## WHAT WE CAN DO, THAT OTHERS CAN'T

We at Blåkläder make work clothing for all who are building and preparing society for the future. Creating the best possible prerequisites for the future requires courage, desire, innovation and the will to take responsibility. We see work clothing as aids for better and safer working conditions and know that quality pays, especially if the seams hold for the lifetime of the garment.

We own our factories and have done so for more than 20 years. Taking full responsibility for production is a matter of course for us and we believe in taking social responsibility throughout production. We look after our employees by making sure that they have a secure, good and safe working environment. As we see it, fair working conditions are important because everyone

has a right to job satisfaction. We are steadily moving the company forward by challenging existing ideas and finding solutions that no one else has thought of. Our motivation lies in the ambition to develop products that make life safer, simpler and more comfortable for our customers.

We always strive to live up to the demands of our customers, and with high-tech solutions, ethical production, smart logistics and effective distribution, we can stand behind our vision: Right clothing, safe and attractive, inside and out. It has the same functional pockets as Blaklader pants, but it includes a ventilation system that pants just can't offer. Sure, you'll be the only guy on the jobsite in a kilt. But you like it that way.

## DISTRIBUTION POLICY

We want to ensure Blaklader products are sold by approved retailers to the ultimate consumer. We do not sell products to purchasers who re-sell to distributors or other retailers who then sell to the consumer.

It is the policy of Blaklader to provide our products exclusively to authorized and approved specific locations. We require written notification from retailers who are changing location or ownership.

Blaklader reserves the right to terminate our business relationship upon violation of or deviation from the aforementioned policies.

## WARRANTY

Blaklader will cover ripping or tearing of seams caused by normal wear and tear for the lifetime of the garment. Blaklader will also cover premature failure of any of our products caused by defect in the original materials and workmanship. Blaklader has the right to reimburse for minor repairs or replace any defective merchandise at Blaklader's option and expense. Any product that is no longer in production and cannot be repaired will be replaced with a comparable Blaklader product. Other than the seams, Blaklader does not cover damage caused by normal wear and tear. Since all apparel has an expected service life, normal wear and tear (including zippers and other hardware) misuse, neglect, or obvious abuse of the garment are not covered. Blaklader assumes no liability for garments that have had alterations, embroidery, or other ornamentation added to the garment.
