

Delivering Real Value.

# Cleveland Faucet Group<sup>®</sup>

Full Line Price Catalog 2015-2016

Effective February 1, 2015

# Leveraging a strong foundation of design, distribution and service.

Cleveland Faucet Group® delivers real value in faucets and valves for the multi-family market. With CFG®, you'll have the confidence of working with a solid business partner committed to providing you with the best return on your faucet investment.

CFG delivers a low total cost of ownership to maximize your faucet return. With solid construction and features engineered for efficiency, CFG products accelerate installation, simplify maintenance and last long—ensuring you benefit from a lower total cost of ownership.

You'll get a consistently high standard of quality because CFG designs all of our products in-house to ensure reliability. Plus, we subject them to extensive testing at levels well beyond minimum code requirements. We stand behind our products, so you can confidently use them in your properties.

In addition, CFG offers several water-saving faucets, showerheads and aerators that save resources and contribute toward many sustainability programs. CFG has your bottom line in mind.

CFG product is available through your local MRO.

# Five Solutions to Fit All Your Needs.

# Table of Contents

## NEW! Edgestone™

As residents become more design-savvy, they seek out housing that reflects their tastes and lifestyles. With the introduction of the sleekly minimalist Edgestone™ in two contemporary finish options, CFG helps multi-family properties better meet these demands— while still offering low total cost of ownership. Edgestone™ is the first CFG line to include matching accessories. Ten-year limited warranty.

- Introduction to CFG 2-3
- Sustainability & Water-Saving Products 4-5

- Kitchen 8
- Bath 8
- Tub/Shower 9
- Accessories 11

## Baystone®

Delivers transitional style and quality in two popular finishes, as well as platform offerings to provide even greater design flexibility. Baystone® products are available in single-handle and two-handle styles. Ten-year limited warranty.

- Kitchen 14
- Bath 16
- Tub/Shower 18

## Capstone®

Built to withstand the rigorous demands of multi-family properties, but also offering classic, traditional styling that residents demand. Choose from a variety of finishes and feature upgrades. Ten-year limited warranty.

- Kitchen 22
- Bath 24
- Tub/Shower 26

## Cornerstone®

An exceptional value proposition for renovation and replacement projects, with quick installation and durability built in. Cornerstone is available in single-handle and two-handle styles in Chrome, Brushed Nickel, and Classic Stainless. Ten-year limited warranty.

- Kitchen 31
- Bar 33
- Laundry 33
- Bath 35
- Tub/Shower 38

## Flagstone®

Delivers functional style and quality at a great price. Flagstone® products are available in single-handle styles. One-year limited warranty.

- Kitchen 44
- Bath 44

- Valves & Trim 45
- Shower Valves At-A-Glance 46
- Service Parts & Accessories 48
- Suggested List Prices 69

## Quality Design. Lasting Durability.

### Ceramic Disc Technology

Both single-handle and two-handle CFG faucets are made with high-quality ceramic disc cartridges. Ceramic disc cartridges are made from ultra-hard aluminum oxide that stands up to severe temperature changes, water conditions and supply line debris. Ceramic discs are nearly maintenance-free and are very durable in a variety of water conditions.

### PVD Finishes

Reduce maintenance and tarnish issues with our innovative PVD process available on select finishes. PVD technology is both robust and versatile, allowing for long-lasting aesthetics in the bath or kitchen.

### Dimension™ Tub/Shower Valve

CFG has one of the most innovative shower valves on the market today. The versatile valve body was specially designed to hold either volume control or cycling cartridges. A simple switch of the cartridge converts the valve from cycling to volume control. The valve design also provides great flexibility for all your multi-family projects. Installation options are available for thick- and thin-wall applications, as well as back-to-back applications.

### Codes and Compliance

CFG products are third-party-certified to CSA, NSF, ASME/ANSI, IAPMO and ASSE requirements.

### WaterSense®-Certified Products

CFG offers a complete line of water-saving solutions that includes lavatory and showering products.

## Easier to Install. Quick to Connect.

### Optional Quick-Install Flexible Supply Lines

Select CFG products come with 24" braided flexible supply lines and 3/8" connections that save time and trouble out of every project. You decrease installation time for each faucet while you decrease the total number of connections made onsite. And those savings go right to your bottom line.

### Quick-Connect System

Standard on all kitchen faucets with side sprays, this installation system snaps hoses together with a telltale "click," so the installer can be assured the connection is secure. You get easier, faster, leak-free installation with no tools required.

### No More Time-Intensive Putty Jobs

On many CFG faucets, Neoprene gaskets on the bottom of the deckplate take the place of plumber's putty to prevent leaks. Result: You save additional time and money, including materials costs.

### Pre-installed Shower Valve Connections

CFG shower valves are available with a variety of pipe-fitting connections. In addition, we've pre-installed these connections so you don't have to do it on-site. This reduces installation time and saves you money.

### Pro-Fit™ Installation System

Designed with input from professional installers, the Moen® Pro-Fit™ Installation System is quick and easy – drill it, screw it, click it.

The single-screw mounting system uses a pre-attached hollow wall anchor for a fast and solid installation, to save you time. Moen has eliminated the hassle of set screws with a simple locking tab that holds the Pro-Fit™ posts firmly in place.

# Lower Total Cost of Ownership

# Peace of Mind.

**WHY CFG?**

**Your Faucet Can Have a Lasting Impact on Your NOI**

**Consider the "Total Cost of Ownership"**  
Picking the right products will improve your net operating income (NOI).  
**Look past the price into a future of savings!**

Acquisition Cost + Installation + Repairs + Replacement Parts + Maintenance  
**= Total Cost of Ownership**

**LOWER COST TO MAINTAIN**

CFG faucets are **36% less expensive** to maintain (on average, per living unit, per year)

Per living unit, a property can save an average of **\$23.70 over 5 years** by installing CFG  
For a 5,000 unit portfolio, that equates to **\$26,700 annually** That is **\$133,000 savings over 5 years**

**FASTER INSTALLATION**

CFG faucets are **20% faster to install/replace** than other brands

A 1,500-unit property would **save nearly 10 days of installation**, dramatically reducing labor time and costs

**A Brand that Understands the Multi-Family Demands**

Quality Products | Durable & Reliable Products  
WaterSense® Certified Products | Best-in-Class 10-year Warranty\*

**Over 160 dedicated and local sales members** with an Average Tenure of 13+ Years

**THE PROOF IS IN THE PROFITS**

## CFGonline.com

We've designed CFGonline.com to be an indispensable tool for getting you the information you need.

Visit CFGonline.com to:

- view product information
- download catalogs, spec sheets and price lists
- reference our "Where to Buy" guide
- estimate your savings with the Total Cost of Ownership Calculator

## Best-in-Class Warranty

10-Year Limited Warranty on Baystone®, Capstone® and Cornerstone®. CFG warrants to the original consumer or purchaser, for a period of up to ten years from the original date of purchase, that the faucet will be free from defects in materials and manufacturing workmanship. For complete details, call 1-888-450-5522 or contact your CFG sales representative.

## Manufactured in the U.S.A.

CFG is committed to providing faucets that comply with the Buy American Act. We offer a selection of faucets that comply with these standards. All of our Baystone faucets meet these regulations along with select SKU's in Edgestone, Capstone and Cornerstone. For details on these SKU's, please contact your Moen rep.

## Customer Service

CFG provides customer service as exceptional as its products, as well as a variety of ways to communicate with us. Online order status and product availability are at CustomerNet.Moen.com.

To enroll in CustomerNet, call 1-888-450-5829 or e-mail us at [contacts@moen.com](mailto:contacts@moen.com).

To place an order, call 1-888-450-5522 or fax 1-888-379-6270.

# Valves & Trim

## Valve

- High-quality ceramic disc technology
- Self-contained Pressure-balancing spool is upstream of the water shutoff, minimizing sticking
- Cycling cartridge is perfect for point-of-use reversibility and back-to-back installations
- Upgrade from cycling to volume control without replacing the valve. Either cartridge fits into the valve body
- Multiple built-in plumbing connection options available
- Optional IPS and CC connections in the same valve

## Pressure-Balancing

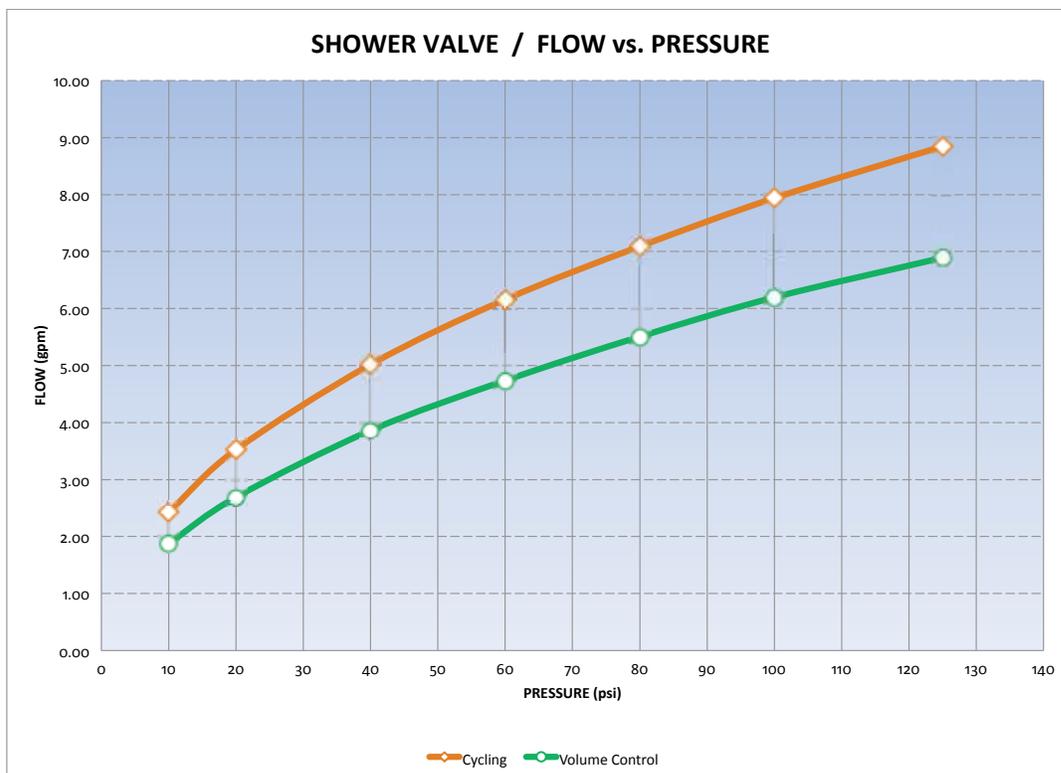

No more drastic temperature changes in the shower when the toilet flushes. CFG Pressure-balancing in-wall valves adjust automatically to changes in water line pressure to keep shower temperature constant and comfortable. Water temperature remains within  $\pm 3.6^{\circ}\text{F}$  of the set temperature, despite demand elsewhere in the system.

## CFG Valves Feature

- Cycling valves feature point-of-use reversibility—great for back-to-back multi-family applications
- Ceramic disc technology for reliability and easy maintenance
- Temperature limit stop
- Thin profile for a variety of wall applications—fits in 2x3 stud walls
- Ten-year limited warranty
- Tub/Shower trim kits, shower-only trim kits and valve-only trim kits available separately
- Prefabricated valves with PEX and CPVC available. Use to eliminate sweating!

## CFG Tub and Shower Trims

- Are ADA-compliant
- Feature stainless steel construction and interior/exterior gaskets and weep hole
- Red and blue molded in color, heat-staked temperature indicators that withstand harsh abrasives

# Shower Valves At-A-Glance

All CFG shower valves feature Pressure-balancing ceramic disc cartridges with temperature limit stops.

## There's \$26.70 hidden in every unit. And it's not in the couch cushions.

According to an independent blind study, CFG® faucets cost \$26.70 less to install, maintain and repair over the life of the faucets. Unit after unit, you'll reduce your expenses, increase your NOI and grow your property value. It's like finding money where you least expect it.

### See the impact on your NOI:

Estimate the savings for your property at [CFGonline.com](http://CFGonline.com)
