

## 12V TRANSFORMERS

### PLUS SERIES PL 75W

#### PLUS SERIES PL

### MANUAL SERIES M 100W – 600W

100W shown

#### MANUAL SERIES M

### ECONOMY SERIES E 60W–120W

#### ECONOMY SERIES E

#### Features

- Output voltage tap 15V only for simplified LED installations
- In-line secondary magnetic breaker protects against short circuit
- Epoxy encapsulant for greater protection and performance
- Powder-coated housing is painted steel with AZT Finish
- Features high efficiency Toroid core and coil
- Mounting brackets are welded and riveted in place for extra strength. Mounting plate for indoor use is included. Transformers used indoors require cable to be routed through conduit. Check local government ordinances and codes to ensure proper standards are met.
- 10-year limited warranty

- Output voltage taps are 12V, 13V, 15V only on 15M300 AZT and 15M600 AZT. 15M100 AZT and 15M200 AZT are single 12V taps.
- Epoxy encapsulant for greater protection and performance
- An in-line secondary thermal or magnetic breaker protects against short circuiting
- Auto-resettable in-line primary overload protection
- 10-year limited warranty
- Timers and photocells are not offered as options for this unit

- High and Low output settings
- Integral timer and photocell
- Durable black polymeric enclosure resists corrosion
- An in-line push button thermal breaker on the secondary protects against short circuiting
- Auto-resettable in-line primary over load protection
- 10-year limited warranty
- Built in photocell, timer and high-low switch
