SANITARY STAINLESS FITTINGS

304 & 316L STAINLESS STEEL CLAMP REDUCERS

Clamp-style fittings are a popular option due to the ease of assembly and breakdown on process equipment and lines. Clamp fittings require a gasket to provide a good seal and are available in several different materials. FNW offers gaskets in Buna-N, EPDM, Silicone, Teflon, and Viton®.

These sanitary fittings are widely used in sanitary processing systems where cleanliness, reliability, and long-term durability are critical.
