Product Overview & Guides

KleenGuard™ Personal Protective Equipment (PPE) enables rather than inhibits – allowing for maximum productivity and safety for you and your employees. Offering your team comfortable protective clothing is a must, and KleenGuard™ A40 Liquid and Particle Protection Disposable Shoe Covers are a great addition. Each single use booty measures is 7" high and is fully elasticized (for a formed fit). Made of breathable, microporous film to keep out debris, non-hazardous liquid chemicals and dry particulates, the KleenGuard™ A40 material gives your employees a better liquid barrier and a better particulate barrier than Dupont Tyvek shoe covers. These disposable shoe covers pass NFPA 99 for antistatic materials, pass ASTM F1670 testing for penetration of blood and bodily fluids, and meet the ANSI/ISEA 101-1996 sizing standards. They are popular for helping keep the office clean (in manufacturing and welders), keeping clients houses clean (in the case of pest control associates and cleaners) and in a paint environment. Making the right Personal Protection choice is difficult. Perform with distinction with KleenGuard™ Personal Protective Equipment (PPE).

KleenGuard™ A40 Disposable Shoe Covers are made of microporous film laminate, feature serged seams and are fully elasticized for formed fit

Each white, ambidextrous single use booty has a tall 7" height

These A40 disposable shoe covers offer better liquid and particulate barrier than the Dupont TYVEK shoe covers

The one size fits all A40 shoe cover is made to keep out debris, dry particulates and some liquids

A40 KleenGuard™ disposable shoe covers passes NFPA 99 criteria for antistatic materials
