

# 69" COUNTER-DEPTH, FRENCH DOOR REFRIGERATOR WITH INTERNAL WATER/ICE DISPENSERS

## Signature Features

### COUNTER DEPTH DESIGN

The depth of the refrigerator's cabinet is fully enclosed by kitchen cabinetry and aligned with the countertop depth, creating a better blend than standard-depth refrigerators for a more seamless look.

### LED INTERIOR LIGHTING

Soft, LED lighting illuminates the spacious interior, enhancing the appearance of food with a more natural light.

### ADJUSTABLE HUMIDITY-CONTROLLED CRISPER DRAWERS

Help maintain crispness of fruits and vegetables and allow adjustment of humidity levels, depending on the ingredients.

### TRISENSOR™ ELECTRONIC CLIMATE CONTROL

Maintains temperatures by using three sensors which automatically respond to the refrigerator, freezer, and kitchen environments.

### MICROETCH™ SPILL CONTROL SHELVES

Contain spills with microscopic barriers to help prevent leaks from spreading.

### TEMPERATURE-CONTROLLED GOURMET BAY™ DRAWER WITH SELF-OPENING LID

A specialty, full-width storage drawer with an adjustable temperature control provides optimal temperatures for meats and cheeses.

### GLIDE-OUT FREEZER DRAWER WITH SMOOTHCLOSE™ DRAWER TRACK SYSTEM

The sturdy drawer design offers convenient access to frozen food with precision ball bearings that provide effortless opening and closing - even when fully loaded, ensuring smooth operation every time.

### PRODUCE PRESERVER

Delays over-ripening by absorbing ethylene gas produced by ripening fruits and vegetables.

### MAX COOL OPTION

Max Cool keeps internal temperatures extra cold for 12 hours while loading groceries, during heavy usage or with temporarily warm room temperatures, to protect foods.
