

ELEVATED VACUUM BREAKER

Z80000-XL-EVB

TAG _____

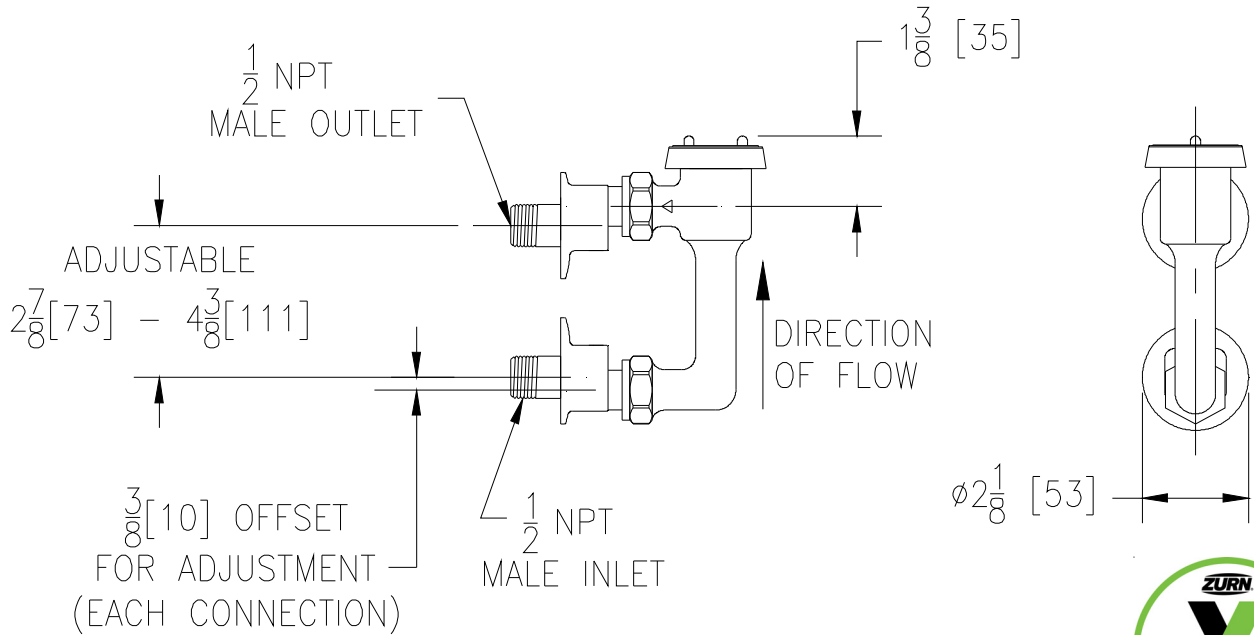

Engineering Specification: Zurn AquaSpec® Z80000-XL-EVB

Polished chrome-plated brass elevated atmospheric vacuum breaker assembly for concealed piping. Unit is provided with 3/8" [10mm] short swivel inlets providing adjustable centers from 2-7/8" [73mm] to 4-3/8" [111mm]. Unit conforms to ASSE 1001.

Typical Installation: Local codes shall govern installation requirements. To be installed in accordance with the manufacturer's instructions and the latest edition of the Uniform Plumbing Code. Unless otherwise specified, the assembly shall be mounted at a minimum of 6" (150mm) above the highest point of discharge with sufficient side clearance for maintenance. Because the Z80000-EVB is not to be used under continuous pressure, never place a shut-off or check valve downstream of the device. The installation shall be made so that no part of the unit can be submerged.

Zurn Lead Compliant* "XL" products are a line of durable, high quality brass faucets and fixtures that are designed and manufactured to comply with state laws and local codes that mandate lead content levels. Zurn "XL" products are manufactured with *not more than 0.25% lead content when used with respect to wetted surfaces of pipes and pipe fittings, plumbing fitting and fixtures: California Health & Safety Code § 116875; Vermont 9 VCA § 2470h

Note: All dimensions are for reference only. Do not use for pre-plumbing.
