## Vent Termination Kits

### Concentric Vents

Concentric vents make it easier to have a two-pipe installation for high efficiency furnaces. These vents simplify installation and only require one hole through the wall or roof where the pipes terminate. Without using these vents, the installation would require cutting two holes thorough the home (2in or 3in depending on the furnace), one for each pipe. These vents save time and money by reducing the amount of work required. Available in 2in and 3in intake vent sizes.

Catalog No.	Description	UOM	Order Multiple	List Price
CVENT-2	2in. Concentric Vent	EA	4	\$87.76
CVENT-3	3in. Concentric Vent	EA	4	\$110.32

### Horizontal Vent Termination Kits

Horizontal vent kits for use in venting high efficiency fossil fuel appliances. The low profile kit hides the vent from view.

Catalog No.	Description	UOM	Order Multiple	List Price
HVENT-2	Horizontal Termination Kit - 2 inch	EA	6	\$66.96
HVENT-3	Horizontal Termination Kit - 3 inch	EA	6	\$66.96
