

# Ball Corporation Stop

Product Release

05/2017

## It's TEE time for the Ford Ball Corporation Stop

Ford swings into action and now offers a ball corporation stop with a tee-head for convenient valve cycling. Available in 3/4", 1", 1-1/2" and 2" sizes, the inlet threads will be AWWA threads with various outlet end connections. This valve can handle soaring pressures up to 300 psi. Once the tap has been made, the "B" style corporation stop can easily be assembled into a saddle and ready for service line attachment.

Don't putter around, for more information about this or any other Ford product, contact the Ford Meter Box Company or your local Ford distributor.

### B1000 - AWWA/CC TAPER THREAD INLET BY PACK JOINT OUTLET FOR CTS

CATALOG NUMBER	VALVE SIZE	INLET SIZE	OUTLET SIZE
