Product Overview & Guides

KleenGuard™ Personal Protective Equipment (PPE) enables rather than inhibits – allowing for maximum productivity and safety for you and your employees. Offering your team comfortable protective clothing is a must, and KleenGuard™ A40 Liquid and Particle Protection Coveralls are a great addition. Each protective suit comes with a zipper front. Made of breathable, microporous film to keep out debris, non-hazardous liquid chemicals and dry particulates, the KleenGuard™ A40 material gives your employees a better liquid barrier and a better particulate barrier than Dupont Tyvek. These coveralls pass NFPA 99 for antistatic materials , pass ASTM F1670 testing for penetration of blood and bodily fluids , and meet the ANSI/ISEA 101-1996 sizing standards . Popular industries using this product include aviation, pharmaceutical manufacturing, liquid handling, general manufacturing and so much more. Making the right Personal Protection choice is difficult. Perform with distinction with KleenGuard™ Personal Protective Equipment (PPE).

About KleenGuard™

We understand how workers move, work, stretch and sweat. We call it human-centric engineering. And it's this industry-changing technology that separates KleenGuard® brand protective clothing, eye protection and hand protection from other PPE.
