SEYMOUR MIDWEST RAKE® LINK HANDLES®

KENYON Toolite® ProValue SMARTBUY

WARRANTY

Limited Lifetime Warranty

Since 1872, the Seymour name has been synonymous with quality, durability and honest value.

At Seymour Midwest, we build tools that offer outstanding performance, year-after-year. We stand behind our products by extending to the original purchaser a LIMITED LIFETIME WARRANTY that our products will be free from manufacturing defects in materials and workmanship during normal use, subject to the qualifications indicated below. Simply return the defective tool to where you purchased it, with proof of purchase, or visit SeymourMidwest.com to learn how to make a warranty claim.

The typical life of a tool is determined by the conditions and level of use. Frequent, daily use will wear out a tool faster than infrequent, occasional use. Defects in materials or workmanship typically arise early in the life of a tool. Our limited warranty does not cover normal wear, lost parts, damage inflicted intentionally by the user, or failures due to accident, misuse, abuse, negligence, alteration or modification. Seymour Midwest's sole liability and the purchaser's sole remedy for a failure of products under this warranty shall be limited to the replacement or repair of the product, or the issuance of a credit therefor, at the option of Seymour Midwest (no automatic deductions by the purchaser are allowed).

Lifetime Warranty Exceptions: The period of warranty for Striking tools, ProValue tools and SmartBuy tools is for one (1) year rather than for lifetime.

Seymour Midwest assumes no liability for special, incidental or consequential damages caused by a product's failure to conform to the above written warranty, except where required by law. Seymour Midwest's warranty as set forth above is the sole and exclusive warranty. There are no other warranties expressed or implied. No person is authorized to give any other warranties.

If you have any questions concerning the warranty or its application, please write to:
Customer Care, Seymour Midwest LLC, PO Box 1674, Warsaw, Indiana 46581 USA

Genuine Seymour Midwest Replacement Parts

Frequent professional use can wear out the parts on many tools. We offer replacement blades, wood handles, springs and other component parts for our products. Identify replacement parts easily by visiting the Replacement Parts and Replacement Handles sections of our website at SeymourMidwest.com.

We're always improving. Product configurations, specifications and photos shown in this catalog can change to better meet market needs. Consult our website at SeymourMidwest.com for the latest information and to see additional products not included in this print catalog.

HERITAGE

In 1872, Seymour Manufacturing was founded as an agricultural tool and implement manufacturer in Seymour, Indiana. Early products were grain cradles, wagon wheels, scythes, and snaths.

Julius C. Birge of St. Louis, Missouri was among the initial group of investors in the company and eventually bought out his partners to begin over a century of ownership by members of the Birge family.

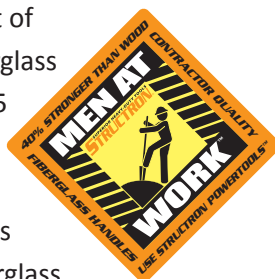

Early in the 20th century, Seymour purchased the Hall Manufacturing Company of Indiana to expand the product offering into post hole diggers and earth augers. The Dunn Edge Tool Company and the North Indianapolis Cradle Works were purchased after World War I to further expand the company's offerings.

As part of the national efforts in World War II, Seymour produced starter cartridges for airplanes, magazines for small arms and wooden wheelbarrows that required minimal metal for assembly. The company also expanded with new innovations for the farm and ranch markets including hog rings and ringers, cattle de-horners and other rugged farm tools.

The company expanded into consumer markets in the 1950's with the launch of fireplace tools and a snow sled for children. These winter-time product offerings eventually were expanded into a full range of snow tools.

Seymour embraced the development of stronger, lightweight tools using fiberglass handles in the early 1990's. The 1995 acquisition of Structron Corporation of San Marcos, California positioned Seymour as the market leader in tools made with handles of pultruded fiberglass

composite plastics. Structron has grown to be the company's most popular brand worldwide.

In 2004, Seymour acquired the O.P. Link Corporation, which included the O.P. Link Company of Salem, Indiana, the Sequatchie Handle Works of Sequatchie, Tennessee, the Bruner-Ivory Company of Hope, Arkansas, and the Turner-Day Handle Company of Crossville, Tennessee.

These combined companies are the leading All-American manufacturers of hickory replacement handles for tools of all shapes and sizes. Today the Link operation offers 8,000 different handle patterns and has helped customers worldwide renew tools with new handles.

In 2012, Seymour Manufacturing was purchased by the shareholders of Midwest Rake Company to form Seymour Midwest. Also

based in Indiana, Midwest Rake had previously acquired the Kenyon, Toolite, and Northstar brands and has a long history of manufacturing professional-grade tools. Today the family-owned company sells over 3,500 tools and 8,000 different repair handles to customers worldwide. The consolidated product offering includes a broad selection of styles, price-points, and features to appeal to both consumers and professionals.

SEYMOUR MIDWEST FACTS-AT-A-GLANCE

Company Headquarters: Warsaw, Indiana USA

GET TO KNOW SEYMOUR MIDWEST

Seymour Midwest is a family-owned, global supplier to the hand-tools market, providing both innovative solutions and time-tested products from our manufacturing facilities in Indiana and Tennessee.

The quality, dependability, and performance of our products meet the high standards of those who use tools everyday: contractors, handymen, farmers, ranchers, landscapers and others. Our diverse selection of products and brands allows our customers to order all of their tool needs from a single source.

Beyond best-in-class products, Seymour Midwest is also known as a leader in outstanding customer service, product training, and technical support in all of our business segments.

As a family-owned company, we believe in the values of integrity, quality, commitment, and innovation. We work hard to achieve performance that sets a standard of excellence and to build relationships with our customers that endure, not just because it is good business, but because it is the right thing to do.

ABOUT OUR BRANDS

Structron is our premium line of tools for tough job site conditions.

SEYMOUR

Seymour tools continue our tradition of genuine value since 1872.

MIDWEST RAKE

Midwest Rake has a reputation for the finest rakes, brooms, and squeegees on the market today.

LINK HANDLES

Link Replacement Handles are individually hand-crafted in Tennessee by skilled artisans from American hickory.

Toolite

Toolite is a revolutionary and patented shovel that are highly valued for their releasing "hole" design, as well as their sifting capabilities.

Kenyon is the market leader in tools for professional landscaping and irrigation contractors.

ProValue

ProValue tools blend contractor-friendly features and attractive pricing to appeal to both professional and consumer users.

SMARTBUY

Outstanding value is the key feature of our SmartBuy tools.

A DEDICATED TEAM

The hardworking men and women who build our tools and serve our customers are driven by pride and commitment. It's our heritage to do what's right.

OUR BRANDS

SUPERIOR HEAVY-DUTY TOOLS **STRUCTRON**® RANGE OF TOOLS

The Structron name has long been synonymous with best-in-class industrial / contractor tools. We have added dozens of new tools to the Structron line including wood-handled shovels, striking tools, scrapers and post hole diggers.

RANGE OF TOOLS SUPERIOR HEAVY-DUTY TOOLS **STRUCTRON**[®]

New choices in fiberglass, aluminum, and wood handled tools such as brooms, rakes, squeegees, and specialty tools plus new wheelbarrows make Structron the industry's broadest premium brand.

OUR BRANDS

SEYMOUR® RANGE OF TOOLS

Seymour tools continue our tradition of genuine value since 1872. They are built to stand up to the rigors of everyday use by contractors, farmers, handymen, and others who appreciate a well-built tool.

RANGE OF TOOLS **SEYMOUR®**

Seymour shovels offer legendary pro-grade performance on the job site, farm and ranch. Experience tough features like highest quality contoured hardwood handles, front-turned steps for secure foot placement and rugged head-to-handle connections. It's no wonder why they're top-sellers worldwide.

OUR BRANDS

MIDWEST RAKE® RANGE OF TOOLS

Midwest Rake has a reputation for the finest rakes, brooms and squeegees on the market today. The Midwest Rake line also includes innovative tools for special needs.

RANGE OF TOOLS LINK HANDLES[®]

We offer the industry's widest selection of replacement handles that help you extend the life of your trusted tools. With over 6,000 handle patterns available, we can provide an exact match that fits the tool with an ergonomically-superior turned design.

OUR BRANDS

Toolite® RANGE OF TOOLS

These revolutionary and patented shovels are highly valued for their mud and muck releasing “hole” design, as well as their sifting capabilities. A superior tool when digging in mud, clay, and water saturated materials, but also ideal when sifting debris from sand, gravel, grain, sports turf maintenance, public works/utility and agricultural markets. Toolite shovels are lightweight, ergonomic, and will cause less fatigue than other shovels because of their unique design.

OUR BRANDS

RANGE OF TOOLS **KENYON**

Kenyon is the market leader in tools for professional landscaping and irrigation contractors. These hard-working tools beautify landscapes worldwide.

OUR BRANDS

ProValue *RANGE OF TOOLS*

ProValue tools blend contractor-friendly features and attractive pricing to appeal to both professional and consumer users. They simplify both weekend projects and daily maintenance.

RANGE OF TOOLS **SMARTBUY**

Outstanding value is the key feature of our SmartBuy shovels. For homeowner-duty tasks, we offer several choices that handily blend attractive price and in-field performance. Our SmartBuy line is also ideal for special promotions.

ANATOMY OF A WINNER

BEST-IN-CLASS CONTRACTOR TOOLS

Since 1979, the Structron brand has lead the industry in contractor and industrial tools. Nearly indestructible, Structron tools are always there when you need them the most.

PermaGrip™ steel collar

A rivetless ring of steel connects the shovel neck, handle, and fiberglass PowerCore™ rod, making it one solid unit. Provides the strongest head to handle connection.

Highest quality tool head

14-gauge spring steel blade flexes but won't bend or break as easily as other shovel blades. Extra-sharp heat-treated, high-carbon stamped steel head provides the ultimate in durability - *wears better, lasts longer.*

ProGrip™ comfort grip

Made of durable textured vinyl with a non-slip surface for a secure grip with excellent shock-absorbing protection. Unique double-wall construction for greater durability. Weather resistant.

Safety yellow reinforced fiberglass handle

Strong yet lightweight hollow fiberglass handle provides maximum durability and visual impact.

ASSEMBLED IN THE USA

with American hands in Indiana.

PowerCore™ solid fiberglass reinforcing rod

Extends 12.5 inches from the handle into the shank and blade for maximum strength at this critical stress point.

ROUND POINT SHOVEL	WEIGHT	HANDLE LENGTH	CONNECTION SYSTEM	HANDLE/HEAD INSERT	DYNAMIC TOOL TEST POUNDS TO FAILURE

SUPERIOR HEAVY-DUTY TOOLS
STRUCTRON®

FIBERGLASS - SHOVELS

The 700 Series shovels feature heat treated, high-carbon, polished spring steel for the ultimate in durability.

The 600 Series shovels feature tempered, heavy-duty, blades finished with a protective coating.

Exclusive PowerCore™ solid fiberglass reinforcing rods extend 12.5 inches from the handle into the shank and blade.

49730 Structron round point shovel S700

- 14 gauge spring steel #2 head, rear rolled step
- 48" fiberglass handle with cushion grip
- PowerCore™ solid fiberglass reinforcing rod

49560 Structron round point shovel S600

- 14 gauge tempered #2 head, forward turned step
- 48" fiberglass handle with cushion grip
- PowerCore™ solid fiberglass reinforcing rod

49744 Structron closed back shovel S712

- 14 gauge tempered #2 head, forward turned step
- 48" fiberglass handle with cushion grip
- PowerCore™ solid fiberglass reinforcing rod

WHY CLOSED BACK?

Closed back shovels have welded backplates to prevent material build-up. These plates also provide extra strength.

49731 Structron round point shovel S700D, d-grip

- 14 gauge spring steel #2 head, rear rolled step
- 29" fiberglass handle with poly d-grip
- PowerCore™ solid fiberglass reinforcing rod

49561 Structron round point shovel S600D, d-grip

- 14 gauge tempered #2, forward turned step
- 29" fiberglass handle with poly d-grip
- PowerCore™ solid fiberglass reinforcing rod

49732 Structron square point shovel S701

- 14 gauge spring steel #2 head, rear rolled step
- 48" fiberglass handle with cushion grip
- PowerCore™ solid fiberglass reinforcing rod

49562 Structron square point shovel S601

- 14 gauge tempered #2 head, forward turned step
- 48" fiberglass handle with cushion grip
- PowerCore™ solid fiberglass reinforcing rod

49742 Structron square point shovel S701D, d-grip

- 14 gauge spring steel #2 head, rear rolled step
- PowerCore™ solid fiberglass reinforcing rod
- 29" fiberglass handle with poly d-grip

49563 Structron square point shovel S601D, d-grip

- 14 gauge tempered #2, forward turned step
- PowerCore™ solid fiberglass reinforcing rod
- 29" fiberglass handle with poly d-grip

STRUCTRON QUALITY FEATURES

PowerCore™ solid fiberglass rod with PermaGrip™ rivetless steel collar

Extra large d-grip (SP51049) held with steel rivet (RM61002)

ProGrip™ comfort that's self-healing and all-weather resistant (SA32000)

SHOVELS - FIBERGLASS

Our Structron 800 series forged shovels feature a head made from a single piece of steel billet that is hammered and compressed to make the strongest tool available. They're ideal for heavy-duty contractor and industrial applications and will provide years of superior performance.

WHAT'S SO SPECIAL ABOUT FORGED SHOVELS?

Forged shovels are built to be stronger and more durable so they stand up to the toughest of job-site conditions. Every forged shovel is made from a single piece of steel billet that is hammered and compressed while hot to form the head, neck (shank) and socket.

As the metal is shaped during the forging process, its internal grain is modified to match the shape of the part. As a result, the grain is continuous throughout the part, creating a single-piece shovel head that is dramatically stronger than a cast or machined part.

KEY CHARACTERISTICS OF SEYMOUR MIDWEST FORGED SHOVELS:

- Thicker and heavier head than traditional stamped steel
- Solid shank in the neck joins the blade and the socket providing maximum strength
- Sharp blade edge penetrates ground more easily

FORGED SHOVELS

49770 Structron forged round point shovel S800

- Rugged forged-head, solid-shank design
- Solid fiberglass reinforcing rod
- 44.5" fiberglass handle with cushion grip

49772 Structron forged square point shovel S801

- Rugged forged-head, solid-shank design
- Solid fiberglass reinforcing rod
- 45.5" fiberglass handle with cushion grip, S801

WHY FORGED SHOVELS?

- Forged heads are thicker and heavier than stamped.
- They're made from a single piece of steel billet.
- Forging compresses and stamps the steel resulting in exceptional strength and durability.
- Forged blades lack the traditional "frog". Thus, they don't collect and hold material.

SOLID FIBERGLASS HANDLE

49599 Structron closed back shovel

- 14 gauge #2 round point with front-turned step
- Closed back
- 48" solid fiberglass handle

49585 Structron impact irrigation shovel

- 10 ga. stamped & hot formed head, 7.5" x 9.5"
- Most rugged & reliable caprock on the market
- PermaGrip steel collar
- 48" fiberglass handle with ProGrip cushioned grip

49589 Structron impact drain spade

- 10 ga. stamped & hot formed head
- Most rugged & reliable caprock on the market
- PermaGrip steel collar
- 48" fiberglass handle with ProGrip cushioned grip

FIBERGLASS - SHOVELS

Seymour contractor-grade tools are designed for frequent heavy-duty use by farmers, ranchers, landscapers, and other professionals.

ProValue homeowner-grade tools have features usually found only on more expensive tools. They provide good value in economical line of fiberglass handle tools.

SEYMOUR®

49450 Seymour round point shovel

- 16 gauge #2 head, forward turned step
- Fiberglass core insert
- 46" fiberglass handle with vinyl grip, SV-LR40

49452 Seymour square point shovel

- 16 gauge #2 head, forward turned step
- Fiberglass core insert
- 46" fiberglass handle with vinyl grip, SV-LS41

CONTRACTOR QUALITY CONSTRUCTION

Durable, heat-treated carbon steel heads. Forward turned steps provide secure foot placement and comfort. Square-shoulder 9" sockets. Fiberglass handles up to 50% stronger than wood.

49451 Seymour round point shovel, d-grip

- 16 gauge #2 head, forward turned step
- Fiberglass core insert
- 28" fiberglass handle with poly d-grip, SV-DR42

49462 Seymour square point shovel, d-grip

- 16 gauge #2 head, forward turned step
- Fiberglass core insert
- 28" fiberglass handle with poly d-grip, SV-DS43

ProValue

49430 ProValue round point shovel

- 16 gauge #2 head, forward turned step
- Solid, hardwood core insert
- 43" fiberglass handle with vinyl grip, SV-LR80

49432 ProValue square point shovel

- 16 gauge #2 head, forward turned step
- Solid, hardwood core insert
- 43" fiberglass handle with vinyl grip, SV-LS81

49431 ProValue round point shovel, d-grip

- 16 gauge #2 head, forward turned step
- Solid, hardwood core insert
- 26" fiberglass handle with poly d-grip, SV-DR82

49433 ProValue square point shovel, d-grip

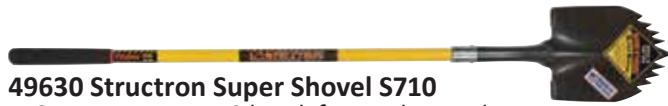

- 16 gauge #2 head, forward turned step
- Solid, hardwood core insert
- 26" fiberglass handle with poly d-grip, SV-DS83

ProValue Fiberglass Tools Offer Exceptional Value for Homeowner Use

SHOVELS - FIBERGLASS / SPECIALTY

Our SuperShovel® tools continue to win contractor accolades for their superior ability to penetrate hard-packed, rocky and clay soils. They also easily chop through roots and tough sod. Our irrigation shovels have a special head that allows for digging of vertical-wall trenches and valve pits. The Caprock versions offer a forged head.

49630 Structron Super Shovel S710

- 14 gauge #2 head, forward turned step
- PowerCore™ solid fiberglass reinforcing rod
- 48" fiberglass handle with cushion grip

SUPER SHOVEL®: BEST FOR TOUGH SOIL

Our Super Shovel® tools have cutting teeth to penetrate hard-packed, rocky and clay soils and also chop through roots and sod. They're 100% made in Seymour, Indiana USA.

49631 Structron Super Shovel S710D, d-grip

Rugged strength in a compact design.

MANY DIFFERENT APPLICATIONS:

- Camping & Firepits
- Truck Shovel
- Confined Spaces
- Track Cleaning

Fiberglass handle with a poly d-grip

Compact, but hard-working round point head

Compact dimensions - 27.5" x 6" x 2.25"

Wood versions of the MiniPRO can be found on page 30.

SHOVELS - FIBERGLASS / TRENCHING & CLEAN OUT

Every contractor has their favorite! We offer the industry's most widest range of proven trenching shovels for cleaning mechanically-dug trenches or for hand digging in a variety of soil conditions. Color-coding of blades/labels makes for easy selection in-store. Tempered steel heads feature a boot-saver step.

28° TRENCH DIGGING, 14 GAUGE PUTS HANDLE CLOSER TO WORKER

89273 Structron 3" trenching shovel S708

- 14 gauge, 28 degree "V" shaped head, forward turned step
- Solid fiberglass reinforcing rod
- 54" extended fiberglass handle with cushion grip
- Boot Saver™ step

89233 Kenyon 3" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- Wood reinforcing core
- 48" fiberglass handle with cushion grip
- Boot Saver™ step

89274 Structron 4" trenching shovel S709

- 14 gauge, 28 degree "V" shaped head, forward turned step
- Solid fiberglass reinforcing rod
- 54" extended fiberglass handle with cushion grip
- Boot Saver™ step

28° TRENCH DIGGING, 14 GAUGE PUTS HANDLE CLOSER TO WORKER

89234 Kenyon 4" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- Wood reinforcing core
- 48" fiberglass handle with cushion grip

89275 Structron 5" trenching shovel S717

- 14 gauge, 28 degree "V" shaped head,
- Forward turned Boot Saver™ step
- Solid fiberglass reinforcing rod
- 54" extended fiberglass handle with cushion grip

89235 Kenyon 5" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- Wood reinforcing core
- 48" fiberglass handle with cushion grip

89236 Kenyon 6" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- Wood reinforcing core
- 48" fiberglass handle with cushion grip

- 14 gauge tempered steel head
- Fiberglass handle with poly d-grip
- 31" overall length

SHOVELS - WOOD

We're proud to introduce wood handled shovels as good as their name. As the Structron brand indicates, these are the finest wood handled shovels available. Structron wood features highest-grade hardwood handles with super-tough coating that resists sunlight and wet conditions. They won't let you down.

49330 Structron round point shovel

- 14 gauge #2 head, forward turned step
- Extended tab 11" socket, dual riveted
- 48" tapered hardwood handle, SV-LR30

49344 Structron round point shovel

- 14 gauge #2 head, forward turned step, closed back
- Extended tab 11" socket, dual riveted
- 48" tapered hardwood handle, SV-LR30CB

49340 Structron round point shovel

- 14 gauge #2 head, rear rolled step
- Extended tab 11" socket, dual riveted
- 48" tapered hardwood handle, SV-LR34

49170 Structron forged round point shovel

- Rugged forged-head, solid-shank design
- 48" tapered hardwood handle, SV-LR50

49331 Structron round point shovel

- 14 gauge #2 head, forward turned step
- Extended tab 11" socket, dual riveted
- 30" hardwood handle, steel d-grip, SV-DR32

49171 Structron forged round point shovel

- Rugged forged-head, solid-shank design
- 27" hardwood handle, steel d-grip, SV-DR52

STRUCTRON WOOD QUALITY FEATURES

Durable, heat-treated

high carbon steel heads

Extra large steel d-grip

Held with steel rivets

Extended tab 11" socket

Double-riveted for strength

49332 Structron square point shovel

- 14 gauge #2 head, forward turned step
- Extended tab 11" socket, dual riveted
- 48" tapered hardwood handle, SV-LS31

49345 Structron square point shovel

- 14 gauge #2 head, forward turned step, closed back
- Extended tab 11" socket, dual riveted
- 48" tapered hardwood handle, SV-LS31CB

49342 Structron square point shovel

- 14 gauge #2 head, rear rolled step
- Extended tab 11" socket, dual riveted
- 48" tapered hardwood handle, SV-LS35

49172 Structron forged square point shovel

- Rugged forged-head, solid-shank design
- 48" tapered hardwood handle, SV-LS51

49333 Structron square point shovel

- 14 gauge #2 head, forward turned step
- Extended tab 11" socket, dual riveted
- 30" hardwood handle, steel d-grip, SV-DS33

49173 Structron forged square point shovel

- Rugged forged-head, solid-shank design
- 27" hardwood handle, steel d-grip, SV-DS53

WOOD-SHOVELS

Seymour shovels offer legendary pro-grade performance on the job site, farm and ranch. Experience tough features like highest quality contoured hardwood handles, front-turned steps for secure foot placement and rugged head-to-handle connections. It's no wonder why they're top-sellers worldwide.

49150 Seymour round point shovel

- 16 gauge #2 head, forward turned step, riveted
- 48" hardwood handle, SV-LR20

49151 Seymour round point shovel

- 16 gauge #2 head, forward turned step, riveted
- 30" hardwood handle, steel d-grip, SV-DR22

49152 Seymour square point shovel

- 16 gauge #2 head, forward turned step, riveted
- 48" hardwood handle, SV-LS21

49162 Seymour square point shovel

- 16 gauge #2 head, forward turned step, riveted
- 30" hardwood handle, steel d-grip, SV-DS23

SEYMOUR®

16 gauge heat-treated carbon steel head with forward turned step

PRO-GRADE PERFORMANCE

Frequent heavy-duty use by:

- Farmers
- Ranchers
- Contractors
- Other professionals with demanding industrial & commercial applications

Steel collar and rivet for strong head to handle connection

Highest quality hardwood handle

Contoured handle with super tough coating

SHOVELS - WOOD

Outstanding value is the key feature of our ProValue and SmartBuy shovels. For contractors looking to outfit a crew economically or for homeowner-duty tasks, we offer several choices that handily blend attractive price and in-field performance. Our SmartBuy line is ideal for special promotions.

ProValue

49130 ProValue round point shovel

- 16 gauge heat-treated #2 head, forward turned step
- Square shoulder 9-inch sockets
- 43" hardwood handle, SV-LR10

49131 ProValue round point shovel

- 16 gauge heat-treated #2 head, forward turned step
- Square shoulder 9-inch sockets
- 26" hardwood handle, steel d-grip, SV-DR12

49132 ProValue square point shovel

- 16 gauge heat-treated #2 head, forward turned step
- Square shoulder 9-inch sockets
- 43" hardwood handle, SV-LS11

49142 ProValue square point shovel

- 16 gauge heat-treated #2 head, forward turned step
- Square shoulder 9-inch sockets
- 26" hardwood handle, steel d-grip, SV-DS13

SMARTBUY

49830 SmartBuy round point shovel

- 16 gauge #2 head with step
- Square shoulder 9-inch socket
- 42" hardwood handle, SV-LR90

49831 SmartBuy round point shovel

- 16 gauge #2 head with step
- Square shoulder 9-inch socket
- 26" hardwood handle, poly d-grip, SV-DR92

49832 SmartBuy square point shovel

- 16 gauge #2 head with step
- Square shoulder 9-inch socket
- 42" hardwood handle, SV-LS91

49833 SmartBuy square point shovel

- 16 gauge #2 head with step
- Square shoulder 9-inch socket
- 26" hardwood handle, poly d-grip, SV-DS93

49180 Structron forged irrigation shovel

- Rugged forged-head, solid-shank design
- 46.5" tapered hardwood handle, SV-IR50

49175 Structron forged irrigation shovel

- Rugged forged-head, solid-shank design
- 48" tapered hardwood handle

49155 Seymour irrigation shovel

- 16 gauge head, forward turned step
- 48" tapered hardwood handle

49181 Structron forged caprock shovel

- Rugged forged-head, solid-shank design
- 46.5" tapered hardwood handle, SV-CR50

Caprock irrigation shovels feature forged heads and low lift for near vertical digging. The solid shank provides exceptional strength.

49185 Structron forged rice shovel

- Rugged forged-head, solid-shank design
- 46.5" tapered hardwood handle, SV-RS50

Rice shovels are used for rice farming and irrigation. The perforations allow draining and ease of suction break.

49085 Seymour rice shovel

- 16 gauge head, forward turned step
- 48" tapered hardwood handle, SV-RS20

45420 Seymour transplant / floral shovel

- 16 gauge #0 head, forward turned step
- 44" tapered hardwood handle, SV-LR25

45411 Seymour transplant / floral shovel

- 16 gauge #00 head, forward turned step
- 44" tapered hardwood handle

49163 Seymour Super Shovel

- 14 gauge #2 head, forward turned step
- 48" tapered hardwood handle, SV-LT34

Our Super Shovel® tools have cutting teeth to penetrate hard-packed, rocky and clay soils and also chop through roots and sod.

49164 Seymour Super Shovel, d-grip

- 14 gauge #2 head, forward turned step
- 29" hardwood handle, steel d-grip, SV-DT35

SHOVELS - WOOD / SPECIALTY

We're proud to introduce wood handled shovels as good as their name. As the Structron brand indicates, these are the finest wood handled shovels available. Seymour shovels offer legendary pro-grade performance on the job site, farm and ranch; outstanding value is the key feature of our ProValue shovels.

49174 Structron forged garden spade, d-grip

- Rugged forged-head, solid-shank design
- 30" hardwood handle, steel d-grip, SV-GD50

49334 Structron garden spade, d-grip

- 16 gauge #2 head, rear rolled step
- 30" hardwood handle, steel d-grip, SV-GD34

49335 Structron garden spade, closed back, d-grip

- 16 gauge #2 head, closed back, rear rolled step
- 30" hardwood handle, steel d-grip, SV-GD34CB

49153 Seymour garden spade

- 16 gauge #2 head, rear rolled step
- 48" tapered hardwood handle, SV-GL24

49154 Seymour garden spade, d-grip

- 16 gauge #2 head, rear rolled step
- 30" hardwood handle, steel d-grip, SV-GD24

49134 ProValue garden spade, d-grip

- 16 gauge #2 head, rear rolled step
- 26" hardwood handle, steel d-grip, SV-GD10

49178 Structron forged post spade, d-grip

- 12" rugged forged-head, solid-shank design
- 30" hardwood handle, steel d-grip, SV-PD50

49168 Seymour notched roofing spade

- Fulcrum head
- 48" tapered hardwood handle, SG-2LH

Roofing spades have a heavy-duty fulcrum welded to the back of the blade for leverage.

49169 Seymour notched roofing spade

- Fulcrum head
- 29" hardwood handle, steel d-grip, SG-2DH

49191 Seymour ceremonial shovel, round point

- Chrome #2 head
- 29" hardwood handle with chrome d-grip, SV-DRCH

49351 Seymour MiniPRO shovel, round point

- Compact round point head, compact 27" overall length
- Hardwood handle with poly d-grip, SV-DRMP

49353 Seymour MiniPRO shovel, square point

- Compact square point head, compact 27" overall length
- Hardwood handle with poly d-grip, SV-DSMP

- 49336 Structron 14" drain spade, closed back**
- 14 gauge head, "V" shaped head, closed back
 - 48" tapered hardwood handle
 - The original "Sharp Shooter"

- 49337 Structron 14" drain spade**
- 14 gauge head, "V" shaped head, closed back
 - 27" hardwood handle with steel d-grip
 - The original "Sharp Shooter"

- 49357 Structron 14" drain spade**
- 14 gauge head, closed back
 - 30" hardwood handle with steel d-grip

- 49346 Structron 16" drain spade**
- 14 gauge head, forward turned step
 - 48" tapered hardwood handle, SV-LD30

- 49347 Structron 16" drain spade, d-grip**
- 14 gauge head, forward turned step
 - 30" hardwood handle with steel d-grip, SV-DD30

- 49348 Structron 16" drain spade, d-grip**
- 14 gauge head, forward turned step, closed back
 - 30" hardwood handle with steel d-grip, SV-DD30CB

- 49179 Structron 16" forged drain spade**
- Forged head, solid-shank design, forward turned step
 - 30" hardwood handle with steel d-grip, SV-DD50

- 49156 Seymour 14" drain spade**
- 14 gauge head, forward turned step
 - 48" tapered hardwood handle, SV-LD20

- 49157 Seymour 14" drain spade, d-grip**
- 14 gauge head, forward turned step
 - 30" hardwood handle with steel d-grip, SV-DD20

- 49138 Seymour 16" drain spade, d-grip**
- 14 gauge head, forward turned step
 - 30" hardwood handle with steel d-grip

- 49137 ProValue 14" drain spade, d-grip**
- 16 gauge head, forward turned step
 - 26" hardwood handle with steel d-grip, SV-DD10

SHOVELS - WOOD / TRENCHING & CLEAN OUT

Every contractor has their favorite! We offer the industry's most widest range of proven trenching shovels for cleaning mechanically-dug trenches or for hand digging in a variety of soil conditions. Color-coding of blades/labels makes for easy selection in-store. Tempered steel heads feature a Boot-Saver™ step.

28° TRENCH DIGGING, 14 GAUGE PUTS HANDLE CLOSER TO WORKER

89223 Kenyon 3" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- 48" hardwood handle

89224 Kenyon 4" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- 48" hardwood handle

89225 Kenyon 5" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- 48" hardwood handle

89226 Kenyon 6" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- 48" hardwood handle

35° GENERAL PURPOSE, 11 GAUGE IDEAL FOR BOTH DIGGING AND CLEANING TRENCHES

89023 Kenyon 3" digging/trenching shovel

- 11 gauge, 35 degree "V" shaped head
- Forward turned Boot Saver™ step
- 47" hardwood handle

89024 Kenyon 4" digging/trenching shovel

- 11 gauge, 35 degree "V" shaped head
- Forward turned Boot Saver™ step
- 47" hardwood handle

89025 Kenyon 5" digging/trenching shovel

- 11 gauge, 35 degree "V" shaped head
- Forward turned Boot Saver™ step
- 47" hardwood handle

89026 Kenyon 6" digging/trenching shovel

- 11 gauge, 35 degree "V" shaped head
- Forward turned Boot Saver™ step
- 47" hardwood handle

CLEAN OUT / TRENCHING SHOVELS 14 GAUGE STEEL HEADS

89044 Kenyon 4" clean out shovel SV-TR14

- 14 gauge, 35 degree tempered steel head
- 44" hardwood handle

89045 Kenyon 5" clean out shovel SV-TR15

- 14 gauge, 35 degree tempered steel head
- 44" hardwood handle

28° angle

35° angle

We offer two different head angles / thicknesses for our trenching shovels. Our 28 degree, 14 gauge heads put the handle closer to the worker for greater productivity while the 35 degree, 11 gauge heads are ideal for both digging and cleaning out trenches.

POLYMER / TRENCHING & CLEAN OUT - SHOVELS

28° TRENCH DIGGING, 14 GAUGE PUTS HANDLE CLOSER TO WORKER

89243 Kenyon 3" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step
- Solid fiberglass reinforcing core
- 48" polymer handle

89244 Kenyon 4" trenching shovel

- 14 gauge, 28 degree "V" shaped head with Boot Saver™ step

- 14 gauge tempered steel head
- Solid fiberglass reinforcing core
- 48" polymer handle

89195 Kenyon 5" clean out shovel

- 14 gauge tempered steel head
- Solid fiberglass reinforcing core
- 48" polymer handle

WHY PROFESSIONALS PREFER OUR POLYMER HANDLE TRENCHING SHOVELS

For the ultimate in durability, longevity and performance, there is no better solution than our solid fiberglass cored polymer jacketed handles. The solid core provides unmatched strength and high rigidity. The outer polyethylene jacket protects the tool from sun and weather damage. It also protects the user from handle splintering. These innovative tools last longer, keeping you productive, job after job.

See other Kenyon Polymer tools on page 34.

CLEAN OUT TRENCHING SHOVELS AND HEADS SMALLER THAN 3" ARE NOT LISTED IN THIS GRID BUT ARE AVAILABLE IN THE TRENCHING SHOVEL SECTION OF THE CATALOG

SHOVELS - SPECIALTY / POLYMER

We call it the “new fiberglass,” for we believe that solid fiberglass cored polymer jacketed handles are attracting a growing following. You will find uses for the handle long after the head wears out. Maximum durability, maximum life; it’s just that simple.

49666 Kenyon 14" drain spade

- 14 gauge "V" shaped head, closed back
- Solid fiberglass reinforcing core
- 48" polymer handle
- The original "Sharp Shooter"

49667 Kenyon 14" drain spade, d-grip

- 14 gauge "V" shaped head, closed back
- Solid fiberglass reinforcing core
- 28" polymer handle with d-grip
- The original "Sharp Shooter"

49656 Kenyon 14" drain spade

- 14 gauge head, forward turned step
- Solid fiberglass reinforcing core
- 48" polymer handle

49657 Kenyon 14" drain spade

- 14 gauge head, forward turned step
- Solid fiberglass reinforcing core
- 28" polymer handle with d-grip

49691 Kenyon forged caprock shovel

- Rugged forged-head, solid-shank design
- Solid fiberglass reinforcing core
- 48" polymer handle

49692 Kenyon forged caprock shovel, d-grip

- Rugged forged-head, solid-shank design
- Solid fiberglass reinforcing core
- 28" polymer handle with d-grip

49650 Kenyon round point shovel

- 14 gauge #2 head, double riveted, forward turned step
- Solid fiberglass reinforcing core
- 48" polymer handle

49652 Kenyon square point shovel

- 14 gauge #2 head, double riveted, forward turned step
- Solid fiberglass reinforcing core
- 48" polymer handle

Solid fiberglass polymer handles are encased in polyethylene plastic to prevent any splinters.

49662 Kenyon square point shovel, d-grip

- 14 gauge #2 head, forward turned step
- Solid fiberglass reinforcing core
- 27" polymer handle with d-grip

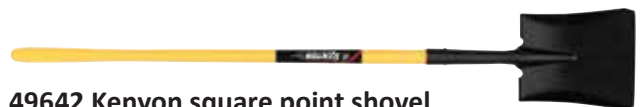

49640 Kenyon round point shovel

- 16 gauge #2 head, forward turned step
- Solid fiberglass reinforcing core
- 48" polymer handle

49641 Kenyon round point shovel, d-grip

- 16 gauge #2 head, forward turned step
- Solid fiberglass reinforcing core
- 28" polymer handle with d-grip

49642 Kenyon square point shovel

- 16 gauge #2 head, forward turned step
- Solid fiberglass reinforcing core
- 48" polymer handle

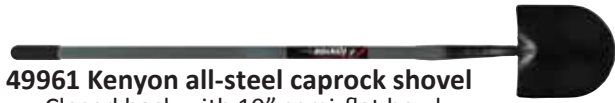

49643 Kenyon square point shovel, d-grip

- 16 gauge #2 head, forward turned step
- Solid fiberglass reinforcing core
- 28" polymer handle with d-grip

SPECIALTY / ALL-STEEL - SHOVELS

Landscape and construction contractors who do heavy digging love our Kenyon all-steel products. They provide the best in rock-moving, root chopping and prying capabilities. Constructed of ultra-thick, heavy-weight 12 gauge welded steel with a smooth powder coat, these tools are ready for extreme applications.

KENYON

49961 Kenyon all-steel caprock shovel

- Closed back with 10" semi-flat bowl
- 3" handle lift
- 48" steel handle, 58" overall length

49957 Kenyon 12" all-steel spade

- 14 gauge "V" shaped head, closed back
- 27" steel d-grip handle, 39" overall length

Generous 1.25" steel step for secure foot placement with all shoe types

49958 Kenyon 15" all-steel spade

- 14 gauge "V" shaped head, closed back
- 27" steel d-grip handle, 42" overall length

49044 Kenyon all-steel landscape lighting trencher

- 8.25" wide and 10" long blade with 1.25" step
- 48" handle

Generous 1.25" steel step for secure foot placement with all shoe types. For installing landscape lighting, irrigation line, landscape edging and more.

49045 Kenyon all-steel landscape lighting trencher

- 8.25" wide and 10" long blade with 1.25" step
- 45" t-handle, 45" overall length

ALL-STEEL PRODUCTS: NOT POLISHED... JUST POWERFUL!

Nursery spades are ideal for edging, transplanting and general purpose digging where cutting through stubborn soil or roots is required. Turned steps add operator comfort. Flat blade reduces soil buildup.

Landscape Lighting Trencher cuts a slit for easy installation of landscape edging, lighting wire, irrigation cable, CATV, dog fencing wire and other landscape products. Use it with model 85468 cable placer to push the wire into the full depth of the opening. Choose T-handle or straight-handle options

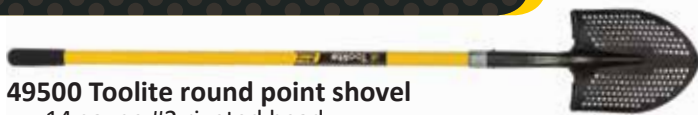

Caprock shovel has a medium lift for a more vertical cut. The semi-flat bowl allows for a clean cut.

SHOVELS - SPECIALTY / TOOLITE® MUD SHOVELS

These revolutionary and patented shovels are highly valued for their mud and muck releasing “hole” design, as well as their sifting capabilities. A superior tool when digging in mud, clay, and water saturated materials, but also ideal when sifting debris from sand, gravel, grain, sports turf maintenance, public works/utility and agricultural markets.

Toolite®

- *Mud and muck releasing blades*
- *14 gauge tempered steel heads with 3/8" holes*
- *Thick walled fiberglass, polymer or wood handles*
- *5" double dipped grip or 1 piece molded D-grip on fiberglass handles*
- *All reinforcing cores are polymer jacketed fiberglass*
- *Polymer handles have solid fiberglass core with polymer jacket*
- *Crimped collar and riveted head-to-handle connection on fiberglass handles*
- *Lightweight, ergonomic, and will cause less fatigue*

- 29" polymer handle with d-grip

SPECIALTY / TOOLITE® SCOOPS - SHOVELS

Toolite® scoops are perfect tools for sifting and removing debris when top-dressing athletic fields, courses, and diamonds. They sift debris from sand on beaches and in golf course bunkers and all types of soil. Great for screening and sifting rocks and unwanted material during pre-seeding and pre-sodding of lawns and landscapes.

- 13" x 12" traditional, aluminum head
- 48" hardwood handle

49513 Toolite shovel/scoop

- 10" x 12" aluminum head
- 48" hardwood handle

RAKES - LAWN & LEAF / SPRING BRACE

Our spring brace leaf rakes are built better to last longer. Intelligently-designed features include continuous tines from handle to tip and a durable spring brace that gives you the power to dig into thickly-matted leaves. Most of our rakes have single or double through-bolted heads that won't get loose or wobbly.

40928 Structron 24" spring brace rake SR22

- 24 tine 24" steel head, double-bolted
- 54" extra-reach fiberglass handle with comfort cushion grip
- Highest overall strength

40948 Midwest Rake 24/24 spring brace rake LF-40

- Heavy-duty, 24 tine 24" steel head, single-bolted
- 54" extra-reach fiberglass handle, 6" vinyl grip

40945 Midwest Rake 24" spring brace rake

- 24 tine steel head, single-bolted
- 54" extra-reach wood handle LF-25

Midwest Rake 24/24 spring brace rake

- Double through-bolted head-to-handle connection
- 24" head with 24 heavy-duty steel continuous tines or 18" head with 18 heavy-duty steel continuous tines

40940 ProValue 18/18 spring brace rake

- Heavy-duty, 18 tine 18" steel head, no bolt
- 48" hardwood handle LF-18

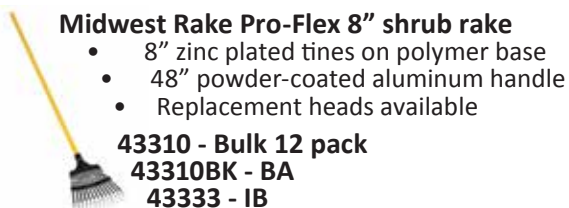

40942 ProValue 22/22 spring brace rake

- Heavy-duty, 22 tine 22" steel head, no bolt
- 48" tapered hardwood handle LF-22

LAWN & LEAF - RAKES

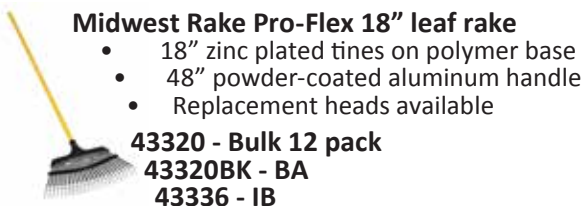

Preferred by landscapers and gardeners when working in tighter spaces, our Pro-Flex rakes have more closely-spaced tines for moving lighter and finer debris. These rakes are ideal for everyday cleanup tasks. The tempered spring steel tines apply lighter pressure to avoid damage to plant roots.

- 22 tine 22" poly head with steel tines
- 48" hardwood handle

FIBERGLASS / BOW - RAKES

Curved tines on our bow rakes move soil effectively and are useful for separating and gathering stones and other debris from topsoil. The bow design gives the user greater control over the tine depth, while the extended-handle models allow maximum control.

- 42366 Structron 16" bow rake BR16**
- 16 tine 16" forged head
 - 60" extended length fiberglass handle with cushion grip (SA32000)

- 42324 Seymour 15" bow rake BR-40**
- 14 tine 15" welded head
 - 60" extended length fiberglass handle with vinyl grip

SUPERIOR STRENGTH: WELDED AND RIVETED

Our Kenyon and Seymour bow rakes are heavy-duty and long lasting tools. The head-to-handle connection features a unique tapered steel plug (except 42324) that is press fit into the powder-coated aluminum handle and then drilled and riveted all the way through. The bow rakes also feature a steel bow that is moved closer to the edge of the head, providing greater lateral stability, and is welded on both the front and back sides of the head for greater strength.

- 42314 Seymour 14" bow rake**
- 14" tempered head with welded & riveted steel plug
 - 60" extended length powder-coated aluminum handle

- 42600 Kenyon 14" bow rake**
- 14" tempered head with welded & riveted steel plug
 - 60" extended length powder-coated aluminum handle

- 42316 Seymour 17" bow rake**
- 17" tempered head with welded & riveted steel plug
 - 60" extended length powder-coated aluminum handle

- 42604 Kenyon 17" bow rake**
- 17" tempered head with welded & riveted steel plug
 - 60" extended length powder-coated aluminum handle

- 42364 ProValue 14" bow rake BR-80**
- 14 tine 14" welded head
 - 48" fiberglass handle

RAKES - WOOD / BOW AND SPECIAL

- 14 tine 16" forged steel head
- 62" hardwood handle SR-30

42351 Seymour 16" level head rake

- 16 tine 16" steel head
- 66" hardwood handle

RAKES - LANDSCAPE

We invented the bolted-through wrap-around bracing that distinguishes the Structron and Midwest Rake brand rakes from other imitators. We use a solid aluminum plug in the head-to-handle connection, unlike other brands that use wood or plastic plugs, or even no plug at all. The rake head is an engineered aluminum/magnesium alloy, selected for durability and strength.

Structron aluminum landscape rake

- Heavy-duty aluminum head and wrap-around bracing
- 66" fiberglass handle with cushion grip
- Replacement handle available (#SA20400)

12100 - 24" head LR24

ProValue

HOMEOWNER LANDSCAPING

Designed with the consumer in mind, this landscape rake comes complete with a solid aluminum head, "push-pull" bracing to eliminate head wobble, and a 60" hardwood handle.

RAKES - ALUMINUM / SPECIALTY

Our specialty rakes include innovations only available from Midwest Rake. We listen to user needs and develop tools that get the job done better and smarter. Some tools offer multi-tasking capability for ultimate convenience.

ALL PRODUCTS ON THIS PAGE
ARE MADE IN THE USA (UNLESS NOTED)

Midwest Rake aluminum dual purpose rake

- Heavy-duty aluminum head and bracing
- Powder-coated aluminum handle with vinyl grip

12517 - 17" head, "push-pull" bracing and 60" handle

12524 - 24" head, wrap-around bracing and 66" handle

12536 - 36" head, wrap-around bracing and 66" handle

MIDWEST RAKE®

WHY A DUAL PURPOSE RAKE?

A Seymour Midwest exclusive. This innovative and versatile tool has two teeth profiles. The short teeth are used for breaking up hard packed clay and grading, while the long teeth are for wet clay and general raking.

Midwest Rake aluminum chisel tooth rake

- Extra-thick aluminum teeth and wrap-around bracing
- 66" powder-coated aluminum handle with vinyl grip

20024 - 24" head

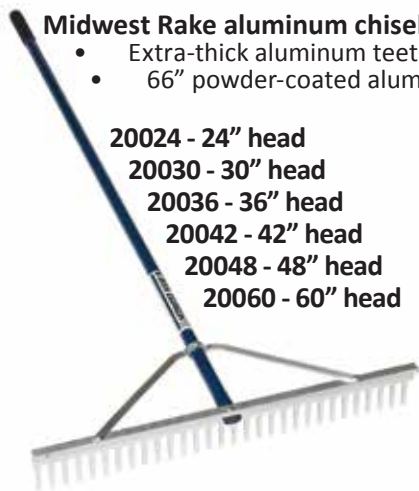

20030 - 30" head

20036 - 36" head

20042 - 42" head

20048 - 48" head

20060 - 60" head

CHISEL TOOTH RAKE DESIGN:

The aggressive chisel-sharp teeth and forward grading edge set this rake apart from our others. It is an excellent choice when you need to penetrate and break up hard soils. It also works exceptionally well when spreading concrete or stone.

Midwest Rake aluminum screening rake

- Heavy-duty aluminum head and wrap-around bracing
- 66" powder-coated aluminum handle with vinyl grip

11024 - 24" head

11030 - 30" head

11036 - 36" head

11042 - 42" head

11048 - 48" head

SCREENING RAKE DESIGN:

This rake is specially designed for sifting, grading, and screening. It is an excellent tool when you need to sift or screen stones and debris from sand or fine soil.

ALUMINUM / SPECIALTY - RAKES

73320 Kenyon steel backfill rake

- Heavy-duty 20" replaceable steel head
- 60" powder-coated aluminum handle with vinyl grip

SP13470 - Replacement head for 73320

MORE EFFECTIVE THAN A SHOVEL FOR...

many landscaping, irrigation, and utility settings. A great tool for quickly backfilling trenches and moving soil and aggregate materials. Heads are replaceable.

41366 Seymour 11" McLeod rake

- Heat-treated, 11" steel head with 4" teeth
- Head is welded to the ferrule with 4 rivets
- 48" hardwood handle

WHAT IS A MCLEOD RAKE?

A favored tool for firefighters when clearing fire lines, but also a heavy-duty tool for clearing any form of trail or pathway... or even creating a new planting bed or garden. The head measures 9" tall x 11" wide with 4" reinforced teeth.

16113 Seymour 14" horse trailer rake

- All-aluminum construction with "push-pull" bracing
- 50" powder-coated aluminum handle

COMPACT FOR A PURPOSE

A compact 50" length rake that fits in a trailer tack box. This small 14" head size has straighter pitched teeth and a generous grading edge and is easy to handle.

Midwest Rake baserunner field rake

- Aluminum head with rounded, non-gouging teeth
- Double lock 39" - 70" telescoping fiberglass Superhandle®

12501 - 24" head
12502 - 30" head
12503 - 36" head

THE PROFESSIONALS CHOICE

Knocks down for easy storage. The perfect tool for grooming infields and beach volleyball courts. The head was designed specifically for the sports turf industry, but it is also highly respected in the professional lawn and garden industry. The high straight edge is excellent for grading.

52917 Midwest Rake 17" mound and plate shaper

- Heavy-duty aluminum head and bracing
- 66" powder-coated aluminum handle

A "UTILITY INFIELDER" YOU CAN PLAY EVERYDAY...

The perfect size for restoring the pitching mound to a professional surface, just scarify, level, tamp and repeat. Great for shaving and carving the pitching mound. The flat front of this tool can be used as a tamp in secondary areas where light tamping is required.

RAKES - AQUATIC

Our aquatic rakes are a safe and effective way to remove unwanted weeds from lakes, ponds and golf course water hazards, without need for hazardous chemicals or expensive dredging. Built for maximum reach from on-shore or on-dock use, these rakes make it easy to gather and remove plant debris.

ALL PRODUCTS ON THIS PAGE

87028 Midwest Rake 28" Aquatic Weed Eradicator (AWE)

- Reinforced 28" serrated cutting blade (replaceable)
- 11', 2-piece rust proof powder-coated aluminum handle
Additional 66" extension handle sections available

SA10024 - Replacement blades for AWE

87003 - Extension handle sections

MIDWEST RAKE®

SIMPLY AN AWE-SOME TOOL

The AWE, exclusive to Seymour Midwest, is the most effective bottom-cutting weed removal tool available on the market. No need for dangerous and expensive chemicals; this tool removes weeds at their source. You don't have to worry about the reinforced blades bending under a heavy load of weeds.

86036 Midwest Rake 36" aluminum lake rake with 11' handle

- Heavy-duty aluminum head with wrap-around bracing
- Detachable poly float and 50' poly rope also included
- 11', 2-piece rust proof powder-coated aluminum handle
Additional 66" extension handle sections available

SP50065 - Replacement poly rope for lake rake (not made in USA)

87003 - Extension handle sections

A FLOATING RAKE?

Use it to skim floating aquatic vegetation and algae from the water. By shortening the handle and removing the float, you have a professional-grade landscaping rake, excellent for dressing beach sand. Float colors may vary.

86050 Midwest Rake 36" aluminum lake rake with 66" handle

- Heavy-duty aluminum head and wrap-around bracing
- Wire woven through heavy-duty teeth uproots aquatic weeds
- 66" powder-coated aluminum handle with 50' of poly rope

SP50065 - Replacement poly rope
for lake rake (not made in USA)

WIRE WOVEN TEETH...

A safe and effective way to seasonally weed lakes, ponds, golf course water traps. Wire woven through heavy-duty teeth uproots aquatic weeds.

82018 Seymour 24" street broom SB24R

- Medium-duty broom for rough surfaces
- 60" fiberglass handle, cushion grip

BROOMS

Building a better professional broom starts with our super-strong gusset bracing, the strongest head-to-handle connection on the market today. Choose from brooms for rough surfaces, smooth surfaces or “duo” models that combine bristles for all-purpose use. Our bent “ergonomic” aluminum handles provide more effective head-to-surface contact while promoting comfort and ease of use.

**ALL PRODUCTS ON THIS PAGE
ARE MADE IN THE USA** (UNLESS NOTED)

82614 Kenyon 24" wonder broom

- 3" medium bristles, super-strong gusset bracing
- 60" powder-coated aluminum handle
- Superior sweeping action

For smooth and semi-smooth surfaces such as warehouse floors and cement. The best value for maintenance dollars spent.

82602 Kenyon 24" wonder broom

- 3" dual bristles, super-strong gusset bracing
- 60" powder-coated aluminum handle
- Versatile multi-purpose

An ideal combination broom for gardeners, landscapers and anyone wanting to move a heavy load as well as fine dust with the same broom.

82624 Kenyon 24" wonder broom

- 3" stiff bristles, super-strong gusset bracing
- 60" powder-coated aluminum handle
- Heavy-duty garage style

Unaffected by chemicals, oils, or petroleum solvents. A top performing, best selling garage style broom.

82918 Seymour 18" street/landscape broom

- 5" stiff bristles, super-strong gusset bracing
- 60" ergonomic powder-coated aluminum handle

The ergonomic handle is very comfortable to use and levels the bristle contact to the floor for maximized efficiency.

82919 Seymour 18" street/landscape broom

- 5" stiff bristles, super-strong gusset bracing
- 60" powder-coated aluminum handle

Stiff, extra-long bristles make this street broom an excellent choice when you are dealing with rough surfaces.

82902 ProValue 24" economy duo broom

- 3" stiff bristles, wrap-around bracing
- 60" hardwood handle

82924 Seymour 24" general purpose broom

- 3" durable bristles, super-strong gusset bracing
- 60" ergonomic powder-coated aluminum handle

82925 Seymour 24" general purpose broom

- 3" durable bristles, super-strong gusset bracing
- 60" straight powder-coated aluminum handle

These general purpose brooms use durable polypropylene bristles, firmly attached to a high quality hardwood shoulder.

82936 Seymour 36" general purpose broom

- 3" durable bristles, super-strong gusset bracing
- 60" ergonomic powder-coated aluminum handle

82904 Seymour 24" duo broom

- 3" durable bristles, super-strong gusset bracing
- For use on smooth surfaces
- 60" ergonomic powder-coated aluminum handle

82905 Seymour 24" duo broom

- 3" durable bristles, super-strong gusset bracing
- For use on smooth surfaces
- 60" straight powder-coated aluminum handle

82906 Seymour 36" duo broom

- 3" durable bristles, super-strong gusset bracing
- For use on smooth surfaces
- 60" ergonomic powder-coated aluminum handle

SPECIALTY - BROOMS

Our selection of brooms extends beyond traditional pavement-style brooms. We also offer specialty brooms for large-area pavement cleaning, athletic field dressing and brushes for applying pavement seal coating products. For additional cleaning solutions, also see our squeegee products.

SPECIALTY - HOES

Our eye hoes are preferred for heavy-duty digging and cutting to open up planting beds. The grub hoes have a narrower blade for easier and deeper ground penetration. Hardwood handles are sold separately to allow these products to be customized to your preference.

42141 Seymour loop hoe

- 6" x 4" head
- 54" hardwood handle, SH-20

42100 Seymour loop hoe

- 6" x 4" head
- 60" powder-coated aluminum handle
- Replaceable blade (SP10129)

40100 - Individually boxed

WHAT IS A 2-WAY LOOP HOE?

Rocking action makes light work of regular maintenance in the garden with each push-pull.

42610 Kenyon 2-way loop hoe

- 6" x 4" head for landscape contractor
- 60" powder-coated aluminum handle
- Replaceable head assembly (63051)

WHY IS 2-WAY BETTER?

Double-edged weeder bar for efficient push-pull action. Excellent for cultivating, aerating, and weeding.

42800 Seymour eye hoe

- 7" blade, 1-3/4" diameter hole
- American pattern
- Head only, 2E-AE0

63009 - 54" circular shaped handle, DG-AEH
63001 - 60" circular shaped handle, DG-AEH-60
(both handles are 1-3/4" diameter)

42801 Seymour eye hoe

- 7.5" blade, 1-3/4" diameter hole
- American pattern
- Head only, 2E-AE1

63009 - 54" circular shaped handle, DG-AEH
63001 - 60" circular shaped handle, DG-AEH-60
(both handles are 1-3/4" diameter)

42802 Seymour eye hoe

- 7.75" blade, 1-3/4" diameter hole
- American pattern
- Head only, 2E-AE2

63009 - 54" circular shaped handle, DG-AEH
63001 - 60" circular shaped handle, DG-AEH-60
(both handles are 1-3/4" diameter)

EYE HOE FEATURES:

Eye hoes feature large, heavy blades best for heavy-duty digging and cultivating.

42805 Seymour grub hoe

- 4.5" blade, 1-3/4" diameter hole
- Head only, 2E-G60

63009 - 54" circular shaped handle, DG-AEH
63001 - 60" circular shaped handle, DG-AEH-60
(both handles are 1-3/4" diameter)

GRUB HOE FEATURES:

Grub hoe blades are narrower than eye hoes for easier and deeper ground penetration.

42808 Seymour Italian grape hoe

- 7" blade
- Head only, 2E-IG7

63011 - 40" oval shaped handle, DG-IGH

GRAPE HOE FEATURES:

Grape hoes are designed specifically for cultivating and weeding around grape vines.

EDGERS

Create crisp turf boundaries along walkways, driveways and other paved surfaces with our edgers. Our rotary turf edgers have been used for decades for crisp edges without stooping or bending. Gardeners and landscapers appreciate the easy, precise cuts from our half-moon edger.

49042 Seymour half moon turf edger

- 8.75" steel blade welded to ferrule
- 48" hardwood handle, WE-60

HALF MOON TURF EDGERS

Feature turned steps for comfort and control.

49047 Seymour rotary turf edger, single wheel

- 6" blade, single wheel
- 48" hardwood handle, WE-51

ROTARY TURF EDGERS

Features self-sharpening zinc plated blades mounted to ribbed rubber tires for superior cutting power.

49048 Seymour rotary turf edger, dual wheel

- 6" blades, dual wheel
- 48" hardwood handle, WE-52

49043 Seymour half moon turf edger

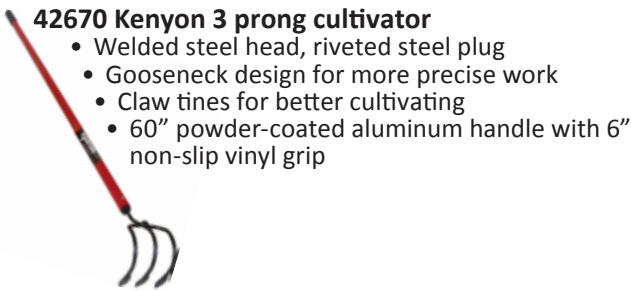

- 8.75" 12 gauge steel blade with cast-iron socket for maximum durability
- 48" hardwood handle, WE-65

 - Gusset bracing
 - 66" powder-coated aluminum handle

POST HOLE DIGGERS

Our post hole diggers have been and always will be 100% American made. Seymour Midwest manufactures the most complete line of post hole diggers in the industry, consisting of 25 different diggers, including models for fencing contractors, utility linemen, and others who require precision performance.

THE HERCULES PATTERN...
provides maximum strength for the most demanding industrial and commercial jobs.

- 21210 Structron hercules digger PD48**
- 6.25" point spread, .112" thick
 - 48" fiberglass handle, cushion grip

- 21219 Structron hercules digger PD96**
- 6.25" point spread, .112" thick
 - 96" fiberglass handle, cushion grip

- 21211 Seymour Hercules digger DG-11FG**
- 6.25" point spread, .112" thick
 - 48" fiberglass handle, vinyl grip

- 21215 Structron hercules digger**
- 6.25" point spread, .112" thick
 - 48" hardwood handle

- 21200 Seymour hercules digger**
- 6.25" point spread, .112" thick
 - 48" hardwood handle, DG-11

- 21206 Seymour hercules digger**
- 6.25" point spread, .112" thick
 - 72" hardwood handle, DG-116

- 21208 Seymour hercules digger**
- 6.25" point spread, .112" thick
 - 96" hardwood handle, DG-118

THE ATLAS PATTERN...
is best suited for homeowner use and other occasional use applications.

- 21117 Seymour extra heavy-duty atlas digger DG-17FG**
- 6" point spread, .085" thick
 - 48" fiberglass handle, vinyl grip

ALL PRODUCTS ON THIS PAGE ARE MADE IN THE USA (UNLESS NOTED)

- 21110 Seymour atlas digger DG-100FG**
- 6" point spread, .062" thick
 - 48" fiberglass handle, vinyl grip

- 21180 ProValue homeowner digger DG-80FG**
- 5" point spread, .083" thick
 - 48" fiberglass handle, vinyl grip *(not made in the USA)*

- 21109 Seymour extra heavy-duty atlas digger**
- 5" point spread, .085" thick
 - 48" hardwood handle, DG-17

- 21105 Seymour medium-duty atlas digger**
- 5" point spread, .068" thick
 - 48" hardwood handle, DG-10

- 21106 Seymour medium-duty atlas digger**
- 5" point spread, .068" thick
 - 72" hardwood handle, DG-106

- 21108 Seymour medium-duty atlas digger**
- 5" point spread, .068" thick
 - 96" hardwood handle, DG-108

- 21100 Seymour atlas digger**
- 5" point spread, .062" thick
 - 48" hardwood handle, DG-100

- 21025 ProValue junior atlas digger**
- 5" point spread, .083" thick
 - 42" hardwood handle, DG-25

POST HOLE DIGGERS

THE PERFECTION PATTERN...

has a unique "clamshell" head for digging in sandy, loamy, loosely-packed soils.

21245 Seymour perfection digger DG-12FG

- 7.25" point spread, .085" thick
- 48" fiberglass handle, vinyl grip

21244 Seymour perfection digger

- 5" point spread, .085" thick
- 48" hardwood handle, DG-12

21246 Seymour perfection digger

- 5" point spread, .085" thick
- 72" hardwood handle, DG-126

21248 Seymour perfection digger

- 5" point spread, .085" thick
- 96" hardwood handle, DG-128

THE GIBBS PATTERN...

combines a single blade with hinge action that acts like a bucket to bring loose soil to the surface. Also called a mud bucket.

21264 Seymour Gibbs digger

- Single blade with hinge action, .085" thick
- 54" hardwood handle, DG-18

21266 Seymour Gibbs digger

- Single blade with hinge action, .085" thick
- 72" hardwood handle, DG-186

21268 Seymour Gibbs digger

- Single blade with hinge action, .085" thick
- 96" hardwood handle, DG-188

ALL PRODUCTS ON THIS PAGE ARE MADE IN THE USA. (UNLESS NOTED)

THE BUCKEYE PATTERN...

features strong steel pipe handles welded to the square steel shanks and yoke. Super tough square-cut steel blades are ideal for digging in heavy, rocky soils.

21230 Seymour buckeye digger

- 6.5" point spread, .117" thick
- 48" steel handles, DG-16

THE LONESTAR PATTERN...

features strong tubular steel handles welded to the thick yokes for digging in the hardest soils.

21220 Seymour lonestar digger

- 6.25" point spread, .112" thick
- 48" steel handles, DG-15

21075 ProValue homeowner digger

- 5" point spread, .083" thick
- 48" hardwood handle, DG-75

21060 SmartBuy promotional digger

- 5" point spread, .083" thick
- 48" hardwood handle, DG-60

POST HOLE DIGGER REPLACEMENT HANDLES

SP21096 48" replacement handle for DG-100, DG-75

SP21099 72" replacement handle for DG-106, DG-116, DG-126

SP21100 96" replacement handle for DG-108, DG-118, DG-128

SP21095 48" replacement handle for DG-10, DG-11, DG-12

SP21004 48" replacement handle for DG-14

SP21005 72" replacement handle for DG-186

SP21006 96" replacement handle for DG-188

SP21007 54" replacement handle for DG-18

SP21008 Short lever replacement handle for DG-18

FENCING TOOLS

For decades farmers, ranchers and fencing professionals have counted on Seymour for high quality fencing tools. Our all-steel post drivers can install posts in the toughest soil conditions. Handy fencing pliers are often used with our ring fasteners for wire and mesh fencing.

85620 Seymour post driver

- 2.5" square tube, 19 pounds of power
- Heavy-duty, powder coated construction

85623 Seymour post driver

- 3" square tube, 22 pounds of power
- Heavy-duty, powder coated construction

85630 Seymour long reach post driver

- 2.5" square tube, 19 pounds of power
- Heavy-duty, powder coated construction

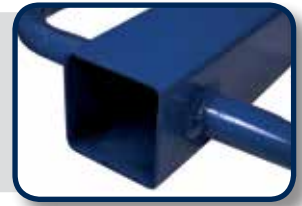

85633 Seymour long reach post driver

- 3" square tube, 22 pounds of power
- Heavy-duty, powder coated construction

POST DRIVER CONSTRUCTION

- All steel
- Square tubing
- Powder coated
- Heavy-duty

41026 Seymour fence pliers

- 10.5" alloy steel head
- Forged handles with vinyl grips, 2T-1900

41020 Seymour fence pliers

- 10" square nose head
- Forged handles with vinyl grips, 2T-110

41021 Seymour fence pliers

- 10" round nose head
- Forged handles with vinyl grips, 2T-120

AUGERS

Professionals have relied on Seymour augers for generations to bore holes in all soil types. We offer models for post installation, shallow well drilling, tree root feeding, pest control and other applications. Count on these time-proven tools for great results.

ALL PRODUCTS ON THIS PAGE ARE MADE IN THE USA (UNLESS NOTED)

IWAN AUGERS

are designed for general purpose use in a variety of soils. Steel blades are riveted to tough pliable iron yoke. Has a steel shaft with a welded steel t-handle.

- 21302 Seymour 2" Iwan auger**
- 2" point spread, steel head/shaft
 - Hardwood handle, AU-S2

- 21303 Seymour 3" Iwan auger**
- 3" point spread, steel head/shaft
 - Hardwood handle, AU-S3

- 21304 Seymour 4" Iwan auger**
- 4" point spread, steel head/shaft
 - Hardwood handle, AU-S4

- 21306 Seymour 6" Iwan auger**
- 6" point spread, steel head/shaft
 - Hardwood handle, AU-S6

- 21308 Seymour 8" Iwan auger**
- 8" point spread, steel head/shaft
 - Hardwood handle, AU-S8

- 21310 Seymour 10" Iwan auger**
- 10" point spread, steel head/shaft
 - Hardwood handle, AU-S10

- 21312 Seymour 12" Iwan auger**
- 12" point spread, steel head/shaft
 - Hardwood handle, AU-S12

ADJUSTABLE IWAN AUGERS

will bore holes of varying diameters

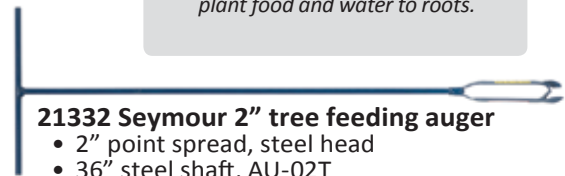

- 21324 Seymour 4-5-6" diameter adjustable iwan auger**
- Steel head/shaft
 - Hardwood handle, AU-A1

- 21326 Seymour 6-7-8" diameter adjustable iwan auger**
- Steel head/shaft
 - Hardwood handle, AU-A2

TREE FEEDING AUGERS

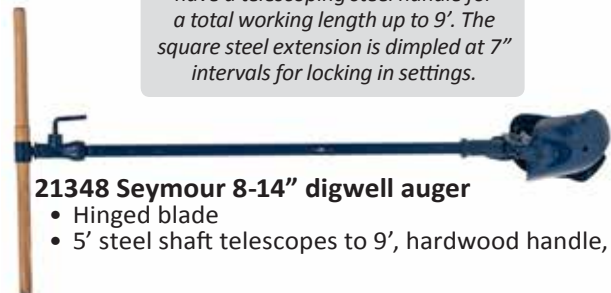

bore a 2" diameter hole for applying plant food and water to roots.

- 21332 Seymour 2" tree feeding auger**
- 2" point spread, steel head
 - 36" steel shaft, AU-O2T

DIGWELL AUGERS

have a telescoping steel handle for a total working length up to 9'. The square steel extension is dimpled at 7" intervals for locking in settings.

- 21348 Seymour 8-14" digwell auger**
- Hinged blade
 - 5' steel shaft telescopes to 9', hardwood handle, DW-D1

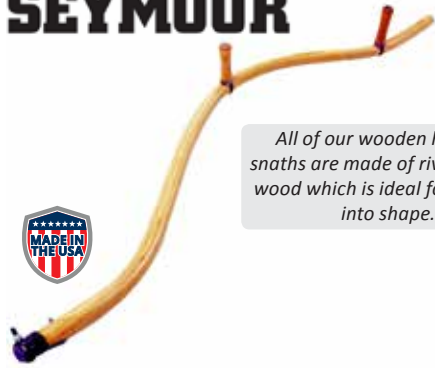

AUGER REPLACEMENT HANDLES & PARTS

- SA22036 Auger Handle, hardwood cross, 21", for all except AU-S12
- SA22035 Auger extensions, 3/4" X 48" with threaded coupling
- SA22076 Auger Handle, hardwood cross, 30", for AU-S12
- SA11028 AU-A1 adjustable auger blade (including rivets)
- SA11029 AU-A2 adjustable auger blade (including rivets)
- SA11020 Iwan auger head, 10"
- SA11021 Iwan auger head, 12"
- SA11022 Iwan auger head, 8"

SNATHS & SCYTHE BLADES

The scythe is a powerful, versatile and useful tool for the mowing and removal of unwanted grasses, weeds, and young woody growth. Quiet and pleasant to use, the scythe provides numerous advantages over mechanical mowers and string trimmers, and can be used in many locations where mechanical mowers cannot.

SEYMOUR®

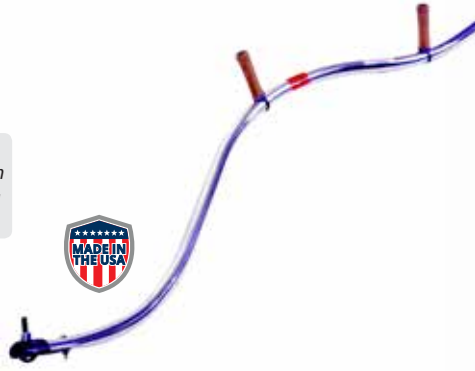

All of our wooden handled snaths are made of river-bottom wood which is ideal for forming into shape.

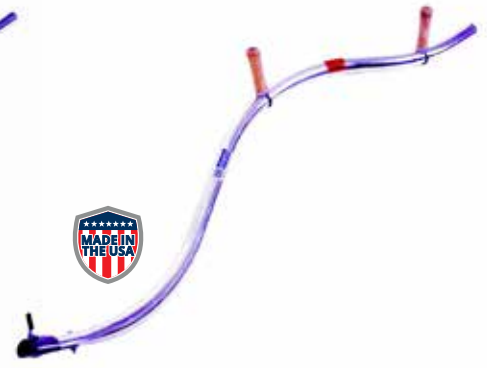

21401 Seymour snath, wood handle

- Steel web, iron loop bolt, SN-1
- For grass, weeds, and light brush

21408 Seymour snath, aluminum handle

- Steel web, iron loop bolt, SN-8
- For light duty cutting

21409 Seymour snath, aluminum handle

- Iron loop bolt, SN-9
- For medium duty cutting

WEED & BRUSH CUTTING

Cutting dense brush and weeds is easy with our time-proven grass hooks, weed cutters and ditch bank blades. These rugged tools are based on decades-old designs that continue to be reliable favorites for their reliability and functionality.

87640 Seymour ditch bank blade

- Steel blade, 3-bolt head with formed steel brackets
- 40" hardwood handle, DT-1640

Detail of serrated edges

87600 Seymour weed cutter

- Serrated edges with formed steel brackets
- 30" hardwood handle WE-20
- Replacement handle - 65163 / 7248-00

87605 Seymour grass whip

- Serrated blade riveted to steel shaft
- 12" hardwood handle, WE-30

Edges can be sharpened

87610 Seymour brush cutter

- Heavy duty steel blade
- 30" hardwood handle, WE-40

87625 Seymour dandelion/lawn weeder

- Steel tip, WE-35
- Reaches deep to remove the whole root
- 36" hardwood handle

41700 Seymour grass hook, general purpose

- Non-offset serrated edge blade
- Hardwood handle, 2G-497

41705 Seymour grass hook, general purpose

- Offset plain edge blade
- Hardwood handle, 2G-507

41710 Seymour grass hook, American pattern

- Plain edge blade, steel ferrule
- Hardwood handle, 2G-25

41711 Seymour grass hook, long handle, American pattern

- Plain edge blade, steel ferrule
- 53" hardwood handle, 2G-25LH

49081 Seymour hay hook

- Steel hook with wood handle
- 11" overall length

MACHETES AND KNIVES

Whether you are trimming, harvesting or clearing brush, Seymour Midwest has a high-quality knife or machete that is ready for the task. Each of our tough and durable products are fully resharpenable for use season after season.

41418 Kenyon 4" sickle / sod cutter

- 4" steel blade
- 6" polymer handle

41420 Kenyon 6.5" sickle

- 6.5" steel blade
- 8" wood handle

- Cutlery steel blade
- Black poly handle with brass rivets, 2P-MA22

41723 Seymour 22" sheath for machete

- Canvas sheath with belt loop, 2P-MA22S

41724 Seymour 24" machete

- Cutlery steel blade
- Black poly handle with brass rivets, 2P-MA24

41725 Seymour 24" sheath for machete

- Canvas sheath with belt loop, 2P-MA24S

SAWS - PRUNING TOOLS

Kenyon pruning saws are professional-grade tools that are designed to cut more easily. Choose folding models for small to medium branches and convenient in-field portability. Curved blades make cutting easier. Larger bow saws have increased capacity for larger branches and sharp, self-cleaning teeth.

KENYON

**PROFESSIONAL TOOLS
CUT FASTER & EASIER!**

Kenyon brand cutting tools are small, powerful and functional tools that will give you an "edge".

41429 Kenyon pruning saw

- 13" tempered alloy curved blade
- 6 precision ground teeth per inch
- Poly handle

41428 Kenyon folding saw

- 10" tempered alloy curved blade
- 6 precision ground teeth per inch
- Wood handle

41426 Kenyon folding pruning saw

- 8" steel blade
- Comfort poly grip with safety lock, WP-8708

41453 Kenyon 21" bow saw

- Replaceable steel blade (SP16047) with guard
- Tubular steel handle, WP-7621

41454 Kenyon 24" bow saw

- Replaceable steel blade (SP16048) with guard
- Tubular steel handle, WP-7624

41455 Kenyon 30" bow saw

- Replaceable steel blade (SP16049) with guard
- Tubular steel handle, WP-7630

PRUNING TOOLS - HAND PRUNERS

Classic design and dependability characterize each of our hand pruning tools. We offer the best in price and performance with tools that provide clean, consistent cuts, without binding or tearing. For contractor-friendly performance, upgrade to models with forged blades for added durability.

41407 Kenyon 1" forged professional bypass pruner

- Resharpenable blades, sap groove and wire-cutting notch
- 8.5" overall length with ergonomic handles
- Replaceable blade (SP13312) and spring (SP13311)

41406 Kenyon .75" forged professional bypass pruner

- Resharpenable blades, sap groove and wire-cutting notch
- 8" overall length with ergonomic handles
- Replaceable spring (SP13310)

41401 Kenyon .75" bypass pruner

- Hardened and coated non-gumming blades
- Ergonomically designed vinyl handles
- Metal latch for safe storage

41403 Kenyon 1" bypass pruner

- Hardened and coated non-gumming blades
- Ergonomically designed vinyl handles
- Metal latch for safe storage

41419 Kenyon forged professional thinning shear

- Resharpenable alloy blades
- 8.25" overall length with cushioned non-slip grips
- Replaceable spring (SP13313)

41405 Kenyon .75" anvil pruner

- Hardened and coated non-gumming blades
- Ergonomically designed vinyl handles
- Metal latch for safe storage

41054 Kenyon nylon scabbard with belt clip

- Fits hand pruners and folding saws
- Keeps tools handy in the field

41055 Kenyon leather scabbard with belt slots

- Top-grain leather

41473 ProValue .5" consumer bypass pruner

- Comfort molded handles
- Quick release, WP-1010

41474 ProValue .625" consumer bypass pruner

- Single action, enclosed spring
- Textured vinyl grips, WP-1030

41476 ProValue .625" consumer anvil pruner

- Single action, enclosed spring
- Textured vinyl grips, WP-1020

HEDGE SHEARS - PRUNING TOOLS

For trimming and shaping of large and dense shrubs and hedges, we offer a diverse selection of hedge shears for contractor and consumer use. Of special note are the models which incorporate innovative telescoping handles for instant added reach. All models feature resharpenable blades.

41471 Structron forged hedge shears with extension handles EXS24

- 9" steel blades
- Fiberglass handles with cushion grip
- Handles extend from 24" to 36" for added reach

41492 ProValue hedge shears

- 9" steel blades with serrated edge for compound action
- 10" hardwood handles with cushion grips, WP-3230

41424 Kenyon forged hedge shears

- 9" steel blades with shock absorbing stop
- 12" aluminum handles with poly grips

41423 Kenyon forged hedge shears

- 9" steel blades with shock absorbing stop
- 11" hardwood handles with poly grips

41421 Kenyon hedge shears

- 8" steel blades with branch pruning notch for larger limbs
- 10" hardwood handles, WP-3220

41422 Kenyon hedge shears

- 8" steel blades with branch pruning notch for larger limbs
- 9" steel handles with vinyl grips, WP-3210

PRUNING TOOLS - LOPPERS

For cutting larger limbs and vines, select from our wide offering of landscape loppers. Choose from models with traditional hardwood handles, fatigue-reducing aluminum, fiberglass, or high-strength tubular steel. Models with easy-reach extension handles are offered. Get extra cutting power (up to 3 times more) with compound-action models.

- 41467 Structron telescoping bypass lopper EXB36**
- Single action steel blades
 - 24"-33" fiberglass extension handles with cushion grips

- 41465 Structron bypass lopper BL24**
- Single action steel blades
 - 24" fiberglass handles with cushion grips

EXTENSION HANDLES...

feature a dual lock and STA-LOK® positive locking system (SA32002) that increases the reach of Structron loppers and hedge shears.

"These loppers are absolutely the best in the field."
- Patti Merick, Lawnranger Landscape

- 41463 Structron telescoping anvil lopper EXA36**
- Compound action steel blades (SP16013 + SP16012)
 - 24"-33" fiberglass extension handles with cushion grips

- 41461 Structron anvil lopper CL24**
- Compound action steel blades (SP16013 + SP16012)
 - 24" fiberglass handles with cushion grips

COMPOUND ACTION LEVER DESIGN

on pruning tools multiplies handle force to cutting blades for easier cutting.

- 41414 Kenyon 1.25" forged bypass lopper**
- Resharpenable blades with sap groove
 - Shock absorbing stop
 - Tubular steel handles with poly grips, 19" overall length

- 41415 Kenyon 2.25" forged bypass lopper**
- Resharpenable blades with sap groove
 - Shock absorbing stop
 - Aluminum handles with poly grips, 28" overall length

- 41411 Kenyon 1.25" bypass lopper**
- Hardened and coated, non-gumming blades
 - Shock absorbing stop, 29" overall length
 - Oval-shaped steel handles with cushioned grips

- 41416 Kenyon 1.5" telescoping bypass lopper**
- Hardened and coated, non-gumming blades
 - Shock absorbing stop, 29" overall length
 - 26"-39" aluminum handles with poly grips

- 41417 Kenyon 1.5" bypass lopper**
- Hardened and coated, non-gumming blades
 - Shock absorbing stop, 28" overall length
 - Wood handles with poly grip

- 41413 Kenyon 1.5" anvil lopper**
- Hardened and coated, non-gumming blades
 - Shock absorbing stop, 29" overall length
 - Oval-shaped steel handles with cushioned grips

LOPPERS - PRUNING TOOLS

41488 ProValue 2" bypass lopper

- Compound action steel blades
- Shock absorbing stop
- 20" hardwood handles with cushion grips, WP-2140

41484 ProValue 1.25" bypass lopper

- Single action steel blades
- Shock absorbing stop
- 20" hardwood handles with cushion grips, WP-2130

41486 ProValue 1.25" bypass lopper

- Single action steel blades
- Shock absorbing stop
- 30" hardwood handles, WP-2136

41487 ProValue 1.25" bypass lopper

- Single action steel blades
- Shock absorbing stop
- 30" hardwood handles with cushion grips, WP-2137

41481 ProValue 1.25" bypass lopper

- Single action steel blades
- Shock absorbing stop
- 19" tubular steel handles with vinyl grips, WP-2120

41489 ProValue 2" anvil lopper

- Compound action steel blades
- 20" hardwood handles with cushion grips, WP-2145

41485 ProValue 1.5" anvil lopper

- Single action steel blades
- 20" hardwood handles with cushion grips, WP-2135

41483 ProValue 1.5" anvil lopper

- Single action steel blades
- 19" tubular steel handles with vinyl grips, WP-2110

Bypass loppers are recommended for pruning green wood while anvil loppers are for pruning dead or dying wood.

ProValue

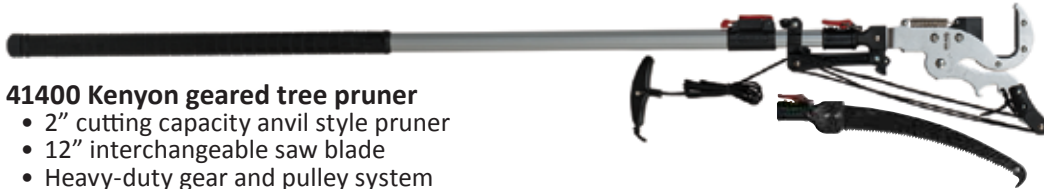

PRUNING TOOLS - TREE PRUNERS AND FRUIT PICKER

Our rugged tree pruners use telescoping fiberglass or aluminum handles for extended reach and lightweight operation. The exclusive patented STÄ-LOK on the Structron TP612 locks the handle in place to the exact length needed. Choose a model with compound action for extra cutting power.

41398 Structron tree pruner TP612

- 1.125" cutting capacity compound action lopper with 15" saw blade
- 15" replacement saw blade (SP16097)
- 6'-12' fiberglass extension handle, lightweight for easy reaching
- Non-slip foam grip

41400 Kenyon geared tree pruner

- 2" cutting capacity anvil style pruner
- 12" interchangeable saw blade
- Heavy-duty gear and pulley system
- 4.5'-8' oval shaped aluminum telescoping handle with superior telescoping locking mechanism

41395 Kenyon tree pruner WP-6555

- 1.125" cutting capacity compound action lopper with 13" blade
- Replacement saw blade (SP13441) and replacement rope (SP50323)
- 7'-14' fiberglass extension handle with superior telescoping locking mechanism

41498 ProValue tree pruner WP-6525

- 1" cutting capacity compound action lopper with 13" blade
- Replacement saw blade (SP13441) and replacement rope (SP50323)
- 6'-12' fiberglass extension handle

41499 ProValue tree pruner WP-6535

- 1.125" cutting capacity compound action lopper with 13" blade
- Replacement saw blade (SP13441) and replacement rope (SP50323)
- 6'-12' fiberglass extension handle

42280 Seymour fruit picker FP-20

- Heavy gauge vinyl coated wire basket, grab and pull action
- 8' - 2 piece wood handle

FIBERGLASS - EXTENSION HANDLES

Prized by painting contractors, cleaning professionals and other users who look for extended reach with maximum adjustability, our extension handles have been top-sellers for decades. Our patented STĀ-LOCK mechanism is the most convenient and reliable to use. Just twist to lock in any position.

60253 - 6' to 12' handle w/dual lock SE612

60254 - 8' to 16' handle w/dual lock SE816

60255 - 8' to 24' handle w/dual lock SE824

SUPERHANDLE® II DUAL LOCKING SYSTEM

The world's first extension handle with two locking systems to ensure the most secure handle lock available today. Built to industrial quality standards for outstanding performance and durability.

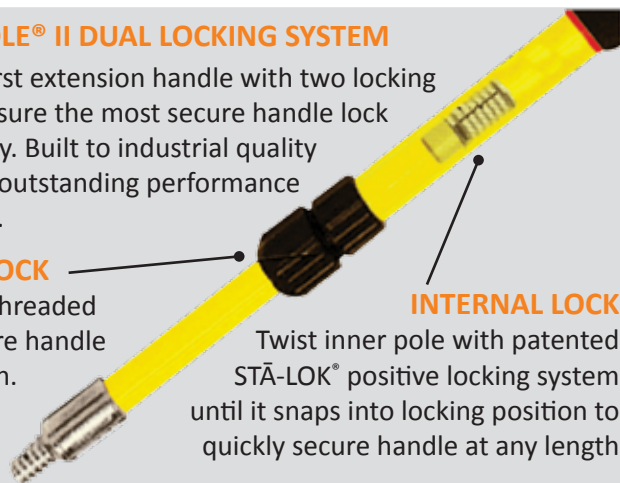

EXTERNAL LOCK

Screw down threaded collar to secure handle in any position. Comfortable ergonomic design.

INTERNAL LOCK

Twist inner pole with patented STĀ-LOCK® positive locking system until it snaps into locking position to quickly secure handle at any length

U.S. Patent 5,549,407.

SA22028 - Replacement part for collar lock poles

Structron Superhandle® extension handle

- Threaded #5 Acme aluminum tip
- Fiberglass telescoping handle with collar lock, cushion grip
- Threaded Tip Replacement kit (60259)

60245 - 2' to 4' handle CE24

60244 - 3' to 6' handle CE36

60246 - 4' to 8' handle CE48

60247 - 6' to 12' handle CE612

60248 - 8' to 16' handle CE816

Structron straight extension handle

- Threaded #5 Acme aluminum tip
- Fiberglass handle with vinyl end cap
- Threaded Tip Replacement kit (60259)

60240 - 48" handle SS48

60241 - 60" handle SS60

60242 - 72" handle SS72

PLANTING TOOLS

Our rugged all-steel planting mattocks and cultivators easily cut into hard soils allowing for fast setting of groundcovers and bedding plants. Fine gardeners love our digging/weeding knife which provides precision, ease of cutting and ability to work in tough soils.

41202 Kenyon all steel ultimate planting mattock

- Pro-grade heavy-duty construction with 3/16" steel head
- Wide edge is 2", narrow edge is 1.25" for all plant sizes
- 14" overall length, anti-slip vinyl grip

41212 Kenyon all steel bedding mattock

- Pro-grade heavy-duty construction with 14 gauge head
- 3" wide, shovel-style head
- 14" overall length, anti-slip vinyl grip

41222 Kenyon all steel bedding cultivator and mattock

- Pro-grade heavy-duty construction with 14 gauge head
- 3" wide cultivator fork, 1.25" planting head
- 14" overall length, anti-slip vinyl grip

41040 Seymour landscaper digging / weeding knife

- 6.5" blade with tapered slicing edge
- 4.5" polymer handle with comfortable grip and thumb rest
- For digging, planting, weeding, cutting roots and more

41041 Seymour sheath for digging / weeding knife

41042 Seymour landscaper digging/weeding knife with sheath

Seymour Midwest developed these short-handled tools to better meet the needs of home gardeners who prefer more compact tools. They're durable and feel great in your hands.

41033 Seymour hand trowel

- Chrome plated 3.5" x 6" head
- Wood handle, WP-5400
- Hole in handle to hang up when not in use

41034 Seymour hand transplanter

- Chrome plated 2.5" x 6" head
- Wood handle, WP-5401
- Hole in handle to hang up when not in use

41035 Seymour dandelion weeder

- Chrome plated .75" x 2.5" head
- Wood handle, WP-5402
- Hole in handle to hang up when not in use

41031 Seymour hand cultivator

- Chrome plated 3" x 5" head
- Wood handle, WP-5403
- Hole in handle to hang up when not in use

GARDEN TOOLS

Our long-handled garden tools are the perfect fit for garden beds, smaller spaces and smaller hands. They are smaller and easier-to-use but are constructed of the same materials as our larger tools. Their versatility extends to floral or edible gardens, square-foot gardening, raised beds and use by children.

60700 Seymour floral shovel, round point

- Tempered high-carbon steel floral head
- Front-turned step
- 44" hardwood handle, SV-LR70

60701 Seymour floral shovel, round point with d-grip

- Tempered high-carbon steel floral head
- Front-turned step
- 30" hardwood handle with poly d-grip, SV-DR72

60703 Seymour floral shovel, square point with d-grip

- Tempered high-carbon steel floral head
- Front-turned step
- 30" hardwood handle with poly d-grip, SV-DS73

60710 Seymour v-hoe

- Forged 4" head
- 54" hardwood handle, VH-70

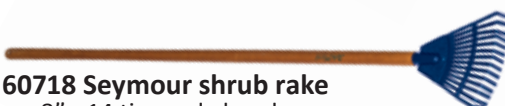

60711 Seymour garden cultivator

- Forged 3 tine head
- 54" hardwood handle, GC-70

60712 Seymour level head rake

- Forged 8 tine head
- 54" hardwood handle, FR-70

60718 Seymour shrub rake

- 8" - 14 tine poly head
- 50" hardwood handle, LF-70

60720 Seymour soil knife

- Forged 2" head
- 15" hardwood handle with leather thong, SK-70H

60727 Seymour weeding hoe

- Forged 2.5" head
- 15" hardwood handle with leather thong, WH-70H

60721 Seymour garden cultivator

- Forged 3 tine head
- 15" hardwood handle with leather thong, GC-70H

60725 Seymour dandelion weeder

- Forged 1" head
- 15" hardwood handle with leather thong, WE-70H

60723 Seymour nursery trowel

- Forged 3.75" head
- 15" hardwood handle with leather thong, NT-70H

41038 Seymour bulb planter

- 3" heavy-duty head with beveled edge blade and foot step
- 30" steel loop handle, BP-20

SQUEEGEES - GENERAL

Our general purpose squeegees are ideal for pushing or pulling liquids off from hard surfaces. Each is sold as a complete tool – handle, frame and blade. Our straight-edge squeegee has a stiffer blade for a more robust scraping action. Replacement blades are always available for all of these items.

**ALL PRODUCTS ON THIS PAGE
ARE MADE IN THE USA (UNLESS NOTED)**

Structron general purpose squeegee

- 3" extra-wide reversible neoprene rubber blade
- Heavy-duty aluminum head with wrap-around bracing
- 66" fiberglass handle, cushion grip

76502 - 24" squeegee
76503 - 36" squeegee

EASILY REPLACEABLE BLADES

The "clamp-style" frame has wing nuts to make blade installation and replacement convenient.

Seymour snow squeegee

- 3" deep reversible and replaceable rubber blade
- Clamp-style frame for ease of use
- 66" powder-coated aluminum handle, vinyl grip

96624 - 24" squeegee
96636 - 36" squeegee

A SQUEEGEE... FOR SNOW?

Great for the removal of fresh snow and slush on walks, driveways and entry floors. Doesn't hang up on uneven surfaces.

Seymour general purpose squeegee

- Replaceable neoprene rubber blade
- Black powder-coated steel scraper head
- 60" fiberglass handle, cushion grip

76602 - 24" squeegee IC24
76603 - 36" squeegee IC36

Midwest Rake medium-duty squeegee head, curved frame design

- Durable neoprene rubber blade
- Cast aluminum "T"-style handle adapter
- Replaceable blades available
- Uses a tapered wood handle (see page 116)

47210 - 18" squeegee **SP50125 - Replacement blade**
47211 - 24" squeegee **SP50126 - Replacement blade**
47212 - 30" squeegee **SP50127 - Replacement blade**
47213 - 36" squeegee **SP50128 - Replacement blade**

Midwest Rake straight blade squeegee

- 36" double-edge neoprene blade with wrap-around bracing
- 66" powder-coated aluminum handle
- Replaceable blade (SP50076)

75036 - Squeegee with yellow handle
75936 - Squeegee with blue handle

Midwest Rake medium-duty squeegee head, straight frame design

- Durable neoprene rubber blade
- Cast aluminum "T"-style handle adapter
- Replaceable blades available
- Uses a tapered wood handle (see page 116)

47100 - 18" squeegee **SP50125 - Replacement blade**
47101 - 24" squeegee **SP50126 - Replacement blade**
47102 - 30" squeegee **SP50127 - Replacement blade**
47103 - 36" squeegee **SP50128 - Replacement blade**

STRAIGHT BLADE SQUEEGEE

is excellent for removing heavier liquids such as mud and for moving fine aggregate. The neoprene blade is stiffer, so it scrapes as well as squeegees.

ROLLER - SQUEEGEES

Widely used on sports fields, tennis courts and golf courses, our roller squeegees lead the industry in features and performance. Choose from a variety of head widths which are paired with our ergonomic handle design for maximum efficiency. Two roller types are offered for turf and pavement.

70924 Midwest Rake 24" non-absorbent roller squeegee

- Great for turf applications
- 60" ergonomic powder-coated blue aluminum handle
- Replacement rollers (SA10047)

ERGONOMIC HANDLE DESIGN

Our bent "ergonomic" powder-coated aluminum handles allow for effective downward and forward pressure which provides increased head-to-surface contact. It's also more comfortable to use.

70936 Midwest Rake 36" non-absorbent roller squeegee

- Great for turf applications
- 60" ergonomic powder-coated blue aluminum handle
- Replacement rollers (SA10048)

STAINLESS STEEL AXLES

Just roll water off floors, pavement, tennis courts, golf greens and sports fields with a roller squeegee. The heavy-duty aluminum frame construction and stainless steel axles ensure the roller stays secure.

70948 Midwest Rake 48" non-absorbent roller squeegee

- Great for turf applications
- 60" ergonomic powder-coated blue aluminum handle
- Replacement rollers (SA10049)

POWDER-COATED HANDLES MAKE A DIFFERENCE

A high quality poly-blend powder-coating formula is bonded to our durable aluminum handles, providing a superior grip when the tool is wet, blister reduction, and greater durability.

72036 Midwest Rake 36" PVA absorbent roller squeegee

- Great for hard surfaces like concrete and asphalt
- 60" ergonomic powder-coated blue aluminum handle
- Replacement rollers (SA10051)

PVA ABSORBENT ROLLERS

are great for hard surfaces like concrete and asphalt

SQUEEGEES - APPLICATION

Applying seal coatings to asphalt, sports courts and other hard surfaces is best accomplished with one of our renowned Midwest Rake seal coating squeegees. Choose from a variety of blade styles and dimensions. Our pull-action squeegees apply evenly, preventing wasted material.

ALL PRODUCTS ON THIS PAGE ARE MADE IN THE USA (UNLESS NOTED)

46001 Midwest Rake heavy-duty u-crack filler squeegee

- 5/16" x 2.25" neoprene rubber blade with steel frame
- 9.5" deep by 3" U-shaped cavity
- Replaceable blade (SP50120)
- Uses a tapered wood handle (see page 116)

46002 Midwest Rake lightweight u-crack filler squeegee

- 1.25" tall neoprene rubber blade
- 2.5" inside cavity
- Replaceable blade (SP50121)
- Uses a tapered wood handle (see page 116)

46005 Midwest Rake push/pull v-crack filler squeegee

- .25" x 2" neoprene rubber blade
- 70 degree, 2" tall v-shaped cavity
- Replaceable blade (SP50122)
- Uses a tapered wood handle (see page 116)

SEAL COATING APPLICATION SQUEEGEES

Our clamp-style seal coating frame is equipped with wing nuts and loc washers to prevent loosening and to make blade installation and replacement very convenient. The squeegees below are sold as "complete" tools: frame, blade, bracing and handle.

TAMPERS AND ROLLERS

Our rugged tampers make it easy to compact loose soil, sand and aggregate. They are a must-have tool for preparing a foundation for paving surfaces on drives, walks and patios. They also prized for compacting trenches (especially the narrow version) and for making sod repairs.

85078 Structron 8" tamper TP-8FG

- 8" x 8" cast iron head with braced corners
- 44" fiberglass handle with cushion grip

85008 Kenyon 8" all-steel tamper

- 8" x 8" 3/8" steel base plate
- Heavy-duty construction for maximum strength
- 48" steel handle with 12" double-dipped vinyl grip

85058 Kenyon 8" all-steel tamper

- 8" x 8" 3/8" steel base plate
- Heavy-duty construction for maximum strength
- 60" steel handle with 12" double-dipped vinyl grip

85010 Kenyon 10" all-steel tamper

- 10" x 10" 1/4" steel base plate
- Heavy-duty construction for maximum strength
- 48" steel handle with 12" double-dipped vinyl grip

85050 Kenyon 10" all-steel tamper

- 10" x 10" 1/4" steel base plate
- Heavy-duty construction for maximum strength
- 58" steel handle with 12" double-dipped vinyl grip

85054 Kenyon 4" x 10" all-steel tamper

- 4" x 10" 1/4" steel base plate
- Heavy-duty construction for maximum strength
- 58" steel handle with 12" double-dipped vinyl grip
- Ideal for trench tamping

WHERE CAN I USE A SMALL TAMPER?

The smaller 4" x 10" size is perfect for tight spaces, mounds, plates and trenches and comes with a 58" handle.

85088 Kenyon 8" tamper

- 8" x 8" cast iron head with braced corners
- 44" tapered hardwood handle, TP-30

85090 Kenyon 10" tamper

- 10" x 10" cast iron head with braced corners
- 44" tapered hardwood handle, TP-32

WHAT IS A TAMPER BOOT?

A tamper boot softens the blow and prevents soil from sticking.

85098 Kenyon 8" tamper boot

- 8" x 8" vinyl tamper boot with velcro closure

Our lawn roller helps even-out new sod installations and holds up to 270 lbs. (approx. 28 gallons) of water.

85750 Seymour lawn/sod roller

- 24" wide with 18" diameter
- 14 gauge steel
- Replacement plug is available (63221)

Our compost spreader is often used for topdressing existing lawns.

85755 Seymour compost spreader

- 24" wide with 18" diameter

SOIL PROBES AND TRENCHERS

Soil probes allow contractors to test soil consistency and identify underground obstructions. CATV, landscape lighting and irrigation contractors use our wire trenchers and cable placers for installing low voltage cables in the landscape.

85465 Structron 48" soil probe SP48

- Cast metal tip
- 48" fiberglass handle with t-cushion grip

85466 Structron 60" soil probe SP60

- Cast metal tip
- 60" fiberglass handle with t-cushion grip

PROBE TIPS

Steel tips provide strength with light weight

85462 Kenyon 48" steel tile probe

- Solid steel construction, .5" shaft
- Handle end caps

85468 Structron 36" wire and swing pipe placer

- .5" solid fiberglass rod with .75" hard nylon placer tip
- Handle end caps

PROBE TIPS

The .75" hard nylon tip is non-conductive. It grips the cable to place it into the trench bottom.

85469 Structron 48" wire and swing pipe placer

- .5" solid fiberglass rod with .75" hard nylon placer tip
- Handle end caps

49045 Kenyon all-steel landscape lighting trencher/edger

- 8.25" x 10" head
- 45" steel t-handle

GENEROUS STEPS

An all-steel tool for installing landscape lighting, irrigation line, landscape edging and more. The head is 8-1/4" wide and nearly 10" long with a 1-1/4" generous step.

49044 Kenyon all-steel landscape lighting trencher/edger

- 8.25" x 10" head
- 48" steel handle

85310 Kenyon all-steel manhole lifter with digout spike

- .75" steel hex shaft
- 36" overall length with sure-grip handle

ALL-STEEL CONSTRUCTION

- Heavy-duty 3/4" hex shaft
- Dig-out spike
- Steel leverage step
- Sure-grip handle
- 36" overall length

WHEELBARROWS

Our wheelbarrows make hard work easy. Choose heavy-duty features like all-steel construction and flat-free tires for reliable job-site performance. Large-capacity trays are available for hauling mulch and compost. Standard-duty units provide an optimum mix of price and performance.

Large poly tray for mulch and compost

85765 Seymour 10 cu. ft. wheelbarrow, poly tray

- Homeowner-duty poly tray - black, dual standard tires
- Hardwood handles, WB-10P

85725 ProValue 6 cu. ft. wheelbarrow, poly tray

- Light-duty poly tray - black, standard tire
- Hardwood handles, WB-6P

85724 Seymour 6 cu. ft. heavy-duty wheelbarrow, steel tray

- Heavy-duty steel tray - blue, with steel handles
- Flat-free tire
- Skid pad leg brace brackets (not shown), WB-6SHDS

85740 Seymour 6 cu. ft. wheelbarrow, steel tray

- Heavy-duty steel tray - blue, with hardwood handles
- Standard knobby tire
- Skid pad leg brace brackets (not shown), WB-6SHD

85728 Seymour 6 cu. ft. wheelbarrow, steel tray

- Light-duty steel tray - orange, standard tire
- Hardwood handles

85723 ProValue 6 cu. ft. wheelbarrow, steel tray

- Light-duty steel tray - green, standard tire
- Hardwood handles

85721 ProValue 4 cu. ft. wheelbarrow, steel tray

- Light-duty steel tray - green, standard tire
- Hardwood handles, WB-4S

85720 Seymour children's wheelbarrow, poly tray

- Poly tray - red, solid rubber tire
- Hardwood handles, WB-JR
- Also available in plain box (85720IB / WB-JRB)

85720PP Seymour children's wheelbarrow in retail box

- 85720 in full color retail box
- Nesting design

WHEELBARROWS

LOOKING FOR THE MOST DURABLE WHEELBARROW ON THE MARKET TODAY? **STRUCTRON'S GOT IT.**

EXCAVATOR MAX

SUPERIOR HEAVY-DUTY TOOLS
BY **STRUCTRON**

The new EXCAVATOR MAX is built solid to handle the toughest jobs and designed to last for years.

- Rugged steel tray and frame - haul soil, gravel, pavers and more with ease.
- "Flat-free" tires standard - eliminates down-time and maintenance hassles.
- Crew tested and preferred - for hardscape, concrete and landscape tasks.

85736 Structron Excavator® 6 cu. ft. wheelbarrow

- Rugged steel tray - yellow, with steel handles
- Flat free knobby tire

85738 Structron Excavator® 6 cu. ft. wheelbarrow

- Rugged steel tray - yellow, with steel handles
- Dual flat free knobby tires

6 REASONS WHY CONTRACTORS PREFER "FLAT-FREE" TIRES:

- No employee down-time due to flats.
- Roll over nails, glass, staples without worries.
- Eliminates maintenance and spare parts.
- No need to carry an air pump.
- Same bounce and load handling.
- Abrasion, chemical and UV resistant.

EXCAVATOR

BY SEYMOUR

85730 Seymour Excavator® 6 cu. ft. wheelbarrow

- Heavy-duty steel tray - blue, with steel handles
- Standard knobby tire

85731 Seymour Excavator® 6 cu. ft. wheelbarrow

- Heavy-duty steel tray - blue, with steel handles
- Flat-free knobby tire

EXCAVATOR CONSTRUCTION:

- All steel design assembles in less than 10 minutes
- The 6 cubic foot tray is reinforced at the bottom with a heavy-duty 1/4" thick "H" shaped support to prevent damage when used for hauling rock or concrete
- The front roll bar supports heavy loads when dumping
- The location of the cross bar does not impede step

85732 Seymour Excavator® 6 cu. ft. wheelbarrow

- Heavy-duty steel tray - blue, with steel handles
- Dual standard knobby tires

85733 Seymour Excavator® 6 cu. ft. wheelbarrow

- Heavy-duty steel tray - blue, with steel handles
- Dual flat-free knobby tires

STRIKING TOOLS - HAMMERS

Structron cross peen hammer

- Chamfered edges
- 16" double-injected fiberglass handle

41576 - 2 lb. head HB-2FG
 41577 - 3 lb. head HB-3FG
 41578 - 4 lb. head HB-4FG

Seymour cross peen hammer

- Chamfered edges
- 16" hickory handle

41572 - 2 lb. head HB-2
 41573 - 3 lb. head HB-3
 41574 - 4 lb. head HB-4

Structron drilling hammer

- Chamfered edges
- 10.5" double-injected fiberglass handle

41511 - 3 lb. head HD-3FG
 41512 - 4 lb. head HD-4FG

Seymour drilling hammer

- Chamfered edges
- 10.5" hickory handle

41550 - 2 lb. head HD-2
 41551 - 3 lb. head HD-3
 41552 - 4 lb. head HD-4

41503 Seymour 32 oz. dead blow hammer

- Molded polymer

Structron engineer hammer

- Chamfered edges
- 16" double-injected fiberglass handle

41509 - 2 lb. head HE-2FG
 41514 - 3 lb. head HE-3FG
 41515 - 4 lb. head HE-4FG
 41516 - 6 lb. head
 41517 - 8 lb. head
 41513 - 10 lb. head

Cross peen (or blacksmith) hammers are used to strike, shape, and bend unhardened metal.

Also used to shape block, brick, and stone.

Drilling hammers are used to strike cold chisels, punches, star drills, brick chisels, and hardened nails.

They are designed to deliver heavy blows with limited swing in tight spaces.

41536 Structron engineer hammer

- 4 lb. head with chamfered edges
- 16" premium hickory handle with double-dip grip

Seymour engineer hammer

- Chamfered edges
- 16" hickory handle

41553 - 2 lb. head HE-2
 41554 - 3 lb. head HE-3
 41555 - 4 lb. head HE-4
 41566 - 6 lb. head HE-6
 41567 - 8 lb. head HE-8

Engineers hammers (short handle sledges) are used to strike stone, concrete, metal, and wood.

Often used to drive stakes and rods or move timbers.

41500 Seymour 16 oz. rip hammer

- 13" hickory handle

41501 Seymour 16 oz. rubber mallet

- 10" hickory handle

41502 Seymour 24 oz. framing hammer

- Milled face
- 15" hickory handle

Structron sledge hammer

- Chamfered edges
- 36" double-injected fiberglass handle

41525 - 6 lb. head SH-6FG
 41520 - 8 lb. head SH-8FG
 41518 - 10 lb. head SH-10FG
 41519 - 12 lb. head SH-12FG
 41523 - 16 lb. head SH-16FG
 41524 - 20 lb. head SH-20FG

Structron sledge hammer

- Chamfered edges
- 36" premium hickory handle with double-dip grip

41537 - 6 lb. head
 41538 - 8 lb. head
 41539 - 10 lb. head

HAMMERS (CONT.) / MAULS / AXES - STRIKING TOOLS

Seymour sledge hammer

- Chamfered edges
- 36" hickory handle

41571 - 4 lb. head, SH-4
 41556 - 6 lb. head SH-6
 41560 - 8 lb. head SH-8
 41558 - 10 lb. head SH-10
 41559 - 12 lb. head SH-12
 41561 - 16 lb. head SH-16
 41562 - 20 lb. head SH-20W

41569 SmartBuy 8 lb. sledge hammer

- Promotional quality
- Chamfered edges
- 36" hickory handle SH-8P

Structron splitting maul, sledge eye

- Sledge eye head
- 36" double-injected fiberglass handle

41586 - 6 lb. head SM-6FG
 41588 - 8 lb. head SM-8FG

Seymour splitting maul, sledge eye

- Sledge eye head
- 36" hickory handle

41580 - 6 lb. head SM-6
 41582 - 8 lb. head SM-8

SPLITTING MAUL EYE DESIGNS

For splitting mauls, sledge eye design is the most widely used while axe eye design is preferred in some regions.

Seymour splitting maul, axe eye

- Axe eye head
- 36" hickory handle

41581 - 6 lb. head SM-6A
 41583 - 8 lb. head SM-8A

41589 SmartBuy 6 lb. splitting mail, sledge eye

- Promotional quality, sledge eye head
- 36" hickory handle SM-6P

Seymour wood-splitting wedge

- All-steel

41594 - 4 lb. WW-4
 41595 - 5 lb. WW-5
 41596 - 6 lb. WW-6

41599 Seymour grenade wedge

- 3.5 lb. splitting wedge
- 7" long

The grenade wedge makes splitting wood less of a chore than it is with a typical flat wedge. Unique four-sided diamond shape keeps the wedge from getting buried like standard wedges. Pointed end starts wedge easily, even by hand. Large head means fewer misses.

41521 Structron Michigan single bit axe AX-3FG

- Single bit 3.5 lb. head
- 36" double-injected fiberglass handle

Structron® premium fiberglass handles feature a solid fiberglass core with a double-injected molded polypropylene cover for the ultimate in durability for striking tools.

Structron Michigan single bit axe

- Single bit 3.5 lb. head
- 36" premium hickory handle with double-dip grip

41531 - 3.5 lb. head
 41532 - 5 lb. head

Seymour Michigan single bit axe

- Single bit 3.5 lb. head
- 36" hickory handle

41547 - 3.5 lb. head AX-3
 41544 - 5 lb. head AX-5

41543 SmartBuy Michigan single bit axe

- Single bit 3.5 lb. head
- Promotional quality
- 36" hickory handle AX-3P

STRIKING TOOLS - AXES (CONT.) / PICKS / MATTOCKS

41522 Structron Michigan double bit axe AX-DB3FG

- Double bit 3.5 lb. head
- 36" double-injected fiberglass handle

41533 Structron Michigan double bit axe

- Double bit 3.5 lb. head
- 36" premium hickory handle with double-dip grip

41548 Seymour Michigan double bit axe

- Double bit 3.5 lb. head
- 36" hickory handle AX-DB3

41542 Seymour miners axe

- Single bit 3.5 lb. head
- 27" hickory handle AX-3M

The miners axes features a 3.5 lb. head on a shorter 27" straight handle for use in tight places. Also makes a great camp axe for packing and splitting wood.

41545 Seymour boys single bit axe

- Single bit 2.25 lb. head
- 28" hickory handle AX-B2

Boys (house) single bit axes are lighter duty axes used to cut saplings, split kindling, trim branches, and prune trees.

41530 Structron boys single bit camp axe

- Single bit 1.25 lb. head
- 14" premium hickory handle with double-dip grip

41546 Seymour boys single bit camp axe

- Single bit 1.25 lb. head
- 14" hickory handle AX-B1

41510 Structron Pulaski axe

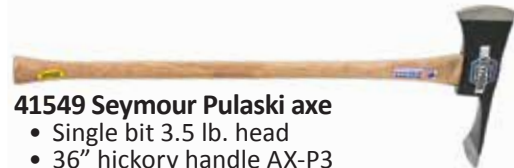

- Single bit 3.5 lb. head
- 36" double-injected fiberglass handle

Pulaski axes combine a single bit axe blade with a mattock blade. This blade combination makes it ideal for firefighting and for a variety of landscaping applications.

41534 Structron Pulaski axe

- Single bit 3.5 lb. head
- 36" premium hickory handle with double-dip grip

41549 Seymour Pulaski axe

- Single bit 3.5 lb. head
- 36" hickory handle AX-P3

85535 Structron garden pick mattock GP-2FG

- 2.5 lb. head, #10 slip eye
- 36" double-injected fiberglass handle

85532 Structron garden pick mattock

- 2.5 lb. head
- 36" premium hickory handle with double-dip grip

85534 Seymour garden pick mattock

- 2.5 lb. head
- 36" hickory handle GP-2

Structron railroad pick

- #6 eye
- 36" double-injected fiberglass handle

85545 - 5 lb. head RP-5FG

85547 - 6 lb. head RP-6FG

85364 Seymour San Angelo bar

- 60" x 1" hex shank, 14 lb.
- Chisel head & diamond point

85367 Seymour San Angelo bar

- 72" x 1" hex shank, 17 lb.
- Chisel head & diamond point DG-23

85366 Seymour posthole digging bar

- 72" x 1" shank, 17 lb.
- Chisel head & tamper head DG-19

85365 Seymour wedge point bar

- 60" x 1.25" shank, 18 lb. DG-WP60

85368 Seymour pinch point bar

- 60" x 1.25" shank, 18 lb. DG-PP60

Seymour slate bar

- 1" shank
- Bent chisel head & diamond point

85360 - 48" 11 lb. SB-48

85361 - 60" 14 lb. SB-60

85332 Seymour landscape bar

- 69" x 1.25" round shank, 29 lb.

MEASURING TOOLS

Kenyon ProGrade measuring wheel

- Heavy-duty 3/4" steel tube frame and handle
- Wheel is positioned in the center of frame
- Folds in half for storage and portability
- 5 digit, easy-to-read counter
- Measurements in feet up to 99,999 ft.
- Comes with mud scraper

85713 - 3' wheel circumference
85714 - 4' wheel circumference

Kenyon Groundscaper

- Molded ABS wheel
- Telescopic metal handle with kickstand
- Geared counter
- Measurements in feet and inches up to 9,999 ft
- Lightweight and durable

85703 - 3' wheel circumference
85704 - 4' wheel circumference

41050 Kenyon tape measure

- 1" x 25' tape measure

85701 Kenyon small telescoping measuring wheel

- Wheel has 1' circumference with 4" diameter
- Handle telescopes from 17" to 38"
- Fits in a toolbox or briefcase
- Geared counter
- Measurements in feet and inches up to 9,999 ft
- Adds while rolling forward and subtracts when pulled in reverse
- Weights less than 2 pounds

85712 Kenyon wide-trak measuring wheel

- Wheel has 2' circumference with 7.5" diameter
- Solid and wider wheel for excellent balance
- Heavy-duty 3/4" steel handle
- 5 digit, easy-to-read counter
- Measurements in feet up to 99,999 ft.

VALVE KEYS & WRENCHES

INTERCHANGEABLE 3-IN-1 OPERATING WRENCH

Comes equipped with your choice of 3 ends that snap into place and store in the tool.

85490 Kenyon adjustable operating wrench

- 3'-5' with A, B, D

85491 Kenyon adjustable operating wrench

- 3'-5' with A, B, C

85495 Kenyon adjustable operating wrench

- 5'-9' with A, B, D

85496 Kenyon adjustable operating wrench

- 5'-9' with A, B, C

SP50162 Kenyon (A) square key

- Fits 2" operating nut

IRRIGATION TOOLS

SPRINKLER VALVE KEYS

For opening valves with cross handles

85481
4-Way
Security Key

A security valve key or bib wrench - opens & closes water valves without hand wheels/turn on handles for security reasons.

Fittings for 1/4", 9/32", 5/16" and 11/32".

SMW Item No.	Sprinkler Key Description
85480	7" Sprinkler Key
85481	4-Way Key
85482	30" Sprinkler Key
85483	54" Sprinkler Key
85485	48" Heavy-Duty Sprinkler & Valve Key

Seymour drain and irrigation channel cleaner

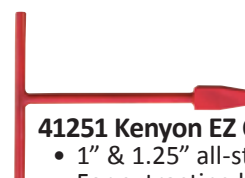

- 15" steel head
- 72" hardwood handle

21504 - 4" blade DR-DC4
21505 - 5" blade DR-DC5

41250 Kenyon EZ Out

- .5" & .75" all-steel
- For extracting broken plastic pipe risers
- T-handle for extra torque

41251 Kenyon EZ Out

- 1" & 1.25" all-steel
- For extracting broken plastic pipe risers
- T-handle for extra torque

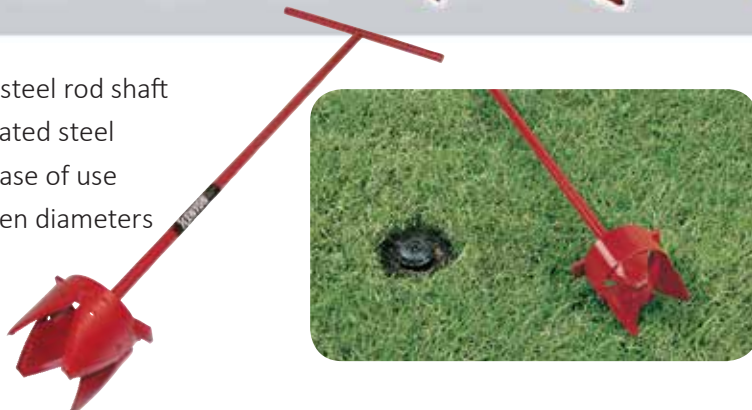

41255 Kenyon EZ Out

- .5" & .75" aluminum head
- For extracting broken plastic pipe risers
- Hand grip for extra torque

SPRINKLER HEAD TRIMMERS

- 5/8" structural steel rod shaft
- Red powder-coated steel
- Step plate for ease of use
- Available in seven diameters

IRRIGATION & PLUMBING PIPE SAWS

41440 Kenyon 6" mini hacksaw

- 6" x 1/2" blade, for use in tight spaces
- Cuts metal or plastic pipe
- Replaceable blade (SP13300, pack of 10)

41442 Kenyon high tension hacksaw

- 12" bi-metal blade
- Replaceable blade (SP13304)

41444 Kenyon tool box saw

- 14" flexible blade
- For general purpose cutting

41446 Kenyon 18" PVC saw

- 18" blade
- Specially designed to cut PVC, CPVC, ABS, and plastic drainage pipe
- Replaceable blade (SP13305)

41448 Kenyon 36" cable saw

- 36" cable blade
- Cuts PVC, CPVC, ABS, and poly pipe
- Works well in trenches or tight spaces
- T-handles

PIPE & HOSE CUTTERS

41430 Kenyon 1-5/8" professional PVC pipe cutter

- Ratchet action cuts CL200 or SCH 40 PVC pipe
- Replaceable blade (SP13301)

41432 Kenyon 2" professional PVC pipe cutter

- Ratchet action cuts CL200 or SCH 40 PVC pipe
- Replaceable blade (SP13302)

41434 Kenyon professional pipe & hose cutter

- Unique spring-loaded design
- Cuts poly pipe, hose, or drip tubing
- Replaceable blade (SP13303)

41436 Kenyon ratcheting PVC pipe cutter

- 2" max cut

PIPE WRENCHES

41610 Kenyon 14" aluminum pipe wrench

- 52936 Midwest Rake scarifier lute rake**
- 36" aluminum head with wrap-around bracing
 - Fine serrated teeth along with extended grading edge
 - 66" powder-coated aluminum handle with vinyl grip

- Midwest Rake ProTurf lute**
- Heavy-duty aluminum head with wrap-around bracing
 - Powder-coated aluminum handle

56923 - 24" head with 66" handle
56929 - 30" head with 66" handle
56935 - 36" head with 66" handle
56924 - 24" head with 82" handle
56930 - 30" head with 82" handle
56936 - 36" head with 82" handle

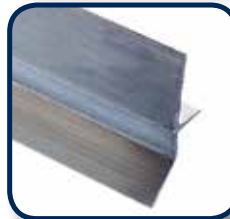

WHY A DUAL PURPOSE RAKE?

A Seymour Midwest exclusive. This innovative and versatile tool has two teeth profiles. The short teeth are used for breaking up hard packed clay and grading, while the long teeth are for wet clay and general raking.

THE RAKE THE PROS USE...

Engineered to the specifications of landscapers and professional baseball grounds crews, the extended grading edge on this rake was designed specifically for leveling.

PERFECT FOR AERATION...

A durable, versatile tool used to push aeration plugs off of turf and as a very effective scraper/leveler in a variety of settings.

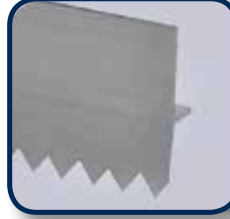

TELESCOPING HANDLE RAKE

Knocks down for easy storage. The perfect tool for grooming infields and beach volleyball courts. The head was designed specifically for the sports turf industry. The high straight edge is excellent for grading.

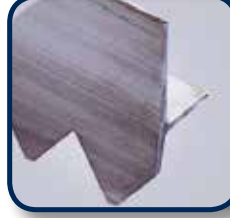

SCREENING RAKE DESIGN:

This rake is specially designed for sifting, grading, and screening. It is an excellent tool when you need to sift or screen stones and debris from sand or fine soil.

OUR SCARIFIER LUTE RAKE...

has fine serrated teeth on this rake break up hardened surface materials, while the extended grading edge smooths and levels, while spreading material. Excellent for baseball and softball diamonds as well as clay tennis courts.

ON THE FIELDS & SKI SLOPES...

This lightweight, heavy-duty lute combines an engineered head design with our strong wrap-around bracing and is another great infield grooming rake. We use a solid aluminum plug in our head-to-handle connection, unlike the plastic or wood plugs used in many other brands.

ALL PRODUCTS ON THIS PAGE
ARE MADE IN THE USA (UNLESS NOTED)

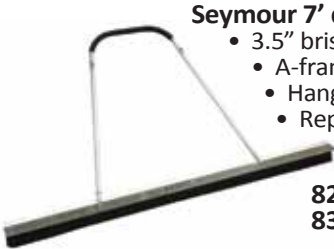

- 82925 Seymour 24" general purpose broom**
- 3" durable bristles, super-strong gusset bracing
 - 60" straight powder-coated aluminum handle

OUR GENERAL PURPOSE BROOMS...

are often flipped for a final dressing of base paths and other skinned areas. These brooms use durable polypropylene bristles, firmly attached to a high quality hardwood shoulder.

- Seymour 7' double play monster broom**
- 3.5" bristles plus short teeth for breaking up dirt
 - A-frame foam padded handle
 - Hanging hooks
 - Replaceable bristle rows (SP50067)

- 82384 - Broom with 2 bristle rows**
83384 - Broom with 3 bristle rows

- Seymour 7' monster warehouse drag broom**
- 3.5" durable bristles
 - A-frame foam padded handle
 - Hanging hooks
 - Replaceable bristle rows (SP50067)

- 82084 - Broom with 2 bristle rows**
83084 - Broom with 3 bristle rows

7' DOUBLE PLAY & 7' STANDARD MONSTER DRAG BROOMS...

we've taken the standard infield drag broom and added a scarifier edge allowing the 7' double play drag broom to perform double duty. It functions as a 7' grooming rake and by simply flipping it over to the bristle side, you have the perfect finishing drag. The 7' Standard Drag Broom is still a great finishing drag, but can also be used as a top dressing broom on greens and tee boxes around the golf course. It also clears dew.

- 52917 Midwest Rake 17" mound and plate shaper**
- Heavy-duty aluminum head and bracing
 - 66" powder-coated aluminum handle

A UTILITY INFIELDER YOU CAN PLAY EVERYDAY...

The perfect size for restoring the pitching mound to a professional surface, just scarify, level, tamp and repeat. Great for shaving and carving the pitching mound. The flat front of this tool can be used as a tamp in secondary areas where light tamping is required.

- Midwest Rake 36" non-absorbent roller squeegee**
- Great for turf applications
 - 60" ergonomic powder-coated aluminum handle
 - Replacement rollers (SA10048)

- 70936 - Squeegee with blue handle**
70636 - Squeegee with yellow handle

- Midwest Rake 48" non-absorbent roller squeegee**
- Great for turf applications
 - 60" ergonomic powder-coated aluminum handle
 - Replacement rollers (SA10049)

- 70948 - Squeegee with blue handle**
70648 - Squeegee with yellow handle

ERGONOMICS & PREMIUM HANDLES MATTER!

Our bent "ergonomic" powder-coated aluminum handles allow for a more effective downward and forward pressure which provides more effective head-to-surface contact while promoting comfort and ease of use. A high quality poly-blend powder-coating formula is bonded to our durable aluminum handles, providing a superior grip when the tool is wet, blister reduction, and greater durability.

LINK HANDLES - ABOUT

We offer the industry's widest selection of replacement handles that help you extend the life of your trusted tools. With over 6,000 handle patterns available, we can provide an exact match that fits the tool with an ergonomically-superior turned design.

LINK HANDLES®

FACTS TO KNOW WHEN SELECTING A REPLACEMENT HANDLE

Tool handles can be made from a variety of hardwoods as well as fiberglass and steel. Each material has certain advantages and disadvantages for replacement handles.

American hickory and ash

The best replacement handles are made from American hickory and American ash because of their strength, elasticity, and ability to absorb shock. Hardwood handles do not conduct electricity.

Shock-absorbing American hickory

American hickory is dense, heavy, and a natural shock absorber making it ideal for striking and cutting tool handles.

The long fibers and unique cell structure of American hickory allow it to flex repeatedly and return to its original shape. It absorbs and dissipates shock before it reaches the user's hands.

The best hickory is grown in the Tennessee region of the USA

The best American hickory logs come from Tennessee, Kentucky, North Carolina, and South Carolina. This region has the ideal combination of soil minerals, rainfall, and sunshine to produce trees that grow slowly and uniformly for exceptional strength.

Wood from slower growing trees is denser and thus stronger than the lighter wood that comes from faster growing trees.

All Link hickory comes from the Tennessee region of the USA. Some hickory grows in the northeastern United States, but it is generally of lower quality than the hickory grown in the Tennessee region.

American ash handles for agricultural tools

Many agricultural tool handles such as shovels, rakes, and hoes are made from American ash. It has a uniform grain structure that provides both the strength and the elasticity needed for the bending stresses these tools must endure.

Other hardwoods

When ash or hickory is not used, other hardwoods suitable for the application are selected.

While ash gives the finest strength to weight ratio, handles of other hardwoods are appropriately selected for many types of tools.

Fiberglass handles

Fiberglass handles are strong, lightweight, and do not conduct electricity. Fiberglass, however, is not flexible and *does not absorb shock*. Fiberglass handles cost more than hardwood handles.

Link offers fiberglass replacement handles.

Steel handles

Steel handles are extremely strong, but they are *heavy and expensive*. They are *not flexible* and *do not absorb shock*. Steel handles conduct electricity.

Vintage logo from the Sequatchie Handle Works

ABOUT - LINK HANDLES

Choose our shock-absorbing hickory handles for striking or cutting tools. The unique fibers of American hickory provide outstanding durability and shock absorption for less wear-and-tear on the user's hands. It's no wonder why drumsticks are made of hickory!

LINK HANDLES®

ACCEPT NO SUBSTITUTES!

Turned handles are ergonomically superior to shaped handles

There are two ways to produce handles: shaping and turning.

Shaped handles are made from flat boards that are smoothed and rounded on the top and bottom. Shaping is a faster and less costly way to make handles.

Turned handles are made on a lathe from wood blanks that are about 25% larger than the flat boards. The result is a handle that has better grips and contours.

Anyone who holds a shaped handle and then a turned handle will immediately feel the higher quality of the turned handle. Link handles uses the turned handle method.

Shaped

Turned

Hammer handles typically come with a wood and metal wedge. Axe handles typically come with a wood wedge. Slip eye handles (pick, garden mattock, grub hoe, long tire tool, etc.) don't come with any wedges.

The best replacement handles are turned rather than shaped. Turning results in ergonomically-superior handles that provide better comfort, control, and safety.

Only Link Handles offer superior ergonomic design

Link handles are designed with the best combination of length and contours so the user can best hold the handle and use the tool.

Our handle shape always works with the user. The handle becomes an extension of the body to provide better comfort, control, and safety.

WE TAKE THESE STEPS IN MAKING EVERY TURNED AXE HANDLE:

1. Start with an axe wood square or blank.

2. Half turned axe handle.

3. Full rough turned axe handle.

4. Axe handle after sanding.

5. Finished axe handle with label and wedge.

LINK HANDLES - QUALITY LEVELS

Link Handles have set the industry benchmark for when it comes to what customers care about most: consistent quality, outstanding ergonomics and exact fit matches to over 6,000 tools.

LINK HANDLES®

ALL HANDLES ARE CAREFULLY GRADED & SORTED

LINK's experienced timber buyers grade log quality. They are looking for logs that are heavy and defect-free.

When the logs are sawed into squares (or blanks), the squares are graded. After the squares are turned into handles, they are graded again.

PRIMARY LOG QUALITY FACTORS

Some of the factors used to determine quality include:

STRAIGHTNESS OF GRAIN

MOISTURE CONTENT

DENSITY

FREEDOM FROM DEFECTS

WOOD COLOR NOT A QUALITY FACTOR

Color of the wood is not a factor in determining the quality of hickory handles. The best hickory handles may be all white, red-and-white, or all red.

LINK AMERICAN HICKORY QUALITY LEVELS

01 Best quality American hickory with sanded finish and yellow non slip grip. Meets or exceeds all government "A" specifications. Ideal for the most demanding industrial and commercial applications.

02 Best quality American hickory with a wax finish. Meets or exceeds all government "A" specifications. Ideal for the most demanding industrial and commercial applications.

04 Better quality American hickory with a wax finish. Ideal for frequent heavy-duty use by farmers, ranchers, contractors and other professionals with demanding construction and other professional applications.

19 Better quality American hickory with a clear lacquer finish. Fire finish provides a highly pleasing appearance. Ideal for frequent heavy-duty use by farmers, ranchers, contractors and other professionals with demanding construction and other professional applications.

08 Good quality American hickory with wax finish. These handles provide exceptional value and economy for homeowner and other occasional use applications.

09 Promotional quality American hickory with wax finish. These handles provide good value and economy for homeowner and other occasional use applications.

LINK AMERICAN ASH QUALITY LEVELS

18 Best quality American ash with a clear lacquer finish. Ideal for the most demanding industrial and commercial applications.

21 Better quality American ash with a clear finish. Ideal for frequent heavy-duty use by farmers, ranchers, contractors and other professionals with demanding construction and other professional applications.

SUMMARY OF LINK FINISHES AND QUALITY LEVELS

Quality Level #	Quality Level	Finish Type	Special Features	Govt. Specs	Suggested User
AMERICAN HICKORY

02	Best	Wax		A	Industrial, commercial
04	Better	Wax			Contractor, professional
19	Better	Clear lacquer	Fire finish		Contractor, homeowner
08	Good	Wax			Homeowner
09	Promo	Wax			Homeowner
AMERICAN ASH					
18	Best	Clear lacquer			Industrial, commercial
21	Better	Clear lacquer			Contractor, homeowner

MERCHANDISING - LINK HANDLES

Link replacement handles allow today's consumer or professional contractor to get additional years of life out of trusted tools by replacing cracked, worn or broken handles. Handy merchandising units act as silent salesmen, guiding customers to the correct replacement.

THERE IS NO SUBSTITUTE FOR A GOOD DISPLAY

- Let customers know you carry common replacements.
- Illustrated display banner shows and tells which tools each handle fits.
- Simple plan makes every clerk an instant replacement handle expert.
- Makes selection easy for customers.
- Requires minimum space.
- Organized and neat.
- Strong and attractive rack.
- Available in 5, 8, and 12 hook models.
- Available in wall or floor versions.
- Easily customized to your exact needs.
- Improves inventory control.
- Simplifies re-orders.
- Increases sales profits.

The wall mount displays can be used as floor displays by using the floor stands (ordered separately).

ALL PRODUCTS ON THIS PAGE ARE MADE IN THE USA (UNLESS NOTED)

ROUND (CONE-SHAPED) STEEL WEDGES

- Expands wood equally in all directions for tightest fit.
- Provides better holding power than flat wedges.
- Eliminates need for flat wood and steel wedges.
- Two sizes fit every need.

Contoured top rim helps keep wedge in place

Beveled bottom rim shears wood fibers and compresses them toward the center

Wood expands into interior of wedge to create a secure and safe grip

ROUND STEEL WEDGES, RETAIL PACK

Each retail package contains 2 round steel wedges. Includes step-by-step instructions and diagrams.

HOW TO REPLACE HANDLES - LINK HANDLES

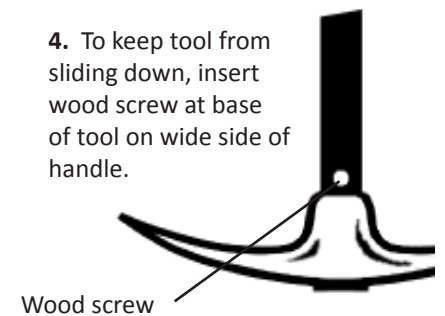

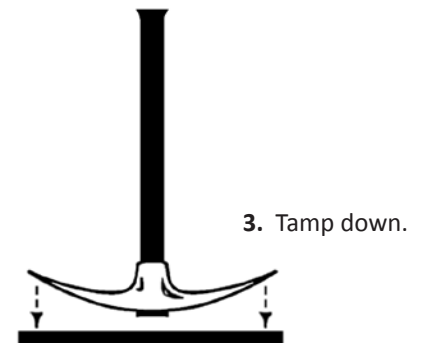

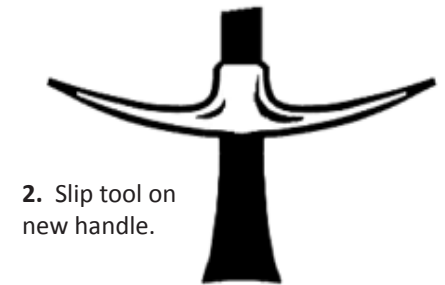

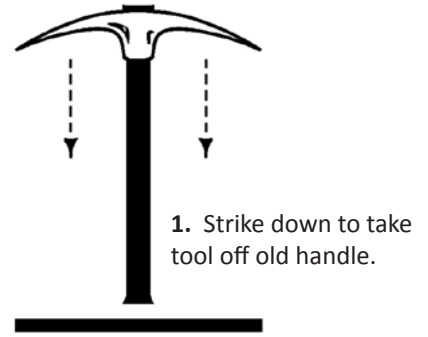

HAMMER & HAND AXE HANDLES

SLEDGE & AXE HANDLES

MATTOCK & EYE HOE HANDLES

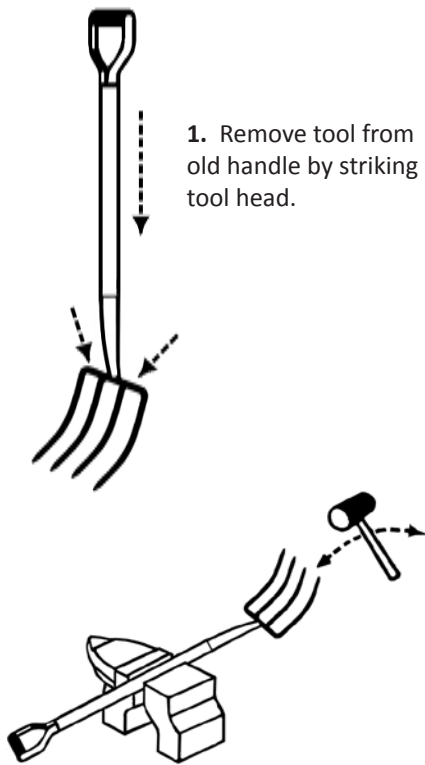

For your safety and convenience:

Wear safety goggles to protect your eyes.
Bring old tool to store to measure for replacement handle.

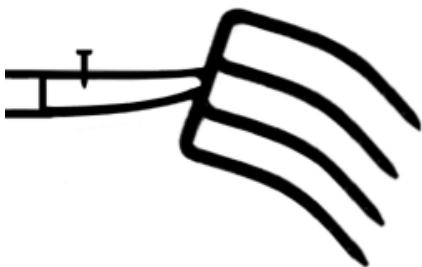

LINK HANDLES - HOW TO REPLACE HANDLES

FORKS WITH D-GRIP HANDLES

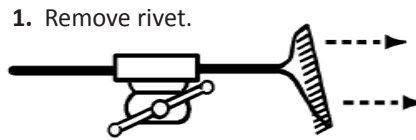

1. Remove tool from old handle by striking tool head.

2. Put protective wrap on new handle and place in vise. Drive tool head onto handle.

3. Secure handle to head with a screw or nail.

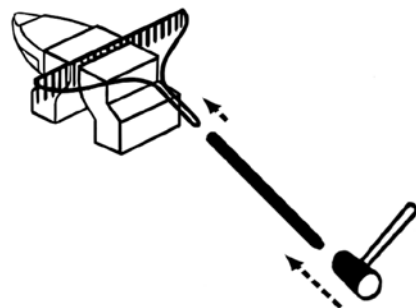

HOE, RAKE, & FORK HANDLES

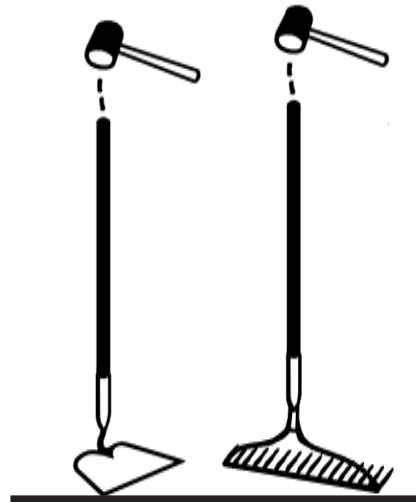

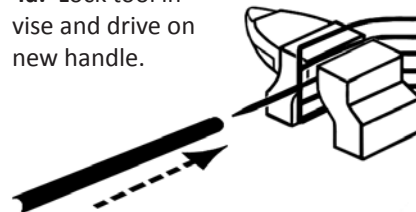

1. Remove rivet.

2. Lock handle in vise and pull tool head from old handle.

3. Check handle fit and resize handle hole if needed. Put wood glue in handle hole.

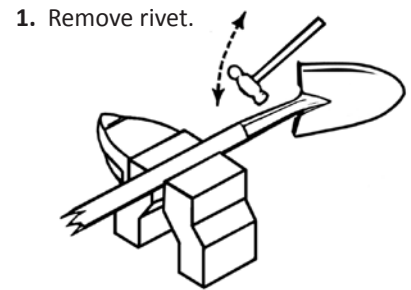

4a. Lock tool in vise and drive on new handle.

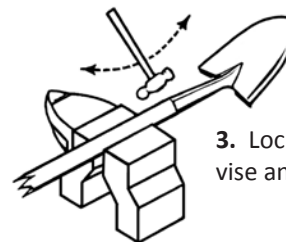

4b. For socket pattern tools, follow steps 1 through 3. Then place head on solid surface and drive on handle.

SHOVEL & SPADE HANDLES

1. Remove rivet.

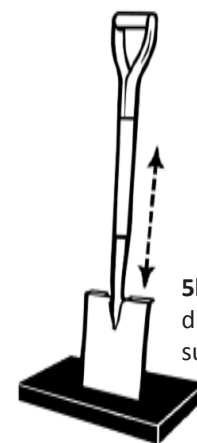

2. Rotate shovel on anvil of vise while hammering on shank of tool to loosen handle.

3. Lock old handle in vise and drive tool off.

4. Check tool for fit and lubricate with oil.

5a. For long handle, drive on against hard surface.

5b. For D-grip handle, drive on against wood surface or block.

6. Drill 3/16" hole and install rivet. Brad the rivet with round end of ball peen hammer.

OUR HEAVY-DUTY STACK•IT BRACKETS™...

are steel fixtures used to hold two-by-fours together for storage racks, shelving, workbenches, and stands.

- *Protects firewood:* They have a unique design that keeps firewood high, dry, and safe from pests and decay.
- *Adjustable:* They can be built to any length.
- *Easy to use:* Simple, fast assembly and disassembly without tools, screws or bolts.

Submitted photo of a rack made with STACK•IT BRACKETS

FIRESTARTER

USA MADE

Campfires • Charcoal Cookin' • Firepits

J. Seymour

BACK IN THE 1870'S

when everybody used wood or coal for cooking and heating, Julius Seymour invented the practically perfect lighter: safe, clean, sure. Lost for 100 years, his original formula was rediscovered by the Seymour family. Now it's the practically perfect lighter for today's charcoal grills, fireplaces, and campfires.

BURNS CLEAN

Seymour Midwest Fire Blox fire starters meet the strictest air quality codes on the country. Product complies with the South Coast Air Quality Management District Rule 1174. Ref. C14

California Prop. 65: Combustion of this product will result in the emission of carbon monoxide, soot and other combustion by-products which are known by the state of California to cause cancer, birth defects of other reproductive harm.

In California, use of this and other solid fuels may be restricted at times by law. Call 1-877-466-2876 or check www.8774noburn.org before burning.

WHY SEYMOUR FIRE BLOX FIRESTARTERS:

Starts all types of fires

- *Each piece measures 1.75" x 1.5" x .5"*
- Superior to liquids and other solid starters.
- Great for starting firewood, pellets, coal, and charcoal.
- Eliminates the need for liquids, kindling, and newspaper.

Works great even when it's wet

- Pieces burn hot for about 12 min. for fast, sure starts.
- Lights quickly, even when wet.
- Will ignite even damp firewood.

Safe to use anywhere

- Can't leak, spill, flash, flare-up, or explode.
- Safe to use both indoors and outdoors.
- Non-toxic.
- Stores safely anywhere with long shelf life.

Economical - just pennies per light

- Need only 2 or 3 pieces to start.
- A 24-pc. package provides 8-12 starts.
- Pieces are scored and separate easily.

Burns clean

- Environmentally friendly
- Meets the strictest US air quality codes.

FOR CAMPFIRES -

Use one or more Fire Blox with twigs / wood scraps under the logs. Starts in rain and moderate wind. Ignites even damp wood.

FOR CHARCOAL GRILLS -

Place 3 Fire Blox cubes on edge in charcoal, leaving air space as shown, and light frayed edges of cubes.

FOR FIREPLACES -

Place one or more Fire Blox under at least 3 logs and light; no kindling needed.

RING FASTENERS

CUT STYLES OF RING TIPS

Slant

Slant
Offset

Blunt

Blunt
Offset

HOG RINGS are used to prevent swine from rooting in the ground. They are made from copper coated wire and come in various sizes.

Rings are defined by wire gage or diameter, material properties and cost, pattern, and cut. The ring wire materials below are listed in order of relative cost, with the least expensive listed first. For best value, select the lowest cost material that has the properties needed for the intended application.

BRIGHT BASIC STEEL RINGS are the most economical and are used for general purpose applications such as attaching tags.

COPPER COATED RINGS are economical and used for hog rings and general purpose applications.

GALVANIZED STEEL RINGS are best for applications such as fencing where moderate cost and resistance to rust are important.

ALUMINUM RINGS are relatively expensive, light weight and won't rust or corrode making them ideal for salt water use, cages and traps, and other special requirement applications.

STAINLESS STEEL RINGS are the most expensive and won't rust or corrode making them ideal for salt water use, cages and traps, food industry applications, and other special requirement applications.

HILL PATTERN RINGS close in a triangle shape.

BLAIR PATTERN RINGS close in an oval shape.

PREBENT RINGS reduce the effort needed to close the rings thus reducing hand fatigue.

ROPE TIE PATTERN RINGS are ideal for clamping rope and cable.

UPHOLSTERY PATTERN RINGS are designed to hold fabric to furniture frames.

SLANT CUT RINGS are best for applications requiring penetration such as upholstery and hog rings.

BLUNT CUT RINGS are best for applications such as fencing. They have no sharp points to cut or pierce, making them safer to handle.

NON-OFFSET RINGS close with the tips nearly touching. They are ideal for fastening large diameter materials such as fence wire where a small gap between the tips is OK.

OFFSET RING design allows the ring tips to pass for complete closure. They are best for fastening small diameter materials that could pass through a small gap.

RING FASTENERS are used for fastening wire fences, slit fences, steel mesh for wall reinforcement, fish traps, crab pots, animal cages, upholstery, and attaching tags. They are also used to clamp rubber tie-down straps and for clamping rope. Seymour rings have a variety of uses in arts and crafts such as fastening holiday wreath materials.

TAB-TOP BOXES: Packaged rings come in convenient tab-top boxes that make them ideal for effective pegboard merchandising. Each box holds from 25 to 100 rings depending on the size of the rings.

10-PACK DISPENSER BOX: Packaged ring boxes are packed in convenient dispenser cartons with 10 tab-top boxes in each dispenser carton.

BULK RINGS

2' X 2' STATIONARY RACK

2' X 3' ROLLING RACK

MINI ROLLING RACKS

EXTENSION HANDLES

STEEL MOBILE RACKS

are easy to assemble and can be used indoors or outdoors in any weather. They attract customer attention, and display tools and use space efficiently.

NO SET UP REQUIRED

for pallet displays. They come fully loaded with a removable protective wrap, and are attached to wooden pallets for ease of handling.

OUR NEW MERCHANDISING GUIDE

Our new 2015-2016 Merchandising Ideas Guide is now available from your Seymour Midwest representative. The right merchandising can dramatically accelerate tool sales by creating visibility and accessibility. This 40 page booklet details a fully-updated selection of proven display options for both retail and wholesale (contractor-supply) sales environments. Choose from rolling and stationary tool racks, in-aisle and impulse displays and updated signage.

Contact your representative for a complimentary copy and a consultation on your specific display needs.

2015 MERCHANDISING CATALOG

USE SPACE EFFICIENTLY AND MAXIMIZE IMPACT

We custom-design planograms to maximize customer appeal and sell-through. Careful planning ensures that premium wall space yields maximum return on inventory investment.

MANY PLANOGRAM OPTIONS ARE AVAILABLE

with a variety of long handled and garden tool assortments. We develop planogram systems for retail hardware, lawn and garden, industrial supply, landscape wholesaler, irrigation wholesaler, utility wholesaler, fencing dealer / distributor, lumberyard, farm and ranch supply, and other markets.

To get started, contact our merchandising experts at Marketing@SeymourMidwest.com.

WIRE DISPLAY HOOKS

YDIS109 2-digger hanger

- Space saving front load design holds 2 post hole diggers.

YDIS112 waterfall hanger

- Ideal for long handle tools such as shovels and rakes. Holds 3 tools.

YDIS113 waterfall hanger

- Ideal for long handle tools such as shovels and rakes. Holds 6 tools.

YDIS111 weeder/pruner holder

- Designed to hold loppers, hedge shears, and bow saws horizontally.

YDIS110 hoe hanger

- Designed specifically for garden, mortar, & specialty hoes. Also great for bow saws.

YDIS108 11" double hook

- Best hook for D-handled tools.

YDIS107 10" single hook

- Ideal for tools and cards with a single hanging point

**NEW FOR
2016**

Stay up to date with all of the new quality products that Seymour Midwest has to offer! We have expanded our selection of tools that includes new products for every type of user.

STRUCTRON® IMPACT TOOLS

Seymour Midwest introduces 3 new “Impact” shovels - a caprock, irrigation, and drain spade - that are the most rugged and reliable shovels on the market today. The result of precision engineering and best-in-class materials, these new shovel designs will deliver outstanding performance for the professional user.

49588 Structron impact caprock shovel

- 10 ga. stamped & hot formed head
- Most rugged & reliable caprock on the market
- PermaGrip steel collar
- Solid fiberglass 48” handle with ProGrip cushioned grip

49585 Structron impact irrigation shovel

- 10 ga. stamped & hot formed head, 7.5” x 9.5”
- Most rugged & reliable caprock on the market
- PermaGrip steel collar
- 48” fiberglass handle with ProGrip cushioned grip

49589 Structron impact drain spade

- 10 ga. stamped & hot formed head
- Most rugged & reliable caprock on the market
- PermaGrip steel collar
- 48” fiberglass handle with ProGrip cushioned grip

STRUCTRON® SCOOPS

Seymour Midwest introduces a new Eastern pattern scoop for construction use. The result of precision engineering and best-in-class materials, this new shovel design will deliver outstanding performance for the professional user. Common applications include transferring bulk materials including asphalt, aggregate, sand and mulch.

49257 Structron Eastern pattern scoop

- #2 steel head, 11.125” x 16”
- 27” hardwood handle with steel d-grip

THE ORANGE SEYMOUR® WHEELBARROW IS BACK BY POPULAR DEMAND!

85728 Seymour 6 cu. ft. wheelbarrow, steel tray

- Light-duty steel tray - orange, standard tire
- Hardwood handles
