BISMAT® Flash Clamp

NOISE REDUCING

Tested in accordance with ISO 3822-1
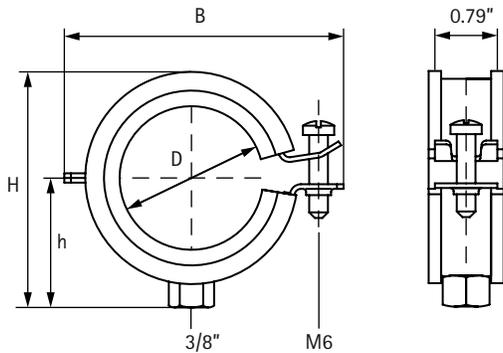

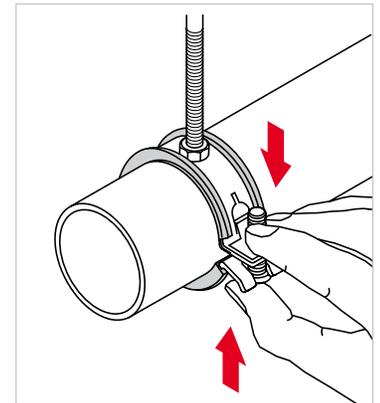

Tested for fire safety

Product Specifications:

- For use with all metal pipes
- Easier, faster, safer - installs with one hand
- Noise reducing - tested in accordance with ISO 3822-1*
- Features our patented Quick-Locking System
- Due to the locking screw feature, no tools are required for installation!
- Since the locking screw is manually closed, there is minimal rubber compression: this results in better absorption of noise and vibration.
- Age resistant lining
- Materials: • Clamp: Steel 1.0242
  • Noise insulation lining: EPDM black rubber
- Noise insulating, according to DIN 4109
- Plenum rated - tested to ASTM E-84
- Tested for fire safety

Item Number	D (mm)	D / CTS (inches)	D / IPS (inches)	B (inches)	H (inches)	h (inches)	Fa,z (lbs)	Items per pkg.

CR3379063	57–63	–	2	3.6	3.2	1.80	180	50

The maximum allowed load (Fa,z) is calculated using specific statistical methods related to the breaking load, taking into account a deflection of 0.060" (1.5mm) or 2% of the maximum nominal clamp diameter. The test results are certified and monitored by an independent test institute.
