2016 SPRING/SUMMER PARTS STOCKING PROGRAM

We are pleased to present Gemaire's Parts Stocking Program for Spring/Summer 2016! Enclosed are great familiar products, new "hot" products and competitive pricing to help you achieve your program goal. Check with your TM or Branch to determine your program goal.

What's New:

- All Tools have one price, making it easier and more competitive to buy the latest quality tools from Gemaire.

PROGRAM RULES

Customers placing an initial stock order between April 1, 2016 and September 30, 2016 are eligible to purchase merchandise at the special buy-in discount prices throughout the program. **All three price Levels will be valid thru September 30, 2016.**

LEVEL 1 PRICING

Place a \$500.00 order for delivery during the program dates and use special pricing in the Level 1 price column.

LEVEL 2 PRICING

Place a \$1000.00 order for delivery during the program dates and use special pricing in the Level 2 price column.

LEVEL 3 PRICING

Place a \$1500.00 order for delivery during the program dates and use special pricing in the Level 3 price column AND receive 90 day terms. Subsequent orders at \$1500.00 will also qualify for 90 day payment terms.**

***Program terms are contingent upon credit approval.*

HOW TO PARTICIPATE:

LIQUID LINE DRIER

	LEVEL 1	LEVEL 2	LEVEL 3
LIQUID LINE DRIER 3/8" 8 CUBIC IN. GTLLD083S 156695	\$5.11	\$5.00	\$4.85
LIQUID LINE DRIER 3/8" 16 CUBIC IN. GTLLD163S 156696	\$6.39	\$6.27	\$6.07

Contact your TM or Branch to determine your Program Goal. Place a qualifying order for the price level desired. Each item is offered in three price levels as demonstrated in the example to the left. This will allow you, our loyal customer, to know instantly what your potential savings will be. Tools and select items are "one price for all levels." Participants can "buy up" to improve price level at any time.

Some products stocked regionally.
Contact your local Sales Center for availability.

For Gemaire personnel only – When processing the qualifying order:

Option 1 - TM's and Branches: determine the price level desired by the customer and give both the customer name and Enterprise account number to the Home Office. You must communicate the Program Goal(s) to each customer, see the Program Goals sheet on Gemintra.

Option 2 – use the below qualifying levels. TM or BM to communicate Program Goal(s).

For Level 1 orders - Enter code "LEVEL1 or 333086" as a line item on initial qualifying order and enter Level 1 price on the order.

For Level 2 orders - Enter code "LEVEL2 or 333087" as a line item on initial qualifying order and enter Level 2 price on the order.

For Level 3 orders - Enter code "LEVEL3 or 333088" as a line item on initial qualifying order and enter Level 3 price on the order.

Equipment Remote Module

YOUR NEXT REDLINK™ TOOL

Honeywell

...say goodbye to wires forever.

Equipment Remote Module

Your Go-To Choice — Once you've installed equipment and set up a system using the Honeywell ERM, you'll say goodbye to wires forever. With the Equipment Remote Module outside and the Equipment Interface Module inside, installations of complete systems have never been simpler. In boiler applications, up to two ERMs can be enrolled in a system, and the powerful wireless range ensures reliable operation in nearly any application.

Honeywell even makes ordering easy by letting you select the ERM by itself or packaged with other key devices.

Start Today

Reach for the cordless tool that saves time and risk — the Honeywell ERM. You'll see how fast equipment installation can be.

Learn More

To learn more about the Equipment Remote Module, see your distributor or visit forwardthinking.honeywell.com.

Automation and Control Solutions

Honeywell
1985 Douglas Drive North
Golden Valley, MN 55422
www.honeywell.com

Save installation time by connecting a condensing unit or boiler to control devices — without wires. Honeywell's Equipment Remote Module (ERM) eliminates wiring needs, so there are fewer holes to drill and wires to run. Just faster, easier installation that gives you more profit per job. See how freedom from wires can help your business grow. Make the Honeywell ERM your go-to choice for fast, easy equipment installation.

The Honeywell ERM is like a new cordless tool in your toolbox. Pull it out whenever it's too costly or time-consuming to run wires from a condensing unit or boiler to control devices — which will likely be every installation from now on.

Simply put, the ERM lets you keep the wall and lose the wires.

- Cut installation time
- Reduce risk by avoiding unforeseen wiring issues
- Increase your profits by selling higher efficiency offerings
- Eliminating the need to run long lengths of wire reduces the potential of damage to the home

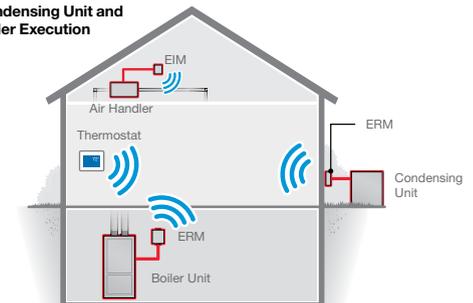

Easy Installation. Reliable Service.

As Honeywell RedLINK™ products have proven for years, not wiring is much faster than wiring. The ERM uses reliable RedLINK technology to let control devices, such as a thermostat, communicate wirelessly with outdoor two-stage air conditioners, heat pumps or an indoor boiler. And because it's built by Honeywell and uses trusted RedLINK technology, you can count on reliable service day in and day out for years to come.

- Simple user interface and setup
- Temperature sensor terminals for outdoor temperature sensing and indoor freeze protection
- LEDs for fast, easy equipment checks

SINGLE/DUAL CAPACITORS Made in the USA

Today's AC motor run capacitors must meet rigid requirements to qualify for the two most important HVAC/R Industry specifications, EIA 456A and Tecumseh H-115. All TradePro USA motor run capacitors meet these demanding specifications. That means contractors can install TradePro USA run capacitors with the utmost confidence.

TURBO200

CAPACITOR

The world's first multiple tapped, fluid-filled, metal can, motor-run capacitor, which eliminates the need to inventory more than 200 individual single or dual value capacitors with a voltage rating up to 440 VAC. The Turbo®200 capacitor has a combined total of 67.5 microfarads (mfd), with taps at 2.5mfd, 5.0mfd, another 5.0mfd, 10.0mfd, 20.0mfd and 25.0mfd.

		LEVEL 1	LEVEL 2	LEVEL 3	
	TURBO200	132678	\$64.23	\$62.94	\$61.01

ADB-1

ADJUSTABLE TIME DELAY

- Adjusts from 6 seconds to 8 minutes
- Spin proof knob
- Works with 24, 120 or 240 VAC control circuits
- Supports up to 1.5 AMPS
- 2 wire hookup
- Mounts with one self-tapping screw
- Solid state with quick disconnect terminals
- Conformal coated circuitry protects against moisture and shock
- U/L Recognized for USA & Canada

		LEVEL 1	LEVEL 2	LEVEL 3	
	ADB-1	054573	\$6.18	\$6.06	\$5.87

GEMAIRE

Supco®

Spring/Summer 2016

LBK10 Linebacker® Surge Protector

- TPMOV technology
- NO/NC relay to disconnect equipment and/or activate indicator
- Easy installation at condensing unit
- Green LED indicates surge protection status
- Weatherproof housing
- 3 year product warranty
- 3 year connected equipment guarantee

WS100 WiScope Inspection Camera

- High speed Wi-Fi network
- High definition camera (720p)
- 8.5 mm diameter scope probe
- Waterproof camera and probe
- Integrated LED light (1W)
- Integrated phone holder
- Android and iPhone apps easily downloaded
- Hook, magnet and mirror attachments included
- 3 ft. camera probe included (p/n WSC3)
- Carrying case included

Ask your Gemaire representative for more information on these fine products.

www.supco.com

LBK500 Linebacker® Motorizer

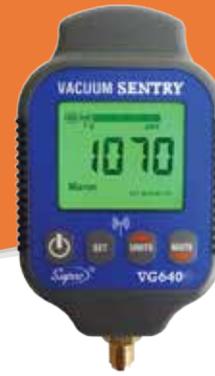

- Extends life of fan motor and compressor
- Prevents thermal damage
- Monitors fan and compressor capacitors
- Operates on 110 VAC and 208-240 VAC
- Application: 1 to 5 tons
- Easy connections
- Connection wires included
- One year warranty

VG64 Vacuum Gauge

- Never replace sensor technology
- Unmatched resolution (as low as 0.5 micron)
- 1/2 second response time (update rate)
- Backlit LCD
- Auto shut off
- Built-in hanger
- Removable magnetic hanging strap
- Analog bar graph
- Battery life indicator
- Two year warranty

GT5E

5-CFM PREMIUM VACUUM PUMP

Built for the Air Conditioning Serviceman who wants a high quality, dependable vacuum pump, the GT5E offers many higher end features without the higher end price.

With a large oil capacity, the GT5E operates at a lower temperature and requires less frequent oil changes during larger evacuations. Constructed of all heavy-duty metal and a scratch resistant powder painted cover and trap for durability throughout the years.

American made, 100% tested to GEMTECH stringent quality standards, backed by an unparalleled **24 months over-the-counter warranty, the GT5E is the best value vacuum pump in the industry.

Low Profile Rocker Switch to avoid inadvertently shutting off power

Brass fittings make for superior quality

Completely field repairable, rendering less down time so you can get the job done

*Tested to 25 Microns ensuring a deep vacuum

24 month warranty

2 Stage Direct Drive achieves a deeper vacuum

Internal check valve to prevent backflow during power failure

MAXIMIZE YOUR SOLUTIONS

There is **NO** comparison when it comes to easy drop-in OEM replacement motors.

U.S. MOTORS® RESCUE® Select™ Motors are programmed right at the counter. They are designed as a drop-in replacement for “constant torque” blower motors in various competitors’ OEM equipment.

- No complex wiring
- Quick installation time
- 6000V surge protection – more than double the protection of many OEM motors
- Fully potted electric module for superior moisture protection
- Two-year limited warranty from installation date

GEMAIRE

Contact your Gemaire distributor today to find out more about RESCUE Select.

Adding insulation to your attic is a blast with the AttiCat® Insulation Blowing Machine! It conditions the AttiCat® Expanding Blown-In PINK Fiberglas™ Insulation by breaking it up and fluffing it, adding millions of the tiny air pockets that give the material its insulating power. The insulation is conditioned further throughout the length of the hose, and as it bounces its way up to your attic, more and more air pockets are added, increasing its insulating power even more. And since Fiberglas™ insulation will not settle, it will keep its energy-saving R-value over time

If you're not a Nest Pro, you should be!

And, it's easy to become one.

Register as a Nest Pro

If you are not a Nest Pro, visit pro.nest.com to get registered. The process is quick, and only Nest Pros can:

- Offer the 5-Year Extended Pro Warranty
- Get contact information displayed on the thermostat
- Purchase Personal Use Units, deeply discounted units of each product
- Get free customer leads through the Nest Pro Finder
- Access exclusive training resources and marketing tools
- Get dedicated 24/7 Technical Support 855-VIP-NEST

If you are a Nest Pro

You should know your Nest Pro ID, a 6 digit code unique to you. To find your Pro ID, log in to the Nest Pro Portal and it will be displayed in the rightmost corner of the screen. Pro ID is needed to:

- **Activate 5-Year Warranty:** Input your Pro ID into 3rd gen Learning Thermostats upon installation to activate a 5-Year Pro Warranty. That is a three year extension to the standard two-year warranty.
- **Display your contact information:** When you input your Pro ID upon thermostat installation, your organization's contact information will be displayed on the screen when servicing is needed. This ensures you are the pro they will call when they need help.

CONDENSATE SYSTEM PRODUCTS

CONDENSATE PUMP

• Suitable for use with condensate from high efficiency condensing furnaces and boilers which produce acidic condensate. • Features include vibration dampening feet and motor mounts, metal hang tabs, four inlet holes, a clear indicator display, a float switch and check valve. 115 VOLT OR 230 VOLT - 20" Lift

			LEVEL 1	LEVEL 2	LEVEL 3
TP-CP-20T-230	262280	230V	\$41.39	\$40.56	\$39.32
TP-CP-20T	262278	115V	\$41.39	\$40.56	\$39.32

Clear-View CONDENSATE PUMP

The new ClearVue™ condensate pump from DiversiTech is unlike any other pump available. ClearVue™ features iQ Technology™ which makes ClearVue™ the smartest condensate pump on the market. iQ Technology™ provides ClearVue™ the ability to “think” and adapt to changing conditions. IQP-120T includes 20' tubing.

			LEVEL 1	LEVEL 2	LEVEL 3
IQP-120	262275		\$53.83	\$52.75	\$51.14
IQP-120T	268189	w/tubing	\$57.41	\$56.26	\$54.54

WET SWITCH® FLOOD DETECTOR

A solid state control designed to help prevent flooding, damage to carpets, walls, furniture, ceilings, etc. Now has a built-in test and reset button for easier installation. Turns system off when detecting moisture due to condensate or drain leaks. One or two drops will cause Wet Switch to turn off a unit, alerting a service-man to a moisture problem.

			LEVEL 1	LEVEL 2	LEVEL 3
WS-1	055233		\$34.90	\$34.20	\$33.16

DRAIN ALERT DAU-2RS - ROTATING FLOAT SWITCH

The Original Drain Alert® • Sensor comes with a 1/4" opening water level washer which may be replaced by 3/4" opening water level washer (included). • Quick Install with Female Rotating Head for Easy Piping at Drain Outlet • Includes Male Threaded Nipple • Versatile for Primary and Auxiliary Drain Pan Outlets • Convenient Clear Watersight Glass • Compact to Fit Better in Vertical Applications • Specifications: 24 Volts A/C, 1 A • UL Listed

			LEVEL 1	LEVEL 2	LEVEL 3
DAU-2RS	111365		\$12.78	\$12.53	\$12.14

AG-1100+ MAGNETIC FLOAT SWITCH

- The industry leading float switch for metal drain pans
- 5 amp high-capacity sensor designed for metal pans
- Easy, no-drill installation.

			LEVEL 1	LEVEL 2	LEVEL 3
96100	139111		\$9.70	\$9.51	\$9.21

SHUT-OFF/CLEAN-OUT “JONES” VALVE

The Jones Valve is a simple condensate drain line blow-out valve that is inexpensive and easy to use. Simply attach your nitrogen or compressed air tank hose to the 1/4" flare fitting on the Jones Valve, turn the handle 90°, and open the gas slowly to the line. Turn the handle 180° and clear the other side of the line.

			LEVEL 1	LEVEL 2	LEVEL 3
JV1	324712		\$7.50	\$7.35	\$7.13

RECTORSEAL PRIMARY PAN CONDENSATE SENSOR

The AquaGuard AG-3125E's primary pan sensor is mounted directly in the auxiliary drain of the primary drain pan.

If any condensate overflow is detected, the sensor will automatically shut off the system.

The AquaGuard AG-3125E is a high-amperage, solid state sensor with time delay, which contains no moving parts that could become clogged like competitors' condensate float switches. The primary pan auxiliary drain probe sensor's low profile design make any installation quick and easy for total condensate management.

			LEVEL 1	LEVEL 2	LEVEL 3	
96120	AG3125E-1	347182	1-PACK	\$14.45	\$14.16	\$13.73

Nu-Calgon PRO CLENAIR GEL TUB

ClenAir odor neutralizing gel is a truly amazing product. Place the ClenAir gel tubs in the return of the HVAC system or in any room with an odor problem and the odor is quickly neutralized and eliminated. ClenAir is not a strong perfume that masks odors - it actually attacks the odor causing compounds and eliminates the odors leaving only the unique, mild, ClenAir freshness behind.

EASY SEAL LEAK REPAIR

A/C EasySeal is designed to prevent as well as repair leaks anywhere in the system, including condensers, evaporators, copper lines, and soldered joints. It is easily injected into the system, traveling with the refrigerant, searching for leaks. The fact that A/C EasySeal travels with the refrigerant is very important to its ability to find leaks faster, using less sealant than those sealants designed to mix and travel with the systems oil.

		LEVEL 1	LEVEL 2	LEVEL 3
4050-06	253340	\$54.06	\$52.98	\$51.36

NU-CALGON EASYSEAL DIRECT INJECT

EasySeal Direct Inject is a new generation of sealants. Its patent pending injection method makes it easier to install than other sealants. With this new injection system, pumping down the unit is a thing of the past.

- Super Concentrate • Compatible with all refrigerants and oils
- Fast and Easy to Install
- Permanent Seal

TRADEPRO A/C STOP LEAK WITH COOL SHOT

TradePro A/C Stop Leak with Cool Shot provides all the benefits of TradePro A/C Stop plus extends compressor life and reduces noise, improves A/C system lubrication and reduces friction. It cleans and revitalizes the A/C system while reducing energy consumption. TradePro A/C Stop Leak with Cool Shot enhances the performance of older A/C systems. Contact TradePro at gemaire.com for more information.

		LEVEL 1	LEVEL 2	LEVEL 3

TP00286	312979 w/Delivery system	\$64.62	\$63.32	\$61.38

TRADEPRO A/C STOP LEAK

TradePro A/C Stop Leak will stop leaks of refrigerant gas in HVACR air conditioning and refrigeration systems in homes and commercial buildings. TradePro A/C Stop Leak is inert until it mixes with the refrigerant. TradePro A/C Stop Leak is activated by refrigerant escaping at the site of a leak — forming a chemical weld and sealing the leak. TradePro A/C Stop Leak is compatible with all standard refrigerant gases.

THE CLEAR CHOICE SINCE 1936

GLASFLOSS MERV 10 WINS!

- Full-line of MERV 10 pleated filters
- No increase in pressure drop
- Instant upgrade from MERV 7/MERV 8 pleated filters
- Proudly made in the USA

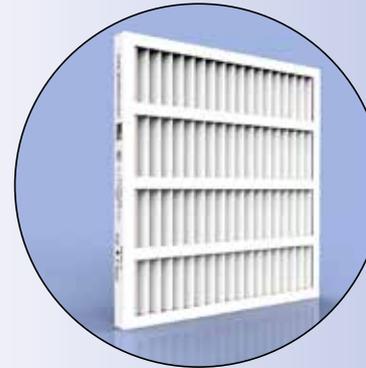

WWW.GLASFLOSS.COM

P.O. BOX 150469 • DALLAS, TX 75315 • PH: 214-741-7056
FAX: 800-435-8377 • WWW.GLASFLOSS.COM

THE CLEAR CHOICE SINCE 1936

Z-LINE[®] SERIES ZXP Pleated Filters

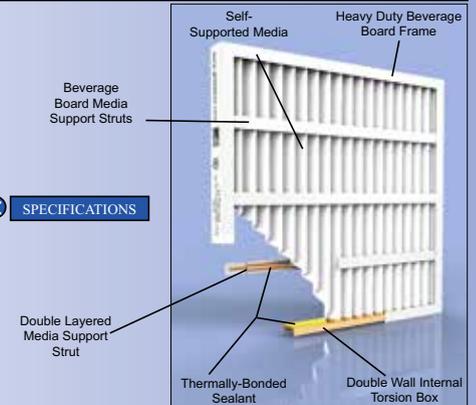

- MERV 10
- 100% Synthetic Media
- Heavy-Duty Moisture Resistant Construction
- Exclusive Patented Design
- Environmentally Friendly - Uses Less Paper and No Metal

FEATURES

The Glasfloss Z-Line Series ZXP self-supported pleated filters offer MERV 10 efficiency with superior durability and low pressure drop. The Z-Line Series features a uniform 100% synthetic, self-supporting media design that achieves a MERV 10 per the ANSI/ASHRAE 52.2 Test Standard. The pleated filters are 100% incinerable since there are no metal parts used within the construction. The Z-Line ZXP incorporate a patented double wall internal torsion box technology. The pleated filters can withstand greater abuse in shipping and handling due to the absence of metal component parts as well as the durable self-supporting filtration design. The Z-Line Series self-supporting pleated filters offer excellent performance and value for a large array of applications. The Z-Line ZXP filters are environmentally friendly and have less impact on landfills.

Glasfloss Z-Line Series ZXP air filters shall be of the extended surface pleated media type. The self-supporting media utilized shall be made of 100% synthetic fibers. Heavy-duty beverage board struts shall be thermally bonded to the air entering and air leaving sides of the tapered radial pleat configuration. The air leaving struts shall be double layered and reinforced with a thermal bonded sealant. A one piece beverage board frame shall be thermally bonded around the media pack and attached to the media support struts. All corners shall be thermally bonded and sealed. The exclusive internal channel design creates double wall thickness that prevents air bypass and maximizes filter integrity during the service life of the filter. Glasfloss Z-Line Series ZXP shall be 10 pleats per lineal foot. ZXP filters shall be rated to withstand temperatures up to 150 degrees Fahrenheit. Glasfloss Z-Line Series ZXP achieve MERV 10 when tested in accordance with ANSI/ASHRAE 52.2 Test Standard and shall be classified under U.L. std. 900.

SPECIFICATIONS

"Serving You With Locations Throughout The Nation"

COIL AND PAN CLEANERS

NU-BRITE CONDENSER COIL CLEANER

A non-acid, alkaline-based product for cleaning and brightening air cooled condensers. It is formulated with the best available foaming detergents and chelants to quickly penetrate and dissolve greasy dirt and grime and foam it right out of the coil.

4291-08 044160 | LEVEL 1 \$21.13 | LEVEL 2 \$20.70 | LEVEL 3 \$20.07

ALKA-BRITE COIL CLEANER

A non-acid, alkaline-based product for brightening and cleaning air-cooled condensers, permanent filters and other finned heating and cooling coils. It is not recommended for indoor use and it should not be used on evaporator coils.

4120-08 230902 | LEVEL 1 \$13.10 | LEVEL 2 \$12.84 | LEVEL 3 \$12.44

JACK OF ALL SPRAYS PENETRATING LUBRICANT

PRO-TREAT® CONDENSATE PAN TREATMENT

- 200 tablets • Non-corrosive

PROTREAT-200 279231 | LEVEL 1 \$13.57 | LEVEL 2 \$13.30 | LEVEL 3 \$12.89

A/C RE-NEW SYSTEM LUBRICANT

A/C Re-New has been used successfully for many years to improve the performance of air conditioning and refrigeration systems. A/C Re-New provides significant saving in energy use. It also quiets noisy systems and extends the life of the system. It is a lubricant that blends with the system's oil, lasting for the life of the equipment.

The pressurized package, 4057-50, is formulated for use in R-22, R-410A as well as other refrigerants in systems up to 5 tons.

4057-55 280187 | LEVEL 1 \$60.71 | LEVEL 2 \$59.49 | LEVEL 3 \$57.67

PRO-BLUE™ SUPERFOAM COIL CLEANER

- Leaves the coil clean and bright equal to or better than traditional acid formulations.
 - Rapidly penetrates and loosens soil.
- Expanding foam extends contact time and lifts soil located deep within the coil. Foam and dirt are easily rinsed with water. • Does not contain hazardous hydrofluoric acid. The product is non fuming and is non corrosive to ferrous metals.

PRO-BLUE 279219 | LEVEL 1 \$13.06 | LEVEL 2 \$12.79 | LEVEL 3 \$12.40

GEM-KLEEN SELF RINSE EVAPORATOR COIL CLEANER

- Professional strength • Self-rinsing
- Non-corrosive
- Deodorizes • Biodegradeable

GEM-BRITE PLUS FOAMING COIL CLEANER

Professional strength coil cleaner
Foams away stubborn deposits

GEM-KLEEN TP-8-G 093320 | LEVEL 1 \$9.42 | LEVEL 2 \$9.23 | LEVEL 3 \$8.94
GEM-BRITE TP-8-R+ 257085 | LEVEL 1 \$11.67 | LEVEL 2 \$11.43 | LEVEL 3 \$11.08

TRIPLE "D"™ COIL CLEANER

Degreaser • Detergent • Deodorant
Clean the evaporator coil and condensate pan with TRIPLE "D"™, a USDA authorized non-foaming alkaline coil cleaner. Recommended for safe cleaning of aluminum coils and micro channel coils.

TRIPLE-D 279218 | LEVEL 1 \$16.39 | LEVEL 2 \$16.06 | LEVEL 3 \$15.57
