

Safely Use Dryer Manufacturer Run-Length Guidelines

DryerPlacard Part Number PLAC34

Code Required Simple Solution

International Mechanical and International Residential Code now require a permanent label showing a duct run's equivalent length.

Now Available

More Flexibility

The PLAC34 label makes it easier to use the manufacturer's allowable run length instead of a more restrictive code restriction. Homeowners can select appliances that meet length requirements shown on the label.

Equivalent Length Notification

RISK OF FIRE

THE NET EQUIVALENT *LENGTH
OF DRYER DUCT FROM THIS
LOCATION IS FEET

The maximum allowable exhaust duct length stated in the clothes dryer's installation instructions shall be equal to or greater than the posted equivalent length indicated on this placard.

Mandated by IMC 504.6.5 & IRC M1502.4.5**
DO NOT REMOVE OR DEFACE THIS PLACARD

Dryer Placard - Part No. PLAC34 888-443-7937 Complies with UL 969 Marking Systems

*Takes into account the various duct fittings used. **2009 Version

PLAC34 Actual Size Shown
DO NOT REMOVE OR DEFACE THIS PLACARD
Mandated by IMC 504.6.5 & IRC M1502.4.5**
Use the DryerPlacard to simplify code compliance:

IMC and IRC Length Identification

Length identification. Where the exhaust duct equivalent length exceeds 35 feet (10 668 mm), the equivalent length of the exhaust duct shall be identified on a permanent label or tag. The label or tag shall be located within 6 feet (1829 mm) of the exhaust duct connection.

Made to last, the 3" X 4" PLAC34 is thick velvet-textured 3M Scotchcal™ 3650-10 substrate with pressure sensitive Hi Tack permanent adhesive sticks to a wide variety of surfaces including low energy surfaces such as plastics and powder coated paints.
