Introducing

The World's Most Efficient Mini-Split

33 SEER

Fujitsu's ductless wall mounted 33-SEER 9RLS3H is the solution to the problem that is energy inefficiency. This system is 2.35 time more efficient than the government minimum standard and qualifies for the ENERGY STAR® Most Efficient category in 2015. System 9RLS3H provides heating in outdoor temperatures as low as -15°F with an HSPF of 14, all adding up to year-round comfort and savings. To solve your heating and cooling needs visit www.fujitsugeneral.com.
