

### INSTRUCTIONS FOR KITCHEN FAUCETS:

1. Turn off water supply.
2. Snap out button, remove screw.
3. Remove handle together with yoke by lifting up and back.
4. Unscrew retainer ring.
5. Replace screw into cartridge assembly.
6. Remove cartridge assembly by gripping the head of the screw with pliers and pulling up.
7. Insert new cartridge assembly into faucet body.
8. Screw in the retainer ring hand tight.
9. Insert handle pivot into pivot groove of retainer ring. Pivot handle down so that stem goes into the yoke. Replace screw and snap in button.
