

Large Capacity Gas Water Heaters

Large Capacity Models

Lochinvar's Large Capacity gas models are available in 75 and 100 gallon capacities for residential and light commercial applications.

Standard Features

- Code Compliance** – Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act, (EPCA), as amended.
- Gas Control** – The gas valve features simple operation, accurate temperature control and a push-button piezo igniter. The valve is powered by a thermopile pilot requiring no external power source.
- Glass-Lined Steel Tank** – The durable glass lining is fused to the steel tank at 1600°F to assure lasting protection against rust and corrosion while providing clear, clean hot water. 300 PSI test pressure; 150 PSI working pressure.
- Non-CFC Foam Insulation** – A uniform coverage of thick closed-cell foam insulation minimizes standby heat loss and maximizes heat retention.
- Tank Saver Anode** – A large diameter, high capacity anode inhibits corrosion of the tank interior for long, trouble-free service.
- Temperature & Pressure Relief Valve** – Factory installed for optimum safety.
- Brass Drain Valve** – An enhanced ball valve design for effective drainage and positive shut-off.
- 6 Year Limited Tank & Parts Warranty*** – See warranty sheet for details.
- 10 Year Extended Warranty** – Factory assembled models available for residential applications only. When ordering, change "L" to "X" in the model number to indicate 10 year tank and 6 year parts warranty.

*1-year limited tank & parts warranty when installed in a commercial application.

All models meet or exceed Federal and ASHRAE Energy Efficiency Standards
