

UNDERGROUND CUTTING

CHAIN SAWS ACCESSORIES

*Straight Cuts
*Easier to Use

PIPE CLAMP WITH MOUNTING AXLE

Reduce operator fatigue and makes safer bottom-up cuts a reality

Pipe Clamp with Mounting Axle - PN: US60410

Pipe Clamp Extension Chain - PN: US60410-3

3.5 GALLON MANUAL PUMP WATER SUPPLY

PART NUMBER:US27810-1

5 GALLON BATTERY POWERED PUMP

PART NUMBER: US27815

25 GALLON, 35 PSI, 12V GATOR CLIP HOOKUP

PART NUMBER: IC573285

HAND-HELD SAWS

HAND-HELD AIR POWERED SAW

AIR

PART NUMBER: US-HS125

Hand-Held Air Saw with with Gearbox, Whip Hose, Built-In Oiler, and 14" Guard. The air saws cut from 3" to 7", depending on the model chosen. Because a pneumatic power source is used, dangerous exhaust pollutants are eliminated.

Model	HS-125
Air Requirements	90 cfm @ 90 psi
RPM	3,300
Max Cutting Depth	5"
Dia. Blades Used	14"
Weight	25 lbs

HAND-HELD AIR POWERED SAW

AIR

PART NUMBER: US-HS150

Hand-Held Air Saw with with Gearbox, Whip Hose, Built-In Oiler, and 18" Guard. The air saws cut from 3" to 7", depending on the model chosen. Environmentally friendly and safe alternatives to traditional gas-powered saws for cutting concrete and asphalt.

Model	HS-150
Air Requirements	90 cfm @ 90 psi
RPM	3,300
Max Cutting Depth	7"
Dia. Blades Used	18"
Weight	25 lbs

HANDHELD SAWS

From plastic to ductile iron pipe, U.S.SAWS wide selection of hand-held saws will get the job done. The hand-held saws are durable, direct drive tools. Because there are no extra moving parts, the hand-held saws offer the most power and durability for heavy construction cutting applications.
