

BRASSMASTER

PLUS+

Water Softening & Filtration Systems

SOFTENS WATER &
REMOVES TANNINS
ALL IN ONE!

WHOLE HOUSE **Effective treatment of:**

- Tannins
- Organic Odors
- Water Hardness
- Iron*

Organic matter [tannins] dissolved in your water supply can cause yellow discoloration and objectionable odors.

The CLEAR filtration system effectively removes these organic substances, while providing feather soft, iron free* water. The result is clean, clear, odorless water delivered to your entire home.

This automatic system regenerates with pellet salt, just like a standard water softening system.

* High iron concentrations may require additional equipment

An Employee-Owned Company

BRASSMASTER PLUS+

Water Softening & Filtration Systems

↑ RESIDENTIAL

Nearly all serviceable parts lie within the removable/replaceable APM module. This eliminates costly and time consuming field repairs.

Specifications

CLEAR-500+

CLEAR-500+XL

Regeneration time [min]	90	90
Max flow rate [GPM]	10	15
Media [cu.ft.]	2.25	3.75
Backwash rate [GPM]	2.0	2.4
Mineral tank dimensions	10" x 54"	13" x 54"
Overall height	64"	64"
Inlet / outlet pipe size	3/4"	3/4"
Pipe centers	2"	2"
Drain tubing size [OD]	5/8"	5/8"
Approx. shipping weight [lbs]	90	200
Brine tank dimensions	18" x 33"	18" x 33"
Regeneration frequency	metered/7 days	metered/7 days

These systems feature two distinct media materials combined in one tank. First, an exchange media removes natural organic tannins. Next, an additional exchange media removes calcium and iron hardness minerals. Regeneration of both medias is accomplished with common water softener salt.
