

SparCreme®

liquid creme cleanser

SparCreme is a liquid creme cleanser with mild abrasives. Formulated specifically to accomplish medium to heavy duty cleaning tasks, SparCreme deep cleans away even the most difficult soils found in restrooms and on other hard, non porous surfaces without dulling or scratching. Attractive turquoise in color, SparCreme is lightly scented with a pleasant citrus fragrance.

EXCELLENT CLEANING PERFORMANCE:

SparCreme's formulation includes finely ground abrasives which quickly, yet softly, scour through layers of soap scum, tough stains, grease, rubber marks and other soil build up. The cleaning action of SparCreme loosens soil from the surface, allowing the anionic wetting agent system to emulsify and suspend the soil load for easy rinsing.

LEAVES SURFACES BRIGHT AND SHINY:

An excellent cleaner and maintainer for brushed stainless steel and other non-porous surfaces, SparCreme helps maintain the attractiveness of smooth, satiny finishes. SparCreme visually brightens high gloss surfaces such as appliance enamel, porcelain, ceramic tile, chrome and fiberglass.

LASTING DEODORIZATION:

The fresh, citrus base fragrance incorporated into SparCreme provides lasting deodorization of cleaned surfaces and surrounding areas. SparCreme's superior cleaning and air freshening characteristics make it a "natural" for use in restrooms where extra cleanliness and lasting deodorization are most appreciated.

FREE AND EASY:

SparCreme leaves no chalky, hazy, or gritty residue. Leaves surfaces free of product residual. Easy-to-use SparCreme is ready to use. It requires no mixing. The viscous nature of SparCreme allows application on horizontal and vertical surfaces.

DIRECTIONS FOR USE:

Shake well before using. Apply directly to soiled surface or squeeze onto wet sponge or cloth. Rub gently. Rinse thoroughly while agitating with sponge.

Cleans ceramic tile, chrome, formica, metal, porcelain, fiberglass, appliance enamel, stainless steel.

IMPORTANT: On smooth, high gloss surfaces such as fiberglass, plastic and appliance enamel... use sparingly and rub gently with a damp sponge to prevent scratching. Do not use on marble.

See product label for complete directions for use and more applications.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATIONS:

pH – 2.0-2.5
