Hardwire Box XLHB Series

Features

This hardwire box is for use with AFX Series LED and xenon undercabinet task lights. A convenient method to only make one hardwire splice yet have the capability to interconnect fixtures. Comes standard with on/off rocker switch 3/8" hardwire connector and push in wire connectors. Connect knockouts located on both side of box.

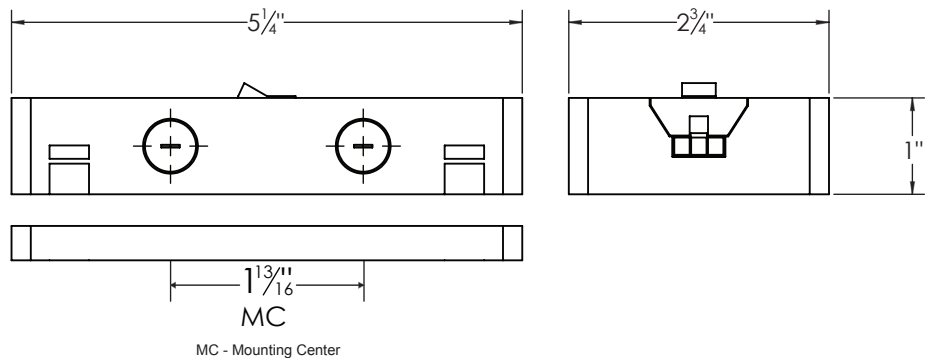

Construction

Housing and cover is molded from .125" thick high impact thermoplastic.

Electrical

The system is for BX/Romex or similar clamp for indoor dry applications and only for connecting NLLP/NLL2 and NXL Series fixtures. For NLLP/NLL2 models, do not interconnect more than 200 watts. For NXL models, do not interconnect more than 560 watts. NOTE: For normal installation, install hardware box to the right hand side of the fixture run. There are 2 "IN" connectors on the hardwire box for various applications.
