 TEL: 334-277-8520 FAX: 334-272-7396 www.jrsmith.com

LOCATION

SCUPPER DRAINS

FUNCTION: Used at junction of roof and parapet. Side outlet (90°) drains may be connected to outside downspout by using drain in conjunction with Fig. 1550 downspout adaptor. When connecting to an inside leader, the 45° outlet drains may be easily offset into the wall. The flush grate prevents obstruction to traffic. The angle grate prevents debris from blocking drainage.
