a 3/4" rubber gasket attached to the Gate Valve Adaptor.
