Material Number B09090L, 710-3-LF - Tee F x F x C - Cast

The tee features female NPT threads on the run and a solder cup on the branch. This fitting allows for a connection to be made in continuous pipeline and branch out to a different direction while adapting from a threaded connection to a solder connection. Please refer to NIBCO technical data sheets and catalogs for engineering and installation information. In addition to its inherent qualities of beauty, durability and low maintenance, copper's reusability makes it an ideal application in
